*Rent and Its Discontents* Neil Gray.2018 The 1915 Rent Strikes in Glasgow, along with similar campaigns across the UK, catalysed rent restrictions and eventually public housing as a right, with a legacy of progressive improvement in UK housing through the central decades of the 20th century. With the decimation of social housing and the resurgence of a profoundly exploitative private housing market, the contemporary political economy of housing now shares many distressing features with the situation one hundred years ago. Starting with a re-appraisal of the Rent Strikes, this book asks what housing campaigners can learn today from a proven organisational victory for the working class. A series of investigative accounts from scholar-activists and housing campaign groups across the UK charts the diverse aims, tactics and strategies of current urban resistance, seeking to make a vital contribution to the contemporary housing question in a time of crisis.

*Merging Languages and Engineering* John Grandin.2022-06-01 At the University of Rhode Island over 25% of engineering undergraduates simultaneously complete a second degree in German, French, Spanish, or Chinese. They furthermore spend an entire year abroad, one semester as exchange students at a partner university and six months as professional engineering interns at a cooperating company. With a close-to 100% placement rate, over 400 graduates, and numerous national awards, the URI International Engineering Program (IEP) is a proven path of preparation for young engineers in today's global workplace. The author of this volume, John Grandin, is an emeritus professor of German who developed and led the IEP for twenty-three years. In these pages, he provides a two-pronged approach to explain the origin and history of this program rooted in such an unusual merger of two traditionally distinct higher education disciplines. He looks first at himself to explain how and why he became an international educator and what led him to his lasting passion for the IEP. He then provides an historical overview of the program's origin and growth, including looks at the bumps and bruises and ups and downs along the way. Grandin hopes that this story will be of use and value to other educators determined to reform higher education and align it with the needs of the 21st Century.
