The Sixth Station Linda Stasi. 2013-12-01 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

**Tacky** Rax King. 2021-11-02 An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the Catapult column *Store-Bought Is Fine*—Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to good taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, *Sex and the City*, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father; in *You Wanna Be On Top*, Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. **Honey for the Bears** Anthony Burgess. 2013-08-05 There are so few genuinely entertaining novels around that we ought to cheer whenever one turns up. Continuous, fizzing energy... *Honey for the Bears* is a triumph. —Kingsley Amis, *New York Times* A sharply written satire, *Honey for the Bears* sends an unassuming antiques dealer, Paul Hussey, to Russia to do one final deal on the black market as a favor for a dead friend's wife. Even on the ship's voyage across, the Russian sensibility begins to pervade: lots of secrets and lots of vodka. When his American wife is stricken by a painful rash and he is interrogated at his hotel by Soviet agents who know that he is trying to sell stylish synthetic dresses to the masses starved for fashion, his precarious inner balance is thrown off for good. More drink follows, discoveries of his wife's illicit affair with another woman, and his own submerged sexual feelings come breaking through the surface, bubbling up in Russian champagne and caviar.

**The Vertical Mosaic** John Porter. 1965 Preface from *The Vertical Mosaic* THIS BOOK is an attempt to examine the hitherto unexplored subjects of social class and power in Canadian society. However, because no one volume can present a total picture of a modern society, or even of some aspect of that society, there is much that is left unsaid in this study, and many fascinating paths that remain for later investigations. I have tried to suggest some of those which time and resources did not permit me to take. The class and power structure of a modern society arouses a great deal of interest. For example, there is the ethical consideration that class differences appear to contradict those values of a democratic society which emphasize equality. Another reason for the interest is psychological: people have ambivalent feelings about power; that is, men of power are respected, idolized, and often endowed with magical qualities, but as well they are viewed with suspicion, as conspirators against the public good. In the middle of the twentieth century there is also the more practical concern that only the ablest people get into top positions, for, at a time marked by keen international competition, no society can rely on a system of privilege as the basis of recruitment to the higher occupational levels. A system of privilege exists where higher occupational levels are preserved, or tend to be preserved, for particular social groups. Where privilege does exist it may be traced to differences in educational opportunity. Consequently, most modern industrial societies have introduced policies to democratize their educational systems, and so help to bring about more equality of opportunity and at the same time to increase the amount of trained ability that is available. At the level of institutional leadership, that is, of elite groups, it is even more crucial that there be no impediments to people of ability getting to the top. Class can be one such obstacle because it seriously impedes the development of skills in persons having initial talent. Those attracted to the subject of power by the inside dope that is often found in newspapers and popular magazines will be disappointed with this study. I have included little information that is not readily available to any other researcher. The benefit that I have received from discussions with powerful men is not that I can tell secrets about them, for that has not been my intent, but rather that I have become better oriented to the structures within which these men work. My academic colleagues may be disappointed that I have not presented extensive case studies of particular decisions which elites have made. Valuable and necessary to the understanding of power as such studies might be, my interest has been to look at the institutional context within which decisions are made and to learn something of the type of men who make them. However, I do refer frequently to important decisions, and in the last chapter I try to show how elites co-operate or come into conflict in reaching them. There are many places in this analysis of class and power where I have regretted the inadequacy of the data to give fuller support to the qualified assertions which I have made. Data rarely come in just the form we should like to receive them. Where appropriate I have drawn attention to the tentativeness of the conclusions which must stand as hypotheses for further testing in future investigations. Furthermore, data can be interpreted in different ways according to the theories which investigators use and the values which they hold. Throughout the book I have tried to make explicit the various theories or theoretical considerations about class and power in society which help to make sense of the evidence I have presented. Perhaps less explicit are personal values which have had an influence on the kinds of problems I have sought to analyze. I attach great importance to equality of opportunity on both ethical and practical grounds. I am aware of the criticisms which have been made of the possible development of meritocracies, but I am not convinced that recent extensions of opportunity, particularly in education, are having a detrimental effect on individuals or societies. I believe strongly, too, in the creative role of politics, and in the importance of political institutions as the means through which the major goals of the society can be achieved. Where these values have influenced my interpretation of the facts will, I think, be clear to the reader. In a society which is made up of many cultural groups there is usually some relationship between a person's membership in these groups and his class position and, consequently, his chances of reaching positions of power. Because the Canadian people are often referred to as a mosaic composed of different ethnic groups, the title, *The Vertical Mosaic*, was originally given to the chapter which examines the relationship between ethnicity and social class. As the study proceeded, however, the hierarchical relationship between Canada's many cultural groups became a recurring theme in class and power. For example, it became clear that the Canadians of British origin have retained, within the elite structure of the society, the charter group status with which they started out, and that in some institutional settings the French have been admitted as a co-charter group whereas in others they have not. The title, *The Vertical Mosaic*, therefore seemed to be an appropriate link between the two parts of the book. -- John Porter, Carleton University, January 1965

**The Twenty-Seventh Man** Nathan Englander. 2014-08-25 The setting is a Soviet prison, 1952. Joseph Stalin's secret police have rounded up twenty-six writers, the giants of Yiddish literature in Russia. As judgment looms, a twenty-seventh suddenly appears: Pinchas Pelovits, unpublished and unknown. Baffled by his arrest, he and his cellmates wrestle with the mysteries of party loyalty and politics, culture and identity, and with what it means to write in troubled times. When they discover why the twenty-seventh man is among them, the writers come to realize that even in the face of tyranny, stories still have the power to transcend. In his last act of storytelling, Pelovits asks us: Who writes the eulogy when all the writers are gone?

Angels and Demons in Art Rosa Giorgi. 2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

**Kumba Africa** Sampson Ejike Odum. 2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

**The Forgotten Rohingya: Their Struggle for Human Rights in Burma** Habib Habib Siddiqui. 2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as settlers from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya

people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. The Forgotten Rohingya makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

**Merger Of The Century** Diane Francis. 2013-09-27 No two nations in the world are as integrated, economically and socially, as are the United States and Canada. We share geography, values and the largest unprotected border in the world. Regardless of this close friendship, our two countries are on a slow-motion collision course—with each other and with the rest of the world. While we wrestle with internal political gridlock and fiscal challenges and clash over border problems, the economies of the larger world change and flourish. Emerging economies sailed through the meltdown of 2008. The International Monetary Fund forecasts that by 2018, China's economy will be bigger than that of the United States; when combined with India, Japan and the four Asian Tigers—South Korea, Taiwan, Singapore and Hong Kong—China's economy will be bigger than that of the G8 (minus Japan). Rather than continuing on this road to mutual decline, our two nations should chart a new course. Bestselling author Diane Francis proposes a simple and obvious solution: What if the United States and Canada merged into one country? The most audacious initiative since the Louisiana Purchase would solve the biggest problems each country expects to face: the U.S.'s national security threats and declining living standards; and Canada's difficulty controlling and developing its huge land mass stemming from a lack of capital, workers, technology and military might. Merger of the Century builds both a strong political argument and a compelling business case, treating our two countries not only as sovereign entities but as merging companies. We stand on the cusp of a new world order. Together, by marshalling resources and combining efforts, Canada and America have a greater chance of succeeding. As separate nations, the future is in much greater doubt indeed.

**Apocalypse** Jacques Ellul. 2020-05-05 "There has never been a book provoking more delirium, foolishness and irrational movements, without any relationship to Jesus Christ [than the Book of Revelation]." —Jacques Ellul, Introduction Known for his trenchant critique of modernity and of those Christians who celebrate their captivity to it, Ellul here cuts to the heart of the theological intention of the Book of Revelation, and thereby reveals the liberating gospel in all its offensiveness. Neither an exhaustive commentary nor a work of historical-exegetical analysis, Apocalypse is a provocative, independent interpretation. Ellul seeks to rescue Revelation from the reassuring and orthodox banality to which commentators often reduce it. The goal is to perceive the totality of the book in its movement and structure. "Architecture in movement" is the key to understanding Revelation's puzzling but simple message. This edition also comes with a new foreword by Jacob Marques Rollison who provides an essential aid for guiding readers through Ellul's thorough engagement with Revelation.

**Twelve Years a Slave** Solomon Northup. 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York.

Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
