**The 17 Day Diet** Dr Mike Moreno.2011-05-12 Dr Mike Moreno's 17 Day Diet is a revolutionary new weight-loss programme that activates your skinny gene so that you burn fat day in and day out. The diet is structured around four 17-day cycles: Accelerate- the rapid weight loss portion that helps flush sugar and fat storage from your system; Activate-the metabolic restart portion with alternating low and high calorie days to help shed body fat; Achieve - this phase is about learning to control portions and introducing new fitness routines; Arrive - A combination of the first three cycles to keep

good habits up for good. Each cycle changes your calorie count and the food that you're eating. The variation that Dr. Mike calls 'body confusion' is designed to keep your metabolism guessing. This is not a diet that relies on a tiny list of approved foods, gruelling exercise routines, or unrealistic calorie counts that leave you hungry and unfulfilled. Each phase comes with extensive lists of what dieters can and can't eat while on the phase, but also offers acceptable cheats. He advises readers not to drink while on the diet, but concedes that if they absolutely have to then they should at least drink red wine. Dr Mike knows that a diet can only work if it's compatible with the real world, and so he's designed the programme with usability as a top priority.

**The pH Miracle** Robert O. Young, Shelley Redford Young.2008-11-16 Forget counting calories, fat grams, and cholesterol. Forget blood pressure, blood sugar, and hormone levels. The single most important health measurement is the pH level in your blood. Now, The pH Miracle unlocks the surprisingly crucial role pH balance plays in weight loss. How acidic or alkaline your blood is (pH levels) directly affects your health and is controlled by diet. For example, if the blood becomes overly acidic from eating too much of the wrong kinds of food -- wheat, bananas, meats, and cheese -- it can lead to weight gain, diabetes, heart disease, cancer, and more. The Youngs' program includes over 50 recipes and explains which foods to eat, which to avoid, and which supplements can help on the way towards optimal health and weight loss. In just weeks, readers will find they have more energy and a stronger immune system, and will have shed pounds and inches.

edge and Nobel-prize winning science that promises not just unprecedented metabolic control, but also an internal cellular rejuvenation with powerful antiaging effects. Then, after creating a diet that can transform your life from the inside out, you want to help as many people as possible look and feel their best, so you write a book about it! In *The Dubrow Diet*, Orange County's favorite reality TV couple share the diet and exercise plan they created to end their own decades-long yo-yo dieting and flip on what they call the "ageless switch." The central concept is called interval eating, a practice based on research showing that when you eat is perhaps the most important factor in weight loss and weight control. With interval eating, the Dubrows will introduce you to a simple eating schedule that can help you: ● reprogram your cells to go after stored fat for fuel. ● lower insulin and normalize blood sugar. ● fight off chronic inflammation linked to almost every major disease. ● activate a process known as autophagy, your cells' self-cleaning process and an antiaging game changer. ● increase your energy. ● finally reach your goal weight. ● rejuvenate your skin and overall appearance. So, what are you waiting for? You have more power than you realize over the hormones that regulate your weight and the molecular factors that determine how you age. It's time to take advantage of this power with a diet that is not only doable but also sustainable and even fun! The Dubrows wouldn't have it any other way.

After conducting extensive research at the Salk Institute and the National Institute on Aging, poring over copious amounts of new research in intermittent fasting, and engaging 2,000 people for a test panel, bestselling authors David Zinczenko and Peter Moore determined that people can lose remarkable amounts of weight eating the foods they like best—as long as they eat within a set 8-hour time period. Fasting is, of course, an ancient spiritual and health practice, but it's also a way to sidestep many of the ills of the modern world—including diabetes, heart disease, and cognitive impairment. Zinczenko and Moore demonstrate how simply observing this timed-eating strategy, even just three days a week, will reset your metabolism so that you can enter fat-burning mode first thing in the morning—and stay there all day long. And by focusing on eight critical, nutrient-rich Powerfoods, you can build in a second layer of protection against Alzheimer's, heart disease, and even the common cold. In the book, you will find motivating strategies, delicious recipes, and an 8-minute workout routine to maximize calorie burn.
