Always in Trouble Jason Weiss.2012-07-10 In 1964, Bernard Stollman launched the independent record label ESP-Disk' in New York City to document the free jazz movement there. A bare-bones enterprise, ESP was in the right place at the right time, producing albums by artists like Albert Ayler, Pharoah Sanders, and Sun Ra, as well as folk-rock bands like the Fugs and Pearls Before Swine. But the label quickly ran into difficulties and, due to the politically subversive nature of some productions and sloppy business practices, it folded in 1974. Always in Trouble tells the story of ESP-Disk' through a multitude of voices—first Stollman's, as he recounts the improbable life of the label, and then the voices of many of the artists involved.

Children's Literature in Translation Jan Van Coillie,Walter P. Verschueren.2014-07-16 Children's classics from Alice in Wonderland to the works of Astrid Lindgren, Roald Dahl, J.K. Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than 'serious' (adult) literature. This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges. A variety of translation theories and concepts are put to critical use, including Even-Zohar's polysystem theory, Toury's concept of norms, Venuti's views on foreignizing and domesticating translations and on the translator's (in)visibility, and Chesterman's prototypical approach. Topics include the ethics of translating for children, the importance of child(hood) images, the 'revelation' of the translator in prefaces, the role of translated children's books in the establishment of literary canons, the status of translations in the former East Germany; questions of taboo and censorship in the translation of adolescent novels, the collision of norms in different translations of a Swedish children's classic, the handling of 'cultural intertextuality' in the Spanish translations of contemporary British fantasy books, strategies for translating cultural markers such as juvenile expressions, functional shifts caused by different translation strategies dealing with character names, and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's Haroun and the Sea of Stories.

More Brilliant than the Sun Kodwo Eshun. 2020-02-04 The classic work on the music of Afrofuturism, from jazz to jungle More Brilliant than the Sun: Adventures in Sonic Fiction is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, More Brilliant than the Sun is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

Let's Go to Hell James Burns. 2015-08-21 The Butthole Surfers remain one of the most enigmatic bands in the history of rock music. Most of their records have no information of any kind, and often with the suggestion that you play them at 69 rpm.... They lived like nomads through much of the 1980s, and built their reputation upon tours that never ended, and shows that resembled hedonistic acid tests. They left a heap of former band members in their wake, and have often alienated as many fans as they've attracted. Here for the first time is the complete story of one of the most controversial and dangerous bands to have emerged from the ashes of the punk rock movement. 'Let's Go to Hell' compiles the scattered memories into the first comprehensive overview of the band. Featuring exclusive interviews, tons of rare and unpublished photographs, and analysis of the band's vast recorded (and unrecorded) efforts, 'Let's Go to Hell' finally tells the story that was thought (and often hoped) would never be told...

Translating for Children Ritta Oittinen. 2002-06 Translating for Children is not a book on translations of children's literature, but a book on translating for children. It concentrates on human action in translation and focuses on the translator, the translation process, and translating for children, in particular. Translators bring to the translation their cultural heritage, their reading experience, and in the case of children's books, their image of childhood and their own child image. In so doing, they enter into a dialogic relationship that ultimately involves readers, the author, the illustrator, the translator, and the publisher. What makes Translating for Children unique is the special attention it pays to issues like the illustrations of stories, the performance (like reading aloud) of the books in translation, and the problem of adaptation. It demonstrates how translation and its context takes precedence can take over efforts to discover and reproduce the original author's intentions. Rather than the authority of the author, the

book concentrates on the intentions of the readers of a book in translation, both the translator and the target-language readers.

Monolithic Undertow Harry Sword.2022-04-19 An inspired and intuitive navigation of the drone continuum . . . with a compass firmly set to new and enlightening psychedelic truths-- BECK In 1977 Sniffin' Glue verbalised the musical zeitgeist with their infamous 'this is a chord; this is another; now form a band' illustration. The drone requires neither chord nor band, representing - via its infinite pliability and accessibility - the ultimate folk music: a potent audio tool of personal liberation. Immersion in hypnotic and repetitive sounds allows us to step outside of ourselves, be it chant, a 120dB beasting from Sunn O))), standing front of the system as Jah Shaka drops a fresh dub or going full headphone immersion with Hawkwind. These experiences are akin to an audio portal - a sound Tardis to silence the hum and fizz of the unceasing inner voice. The drone exists outside of us, but also - paradoxically - within us all; an aural expression of a universal hum we can only hope to fleetingly channel. *Monolithic Undertow* is the definitive text to explore the music of drone and its related genres. Exhaustively researched this tome will not leave music fans interested in drone, doom, metal, and folk music unsatisfied.

continent of Africa. This revised edition makes Finnegan's ground-breaking research available to the next generation of scholars. A free online archive of recordings and photographs that Finnegan made during her fieldwork in the late 1960s is hosted by the World Oral Literature Project (<http://www.oralliterature.org/collections/rfinnegan001.html>) and can also be accessed from publisher's website.

Culture and History in the Pacific Jukka Siikala.2021-09-29 Culture and History in the Pacific is a collection of essays originally published in 1990. The texts explore from different perspectives the question of culture as a repository of historical information. They also address broader questions of anthropological writing at the time, such as the relationship between anthropologists' representations and local conceptions. This republication aims to make the book accessible to a wider audience, and in the region it discusses, Oceania. A new introductory essay has been included to contextualize the volume in relation to its historical setting, the end of the Cold War era, and to the present study of the Pacific and indigenous scholarship. The authors of Culture and History in the Pacific include prominent anthropologists of the Pacific, some of whom - Roger Keesing and Marilyn Strathern, to name but two - have also been influential in the anthropology of the late 20th and early 21st century in general.

Mammals of South America, Volume 2 James L. Patton,Ulyses F. J. Pardiñas,Guillermo D'Elía.2015-03-09 The second installment in a planned three-volume series, this book provides the first substantive review of South American rodents published in over fifty years. Increases in the reach of field research and the variety of field survey methods, the introduction of bioinformatics, and the explosion of molecular-based genetic methodologies have all contributed to the revision of many phylogenetic relationships and to a doubling of the recognized diversity of South American rodents. The largest and most diverse mammalian order on Earth—and an increasingly threatened one—Rodentia is also of great ecological importance, and Rodents is both a timely and exhaustive reference on these ubiquitous creatures. From spiny mice and guinea pigs to the oversized capybara, this book covers all native rodents of South America, the continental islands of Trinidad and Tobago, and the Caribbean Netherlands off the Venezuelan coast. It includes identification keys and descriptions of all genera and species; comments on distribution; maps of localities; discussions of

subspecies; and summaries of natural, taxonomic, and nomenclatural history. Rodents also contains a detailed list of cited literature and a separate gazetteer based on confirmed identifications from museum vouchers and the published literature.

Feel the Music Paul Major.2017-05-30 Paul Major has lived resolutely at the edge of outsider music culture for nearly a half-century. As an early private press and 'real people' record collector turned eminent, underground rock 'n' roller, his influence is felt if not heard all around us until now. *Feel the Music* traces Paul's trajectory from his formative days in the Midwest, his years in the late '70s New York punk scene, and into his curious career as a connoisseur and campaigner of the weirdest records of all time. Brought to life with unseen photographs, rare record covers, and cut 'n' paste ephemera from Paul's long running mail order catalog, while animated by Paul's storytelling, *Feel the Music* is a fanatical mystery tour through the further, outer reaches of music history. Alongside Paul's writing, *Feel the Music* features essays by Johan Kugelberg, Jack Streitman, Michael P. Daley, Rich Haupt, Stefan Kery, Patrick Lundborg, Geoffrey Weiss, Jesper Eklow, and Glenn Terry. Each book also comes with a special Sorcerers and Endless Boogie split 7" vinyl record.

Voyages and Beaches Alex Calder,Jonathan Lamb,Bridget Orr.1999-04-01 What actually happened as Europeans and peoples of the Pacific discovered each other? How have their respective senses of the past influenced their understanding of the present? And what are the consequences of their meeting? In this collection of essays, scholars from European, Polynesian, and Settler backgrounds provide answers to these questions. Writing from, and between, a variety of disciplines (history, anthropology, Maori Studies, literary criticism, law, cultural studies, art history, Pacific Studies), they show how the Pacific reveals a more various and contradictory history than that supposed by such homogenizing metropolitan myths as the introduction of civilization to savage peoples, the general ruin of indigenous cultures by an imperial juggernaut, or the mimicry of European models by an abject population. They examine contact from both sides of beaches throughout Polynesia, exposing the many inconsistencies from which Pacific history is made. Some of the essays consider the extent to which traditional European ideas about organizing and legitimizing claims to territory and power were invoked and problematized in the South Pacific; some consider the violence endemic in such scenes; others examine the aesthetic discourses with which early travelers and settlers attempted to make sense of the Pacific in the aftermath of discovery. But rather than reiterate the myths and anti-myths of conquest, these essays show how local differences have made and do make a difference. They emphasize the Pacific's capacity to absorb and transform the impact of Europe, an impact that has been as notable for its ambivalence and confusion as for its single-minded pursuit of hegemony. The editors develop these themes in a wide-ranging introduction that relates Pacific concerns to a more global set of theoretical and methodological problems, including current work in post-colonial and subaltern studies.

A movement that permeates deep into British culture and beyond. Women, Agency, and the State in Guinea Carole Ammann.2020-03-05 This book examines how women in Guinea articulate themselves politically within and outside institutional politics. It documents the everyday practices that local female actors adopt to deal with the continuous economic, political, and social insecurities that emerge in times of political transformations. Carole Ammann argues that women's political articulations in Muslim Guinea do not primarily take place within women's associations or institutional politics such as political parties; but instead women's silent forms of politics manifest in their daily agency, that is, when they make a living, study, marry, meet friends, raise their children, and do household chores. The book also analyses the relationship between the female population and the local authorities, and discusses when and why women's claim making enjoys legitimacy in the eyes of other men and women, as well as representatives of 'traditional' authorities and the local government. Paying particular attention to intersectional perspectives, this book will be of interest to scholars of African studies, social anthropology, political anthropology, the anthropology of gender, urban anthropology, gender studies, and Islamic studies.

Children's Literature in Translation Jan Van Coillie,Jack McMartin.2020-10-30 For many of us, our earliest and most meaningful experiences with literature occur through the medium of a translated children's book. This volume focuses on the complex interplay that happens between text and context when works of children's literature are translated: what contexts of production and reception account for how translated children's books come to be made and read as they are? How are translated children's books adapted to suit the context of a new culture? Spanning the disciplines of Children's Literature Studies and Translation Studies, this book brings together established and emerging voices to provide an overview of the analytical, empirical and geographic richness of current research in this field and to identify and reflect on common insights, analytical perspectives and trajectories for future interdisciplinary research. This volume will appeal to an interdisciplinary audience of scholars and students in Translation Studies and Children's Literature Studies and related disciplines. It has a broad geographic and cultural scope, with contributions dealing with translated children's literature in the United Kingdom, the United States, Ireland, Spain, France, Brazil, Poland, Slovenia, Hungary, China, the former Yugoslavia, Sweden, Germany, and Belgium.

Alpha Boys School Heather Augustyn,Adam Reeves.2017-11-15 Facing a life of poverty, neglect, abandonment and even homelessness, young Jamaican boys are placed in a disciplinarian Catholic boarding school. With a rigorous musical training program overseen by an eccentric jazz-loving nun, the young virtuoso graduates of Alpha Boys' School went on to change the shape of music forever. It's the 1950s in Jamaica and a musical revolution is brewing. People all over Kingston dance nightly to vast outdoor sound systems blasting American rhythm and blues records across the shanty towns. In the hotels and theaters big bands are playing jazz and calypso. Street musicians are playing home-grown folk music called mento. Out of this musical stew, Jamaica will soon birth a dance music all of its own, a sound that will conquer the globe. Starting with ska in the early 1960s, followed by rocksteady, eventually arriving at reggae in 1969, a group of virtuoso graduates of a Roman Catholic boarding school spearhead a musical and cultural revolution that still reverberates around the world over half a century later. The Sisters of Mercy nuns at Alpha provided a home alongside industrial trades apprenticeships and religious indoctrination. One in particular, Sister Mary Ignatius, dedicated 64 years of her life to running the school's music program. Her deep appreciation of jazz and her sense of fun endeared her to the boys in the band, inspiring them to attain greatness. From early Jamaican jazz giants like Joe Harriott and Dizzy Reece to the greatest ska band of all time, The Skatalites, and some of reggae's most inspirational artists such as Cedric Brooks, Johnny Osbourne, Leroy Smart and Yellowman, the Alpha story is the untold history of Jamaican music. Join Heather Augustyn and Adam Reeves as they delve into the history of this remarkable institution and reveal the life and works of 47 of the greatest Alpha boys. The culmination of many combined years of work, using musicians' personal recollections and a wealth of rarely seen

photographs, Alpha Boys' School: Cradle of Jamaican Music will take you to the heart of the Jamaica music story. Whether you are a lover of original ska and rocksteady, roots, dub, dancehall and beyond, these stories will take you deeper into the music. If you enjoyed Solid Foundation: An Oral History of Reggae by David Katz, Bass Culture by Lloyd Bradley or So Much Things To Say: The Oral History of Bob Marley by Roger Steffens, then this is definitely for you.

Comparative Children's Literature Emer O'Sullivan.2005-03-05 WINNER OF THE 2007 CHLA BOOK AWARD! Children's literature has transcended linguistic and cultural borders since books and magazines for young readers were first produced, with popular books translated throughout the world. Emer O'Sullivan traces the history of comparative children's literature studies, from the enthusiastic internationalism of the post-war period - which set out from the idea of a supra-national world republic of childhood - to modern comparative criticism. Drawing on the scholarship and children's literature of many cultures and languages, she outlines the constituent areas that structure the field, including contact and transfer studies, intertextuality studies, intermediality studies and image studies. In doing so, she provides the first comprehensive overview of this exciting new research area. Comparative Children's Literature also links the fields of narratology and translation studies, to develop an original and highly valuable communicative model of translation. Taking in issues of children's 'classics', the canon and world literature for children, Comparative Children's Literature reveals that this branch of literature is not as genuinely international as it is often fondly assumed to be and is essential reading for those interested in the consequences of globalization on children's literature and culture.
