Human Enhancement Julian Savulescu, Nick Bostrom. 2009-01-22 To what extent should we use technological advances to try to make better human beings? Leading philosophers debate the possibility of enhancing human cognition, mood, personality, and physical performance, and controlling aging. Would this take us beyond the bounds of human nature? These are questions that need to be answered now.

Transatlantic Obligations Jane E. Mangan. 2016 The sixteenth-century changes wrought by expansion of the Spanish empire into Peru shaped the ways of being a family in colonial Peru. Even as migration, race mixture, and transculturation took place, family members fulfilled obligations to one another by adapting custom to a changing world. Family began to shift when, from the moment of their arrival in 1532, Spaniards were joined with elite indigenous women in political marriage-like alliances. Almost immediately, a generation of mestizos was born that challenged the hierarchies of colonial society. In response, the Spanish Crown began to promote the marriage of these men and the travel of Spanish women to Peru to promote good customs and even serve as surrogate parents. Other reactions came from wives in Spain who, abandoned by husbands, sought assistance to fulfill family duties. For indigenous families, the pressures of colonialism prompted migration to cities. By mid-century, the increase of Spanish migration to Peru changed the social landscape, but did not

halt mixed-race marriages. The book posits that late sixteenth-century cities, specifically Lima and Arequipa, were host to indigenous and Spanish families but also to numerous 'blended' families borne of a process of mestizaje. In its final chapter, the legacies for the next generation reveal how Spanish fathers sometimes challenged law with custom and sentiment to establish inheritance plans for their children. By tracing family obligations connecting Peru and Spain through dowries, bequests, legal powers, and letters, *Transatlantic Obligations* presents a powerful call to rethink sixteenth-century definitions of family--Provided by publisher.

Gabriela Mistral's Letters to Doris Dana Velma García-Gorena. 2018-06-15 The Nobel Prize-winning poet Gabriela Mistral is celebrated by her native Chile as the “mother of the nation” even though she spent most of her life in Mexico, Europe, and the United States. Throughout the Spanish-speaking world and especially in Chile, Mistral was characterized as a sad, traditionally Catholic spinster. Yet her voluminous correspondence with Doris Dana, long believed to be her secretary, reveals that the two women were lovers from 1948 until Mistral’s death in 1957. These letters, published in Spanish in 2010 and now translated for the first time into English, provide insight into her work as a poet and illuminate her perspectives on politics, especially war and human rights. The correspondence also sheds light on the poet’s personal life and corrects the long-standing misperceptions of her as a lonely, single, heterosexual woman.

The Mobility of Workers Under Advanced Capitalism Ramona Hernández. 2002 Using Dominicans in New York City as a case study, Ramona Hernández challenges the old belief that workers necessarily migrate from one region to another because of supply and demand or because of a de facto government policy to make people leave or stay. As a result, she shows that the traditional correlation between migration and economic progress does not always hold true.

The Rhythmic Structure of Music Grosvenor W. Cooper, Grosvenor Cooper, Leonard B. Meyer. 1963-04-15 In this book, the authors develop a theoretical framework based on a Gestalt approach, viewing rhythmic experience in terms of pattern perception or groupings. Musical examples of increasing complexity are used to provide training in the analysis, performance, and writing of rhythm.

The Colombian Caribbean Eduardo Posada Carbó. 1996 This is a study of the role of regions in the development of modern nations in Latin America. Eduardo Posada-Carbo focuses on the Colombian Caribbean between 1870 and 1950. He examines the achievements and shortcomings of arable agriculture and the significance of the livestock industry, the links between town and countryside, the influence of foreign migrants and foreign capital, the relationship between local and national politics, and the extent to which regionalism represented a challenge to the consolidation of the national state in Colombia. This original study opens up the area to scholarly scrutiny, and has wider

implications for Latin American historiography.

The Jewish-Christian Encounter in Medieval Preaching Jonathan Adams,Jussi

Hanska.2014-10-03 This book explores the complexity of preaching as a phenomenon in the medieval Jewish-Christian encounter. This was not only an encounter as physical meeting or confrontation (such as the forced attendance of Jews at Christian sermons that took place across Europe), but also an imaginary or theological encounter in which Jews remained a figure from a distant constructed time and place who served only to underline and verify Christian teachings. Contributors also explore the Jewish response to Christian anti-Jewish preaching in their own preaching and religious instruction.

Rubén Fontana Rubén Fontana,Jorge Frascara.1993 This series explores architecture; furniture;

and interior, graphic, and industrial design with the intention of reflecting the wealth and diversity found in the extensive panorama of contemporary design. Featured designers are chosen on the basis of their originality and their accomplishments. Each book starts with an introductory essay by a well-known critic or designer. The designers themselves stylize the presentation and decide what material will be included -- therefore presenting not only a reference text, but also exhibiting another aspect of the designer's creative vision.

Poverty, Progress, and Population E. A. Wrigley.2004-01-22 By the early nineteenth century England was very different economically from its continental neighbours. It was wealthier, growing more rapidly, more heavily urbanised, and far less dependent upon agriculture. A generation ago it was normal to attribute these differences to the 'industrial revolution' and to suppose that this was mainly the product of recent change, but no longer. Current estimates suggest only slow growth during the period from 1760-1840. This implies that the economy was much larger and more advanced by 1760 than had previously been supposed and suggests that growth in the preceding century or two must have been decisive in bringing about the 'divergence' of England. Sir E. A. Wrigley, the leading historian of industrial Britain, here examines the issues which arise in this connection from three viewpoints: economic growth; the transformation of the urban-rural balance; and demographic change in the seventeenth and eighteenth centuries.

Methods and Approaches in Forest History Mauro Agnoletti, Steven Anderson.2000 A companion to *Forest History: International Studies on Socioeconomic and Forest Ecosystem Change* which includes over 20 papers from the same conference. This book focuses on the different approaches and methods adopted in the study of forest history. The interdisciplinary nature of these studies is emphasized, bringing in the different perspectives of anthropologists, botanists, ecologists, foresters, historians, geneticists and geographers. This volume demonstrates the rich diversity of approaches and methods to forest history and the need to integrate them to give a more meaningful understanding of human-nature interactions, making forest history a more effective tool for the management of forest ecosystems.

Mestizaje Upside-down Javier Sanjinés C.. Mestizaje--the process of cultural, ethnic, and racial mixing of Spanish and indigenous peoples--has been central to the creation of modern national identity in Bolivia and much of Latin America. Though it originally carried negative connotations, by the early twentieth century it had come to symbolize a national unity that transcended racial divides. Javier Sanjinés C. contends that mestizaje, rather than a merging of equals, represents a fundamentally Western perspective that excludes indigenous ways of viewing the world. In this sophisticated study he reveals how modernity in Bolivia has depended on a perception, forged during the colonial era, that local cultures need to be uplifted. Sanjinés traces the rise of mestizaje as a defining feature of Bolivian modernism through the political struggles and upheavals of the twentieth century. He then turns this concept upside-down by revealing how the dominant

discussion of mestizaje has been resisted and transformed by indigenous thinkers and activists. Rather than focusing solely on political events, Sanjinés grounds his argument in an examination of fiction, political essays, journalism, and visual art, offering a unique and masterly overview of Bolivian culture, identity, and politics.

Failure of a Revolution: Germany 1918-1919 Sebastian Haffner. 2019-08-16 The masterfully told story of what happened in Germany following its defeat in the first world war: the Kaiser's exit from the stage, the sailors' mutiny, the spreading of the revolution and its betrayal by its own chosen socialist leaders. Haffner recounts the murder of Karl Liebknecht and of Rosa Luxemburg — and the deliberate creation of those relentless counter-revolutionary forces that became the nightmare of the Third Reich. More than a brilliant historical study: it has vital lessons for our own day. "Haffner's history of the revolution is unrivalled — tight, precise, passionately rational, brilliantly formulated." — Profil/Wien "No-one else has described and analysed the events of 1918/19 that were decisive for the century as well and as convincingly as Sebastian Haffner." — Tagespiegel "For Haffner, the revolution was a social-democratic revolution. That it was nevertheless ultimately suppressed bloodily by social-democratic politicians confirms Haffner's suspicion that this was a case of betrayal." — Norddeutscher Rundfunk(North German Radio) "Haffner's book is one of the few that breaks open previously locked doors and shines a light on dark corners of our past." — Kölner Stadt-Anzeiger "Sebastian Haffner's brilliant intellect clarifies contrasts and similarities in situations, motivations and deeds and describes lucidly and dramatically the main lines of the complex developments from September 1918 to January 1919." — Dieter Wunderlich "Those who know Haffner's method of making the writing of history an inspection of the past motivated by the present, will appreciate this book." — zitty/Berlin

Imperial Portugal in the Age of Atlantic Revolutions Gabriel Paquette.2013-03-14 As the British, French and Spanish Atlantic empires were torn apart in the Age of Revolutions, Portugal steadily pursued reforms to tie its American, African and European territories more closely together. Eventually, after a period of revival and prosperity, the Luso-Brazilian world also succumbed to revolution, which ultimately resulted in Brazil's independence from Portugal. The first of its kind in the English language to examine the Portuguese Atlantic World in the period from 1750 to 1850, this book reveals that despite formal separation, the links and relationships that survived the demise of empire entwined the historical trajectories of Portugal and Brazil even more tightly than before. From constitutionalism to economic policy to the problem of slavery, Portuguese and Brazilian statesmen and political writers laboured under the long shadow of empire as they sought to begin anew and forge stable post-imperial orders on both sides of the Atlantic.

History of the Caribbean Frank Moya Pons.2012-02

Imagined Histories Anthony Molho, Gordon S. Wood.1998 This collection of essays by twenty-one distinguished American historians reflects on a peculiarly American way of imagining the past. At a time when history-writing has changed dramatically, the authors discuss the birth and evolution of historiography in this country, from its origins in the late nineteenth century through its present, more cosmopolitan character. In the book's first part, concerning recent historiography, are chapters on exceptionalism, gender, economic history, social theory, race, and immigration and multiculturalism. Authors are Daniel Rodgers, Linda Kerber, Naomi Lamoreaux, Dorothy Ross, Thomas Holt, and Philip Gleason. The three American centuries are discussed in the second part, with chapters by Gordon Wood, George Fredrickson, and James Patterson. The third part is a chronological survey of non-American histories, including that of Western civilization, ancient

history, the middle ages, early modern and modern Europe, Russia, and Asia. Contributors are Eugen Weber, Richard Saller, Gabrielle Spiegel, Anthony Molho, Philip Benedict, Richard Kagan, Keith Baker, Joseph Zizak, Volker Berghahn, Charles Maier, Martin Malia, and Carol Gluck. Together, these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world. Formerly writing from a conviction that America had a singular destiny, American historians have gradually come to share viewpoints of historians in other countries about which they write. The result is the virtual disappearance of what was a distinctive American voice. That voice is the subject of this book.

Memory and Totalitarianism Luisa Passerini.2017-07-12 Understanding Europe's past became an

urgent matter with the events of August 1991 in Moscow, in the former Soviet Union. The invasion of Moscow's streets by Russian people rejecting an attempted coup d'etat was the culmination of a process that had been initiated years before and raised crucial questions: To what extent can these events be considered the end of an era stretching from World War I to the 1980s, when Europe experienced many forms of dictatorship? To what extent can the various forms of dictatorship Europe experienced in the twentieth century be grouped together? Can any sort of affinity be established between them? The new introduction to the paperback edition of this volume in the Memory and Narrative series, Leydesdorff and Crownshaw underline the fundamental importance of the struggle for memory and its meaning. *Memory and Totalitarianism* explores the remembered experiences of individuals living under different totalitarian regimes, and examines the construction of memory in the aftermath of those regimes' collapse. It attempts to situate the findings of oral history in the context of contemporary memory. It wrestles with the most painful memories that Europeans have of this century at the end of the Cold War. These memories compare with oral history's research into such experiences as racist attitudes against blacks in the South, or the cultural and psychological effects of apartheid in South Africa, or the Aborigines' claim to their own history and to a new idea of history in Australia. Totalitarianisms are products of the twentieth century that go far beyond earlier manifestations of absolutism and autocracy in their effort to completely control political, social, and intellectual life. They were made possible by modern industrialism and technology. Therefore the theme of the book expands to include many other experiences that relate to totalitarian mentalities.

(Post-)colonial Archipelagos Hans-Jürgen Burchardt,Johanna Leinius.2022-02-22 The Puerto Rican debt crisis, the challenges of social, political, and economic transition in Cuba, and the populist politics of Duterte in the Philippines—these topics are typically seen as disparate experiences of social reality. Though these island territories were colonized by the same two colonial powers—by the Spanish Empire and, after 1898, by the United States—research in the fields of history and the social sciences rarely draws links between these three contexts. Located at the intersection of Postcolonial Studies, Latin American Studies, Caribbean Studies, and History, this interdisciplinary volume brings together scholars from the US, Europe, Latin America, the Caribbean, and the Philippines to examine the colonial legacies of the three island nations of Cuba, Puerto Rico, and the Philippines. Instead of focusing on the legacies of US colonialism, the continuing legacies of Spanish colonialism are put center-stage. The analyses offered in the volume yield new and surprising insights into the study of colonial and postcolonial constellations that are of interest not only for experts, but also for readers interested in the social, political, economic, and cultural dynamics of Cuba, Puerto Rico, and the Philippines during Spanish colonization and in the present. The empirical material profits from a rigorous and systematic analytical framework and is thus easily accessible for students, researchers, and the interested public alike.

Joseph Fouché: Portrait of a Politician Stefan Zweig.2019-08-09 This biography of the man Stefan Zweig viewed as the most perfect Machiavelli of modern times was written in 1929, before the full impact of Nazism and Stalinism was understood. In this gripping case study of ruthlessness, political opportunism, intrigue, and betrayal, Zweig portrays Minister of Police Joseph Fouché (1759-1820), a thoroughly amoral personality whose only goal was political survival and the exercise of power. Zweig traces Fouché's career, beginning with his stint as a math and physics teacher in provincial Catholic schools and evolving into a moderate and then radical legislator. Fouché cultivated every political movement du jour, holding no convictions of his own. After preaching clemency for Louis XVI, Fouché voted to send the King to the guillotine. After writing the first communist manifesto of modern times he became a multi-millionaire. He led the brutal repression of an anti-revolutionary movement, earning him the nickname le mitrailleur (butcher) de Lyon. After serving Robespierre, Fouché engineered his overthrow and rose to Minister of Police under the Directory, which he then helped to overthrow before putting his network of informants in Napoleon's service as his Minister of Police. After turning against the Emperor, Fouché served the new King Louis XVIII - whose brother he had helped send to the guillotine. Thus, Fouché served the Revolution, the Directory, the First Empire and the Restoration.

Ethics of Writing Carlo Sini.2010-07-02 In this groundbreaking work, Carlo Sini, one of Italy's leading contemporary philosophers, brings American pragmatism to the Milan school of phenomenology. Appearing in English for the first time, this book explores the constitutive role of alphabetic writing in the emergence of dominant forms of knowledge in the Western world

(philosophy, mathematics, science, and historiography). Taking stock of the contingent nature of what are held as logical truths, he offers an ethical framework for considering different ways of thinking about writing, focusing on possibilities involving practice as a basis for a renewal of theoretical philosophy. Such a framework, Sini argues, opens the door for more productive and ethical communication with non-Western cultures, and indeed for a reconsideration of forms of knowledge beyond mere writing.

Marxism and National Identity Robert Stuart.2006-06-01 Post-Marxists argue that nationalism is the black hole into which Marxism has collapsed at today's end of history. Robert Stuart analyzes the origins of this implosion, revealing a shattering collision between Marxist socialism and national identity in France at the close of the nineteenth century. During the time of the Boulanger crisis and the Dreyfus affair, nationalist mobs roamed the streets chanting France for the French! while socialist militants marshaled proletarians for world revolution. This is the first study to focus on those militants as they struggled to reconcile Marxism's two national agendas: the cosmopolitan conviction that workingmen have no country, on the one hand, and the patriotic assumption that the working class alone represents national authenticity, on the other. Anti-Semitism posed a particular problem for such socialists, not least because so many workers had succumbed to racist temptation. In analyzing the resultant encounter between France's anti-Semites and the Marxist Left, Stuart addresses the vexed issue of Marxism's involvement with political anti-Semitism.

Money, Bank Credit, and Economic Cycles .

The Redemptive Work Kim A. Clark.1998-01-01 A CHOICE Outstanding Academic Book! Professor Kim Clark explores a time period and country for which little has been published in English. By studying the dimensions of politics and culture as one, Professor Clark argues that the local railroad

case served as a demonstration of some of the problems that were most important during the liberal period. At the turn of the century, diverse political, economic, and social conditions divided Ecuador. During the construction of the Guayaquil-Quito Railway, the people of Ecuador faced the challenge of working together. *The Redemptive Work: Railway and Nation in Ecuador, 1895-1930* examines local, regional, and national perspectives on the building of the railway and analyzes the contradictory processes of national incorporation. Rather than examining the formation of Ecuador's national identity, Professor Clark analyzes the methods of two groups working on the same project but with opposing goals. The elite landowners of the highlands were concerned with the transportation of their agricultural products to the coast, while the agro-export elite of the coast were more interested in forming a labor market. Because the underlying objectives were contradictory, only a partial consensus was reached on the nature of national development. This tense agreement channeled the conflicting opinions but did not eliminate them. *The Redemptive Work* is the first text to deal with these complex issues in Ecuador's history. *The Redemptive Work* is useful for undergraduate and graduate courses in Latin American history, social history, anthropology, political science, and nation and state formation.

History on Trial Gary B. Nash, Charlotte Antoinette Crabtree, Ross E. Dunn. 2000 An incisive overview of the current debate over the teaching of history in American schools examines the setting of controversial standards for history education, the integration of multiculturalism and minorities into the curriculum, and ways to make history more relevant to students. Reprint.

Insurgent Cuba Ada Ferrer. 2005-10-12 In the late nineteenth century, in an age of ascendant racism and imperial expansion, there emerged in Cuba a movement that unified black, mulatto, and white men in an attack on Europe's oldest empire, with the goal of creating a nation explicitly

defined as antiracist. This book tells the story of the thirty-year unfolding and undoing of that movement. Ada Ferrer examines the participation of black and mulatto Cubans in nationalist insurgency from 1868, when a slaveholder began the revolution by freeing his slaves, until the intervention of racially segregated American forces in 1898. In so doing, she uncovers the struggles over the boundaries of citizenship and nationality that their participation brought to the fore, and she shows that even as black participation helped sustain the movement ideologically and militarily, it simultaneously prompted accusations of race war and fed the forces of counterinsurgency. Carefully examining the tensions between racism and antiracism contained within Cuban nationalism, Ferrer paints a dynamic portrait of a movement built upon the coexistence of an ideology of racial fraternity and the persistence of presumptions of hierarchy.
