**Hiding in the Light** Rifqa Bary. 2015-05-19 Leaving Islam for Christianity cost her more than she imagined, but gave more than she could have dreamed. Rifqa Bary grew up in a devout Muslim home, obediently following her parents' orders to practice the rituals of Islam. But God was calling her to freedom and love. He was calling her to true faith. He was calling her to give up everything. Hiding in the Light is the story of Rifqa's remarkable spiritual journey from Islam to Christianity. It is also the untold story of how she ran from her father's threats to find refuge with strangers in Florida, only to face a controversial court case that reached national headlines. Most of all, it is the story of a young girl who made life-changing sacrifices to follow Jesus—and who inspires us to do the same.

**Red Moon Rising** Pete Greig, Dave Roberts. 2015-05-01 From the Upper Room of Pentecost to Azusa Street in Los Angeles, God has used prayer movements throughout history to change the world. Over fifteen years ago, a group of students gathered for a prayer vigil in Chichester, England—and the prayers they started haven't stopped. Out of that first meeting came 24-7 Prayer: an international movement of prayer, mission, and justice that has reached Chinese underground churches, Indian slums, Papua New Guinea jungles, ancient English cathedrals, and even a brewery in Missouri. Red Moon Rising is the story of how that movement continues today—and how each of us can be a part of the miracles God is doing through a new generation.

Thin Layer Chromatography in Drug Analysis Lukasz Komsta, Monika Waksmundzka-Hajnos, Joseph Sherma. 2013-12-20 Used routinely in drug control laboratories, forensic laboratories, and as a research tool, thin layer chromatography (TLC) plays an important role in pharmaceutical drug analyses. It requires less complicated or expensive equipment than other techniques, and has the ability to be performed under field conditions. Filling the need for an up-to-date, complete reference, Thin Layer Chromatography in Drug Analysis covers the most important methods in pharmaceutical applications of TLC, namely, analysis of bulk drug material and pharmaceutical formulations, degradation studies, analysis of biological samples, optimization of the separation of drug classes, and lipophilicity estimation. The book is divided into two parts. Part I is devoted to general topics related to TLC in the context of drug analysis, including the chemical basis of TLC, sample preparation, the optimization of layers and mobile phases, detection and quantification, analysis of ionic compounds, and separation and analysis of chiral substances. The text addresses the newest advances in TLC instrumentation, two-dimensional TLC, quantification by slit scanning densitometry and image analysis, statistical processing of data, and various detection and identification methods. It also describes the use of TLC for solving a key issue in the drug market—the presence of substandard and counterfeit pharmaceutical products. Part II provides an in-depth overview of a wide range of TLC applications for separation and analysis of particular drug groups. Each chapter contains an introduction about the structures and medicinal actions of the described substances and a literature review of their TLC analysis. A useful resource for chromatographers, pharmacists, analytical chemists, students, and R&D, clinical, and forensic laboratories, this book can be utilized as a manual, reference, and teaching source.

**Gender and Language Learning** Daniela Elsner,Viviane Lohe.2016-06-13 Although Gender Studies have found their way into most domains of academic research and teaching, they are not directly in the spotlight of foreign language teaching pedagogy and research. However, teachers are confronted with gender issues in the language classroom everyday. By the use of language alone, they construct or deconstruct gender roles; with the choice of topics they shape gender identities in the classroom; and their ways of approaching pupils clearly mirrors their gender sensitivity. The book *Gender and Language Learning* aims at raising awareness towards gender issues in different areas of foreign language teaching and learning. The primary objective of the book is to spark university students', trainee teachers' and in-service teachers' analysis and reflection of gender relations in the foreign language learning and teaching section.

*Description and Selection of Communication Services for Service Oriented Network Architectures* Rahamatullah Khondoker.2016-05-12 The research focus of Rahamatullah Khondoker is on Future Internet Architectures, Network Security, Software-Defined Networking, and Network Function Virtualization. In his PhD thesis, the author tackles challenges of today's layered network architecture (such as TCP/IP protocol stack) which is inflexible. He proposes that the evolution of the network can be achieved by first, decoupling applications from the networks and second, selecting the best network or protocol automatically based on the applications' requirements. With the provided language, applications are able to express their requirements, and networks expose their capabilities such that the most appropriate network and protocol are selected automatically.

**Conducting Hermeneutic Research** Nancy J. Moules,Graham McCaffrey,Catherine M. Laing,James C. Field.2015 *Conducting Hermeneutic Research: From Philosophy to Practice* is the only textbook that teaches the reader ways to conduct research from a philosophical hermeneutic perspective. It is an invaluable resource for graduate students about to embark in hermeneutic research and for academics or other researchers who are novice to this research method or who wish to extend their knowledge. In 2009, the lead author of this proposed text was one of three co-founders of the Canadian Hermeneutic Institute. The institute was created as a means of bringing together scholars of hermeneutics and hermeneutic research across disciplines in creative dialogue and conversations of philosophy, research, and practice. An outcome of this was the launch of the *Journal of Applied Hermeneutics*, with Nancy J. Moules serving as Editor. The work of the institute and the journal make clear that people (both students and professors) seek practical guidance on how to conduct hermeneutic research. This book is a must read for this audience.

**Healing SIBO** Shivan Sarna.2021-02-02 By combining cutting-edge technical and medical information from health experts with her own expert advice and insights as a patient who has been there herself, Shivan Sarna has created an invaluable resource for the millions of people struggling with SIBO. -Dr. Allison Siebecker A guide to recognizing and overcoming SIBO, with a 21-day plan to stop feeling bloated, start losing weight, and fix your gut. Millions of Americans suffer from bloating, constipation, diarrhea, food intolerances, and other gastrointestinal symptoms. Many spend years in pain before they figure out just what's going on with their gut. And while irritable bowel syndrome (IBS) is commonly diagnosed, SIBO, a disorder with basically all the same symptoms, is not. Some studies show eighty percent of people who suffer from IBS, mostly women, likely also have SIBO, an overlooked health issue that is difficult to diagnose. So, what is SIBO? The acronym stands for Small Intestine Bacterial Overgrowth, a disorder in which bacteria that usually live in other parts of the gut start to proliferate and take up residence in the small intestine. This causes a whole confluence of symptoms, ranging from bloating and cramps, to uncontrollable weight gain or weight loss, to even malnutrition when the bacteria eat up vital nutrients from our food. After decades of dealing with debilitating symptoms with no relief, Shivan Sarna's life finally changed when she was diagnosed with SIBO. As she eliminated her symptoms one by one through lifestyle changes and help from her physicians, she started to synthesize her personal experiences with Western and naturopathic medicine and dedicate herself to advocating for those suffering from SIBO, or those who think they could be. Now, in this groundbreaking book, Shivan shares her step-by-step plan to treat, manage, and even heal SIBO, with information on what to eat and what to avoid, how to build a routine to manage your symptoms, and how to work with your doctor to find supplements and medications that promote healing. Shivan also includes a 21-day plan, which includes more than 40 recipes to put you on the path to recovery. Whether you're SIBO-diagnosed or SIBO-suspicious, this empowering guide will change the way you approach and think about your gut and overall health.

*The Last Years of Paul* Armand Puig i Tàrrach,John M. G. Barclay,Jörg Frey,Orrey McFarland.2015 What happened in the last few years of Paul's life? Did he ever get to Spain? How and why did he die? Were his plans fulfilled or frustrated? How should we interpret our scant sources? And what light can be shed on these matters by the social, historical, and legal context of Paul's life? In this fresh investigation of the central historical questions, a group of leading international scholars bring together their collective expertise on the apostle Paul and on the Roman, Jewish and early Christian worlds in which he lived and died. Through new scrutiny of all the key sources, a number of fresh questions and hypotheses are developed, with wide significance for all who wish to know about the climactic and traumatic final years of Paul. Contributors: Loveday Alexander, John Barclay, Angelo di Berardino, Reimund Bieringer, August Borrell, Juan Chapa, John Cook, Jorg Frey, Daniel Gerber, Erich Gruen, Wolfgang Grunstaedl, Jens Herzer, Friedrich W. **The Penguin Book of Victorian Women in Crime** Michael Sims.2011-01-25 A wonderfully wicked new anthology from the editor of *The Penguin Book of Gaslight Crime* It is the Victorian era and society is both entranced by and fearful of that suspicious character known as the New Woman. She rides those new-fangled bicycles and doesn't like to be told what to do. And, in crime fiction, such female detectives as Loveday Brooke, Dorcas Dene, and Lady Molly of Scotland Yard are out there shadowing suspects, crawling through secret passages, fingerprinting corpses, and sometimes committing a lesser crime in order to solve a murder. In *The Penguin Book of Victorian Women in Crime*, Michael Sims has brought together all of the era's great crime-fighting females- plus a few choice crooks, including Four Square Jane and the Sorceress of the Strand.

**The Silent Revolution in Cancer and AIDS Medicine** Heinrich Kremer.2012-09-10 Examining all the major research data since the 1940s, this book challenges two orthodox medical models: HIV as the cause of AIDS, and random genetic mutations as the cause of cancer. Based on the recent findings from Evolutionary Biology and Nitric Oxide research, it presents a fundamentally new understanding of the human cell, its double genome split between the cell nucleus and the mitochondria, and the role of energy production and signal modulation for immune reactions and carcinogenesis. Finally, it explains the concept of a new Cell Symbiosis Therapy® for the treatment of all chronic diseases, including cancer. Now available in English for the first time, this book is a must-read for doctors, patients and anyone following the cutting edge of biology and immunology.

With the blasting open of such doors of knowledge, the medical world will never again be the same. Heinrich Kremer, MD, Medical Director Emeritus was, from 1968-1975, head of social therapy for addicts, sexual offenders and people with personality disorders at the Berlin Tegel prison which was the pilot project for the reform of the German penal system. In 1988 he resigned as medical director of a model clinic specializing in youth drug addiction due to differences on medical ethics regarding the HIV test and AIDS therapy. From 1993-1999 as collaborating member of the Study Group for Nutrition and Immunity (Bern) he investigated together with Prof. Alfred Hässig the mechanisms occurring in AIDS defining illnesses and in cancer. Since the publication of this book in German in 2001 he has been in demand as a lecturer on the treatment of chronic diseases, working today as senior consultant in a growing medical network for Cell Symbiosis Therapy®.

*Shifting Paradigms* Alexander Blum.2016 The publication of Thomas S. Kuhn's *Structure of Scientific Revolutions* in 1962 stands for a turning point in the history and philosophy of science. The repercussions of this work have rearticulated the theoretical framework of history and philosophy of science and have also generated discussions that contributed to the formation of the communities of historians as well as philosophers of science in many parts of the world. Different approaches to history of science have since emerged and most of them have the *Structure* as their reference point. In October 2012, a conference at the Max Planck Institute for the History of Science brought together some of the historians of science whose work has played a decisive role in the ways history of science has evolved as a field of research in the past 50 years, both intellectually and institutionally. This volume gathers reflections by many of these historians on the history of the history of science, based on the presentations and discussions at the conference. The topics covered range from personal recollections of working with Thomas Kuhn to broad overviews of the historical development of the history of science as a discipline in the past half-century. The series *Proceedings of the Max Planck Research Library for the History and Development of Knowledge* presents the results of scientific meetings on current issues and supports further cooperation on these issues via an electronic platform. The volumes are available both as print-on-demand books and as open-access publications on the Internet. The material is freely accessible online at [www.edition-open-access.de](http://www.edition-open-access.de).

*Faith as an Option* Hans Joas.2014-09-03 Many people these days regard religion as outdated and are unable to understand how believers can intellectually justify their faith. Nonbelievers have long assumed that progress in technology and the sciences renders religion irrelevant. Believers, in contrast, see religion as vital to society's spiritual and moral well-being. But does modernization lead to secularization? Does secularization lead to moral decay? Sociologist Hans Joas argues that these two supposed certainties have kept scholars from serious contemporary debate and that people must put these old arguments aside in order for debate to move forward. The emergence of a secular option does not mean that religion must decline, but that even believers must now define their faith as one option among many. In this book, Joas spells out some of the consequences of the abandonment of conventional assumptions for contemporary religion and develops an alternative to the cliché of an inevitable conflict between Christianity and modernity. Arguing that secularization comes in waves and stressing the increasing contingency of our worlds, he calls upon faith to articulate contemporary experiences. Churches and religious communities must take into account religious diversity, but the modern world is not a threat to Christianity or to faith in general. On the contrary, Joas says, modernity and faith can be mutually enriching.

*From Conflict to Communion - Including Common Prayer* The Lutheran World Federation.2016-10-01 [Vom Konflikt zur Gemeinschaft. Erweitert um den Ökumenischen Gottesdienst zum gemeinsamen Reformationsgedenken 2017] Im Jahr 2017 werden Katholiken und Lutheraner gemeinsam auf die Ereignisse der Reformation vor 500 Jahren zurückblicken. Zugleich werden sie 50 Jahre offiziellen ökumenischen Dialog auf weltweiter Ebene bedenken. In dieser Zeit ist ihre neu gewonnene Gemeinschaft weiter gewachsen. Das ermutigt Lutheraner und Katholiken, ihr gemeinsames Zeugnis für das Evangelium von Jesus Christus, der das Zentrum ihres gemeinsamen Glaubens ist, miteinander zu feiern. Jedoch werden sie bei dieser Feier auch Anlass haben, das Leid, das durch die Spaltung der Kirche verursacht wurde, wahrzunehmen und selbstkritisch auf sich zu schauen, nicht nur im Blick auf die Geschichte, sondern auch angesichts der heutigen Realitäten. Vom Konflikt zur Gemeinschaft entwickelt eine Grundlage für ein ökumenisches Gedenken, das sich deutlich von früheren Jahrhundertfeiern unterscheidet. Die Lutherisch/Römisch-katholische Kommission für die Einheit lädt alle Christen ein, diesen Bericht aufgeschlossen, aber auch kritisch zu prüfen und auf dem Weg zur vollen, sichtbaren Einheit der Kirche weiterzugehen. In 2017, Catholics and Lutherans will jointly look back on events of the Reformation 500 years ago. At the same time, they will also reflect on 50 years of official ecumenical dialogue on the worldwide level. During this time, the communion they share anew has continued to grow. This encourages Lutherans and Catholics to celebrate together the common witness to the Gospel of Jesus Christ, who is the center of their common faith. Yet, amidst this celebration, they will also have reason to experience the suffering caused by the division of the Church, and to look self-critically at themselves, not only throughout history, but also through today's realities. *From Conflict to Communion* develops a basis for an ecumenical commemoration that stands in contrast to earlier centenaries. The Lutheran-Roman Catholic Commission on Unity invites all Christians to study its report both open-mindedly and critically, and to walk along the path towards the full, visible unity of the Church. This edition is *Including Common Prayer*.

*Europa reformata (English Edition)* Michael Beintker,Albert de Lange,Michael Welker.2016-12-01 This beautifully illustrated, compact volume traces the profile of 48 European cities in early Reformation times. It transports readers across Europe from Spain to Estonia, from Scotland to Romania, passing through many fascinating cities in the Reformation heartland of this continent. With finely drawn historical portraits and abundant pictorial material, the articles by different scholars also feature the most prominent Reformers who lived and worked in each city (including six dynamic women). Supplemented by an illustrated map of Europe, local websites and reading lists, *Europa Reformata* will serve as a guide for visitors and armchair travelers alike. By highlighting so many cities and pioneers of the Reformation, it makes a timely and unique contribution to the 500th anniversary of this groundbreaking movement. Der prächtige und doch handliche Band zeichnet die reformatorischen Profile von etwa vierzig europäischen Städten nach. Die Leser werden von Spanien über Zentraleuropa bis Estland und Finnland geführt, von Schottland und England bis nach Rumänien. Profilierte Texte und reiches Bildmaterial veranschaulichen das Wirken der berühmtesten Reformatoren - sowie der fünf Reformatorinnen - und stellen die Städte mit ihren Bauten und Zeugnissen aus der Reformationszeit vor Augen. Ergänzt durch eine bebilderte Europakarte und die Angabe von kirchlichen Adressen und Tourismusbüros, eignet sich der Band auch als Reiseführer auf den Spuren der Reformation in Europa. An diesem perfekten Geschenk zum 500. Reformationsjubiläum sollte niemand achtlos vorbeigehen.

**Theories of Informetrics and Scholarly Communication** Cassidy R. Sugimoto.2016-02-22 Scientometrics have become an essential element in the practice and evaluation of science and research, including both the evaluation of individuals and national assessment exercises. Yet, researchers and practitioners in this field have lacked clear theories to guide their work. As early as 1981, then doctoral student Blaise Cronin published *The need for a theory of citing* — a call to arms for the fledgling scientometric community to produce foundational theories upon which the work of the field could be based. More than three decades later, the time has come to reach out the field again and ask how they have responded to this call. This book compiles the foundational theories that guide informetrics and scholarly communication research. It is a much needed compilation by leading scholars in the field that gathers together the theories that guide our understanding of authorship, citing, and impact.
