**Speech Acts in Literature** Joseph Hillis Miller. 2001 This book demonstrates the presence of literature within speech act theory and the utility of speech act theory in reading literary works. Though the founding text of speech act theory, J. L. Austin's *How to Do Things with Words*, repeatedly expels literature from the domain of felicitous speech acts, literature is an indispensable presence within Austin's book. It contains many literary references but also uses as essential tools literary devices of its own: imaginary stories that serve as examples and imaginary dialogues that forestall potential objections. *How to Do Things with Words* is not the triumphant establishment of a fully elaborated theory of speech acts, but the story of a failure to do that, the story of what Austin calls a bogging down. After an introductory chapter that explores Austin's book in detail, the two following chapters show how Jacques Derrida and Paul de Man in different ways challenge Austin's speech act theory generally and his expulsion of literature specifically. Derrida shows that literature cannot be expelled from speech acts—rather that what he calls iterability means that any speech act may be literature. De Man asserts that speech act theory involves a radical dissociation between the cognitive and positing dimensions of language, what Austin calls language's constative and performative aspects. Both Derrida and de Man elaborate new speech act theories that form the basis of new notions of responsible and effective politico-ethical decision and action. The fourth chapter explores the role of strong emotion in effective

speech acts through a discussion of passages in Derrida, Wittgenstein, and Austin. The final chapter demonstrates, through close readings of three passages in Proust, the way speech act theory can be employed in an illuminating way in the accurate reading of literary works.

*Sport and Political Ideology* John M. Hoberman. 2014-06-30

Across the modern political spectrum, left-wing and right-wing political theorists have invested sport with ideological significance. That significance, however, varies distinctively and characteristically with the ideology—a phenomenon John Hoberman terms ideological differentiation. Taking this phenomenon as its point of departure, this provocative work interprets the major sport ideologies of the twentieth century as distinct expressions of political doctrine. Hoberman argues that a political ideology's interpretation of sport is shaped in part by the value it assigns to work and play as modes of experience; the political anthropologies of right and left can be distinguished by examining their resistance to—or affinity for—sportive imagery of their leaders and of the state itself; there exists a fascist temperament that shows an affinity to athleticism and the sphere of the body that is not shared by the left. Tracing modern sport ideology back to its premodern antecedents, Hoberman examines the interpretations of sport that have been promulgated by European political intellectuals, such as cultural conservatives and contemporary neo-Marxists, and by the official ideologists of Nazi Germany, the Soviet Union, the German Democratic Republic, and China before and after Mao. As a form of mass theater, sport can advertise any ideology. But the deeper relationship between sport and political ideology has never before been explored with such vigor. Presenting the first general theory of sport and political ideology to appear in any language, Hoberman's groundbreaking work is a unique and invaluable contribution to the intellectual and political history of sport in the twentieth century.

## **Reflections on Biography** Paula R. Backscheider.2013-09

Reflections on Biography is intended for all readers of biography--lifelong or occasional, critical or casual--and is written by an award-winning biographer, Paula R. Backscheider. The author examines biography from many angles and gives a tour of the decisions biographers make and some of the implications of those choices. Its aim is to increase the pleasure of reading biographies, to add new, enjoyable dimensions even as it increases readers' insights into the art of writing them. The book concludes with observations about the form's future directions and challenges. In this second edition, Backscheider provides a new Introduction that describes innovative forms of biography and new theoretical directions.

**Einstein** Jürgen Neffe.2007-04-17 Albert Einstein is an icon of the twentieth century. Born in Ulm, Germany, in 1879, he is most famous for his theory of relativity. He also made enormous contributions to quantum mechanics and cosmology, and for his work he was awarded the Nobel Prize in 1921. A self-pronounced pacifist, humanist, and, late in his life, democratic socialist, Einstein was also deeply concerned with the social impact of his discoveries. Much of Einstein's life is shrouded in legend. From popular images and advertisements to various works of theater and fiction, he has come to signify so many things. In Einstein: A Biography, Jürgen Neffe presents a clear and probing portrait of the man behind the myth. Unearthing new documents, including a series of previously unknown letters from Einstein to his sons, which shed new light on his role as a father, Neffe paints a rich portrait of the tumultuous years in which Einstein lived and worked. And with a background in the sciences, he describes and contextualizes Einstein's enormous contributions to our scientific legacy. Einstein, a breakout bestseller in Germany, is sure to be a classic biography of the man and proverbial genius who has been called the brain of the [twentieth] century.

**From Morning to Midnight** Georg Kaiser.2013-11-18 From Morning To Midnight, among the most frequently performed German Expressionist works, charts the life of a cashier who steals money from the bank and flees to Berlin. The un-named protagonist's bid to escape his middle-class daily life is ultimately frustrated. It is a popular piece in which Kaiser satirized the cheapness and futility of modern society. His hero, a kind of machine-age Everyman, searches everywhere for some kind of fulfilment - in commercial sex, in salvationist religion - but discovers through a series of nightmarish episodes that the world is deceitful and illusory. In the end, disillusioned and pursued by the police, he takes his own life. This new version by Dennis Kelly, opened at the National Theatre's Lyttelton Theatre in November 2013, as part of the National's 50th Anniversary Season.

**Max Weber in America** Lawrence A. Scaff.2011-01-30 Lawrence Scaff provides new details about Weber's visit to the United States---what he did, what he saw, whom he met and why and how these experiences profoundly influenced Weber's thought an immigration, capitalism, science and culture, Romanticism, race diversity, Protestantism, and modernity. Scaff traces Weber's impact on the development of the social sciences in the United States following his death in 1920, examining how We ber's ideas were interpreted, translated, and disseminated by American scholars such as Talcott Parsons and Frank Knight, and how the Weberian canon, codified in America, was reintroduced into Europe after World War II. --

**Poe's Critical Theory** Susan Levine,Susan F. Levine.2010-10-01 Edgar Allan Poe's reputation as an enduring and influential American literary critic rests mainly upon the pieces in this edition. Editors Stuart Levine and Susan F. Levine provide reading texts, detailed explanatory footnotes, variant readings, and introductions to show context. They also face frankly the

contradictions in Poe's critical dicta. Poetry is for pleasure, not truth, Poe says, but argues that poetic inspiration leads to truth. Great works, Poe says, result from studied calculation, but also from irrational, supernal sources. Both biting critic and doughty defender of American artistic achievement, Poe was contemptuous of democratic art, except when he manned the barricades in its defense. Critical Theory highlights such conflicting ideas and suggests why they are present. This edition shows that what is consistent in Poe is not any single theory. Rather, always present are wit, playfulness, concern for the strong effect, a bin of recyclable allusions, anecdotes and quotations, and a writer's discipline. His writing on theory is of a piece with his fiction, poetry, and journalism. The Levines explain how these pieces also tie in tightly to the social, political, economic, and technological history of the world in which Poe lived.

Writing and Madness Shoshana Felman, Martha Noel Evans. 2003 This is the author's most influential work of literary theory and criticism in which she explores the relations between literature, philosophy, and psychoanalysis.

**Madness and Creativity in Literature and Culture** Corinne Saunders, Jane Macnaughton. 2005-03-02 This collection of essays explores the relation between literature and madness from the Medieval to the Modern period. The essays examine how literature represents the experience of madness and cultural responses to it, and how madness may inspire creativity. The volume also illuminates the history of medicine, demonstrating the shifts and continuities in clinical understandings of and social attitudes to mental illness from the Middle Ages through to the enlightened notions of the Eighteenth Century to the development of psychoanalysis.

Between Home and Homeland Brian Amkraut. 2006-06-06 Between Home and Homeland is a fascinating account of young German Jews who immigrated to Palestine during the 1930s in

the Youth Aliyah movement. As Hitler consolidated power, Jews and their allies in Germany began efforts to leave the country. Among them was the organization, Youth Aliyah. Based on abundant archival sources and a thorough use of secondary literature, Brian Amkraut details the story of the organization from its origins through its alliances and antagonisms with other Jewish organizations, and the challenges that vexed its efforts from every side, perhaps the greatest being sheer human naiveté (surely things will get better). Amkraut also discusses the identity dilemma for Jews who grew up feeling German, and then had to alter their self-image in the face of growing discrimination. He highlights the internal disagreements of Jewish agencies who wrestled with myriad problems. The author explores how German Jews were ideologically heterogeneous, and details how different groups coped with increasing antagonism in a variety of ways. To this day, Youth Aliyah is considered by Israelis as a major contributor to the foundation of a Jewish presence leading to the modern state of Israel. *Between Home and Homeland* is an essential account of an important episode in the history of the Holocaust and the founding of the Israeli state.

**Foucault and Derrida** Roy Boyne. 2013-11-05 The writings of Michel Foucault and Jacques Derrida pose a serious challenge to the old established, but now seriously compromised forms of thought. In this compelling book, Roy Boyne explains the very significant advances for which they have been responsible, their general importance for the human sciences, and the forms of hope that they offer for an age often characterized by scepticism, cynicism and reaction. The focus of the book is the dispute between Foucault and Derrida on the nature of reason, madness and 'otherness'. The range of issues covered includes the birth of the prison, problems of textual interpretation, the nature of the self and contemporary movements such as socialism, feminism and anti-racism. Roy Boyne argues that whilst the two thinkers chose very different paths, they were in fact rather surprisingly to

converge upon the common ground of power and ethics. Despite the evident honesty, importance and adventurousness of the work of Foucault and Derrida, many also find it difficult and opaque. Roy Boyne has performed a major service for students of their writings in this compelling and accessible book.

**Classic Writings on Poetry** William Harmon.2005-04-13 The poet is the sayer, the namer, and represents beauty. He is a sovereign, and stands on the centre.—Ralph Waldo Emerson, from The Poet [The poet] is a seer.... he is individual... he is complete in himself.... the others are as good as he, only he sees it and they do not. He is not one of the chorus. —Walt Whitman, from the preface to Leaves of Grass Poetry has always given rise to interpretation, judgment, and controversy. Indeed, the history of poetry criticism is as rich and varied a journey as the history of poetry itself. But classic writings such as Emerson's essay The Poet and Whitman's preface to Leaves of Grass serve as more than a critical call and response: the works are striking examples of how the finest poets themselves have written on poetics and the works of their peers and predecessors—revealing, in the process, much about the theory and passion behind their own works. Spanning thousands of years and including thirty-three of the most influential critical essays ever written, Classic Writings on Poetry is the first major anthology of criticism devoted exclusively to poetry. Beginning with a survey of the history of poetics and providing an introduction and brief biography for each reading, esteemed poet and critic William Harmon takes readers from Plato's Republic and Aristotle's Poetics to the Norse mythology of Snorri Sturluson's Skáldskaparmál. John Dryden's An Essay of Dramatic Poesy and Shelley's A Defence of Poetry are

included, as is an excerpt from Elizabeth Barrett Browning's verse novel *Aurora Leigh*, arriving, finally, at the modernist sensibility of *Poetic Reality and Critical Unreality*, by Laura (Riding) Jackson. For anyone interested in the art and artifice of poetry, *Classic Writings on Poetry* is a journey well worth taking. [The Romans of Pertenay Or of Lusignen](#) Couldrette.1866

**Vilnius between Nations, 1795-2000** Theodore R.

Weeks.2015-12-04 The inhabitants of Vilnius, the present-day capital of Lithuania, have spoken various languages and professed different religions while living together in relative harmony over the years. The city has played a significant role in the history and development of at least three separate cultures—Polish, Lithuanian, and Jewish—and until very recently, no single cultural-linguistic group composed the clear majority of its population. *Vilnius between Nations, 1795-2000* is the first study to undertake a balanced assessment of this particularly diverse city. Theodore Weeks examines Vilnius as a physical entity where people lived, worked, and died; as the object of rhetorical struggles between disparate cultures; and as a space where the state attempted to legitimize a specific version of cultural politics through street names, monuments, and urban planning. In investigating these aspects, Weeks avoids promoting any one national narrative of the history of the city, while acknowledging the importance of national cultures and their opposing myths of the city's identity. The story of Vilnius as a multicultural city and the negotiations that allowed several national groups to inhabit a single urban space can provide lessons that are easily applied to other diverse cities. This study will appeal to scholars of Eastern Europe, urban studies, and multiculturalism, as well as general readers interested in the region.

*Music as Social and Cultural Practice* Melania Bucciarelli,Berta

Joncus.2007 The linking theme of the essays collected here is the intersection of musical work with social and cultural practice. Inspired by Professor Strohm's ideas, as is fitting in a volume in his honour, leading scholars in the field explore diverse conceptualizations of the 'work' within the contexts of a specific repertory, over four main sections. Music in Theory and Practice studies the link between treatises and musical practice, and analyses how historical writings can reveal period views on the 'work' in music before 1800. Art and Social Process: Music in Court and Urban Societies looks at the social and cultural practices informing composition from the late Renaissance until the mid-eighteenth century, and interrogates current notions of canon formation and the exchange between local and foreign traditions. Creating an Opera Industry focuses on how genre and artistic autonomy were defined in operas from diverse eras and countries, explaining the role of literature and politics in this process. Finally, The Crisis of Modernity treats nineteenth-century music, offering new models for 'work' and 'context' to challenge reigning theories of the meaning of these terms.-- Publisher's website.

### **The UN Secretary-General from the Cold War to the New Era**

E. Newman.1998-04-15 An in-depth examination of the evolving peace and security activities of the United Nations Secretary-General in the context of developments in international politics. The constraints and opportunities which the Office has experienced under Pérez de Cuéllar and Boutros-Ghali in the transition to the post-Cold War world and the controversy which has surrounded the Office reflects the volatility and uncertainty of the UN in a changing environment. It is argued that the Secretary-General's activities in the 1990s reflect a development of the international civil service beyond the classical model. Geschichte erzählen. Strategien der Narrativierung von Vergangenheit im Mittelalter Sarah Bowden, Manfred Eikermann, Stephen Mossman, Michael Stolz.2020-11-23 Die

Beiträge dieses Bandes gehen auf eine internationale Tagung zurück, die 2017 in Manchester stattgefunden hat. Sie untersuchen die Darstellung von Geschichte in der mittelalterlichen deutschen Literatur auf der Basis von aktuellen erzähltheoretischen Forschungsansätzen. Dabei wird ein breites Spektrum an Texten, Gattungen und Diskursen in den Blick genommen; als Angelpunkt für zahlreiche relevante Fragestellungen erweist sich die im 12. Jahrhundert entstandene ›Kaiserchronik‹. Geleitet von der Erkenntnis, dass Vergangenheit erst im Erzählen zu Geschichte wird, analysieren die Beiträge einschlägige narrative Strategien.

*How Japan Defends Itself* Kumiko Ahr.2014-06-10 This work analyzes the necessity of changing Japan's present defense policy. The discussion of Japan's defense strategy has been an unpopular topic in Japan for a long time. The reason lies in its gruesome military aggression during the Second World War. Until the end of the Cold War, Japan did not show big concerns about its defense politics because the United States had protected it from communist enemies. Today, however, China's emerging power and North Korea's nuclearization pose serious threats. America, by contrast, suffers from great financial debts and is facing declining military forces. Japan's main doubt has thus come to light: Would America protect Japan in the case of hostile events? Since the world remains a realistic world, nuclearization can be an option in order to deter enemies. It turned out that Japan has not much of a choice but could provoke a discussion to overcome the nuclear dilemma.

**The Fifth Beginning** Robert L. Kelly.2019-02-12 "I have seen yesterday. I know tomorrow." This inscription in Tutankhamun's tomb summarizes The Fifth Beginning. Here, archaeologist

Robert L. Kelly explains how the study of our cultural past can predict the future of humanity. In an eminently readable style, Kelly identifies four key pivot points in the six-million-year history of human development: the emergence of technology, culture, agriculture, and the state. In each example, the author examines the long-term processes that resulted in a definitive, no-turning-back change for the organization of society. Kelly then looks ahead, giving us evidence for what he calls a fifth beginning, one that started about AD 1500. Some might call it “globalization,” but the author places it in its larger context: a five-thousand-year arms race, capitalism’s global reach, and the cultural effects of a worldwide communication network. Kelly predicts that the emergent phenomena of this fifth beginning will include the end of war as a viable way to resolve disputes, the end of capitalism as we know it, the widespread shift toward world citizenship, and the rise of forms of cooperation that will end the near-sacred status of nation-states. It’s the end of life as we have known it. However, the author is cautiously optimistic: he dwells not on the coming chaos, but on humanity’s great potential.

*History, Historians, and Autobiography* Jeremy D.

Popkin.2005-05-09 Though history and autobiography both claim to tell true stories about the past, historians have traditionally rejected first-person accounts as subjective and therefore unreliable. What then, asks Jeremy D. Popkin in *History, Historians, and Autobiography*, are we to make of the ever-increasing number of professional historians who are publishing stories of their own lives? And how is this recent development changing the nature of history-writing, the historical profession, and the genre of autobiography? Drawing on the theoretical work of contemporary critics of autobiography and the philosophy of Paul Ricoeur, Popkin reads the autobiographical classics of

Edward Gibbon and Henry Adams and the memoirs of contemporary historians such as Emmanuel Le Roy Ladurie, Peter Gay, Jill Ker Conway, and many others, he reveals the contributions historians' life stories make to our understanding of the human experience. Historians' autobiographies, he shows, reveal how scholars arrive at their vocations, the difficulties of writing about modern professional life, and the ways in which personal stories can add to our understanding of historical events such as war, political movements, and the traumas of the Holocaust. An engrossing overview of the way historians view themselves and their profession, this work will be of interest to readers concerned with the ways in which we understand the past, as well as anyone interested in the art of life-writing.

**Neuroscience of Human Attachment** Anna Buchheim ,Carol George,Harald Gündel,Roberto Viviani.2017-08-15 Attachment is a biologically emotion regulation based system guiding cognitive and emotional processes with respect to intimate and significant relationships. Secure relationships promote infants' exploration of the world and expand their mastery of the environment. Adverse attachment experiences like, maltreatment, loss, and separation have long been known to have enduring unfavorable effects on human mental health. Research on the neurobiological basis of attachment started with animal studies focusing on emotional deprivation and its behavioral, molecular and endocrine consequences. The present book presents an interdisciplinary synthesis of existing knowledge and new perspectives on the human neuroscience of attachment, showing the tremendous development of this field. The following chapters include innovative studies that are representative of the broad spectrum of current approaches. These involve both differing neurobiological types of substrates using measures like fMRI, EEG, psychophysiology, endocrine parameters, and genetic polymorphisms, as well as psychometric approaches to classify

attachment patterns in individuals. The findings we have acquired in the meanwhile on the neural substrates of attachment in healthy subjects lay the foundation of studies with clinical groups. The final section of the book addresses evidence on changes in the functioning of these neural substrates in psychopathology. *Fachunterricht in Der Fremdsprache* British Council, Centre culturel allemand--Goethe-Institut.1994

*Milkman* Anna Burns.2018-12-04 Winner of the Man Booker Prize  
“Everything about this novel rings true. . . . Original, funny, disarmingly oblique and unique.”—The Guardian  
In an unnamed city, middle sister stands out for the wrong reasons. She reads while walking, for one. And she has been taking French night classes downtown. So when a local paramilitary known as the milkman begins pursuing her, she suddenly becomes “interesting,” the last thing she ever wanted to be. Despite middle sister’s attempts to avoid him—and to keep her mother from finding out about her maybe-boyfriend—rumors spread and the threat of violence lingers. *Milkman* is a story of the way inaction can have enormous repercussions, in a time when the wrong flag, wrong religion, or even a sunset can be subversive. Told with ferocious energy and sly, wicked humor, *Milkman* establishes Anna Burns as one of the most consequential voices of our day.

Here, a sensitive young

woman like Kathrine finds few outlets for her desires. Half Norwegian, half Sami (an indigenous people), Kathrine works for the customs office inspecting the fishing boats arriving regularly in the harbor. She is in her late 20s, has a son from an early marriage, and has drifted into a second loveless marriage to a man whose cold and dominating conventionality forms a bold stroke through the unformed landscape of her life. After she makes a discovery about her husband that deeply wounds her, Kathrine cuts loose from her moorings and her confusion and sets off in search of herself. Her journey begins aboard a ship headed south, taking her below the Arctic Circle for the first time in her life. Kathrine makes her way to France and has the bittersweet experience of a love affair that flares and dies quickly, her starved senses rewarded by the shimmering beauty of Paris. Through a series of poignant encounters, Kathrine is led to the richer life she was meant to have and is brave enough to claim. Using simple words strung together in a melodic alphabet, Peter Stamm introduces us, through a series of intimate sketches, to the heart of an unforgettable woman. Her story speaks eloquently about solitude, the fragility of love, lost illusions, and self-discovery. From the Trade Paperback edition.
