TACCLE Graham Attwell.2009 This book is written for classroom teachers who want to know more about e-learning and who would like to experiment with designing e-learning material to use in their own classrooms. It is primarily targeted at secondary teachers but there is no reason why primary school teachers and adult education teachers should not find it useful too. The other group we had in mind were those of you still undertaking initial teacher training. Although there are some exemplary courses, a depressing number of trainee teachers continue to arrive in the classroom having barely heard the words 'e-learning', still less have hands on experience of it.

But not with Michaela Doucet. He barely knew the provocative beauty and already her face haunted his dreams. Yet he could not let that affect him.

Inevitable Illusions Massimo Piattelli-Palmarini.1996-11-18 Fascinating and insightful. . . . I cannot recall a book that has made me think more about the nature of thinking. -- Richard C. Lewontin Harvard University Everyone knows that optical illusions trick us because of the way we see. Now scientists have discovered that cognitive illusions, a set of biases deeply embedded in the human

mind, can actually distort the way we think. In *Inevitable Illusions*, distinguished cognitive researcher Massimo Piattelli-Palmarini takes us on a provocative, challenging, and thoroughly entertaining exploration of the games our minds play. He opens the doors onto the newly charted realm of the cognitive unconscious to reveal the full range of illusions, showing how they inhibit our ability to reason--no matter what our educational background or IQ. *Inevitable Illusions* is stimulating, eye-opening food for thought.

Freud's Mistress Karen Mack, Jennifer Kaufman. 2014-06-03 "A thrilling story of seduction, betrayal, and loss, *Freud's Mistress* will titillate fans of *Memoirs of a Geisha* and *The Other Boleyn Girl*."—Booklist In fin-de-siècle Vienna, it was not easy for a woman to find fulfillment both intellectually and sexually. But many believe that Minna Bernays was able to find both with one man—her brother-in-law, Sigmund Freud. At once a portrait of two sisters—the rebellious, independent Minna and her inhibited sister, Martha—and of the compelling and controversial doctor who would be revered as one of the twentieth century's greatest thinkers, *Freud's Mistress* is a novel rich with passion and historical detail and "a portrait of forbidden desire [with] a thought-provoking central question: How far are you willing to go to be happy?"* *Publishers Weekly

Material ConneXion George M. Beylerian, Andrew Dent. 2005-11-11 From the largest global resource of new materials comes this innovative new book that connects materials to designers' needs. In each of the seven main sections, this highly illustrated book identifies key trends, looks to the future, and helps design professionals select materials with the most potential for their specific projects. By defining a material based on its base composition rather than current use, *Material ConneXion* allows a designer to fully understand the potential and limitations for a material while conceiving of its new application. Organized to follow the model of the *Material ConneXion* library,

the book's chapters are organized on seven base compositions including: Metals, Glass, Ceramics, Polymers, Natural and naturally derived materials, Carbon-based materials, Cement-based materials. The book includes quotes from 54 leading designers, architects, artists and thinkers worldwide, including Wolfgang Joop, Karim Rashid, Peter Marino, Greg Lynn, Gaetano Pesce, and Philippe Starck, that reflect upon the role of materials in contemporary design and identify their favorite materials. Additionally, the book includes an important reference section with a bibliography, glossary of technical terms, and lists of trade show and professional publication web sites.

Schools and Schooling in the Digital Age Neil Selwyn. 2010-10-07 This book presents a wide-ranging and critical exploration of a topic that lies at the heart of contemporary education. The use of digital technology is now a key feature of schools and schooling around the world. Yet despite its prominence, technology use continues to be an area of education that rarely receives sustained critical attention and thought, especially from those people who are most involved and affected by it. Technology tends to be something that many teachers, learners, parents, policy-makers and even academics approach as a routine rather than reflective matter. Tackling the wider picture, addressing the social, cultural, economic, political and commercial aspects of schools and schooling in the digital age, this book offers to make sense of what happens, and what does not happen, when the digital and the educational come together in the guise of schools technology. In particular, the book examines contemporary schooling in terms of social justice, equality and participatory democracy. Seeking to re-politicise an increasingly depoliticised area of educational debate and analysis, setting out to challenge the many contradictions that characterise the field of education technology today, the author concludes by suggesting what forms schools and schooling in the digital age could, and should, take. This is the perfect volume for anyone interested in the

application and use of technology in education, as well as the education policy and politics that surround it; many will also find its innovative proposals for technology use an inspiration for their own teaching and learning.

The Translator as Writer Susan Bassnett, Peter Bush. 2007-11-15 Over the last two decades, interest in translation around the world has increased beyond any predictions. International bestseller lists now contain large numbers of translated works, and writers from Latin America, Africa, India and China have joined the lists of eminent, bestselling European writers and those from

the global English-speaking world. Despite this, translators tend to be invisible, as are the processes they follow and the strategies they employ when translating. The Translator as Writer bridges the divide between those who study translation and those who produce translations, through essays written by well-known translators talking about their own work as distinctive creative literary practice. The book emphasises this creativity, arguing that translators are effectively writers, or rewriters who produce works that can be read and enjoyed by an entirely new audience. The aim of the book is to give a proper prominence to the role of translators and in so doing to move attention back to the act of translating, away from more abstract speculation about what translation might involve.

Notes on a Shipwreck Davide Enia.2019-02-19 A moving firsthand account of migrant landings on the island of Lampedusa that gives voice to refugees, locals, and volunteers while also exploring a deeply personal father-son relationship. On the island of Lampedusa, the southernmost part of Italy, between Africa and Europe, Davide Enia looks in the faces of those who arrive and those who wait, and tells the story of an individual and collective shipwreck. On one side, a multitude in motion, crossing entire nations and then the Mediterranean Sea under conditions beyond any imagination. On the other, a handful of men and women on the border of an era and a continent, trying to welcome the newcomers. In the middle is the author himself, telling of what actually happens at sea and on land, and the failure of words in the attempt to understand the present paradoxes. Enia reveals the emotional consequences of this touching and disconcerting reality, especially in his relationship with his father, a recently retired doctor who agrees to travel with him to Lampedusa. Witnessing together the public pain of those who land and those who save them from death, alongside the private pain of his uncle's illness, pushes them to reinvent their relationship, to forge a new and unprecedented dialogue that replaces the silences of the past.

Ask Dr. Mueller Cookie Mueller.1997 Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from Walking Through Clear Water in a Pool Painted Black and other

publications. Also the best of Cookie's art columns from Details magazine, and the funniest of her advice columns from the East Village Eye, on everything from homeopathic medicine to how to cut your cocaine with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early '80s - that moment before Bright Lights, Big City, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.

Production and Comprehension of Utterances (RLE Linguistics B: Grammar) I.M.

Schlesinger.2014-01-10 In this volume, the author reviews the results of research on language performance and proposes a model of production and comprehension. Although recent developments in linguistics are taken into account, consideration of other requirements of a performance model leads to the conclusion that the grammar the speaker has in mind differs from the grammar as currently conceived of by most linguists. The author is also critical of recent computer simulations of language performance on the basis that they fall short of describing what goes on in human production and comprehension. The author therefore proposes that the basic issues must be rethought and new theoretical foundations reformulated, in order to arrive at a viable

theory of language functioning. In developing the framework of the model presented in this book, requirements of flexibility in the performance mechanisms, the probabilistic nature of comprehension processes, and the interleaving of linguistic rules with context and knowledge of the world are emphasized.

Precarious objects Ilaria Vanni. 2020-12-01 *Precarious objects* explores the traffic between design and activism by telling stories drawn from contemporary counter-precarity cases in Italy. As a category of labour and of global social experience in general, precarity is a wicked problem that

affects all aspects of life, regulating the production and circulation of a wide range of material and immaterial effects. In this book, three microhistories of counter-precarity explore existent forms of resistance and resilience to precarity. Drawing on ethnographies and archives and bringing together debates from design theory, cultural studies and geography, this study shows how design objects and practices recode political communication and reorient how things are imagined, produced and circulated. It also shows how design as a practice can reconfigure material conditions and prefigure ways to repair some of the effects of precarity on everyday life.
