Year-round Education, Year-round Opportunities Claire Quinlan,California. State Department of Education.1987 An increase in the number of schools adopting year-round programs prompted this analysis of all year-round education programs in California. Chapter 1, Introduction to the Study, outlines study organization and calendar scheduling plans. Design of the Study, chapter 2, describes data obtained from interviews, surveys, databases, site visits, and California Assessment Program files. Chapter 3, Academic Achievement in Year-round Schools, interprets achievement data. Compared to traditional schools, year-round schools most frequently serve lower socioeconomic communities and have twice as many limited and non-English-speaking students and a larger percentage of minority students. Many schools are not achieving at predicted levels, though single-track schools have the strongest performance. Chapter 4, Cost Analysis, reveals that increased per-pupil costs compare with those of traditional programs. Characteristics of the Year-round Education Program, chapter 5, discusses operations and survey results. Teachers experienced better quality instruction and preferred teaching year-round. Students had mixed feelings about school scheduling. Parents' overall satisfaction was positive. The final chapter, Conclusions and Recommendations, indicates that year-round education is an acceptable alternative. Overcrowding is relieved, new school construction is avoided, and flexible curriculum planning and extended teacher employment are offered. Recommendations are provided to districts and state agencies. Twenty-one tables and 13 figures exhibit data findings; 5 appendices provide survey instruments. (CJH)

Principal Peer Evaluation Libia S. Gil.2001-06-21 This book presents a framework for administrator peer evaluation within school districts that is already at work and succeeding. The evaluation design emphasizes results, promotes professional growth and development, models expectations for students and teachers, and meets Interstate School Leaders Licensure Consortium standards. Chapter 1 highlights the historical context for challenging the status quo of a school district and moving to a different level of professional engagement. Chapter 2 describes the genesis of a peer-evaluation concept for principals. A framework for student-based decision making is also outlined in this chapter. Chapter 3 documents the process of establishing a new format for the evaluation process. Chapter 4 contains crucial information for school districts seeking a model and describes the process of creating continuum-based principal performance and leadership standards. Chapter 5 contains a summary of progress, a view to the future, an examination of unresolved challenges, and the identification of future opportunities that will fuel efforts as the leadership role is redefined. Insights from principals' perspectives are also provided in this chapter. Appendix A contains a copy of the article, Principals Evaluating Peers, in which the early phases of establishing the principal peer-evaluation process are described and its strengths and weaknesses identified. Educational Leadership Bruce A. Jones.2000-05-15 The contributors provided in this book shed light on and initiate debates about important policy issues associated with education reform and improvement. The authors do this by linking conceptual frameworks to past research, analyzing these challenges, and speculating about the contours of future research and school practice. Centering on policy research-based examinations of the future in public education in the United States, this book examines policy issues as they relate to public education governance, finance, curriculum development and community relations. At a conceptual level, the volume explores along several dimensions whether or not public education should exist in its current form, and what is the connection between future configurations of public education, policy development and the global economy, *Year-round Schools* United States. The Year-round School Charles E. Ballinger, Norman Kirschenbaum, Rita Pokol Poimbeau.1987 This fastback examines the instructional and administrative benefits of year-round education and describes schools currently operating on a year-round schedule. Instructional benefits of year-round education for gifted, average, and remedial students are cited in a brief introductory article. Other benefits, discussed in more detail, include relief from overcrowded facilities, additional compensation for teachers, enhancement of the teaching profession, reduction of teacher burnout, cost savings, improved teacher and student attendance, reduced vandalism, and improved opportunities for student employment. A series of possible year-round plans are next described: 45-15 single-track; 45-15 multi-track; 60-20 plan; 60-15 plan; 90-30 plan; trimester plan; quarter plan; quinmester plan; concept 6 plan; five-track, five-term plan; and a flexible all-year plan. Remaining sections discuss teachers' and parents' reactions to the year-round concept and considerations for bringing about change. The final section presents profiles of year-round education in action at selected elementary, middle, and high schools. A 15-item bibliography is included. (TE)

Summer versus School James Pedersen.2015-01-22 As American educational reformers continue to find innovative ways to address the global achievement gap, many experts seem to agree that increasing instructional time is a viable option. In addition to extending the school day, some educational leaders have looked to modifying the traditional academic calendar to address some of the academic losses that occur when students have 8-10 weeks of summer vacation each year.
