ABOUT THE AUTHOR During my childhood and my teenage years, I found myself prone to taking 'action' to relieve my daily stresses, problems and grievances. Unfortunately, the 'actions' I took tended to be extremely self-destructive in nature. It wasn't until I was older that I realized how calming, stress relieving and relaxing colour therapy books can truly be - I guess the term 'therapy' should have made that obvious to me, oh well. I have always had an interest in things that have been considered to be 'socially unacceptable' and 'taboo,' and wanted my coloring books to reflect this. Hence the creation of 'Colorful Coloring Books,' a series of adult themed color therapy books that aim to give you both a relaxing and enjoyable experience, and to also, hopefully, make you laugh along the way. Positive Spam Ann.2021-04-15 Time to color off your addiction !

Maybe you are wondering how can coloring be helpful in recovery? Well, just to start with, it is scientifically proven that coloring helps to relive stress and anxiety. What is more, it exercises the whole brain, stirring your imagination and creativity. Apart from that it's an easy way to displace negative emotions when you are focused on coloring, the emotions slowly fade away and very often they're replaced with positive ones, like happiness and joy. Coloring is also a form of meditation which allows you to become more self-aware and mindful. With the addition of positive affirmations, coloring becomes even more beneficial. Studies show that our minds and our bodies are closely connected. Many addicts suffer from mood, anxiety or personality disorders. Some addictions are caused by traumatic experiences in childhood or later on. Generally, people with addiction already lack self-esteem even before they start using, but the fact that they use massively affects their mental state. They experience self-doubt, depression, anxiety, shame and many more negative emotions. That is why it is so hard to recover from addiction. It is like a vicious circle: you feel the urge to use, to dull these negative emotions, but after using, you feel even worse because you have failed, and again you feel the urge to dull these feelings and here we go again. It is not a lost cause, though! Positive affirmations help to build-up positive emotions and feelings in your mind. Have you ever heard the saying: a lie told often enough becomes the truth? It is the same with affirmations. If you repeat them over and over again your brain will be made to finally believe them and force the negative stuff out of your mind. You are what you think: a positive mind is an invincible one. You can

beat anything, including your addiction. The mix of coloring pages and short positive affirmations is a very powerful tool in building positive self-awareness. Thanks to coloring you enter a meditative state and you focus even more on the positive affirmation on the page. You engrave the affirmation in your mind and it stays with you, even many hours after you've stopped coloring. Don't waste any more time ! Scroll up, buy the book and start reprogramming your mind and your life ! ... or buy this book for the person you care about so they could start reprogramming their mind
