*The Entry of the Slavs Into Christendom* A. P. Vlasto.1970-10-02 Dr Vlasto reviews the early history of the various Slav peoples (from about AD 500 onwards) and traces their gradual emergence as Christian states within the framework of either West or East European culture. Special attention is paid to the political and cultural rivalry between East and West for the allegiance of certain Slav peoples, and to the degree of cultural exchange within the Slav world, associated in particular with the use of the Slav liturgical language. His examination of all the Slav peoples and extensive use of original source material in many different languages enables Dr Vlasto to give a particularly comprehensive study of the subject.

*The Ashgate Research Companion to Byzantine Hagiography* Professor Stephanos Efthymiadis.2013-07-28 Hagiography is the most abundantly represented genre of Byzantine literature and it offers crucial insight to the development of religious thought and practice, social and literary life, and the history of the empire. It emerged in the fourth century with the pioneering Life of St Antony and continued to evolve until the end of the empire in the fifteenth century, and beyond. The appeal and dynamics of this genre radiated beyond the confines of Byzantium, and it was practised also in many Oriental and Slavic languages within the orbit of the broader Byzantine world. This companion is the work of an international team of specialists and represents the first comprehensive survey ever produced in this field. It consists of two volumes and is addressed to both a broader public and the scholarly community of Byzantinists, Medievalists, historians of religion and theorists of the narrative. This first volume covers the authors and texts of the four distinctive periods during which Greek Byzantine hagiography developed, as well as the hagiography produced in Oriental and Slavic languages and in geographical milieux around the periphery of the empire, from Italy to Armenia. Volume II addresses questions of genres and the social and other contexts of Byzantine hagiography.

*Medieval Animals on the Move* László Bartosiewicz,Alice M. Choyke.2021-02-24 This book investigates relations between humans and animals over several centuries with a focus on the Middle Ages, since important features of our perceptions regarding animals have been rooted in that period. Elucidating various aspects of medieval human-animal relationships requires transdisciplinary discourse, and so this book aims to reconcile the materiality of animals with complex cultural systems illustrating their subtle transitions 'between body and mind'.

**The Blinded State** Mitko B. Panov.2019-03-25 This book offers a new approach to the late 10th- and early 11th-century state of Samuel. Mitko B. Panov deconstructs the Byzantine distorted image of the Samuel's polity that was recycled by the Balkan elites of the medieval and modern periods and exploited for their political agendas and territorial aspirations.

**The Visibility of Modernization in Architecture** Gevork Hartoonian.2023-07-28 This edited collection explores the visibility of modernization in architecture produced in different capitalist regions across the world and provides readers with a historico-theoretical and historico-geographical discussion. Focusing on a particular building type, an influential architect's work, as well as relevant texts and documents, each chapter addresses the many facets of delay which are central to the problematization of capitalism's progressive dissemination of technological and aesthetic regimes of modernism. This collection underlines the centrality of temporality for a critical understanding of colonialism, modernism, and capitalism. The book is primarily concerned with the historical timeline, the tangential point when a nation enters modernization processes. In exploring modernism in diverse regions such as East Asia, Pacific, Eastern Europe, and Iran, each chapter addresses the historiographic and architectonic unfolding of modernization beyond the western hemisphere. The exploration of these diverse case-studies will be of interest to students of architecture and researchers working on the collision of temporalities and the subject's critical importance for different country's built-environments.

The New Grove Dictionary of Music and Musicians Stanley Sadie, John Tyrrell.2001 This reference classic has approximately doubled in size since its last publication 20 years ago, and the expansion involves more than the thorough revision and addition of articles about music of the past. More articles about 20th-century composers and composer-performers have been added, as well as topical articles about the gender-related, multicultural, and interdisciplinary ways that music is now being studied. Add to these changes that New Grove is also available online, making it a source that would have made its many-faceted creator Sir George Grove proud--Outstanding reference sources, American Libraries, May 2002.
