Heritage Sites of Astronomy and Archaeoastronomy in the Context of the UNESCO World Heritage Convention Clive L. N. Ruggles.2012 This Thematic Study is a joint venture between ICOMOS, the advisory body to UNESCO on cultural sites, and the International Astronomical Union. It presents an overall vision on astronomical heritage, attempts to identify what constitutes outstanding universal significance to humankind in relation to astronomy, and identifies broad issues that could arise in the assessment of cultural properties relating to astronomy. This is the first Thematic Study in any field of science heritage. It is elaborated using examples of properties from around the world, including some already on the World Heritage List or national Tentative Lists. The subject matter ranges from early prehistory to modern astrophysics and space heritage, and also prominently includes dark sky issues and modern observatory sites. An e-version of the Thematic Study was published in June 2010 in time to be presented to the 2010 meeting of UNESCO's World Heritage Committee, where it was duly approved. It has been circulated officially by the WHC to all of UNESCO's National Commissions. This full-colour paperback edition with some updates, and reformatted to new ICOMOS standards, was published in 2011 and is now offered for public sale.

Understanding Securitisation Theory Thierry Balzacq.2010-09-13 This volume aims to provide a new framework for the analysis of securitization processes, increasing our understanding of how security issues emerge, evolve and dissolve. Securitisation theory has become one of the key components of security studies and IR courses in recent years, and this book represents the first attempt to provide an integrated and rigorous overview of securitization practices within a coherent framework. To do so, it organizes securitization around three core assumptions which make the theory applicable to empirical studies: the centrality of audience, the co-dependency of agency and context and the structuring force of the dispositif. These assumptions are then investigated through discourse analysis, process-tracing, ethnographic research, and content analysis and discussed in relation to extensive case studies. This innovative new book will be of much interest to students of securitisation and critical security studies, as well as IR theory and sociology. Thierry Balzacq is holder of the Tocqueville Chair on Security Policies and Professor at the University of Namur. He is Research Director at the University of Louvain and Associate Researcher at the Centre for European Studies at Sciences Po Paris.

Solomon Speaks on Reconnecting Your Life Eric Pearl,Frederick Ponzlov.2014-05-20 Why are prominent doctors, quantum physicists, and researchers all over the world interested in the seemingly chance encounter that Dr. Eric Pearl had with one of his patients? What was it about that encounter that would not only radically accelerate the trajectory of his life, but ultimately affect the lives of millions . . . and will most likely profoundly affect your life as well? What is this phenomenon? In his international bestseller, *The Reconnection: Heal Others, Heal Yourself*, Dr. Pearl taught readers how to access and tap into a comprehensive spectrum of energy, light, and information previously inaccessible to anyone, anywhere. In doing so, he allowed us to entirely transcend complex energy-healing techniques and bring about dramatic, often instantaneous, lifelong healings and life transformations! Since then, the world has clamored for Eric's second book. His response? When I have something else to say. Today Dr. Pearl, in collaboration with Frederick Ponzlov, indeed has something else to say. You might have to reconsider everything you've read up until now about healing, consciousness, and our four-dimensional existence here on Earth. As guided by the spirit of Solomon, an extradimensional intelligence that speaks through Frederick, experience firsthand the insights imparted during the evolution of this unique transmodality known today as Reconnective Healing. Now you can discover these insights and apply them to your life—insights that have revolutionized the healing world and given us the key to access the immense power that we each have within our lives. Murambi, The Book of Bones Boubacar Boris Diop,Fiona Mc Laughlin.2006-04-04 [W]hat is true of Rwanda is true in each of us; we all share in Africa. -- L'Harmattan [This novel] comes closer than have many political scientists or historians to trying to understand why this small country... sank in such appalling violence. -- Radio France International In April of 1994, nearly a million Rwandans were killed in what would prove to be one of the swiftest, most terrifying killing sprees of the 20th century. In *Murambi, The Book of Bones*, Boubacar Boris Diop comes face to face with the chilling horror and overwhelming sadness of the tragedy. Now, the power of Diop's acclaimed novel is available to English-speaking readers through Fiona Mc Laughlin's crisp translation. The novel recounts the story of a Rwandan history teacher, Cornelius Uvimana, who was living and working in Djibouti at the time of the massacre. He returns to Rwanda to try to comprehend the death of his family and to write a play about the events that took place there. As the novel unfolds, Cornelius begins to understand that it is only our humanity that will save us, and that as a writer, he must bear witness to the atrocities of the genocide. From the novel: If only by the way people are walking, you can see that tension is mounting by the minute. I can feel it almost physically. Everyone is running or at least hurrying about. I meet more and more passersby who seem to be walking around in circles. There seems to be another light in their eyes. I think of the fathers who have to face the anguished eyes of their children and who can't tell them anything. For them, the country has become an immense trap in the space of just a few hours. Death is on the prowl. They can't even dream of defending themselves. Everything has been meticulously prepared for a long time: the

administration, the army, and the [militia] are going to combine forces to kill, if possible, every last one of them.

The Enigma of Reason Hugo Mercier, Dan Sperber. 2017-04-17 "Brilliant... Timely and necessary." —Financial Times "Especially timely as we struggle to make sense of how it is that individuals and communities persist in holding beliefs that have been thoroughly discredited." —Darren Frey, Science "If reason is what makes us human, why do we behave so irrationally? And if it is so useful, why didn't it evolve in other animals? This groundbreaking account of the evolution of reason by two renowned cognitive scientists seeks to solve this double enigma. Reason, they argue, helps us justify our beliefs, convince others, and evaluate arguments. It makes it easier to cooperate and communicate and to live together in groups. Provocative, entertaining, and undeniably relevant, *The Enigma of Reason* will make many reasonable people rethink their beliefs. "Reasonable-seeming people are often totally irrational. Rarely has this insight seemed more relevant... Still, an essential puzzle remains: How did we come to be this way?... Cognitive scientists Hugo Mercier and Dan Sperber [argue that] reason developed not to enable us to solve abstract, logical problems... [but] to resolve the problems posed by living in collaborative groups." —Elizabeth Kolbert, *New Yorker* "Turns reason's weaknesses into strengths, arguing that its supposed flaws are actually design features that work remarkably well." —Financial Times "The best thing I have read about human reasoning. It is extremely well written, interesting, and very enjoyable to read." —Gilbert Harman, Princeton University

Exile, Non-Belonging and Statelessness in Grangaud, Jabès, Lubin and Luca GREG.

KERR. 2021-06-07 A close study of four French-language poets and the poetry of exile. Poetry has often been understood as a powerful vector of collective belonging. The idea that certain poets are emblematic of a national culture is one of the chief means by which literature historicizes itself, inscribes itself in a shared cultural past, and supplies modes of belonging to those who consume it. But, how does the exiled, migrant, or translingual poet complicate this narrative? For Armen Lubin, Ghérasim Luca, Edmond Jabès, and Michelle Grangaud, the practice of poetry is inseparable from a sense of restlessness or unease. Ranging across borders within and beyond the Francosphere—from Algeria, Armenia, Egypt, and Romania—this book shows how a poetic practice inflected by exile, statelessness, or non-belonging has the potential to disrupt long-held assumptions about the relation between subjects, the language they use, and the place from which they speak.

Daring Greatly Brené Brown. 2013-01-17 Researcher and thought leader Dr. Brené Brown offers a powerful new vision in *Daring Greatly* that encourages us to embrace vulnerability and imperfection, to live wholeheartedly and courageously. 'It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; . . . who at best knows in the end the triumph of high achievement, and who at worst, if he fails, at least fails while daring greatly' -Theodore Roosevelt Every time we are introduced to someone new, try to be creative, or start a difficult conversation, we take a risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - we strive to appear perfect. Challenging everything we think we know about vulnerability, Dr. Brené Brown dispels the widely accepted myth that it's a weakness. She argues that vulnerability is in fact a strength, and when we shut ourselves off from revealing our true selves we grow distanced from the things that bring purpose and meaning to our lives. *Daring Greatly* is the culmination of 12 years of groundbreaking social research, across the home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly. 'Brilliantly insightful. I can't stop thinking about this book' -Gretchen Rubin Brené Brown, Ph.D., LMSW is a #1 New York Times bestselling author and a research professor at the University of Houston Graduate College of Social Work. Her groundbreaking work was featured on Oprah Winfrey's Super Soul Sunday, NPR, and CNN. Her TED talk is one of the most watched TED talks of all time. Brené is also the author of *The Gifts of*

The Temple of Dawn Yukio Mishima.2013-04-09 Yukio Mishima's *The Temple of Dawn* is the third novel in his masterful tetralogy, *The Sea of Fertility*. Here, Shigekuni Honda continues his pursuit of the successive reincarnations of Kiyooki Matsugae, his childhood friend. Travelling in Thailand in the early 1940s, Shigekuni Honda, now a brilliant lawyer, is granted an audience with a young Thai princess—an encounter that radically alters the course of his life. In spite of all reason, he is convinced she is the reincarnated spirit of his friend Kiyooki. With this seemingly simple conceit, the characters of *The Planetarium* are set in orbit and a galaxy of argument, resentment, and bitterness erupts. Telling the story from various points of view, Sarraute focuses below the surface, on the emotional lives of the characters in a way that surpasses even Virginia Woolf. Always deeply engaging, *The Planetarium* reveals the deep disparity between the way we see ourselves and the way others see us.

Uniting of Europe Ernst B. Haas, Ernst Haas, Dr.2020-11-15 The University of Notre Dame Press is pleased to bring Ernst Haas's classic work on European integration, *The Uniting of Europe*, back into print. First published in 1958 and last printed in 1968, this seminal volume is the starting point for anyone interested in the pre-history of the European Union. Haas uses the European Coal and

Steel Community (ECSC) as a case study of the community formation processes that occur across traditional national and state boundaries. Haas points to the ECSC as an example of an organization with the power to redirect the loyalties and expectations of political actors. In this pathbreaking book Haas contends that, based on his observations of the actual integration process, the idea of a united Europe took root in the years immediately following World War II. His careful and rigorous analysis tracks the development of the ECSC, including, in his 1968 preface, a discussion of the eventual loss of the individual identity of the ECSC through its absorption into the new European Community. Featuring a new introduction by Haas analyzing the impact of his book over time, as well as an updated bibliography, *The Uniting of Europe* is a must-have for political scientists and historians of modern and contemporary Europe. This book is the inaugural volume of Notre Dame's new Contemporary European Politics and Society Series.

Artifact Space Miles Cameron.2021-06-24 Out in the darkness of space, something is targeting the Greatships. With their vast cargo holds and a crew that could fill a city, the Greatships are the lifeblood of human occupied space, transporting an unimaginable volume - and value - of goods from City, the greatest human orbital, all the way to Tradepoint at the other, to trade for xenoglas with an unknowable alien species. It has always been Marca Nbaro's dream to achieve the near-impossible: escape her upbringing and venture into space. All it took, to make her way onto the crew of the Greatship Athens was thousands of hours in simulators, dedication, and pawning or selling every scrap of her old life in order to forge a new one. But though she's made her way onboard with faked papers, leaving her old life - and scandals - behind isn't so easy. She may have just combined all the dangers of her former life, with all the perils of the new . . .

The Health Of Women Jill Gay.2018-05-04 This book provides a state-of-the-art, comprehensive review of the many factors that affect women's health, ranging from low socioeconomic status and the impact of the debt crisis to more direct medical determinants, such as poor nutrition, hemorrhage, eclampsia, and infection. At stake are the unnecessary and preventable deaths of women and girls around the globe. The contributors assess the reduced quality of life for women and the often unacknowledged contributions of women and girls as the backbone of production in both developing and developed countries. Synthesizing perspectives of policymakers and practitioners, researchers and scholars, *The Health of Women* urges major new initiatives to understand and improve women's health, taking into account biological elements such as the life cycle of women as well as cultural constraints and socioeconomic realities.

The Space of Literature Maurice Blanchot.2015-11 Maurice Blanchot, the eminent literary and cultural critic, has had a vast influence on contemporary French writers--among them Jean Paul Sartre and Jacques Derrida. From the 1930s through the present day, his writings have been shaping the international literary consciousness. *The Space of Literature*, first published in France in 1955, is central to the development of Blanchot's thought. In it he reflects on literature and the unique demand it makes upon our attention. Thus he explores the process of reading as well as the nature of artistic creativity, all the while considering the relation of the literary work to time, to history, and to death. This book consists not so much in the application of a critical method or the demonstration of a theory of literature as in a patiently deliberate meditation upon the literary experience, informed most notably by studies of Mallarmé, Kafka, Rilke, and Hölderlin. Blanchot's discussions of those writers are among the finest in any language.

Walk the Vanished Earth Erin Swan.2023-05-30 This rich, endlessly engaging novel is, one hopes, the first in a long career for an author who has the talent and imagination to write whatever she wants. --*The New York Times* In the tradition of *Station Eleven*, *Severance* and *The Dog Stars*, a beautifully written and emotionally stirring dystopian novel about how our dreams of the future may shift as our environment changes rapidly, even as the earth continues to spin. The year is 1873, and a bison hunter named Samson travels the Kansas plains, full of hope for his new country. The year is 1975, and an adolescent girl named Bea walks those very same plains; pregnant, mute, and raised in

extreme seclusion, she lands in an institution, where a well-meaning psychiatrist struggles to decipher the pictures she draws of her past. The year is 2027 and, after a series of devastating storms, a tenacious engineer named Paul has left behind his banal suburban existence to build a floating city above the drowned streets that were once New Orleans. There with his poet daughter he rules over a society of dreamers and vagabonds who salvage vintage dresses, ferment rotgut wine out of fruit, paint murals on the ceiling of the Superdome, and try to write the story of their existence. The year is 2073, and Moon has heard only stories of the blue planet—Earth, as they once called it, now succumbed entirely to water. Now that Moon has come of age, she could become a mother if she wanted to—if only she understood what a mother is. Alone on Mars with her two alien uncles, she must decide whether to continue her family line and repopulate humanity on a new planet. A sweeping family epic, told over seven generations, as America changes and so does its dream, *Walk the Vanished Earth* explores ancestry, legacy, motherhood, the trauma we inherit, and the power of connection in the face of our planet's imminent collapse. This is a story about the end of the world—but it is also about the beginning of something entirely new. Thoughtful, warm, and wildly prescient, this work of bright imagination promises that, no matter what the future looks like, there is always room for hope.

Not Born Yesterday Hugo Mercier. 2022-03-22 Why people are not as gullible as we think *Not Born Yesterday* explains how we decide who we can trust and what we should believe—and argues that we're pretty good at making these decisions. In this lively and provocative book, Hugo Mercier demonstrates how virtually all attempts at mass persuasion—whether by religious leaders, politicians, or advertisers—fail miserably. Drawing on recent findings from political science and other fields ranging from history to anthropology, Mercier shows that the narrative of widespread gullibility, in which a credulous public is easily misled by demagogues and charlatans, is simply wrong. Why is mass persuasion so difficult? Mercier uses the latest findings from experimental psychology to show how each of us is endowed with sophisticated cognitive mechanisms of open vigilance. Computing a variety of cues, these mechanisms enable us to be on guard against harmful beliefs, while being open enough to change our minds when presented with the right evidence. Even failures—when we accept false confessions, spread wild rumors, or fall for quack medicine—are better explained as bugs in otherwise well-functioning cognitive mechanisms than as symptoms of general gullibility. *Not Born Yesterday* shows how we filter the flow of information that surrounds us, argues that we do it well, and explains how we can do it better still.

Communicating Science Toss Gascoigne, Bernard Schiele, Joan Leach, Michelle Riedlinger, Luisa Massarani, Bruce V. Lewenstein, Peter Broks. 2020-09-14 Modern science communication has emerged in the twentieth century as a field of study, a body of practice and a profession—and it is a practice with deep historical roots. We have seen the birth of interactive science centres, the first university actions in teaching and conducting research, and a sharp growth in employment of science communicators. This collection charts the emergence of modern science communication across the world. This is the first volume to map investment around the globe in science centres, university courses and research, publications and conferences as well as tell the national stories of science communication. How did it all begin? How has development varied from one country to another? What motivated governments, institutions and people to see science communication as an answer to questions of the social place of science? *Communicating Science* describes the pathways followed by 39 different countries. All continents and many cultures are represented. For some countries, this is the first time that their science communication story has been told.

Beauvoir in Time Meryl Altman.2020-11-23 Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: bad sex, dated views about lesbians, and intersections with race and class. Through close reading of Beauvoir's writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing that Beauvoir is still good to think with today.
