Languages in Contact John Holm. 2003-12-18 There is widespread agreement that certain non-Creole language varieties are structurally quite different from the European languages out of which they grew; however, until recently, linguists have found difficulty in accounting for either their genesis or their synchronic structure. This 2003 study argues that the transmission of source languages from native to non-native speakers led to 'partial restructuring', whereby some of the source languages' morphosyntax was retained, but a significant number of substrate and interlanguage features were also introduced. Comparing languages such as African-American English, Afrikaans and Brazilian Vernacular Portuguese, John Holm identifies the linguistic processes that lead to partial restructuring, bringing into focus a key span on the continuum of contact-induced language change which has not previously been analysed. Informed by the first systematic comparison of the social and

linguistic facts in the development of these languages, this book will be welcomed by students of contact linguistics, sociolinguistics and anthropology.

Memory of Another River Eugénio de Andrade.1988

Colette Julia Kristeva.2005 The third book in Kristeva's trilogy on female genius, Colette interlaces commentary on the life and work of this notorious French novelist who made it possible for women to write erotic literature. The result is an elegant and sophisticated critique filled with psychoanalytic insight.

The New Testament as Canon Brevard S. Childs.1994 In this classic study, Childs sets forth the canonical approach to understanding the New Testament and provides a canonical examination of the entire New Testament corpus. The book concludes with four discourses on such topics as the hermeneutical problem of the New Testament text criticism, the interpretation of the parables within a canonical context, and a review of selected commentaries for pastor and teacher.

Loveless Love Luigi Pirandello.2019-10-28 In *The Wave* , a young man falls dangerously in love with the tenant downstairs, who is engaged to be married; in *The Signorina* , a flirtatious young woman is caught between her feelings and her parents desire for a good match; in *A Friend to the Wives* , the peerless Pia Tolosani leaves a trail of regret in the life of a former suitor.In this collection of stories Pirandello s first published work of fiction the master of Italian modernism dissects the passions that are either dimly felt or unrequited, ultimately raising doubts about the very nature and existence of love, while simultaneously foreshadowing the themes and the psychologically nuanced characters that he would go on to develop in his later works. ABOUT THE SERIES: The 101 Pages series has been created with the aim of redefining and enriching the classics canon by promoting unjustly neglected works of enduring significance. These texts have been treated

with a fresh editorial approach, and are presented in an elegantly designed format.

The Modern Stage and Other Worlds (Routledge Revivals)

Austin E. Quigley. 2015-08-11 Modern plays are strikingly diverse and, as a result, any attempt to locate an underlying unity between them encounters difficulties: to focus on what they have in common is often to overlook what is of primary importance in particular plays; to focus on their differences is to note the novelty of the plays without increasing their accessibility. In this study, first published in 1985, Austin E. Quigley takes as his paradigm case the relationship between the world of the stage and the world of the audience, and explores various modes of communication between domains. He asks how changes in the structure of the drama relate to changes in the structure of the theatre, and changes in the role of the audience. Detailed interpretations of plays by Pinero, Ibsen, Strindberg, Brecht, Ionesco, Beckett and Pinter question principles about the modern theatre and establish links between drama structure and theatre structure, theme, and performance space.

The Urbanization of Rural Dialect Speakers Stella Maris

Bortoni-Ricardo. 2008-12-18 This book investigates, from a linguistic point of view, how rural migrants adjust to an urban environment. The focus of Dr Bortoni-Ricardo's study is speakers of Caipira, a dialect of Brazilian Portuguese, who moved into a satellite city of Brasilia. The volume examines in careful detail the historical and synchronic sociolinguistic background of the migrants and the changes that have taken place in their linguistic repertoire, with particular emphasis on phonological variables. Both the theoretical framework and novel methodology employed here derive from the assumption that there are statistically measurable relations between the characteristics of a person's social network and his/her linguistic behaviour. The volume will thus be of interest to all readers, whether linguists, psychologists or anthropologists, interested in language accommodation. As an

empirical study of cross-cultural communication problems, it will also be of value to social scientists concerned with the process of rural-urban migration.

Modern drama in theory and practice J. L. Styan.1980

Dictionary of Jesus and the Gospels (2nd edn) J B GREEN, J

BROWN, N PERRIN.2020-05-21 The Dictionary of Jesus and the Gospels is unique among reference books on the Bible, the first volume of its kind since James Hastings published his Dictionary of Christ and the Gospels in 1909. In the more than eight decades since Hastings, our understanding of Jesus, the Evangelists and their world has grown remarkably. New interpretive methods illumined the text, the ever-changing profile of modern culture has put new questions to the Gospels, and our understanding of the Judaism of Jesus's day has advanced in ways that could not have been predicted in Hastings's day. But for many readers of the Gospels the new outlook on the Gospels remains hidden within technical journals and academic monographs. The Dictionary of Jesus and the Gospels bridges the gap between scholars and those pastors, teachers, students and lay people desiring in-depth treatment of select topics in an accessible and summary format. The topics range from cross-sectional themes (such as faith, law, Sabbath) to methods of interpretation (such as form criticism, redaction criticism, sociological approaches), from key events (such as the birth, temptation and death of Jesus) to each of the four Gospels as a whole. Some articles - such as the Dead Sea Scrolls, rabbinic traditions and revolutionary movements at the time of Jesus - provide significant background information to the Gospels. Others reflect recent and less familiar

issues in Jesus and Gospel studies, such as divine man, ancient rhetoric and the chreiai. Contemporary concerns of general interest are discussed in articles covering such topics as healing, the demonic and the historical reliability of the Gospels. And for those entrusted with communicating the message of the Gospels, there is an extensive article on preaching from the Gospels. The Dictionary of Jesus and the Gospels presents the fruit of evangelical New Testament scholarship at the end of the twentieth century - committed to the authority of Scripture, utilising the best of critical methods, and maintaining dialog with contemporary scholarship and challenges facing the church.

The Republic of Letters Marc Fumaroli.2018-09-18 A provocative exploration of intellectual exchange across four centuries of European history by the author of *When the World Spoke French*. In this fascinating study, preeminent historian Marc Fumaroli reveals how an imagined republic of ideas and interchange fostered the Italian Renaissance, the Enlightenment, and the French Revolution. He follows exchanges among Petrarch, Erasmus, Descartes, Montaigne, and others from the fifteenth through the eighteenth centuries, through revolutions in culture and society. Via revealing portraits and analysis, Fumaroli traces intellectual currents engaged with the core question of how to live a moral life--and argues that these men of letters provide an example of the exchange of knowledge and ideas that is worthy of emulation in our own time. Combining scholarship, wit, and reverence, this thought-provoking volume represents the culmination of a lifetime of scholarship.

The Theatre of Revolt Robert Sanford Brustein.1991 Focusing on Ibsen, Strindberg, Chekhov, Shaw, Brecht, Pirandello, O'Neill, and Genet, Mr. Brustein uncovers the roots of the modern theatre in the soil of the rebellion they cultivated. One of the standard and decisive books on the modern theater. SQNew

When The World Spoke French Marc Fumaroli.2011-06-14 A New York Review Books Original During the eighteenth century, from the death of Louis XIV until the Revolution, French culture set the standard for all of Europe. In Sweden, Austria, Italy, Spain, England, Russia, and Germany, among kings and queens, diplomats, military leaders, writers, aristocrats, and artists, French was the universal language of politics and intellectual life. In *When the World Spoke French*, Marc Fumaroli presents a gallery of portraits of Europeans and Americans who conversed and corresponded in French, along with excerpts from their letters or other writings. These men and women, despite their differences, were all irresistibly attracted to the ideal of human happiness inspired by the Enlightenment, whose capital was Paris and whose king was Voltaire. Whether they were in Paris or far away, speaking French connected them in spirit with all those who desired to emulate Parisian tastes, style of life, and social

pleasures. Their stories are testaments to the appeal of that famous “sweetness of life” nourished by France and its language. *Fascist Socialism* Pierre Drieu La Rochelle.2021-05-22 In this essay published in 1934, the writer Pierre Drieu la Rochelle demonstrates the fundamental contradictions of Marxism and draws a parallel between Soviet-style communism and the Italian and German fascist regimes, whose rapprochement he in a way welcomes by declaring himself in turn a socialist and a fascist...

The Harder They Come Michael Thelwell.1988 Like the acclaimed film of the same title, this lyrical, lilting, densely textured novel is based on the exploits of the legendary Jamaican folk hero and reggae star Rhygin. With passion and precision, Michael Thelwell recounts Rhygin's journey from a morally coherent rural universe to the teeming, predatory slums of Kingston, his rebellion against the poverty and corruption of postcolonial Jamaica, his blazing, simultaneous rise to the top of the charts and the Most Wanted list.

Ordines Iudicarii and Libelli de Ordine Iudiciorum Linda Fowler-Magerl.1994 Traetises describing judicial procedure appeared for the first time in the twelfth century, and the expressions De iudiciis, Libellus de ordine iudiciorum and Ordines iudicarii were among the first titles used to designate them. An ordo iudiciarius or an ordo iudiciorum is devoted exclusively to the procedural law found in Roman and/or canon law. Although the author of an ordo may have had a certain forum in mind, his description of procedure has general validity. An ordo differs in this sense from a stylus, which is the description of the procedure appropriate to a specific court. This volume draws from *Ordo iudiciorum vel ordo iudiciarius* (1984) by the same author, which describes the procedural texts written before 1234, but encompasses the complete lifecycle of the ordines, from the middle of the twelfth to the end of the fifteenth century.

The Text and Beyond Cynthia Bernstein.1994-04-19 Demonstrates that the approaches of literary linguistics extend to the many

influences outside it—history, culture, or politics—that contribute to our understanding of language. *The Text & Beyond: Essays in Literary Linguistics* is a collection of suggestive models for those interested in using the tools of linguistics to meet the aims of literary criticism and theory. Only very recently have linguists and literary scholars come to recognize that their goals are compatible.

Abahn, Sabana, David Marguerite Duras. 2016. Late one evening, David and Sabana - members of a communist group - arrive at a country house where they meet Abahn, the man they've been sent to guard and eventually kill for his perceived transgressions. A fourth man arrives (also named Abahn), and throughout the night these four characters discuss existential ideas of understanding, capitalism, violence, revolution and dogs, while a gun lurks in the background the entire time. Suspenseful and thought-provoking, Duras's novel explores human existence and suffering in the confusing contemporary world.

Charters, Cartularies and Archives Commission internationale de diplomatique. 2002. A distinguished international group of diplomatists address thirteen cases of transmission and preservation of medieval documents. A recurrent theme in this volume is the actual preservation of individual original charters, but the content of originals was transmitted in other ways as well. Several chapters discuss questions relating to recopied originals, cartularies, and a range of other archival practices for retaining documents during the Middle Ages. Many of the authors focus on how documents were organized in archives and in cartularies during the period. Others discuss the notions of original document and copy--Both their relationship to each other and to the legal validity of the document in question.

Tiger Check Steven A. Fino.2017-11 The fielding of automated flight controls and weapons systems in fighter aircraft from 1950

to 1980 challenged the significance ascribed to several of the pilots' historical skillsets, such as superb hand-eye coordination--required for aggressive stick-and-rudder maneuvering--and perfect eyesight and crack marksmanship--required for long-range visual detection and destruction of the enemy. Highly automated systems would, proponents argued, simplify the pilot's tasks while increasing his lethality in the air, thereby opening fighter aviation to broader segments of the population. However, these new systems often required new, unique skills, which the pilots struggled to identify and develop. Moreover, the challenges that accompanied these technologies were not restricted to individual fighter cockpits, but rather extended across the pilots' tactical formations, altering the social norms that had governed the fighter pilot profession since its establishment. In the end, the skills that made a fighter pilot great in 1980 bore little resemblance to those of even thirty years prior, despite the precepts embedded within the myth of the fighter pilot. As such, this history illuminates the rich interaction between human and machine that often accompanies automation in the workplace. It is broadly applicable to other enterprises confronting increased automation, from remotely piloted aviation to Google cars. It should appeal to those interested in the history of technology and automation, as well as the general population of military aviation enthusiasts.--Provided by publisher.
