When Samsa gets a job in Reykjavik and the couple decides to move there together, Samsa decides that she wants to have a child. She is already forty and can't bear to let the opportunity pass her by. Boulder is less enthused, but doesn't know how to say no—and so finds herself dragged along on a journey that feels as thankless as it is alien. The Medicine Man Francisco Rojas González.2000 In his most celebrated work, Mexican writer Francisco Rojas González offers a rare blend of literature and indigenous anthropology. Inspired by his fieldwork in Chiapas, Mexico, these 13 stories reflect the author's preoccupation with the totality of Mexican life and capture his heralded ability to penetrate the contradictions of human nature. The book is a dramatic presentation of myths, religious beliefs, and customs of Mexican Indians framed in their rigid, overpowering code of ethics. It served as the basis for the 1954 film *Roots*, which won the FIPRESCI Prize at the Cannes Film Festival of 1955.

Infinity and the Mind Rudy Rucker.2019-07-23 A dynamic exploration of infinity In *Infinity and the Mind*, Rudy Rucker leads an excursion to that stretch of the universe he calls the “Mindscape,” where he explores infinity in all its forms: potential and actual, mathematical and physical, theological and mundane. Using cartoons, puzzles, and quotations to enliven his text, Rucker acquaints us with staggeringly advanced levels of infinity, delves into the depths beneath daily awareness, and explains Kurt Gödel’s belief in the possibility of robot consciousness. In the realm of infinity, mathematics, science, and logic merge with the fantastic. By closely examining the paradoxes that arise, we gain profound insights into the human mind, its powers, and its limitations. This Princeton Science Library edition includes a new preface by the author.

their futile pleas that she change her mind about leaving and stay on to help them in their experiments. But the gentle Helen has had enough—both of Custodial Engineering and of schemes to change man's relationship to the other creatures with whom the world must be shared.

The Call of Cthulhu H. P. Lovecraft.2023-08-31 The Call of Cthulhu by H. P. Lovecraft is a short story by American writer H. P. Lovecraft. Written in the summer of 1926, it was first published in the pulp magazine *Weird Tales* in February 1928. Plot: The story consists of three interconnected parts, and is presented as notes belonging to Francis Thurston, a Boston resident investigating the ancient deity Cthulhu. The first part, *The Horror in Clay*, concerns a mysterious clay bas-relief depicting Cthulhu. Thurston finds the bas-relief among the belongings of his great-uncle Professor Angell. The bas-relief was created by sculptor Henry Wilcox in March 1925 while half-asleep. At the time Wilcox was haunted by mysterious visions of Cyclopean cities. Angell also discovered reports of local residents — primarily artists, sculptors, architects, and others of a sensitive psyche — experiencing similar nightmares during that period. The next morning, Wilcox was amazed by his creation and took it to Angell, who noted that the bas-relief was reminiscent of a figurine seized by police from members of a New Orleans religious sect in 1907. In the second chapter, *The Tale of Inspector Legrasse*, police officer John Legrasse reports at an archaeological society's symposium on his participation in a raid of a sect worshipping Cthulhu, from which the figurine was confiscated. The sect's actions were described as depraved and blasphemous. Local residents feared the sect's orgies, and claimed that human sacrifices were made at these orgies. A team of officers led by Legrasse arrived at the scene in search of several missing squatters. The police detained several sect members, but interrogation yielded little result, as the degraded and insane members stubbornly defended the truth of their cult. One sectarian, Old Castro, proclaimed that Cthulhu's time would come when the stars take a certain position. A phrase chanted by the sect turns out to have been previously used by a tribe of Eskimos, as revealed by one of the symposium's participants.

Tender Is the Flesh Agustina Bazterrica.2020-08-04 Working at the local processing plant, Marcos is in the business of slaughtering humans—though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the “Transition.” Now, eating human meat—“special meat”—is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he’s given a gift: a live specimen of the finest quality. Though he’s aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost—and what might still be saved.

The Lean Lands Agustín Yáñez.1968-01-01 What was it that flew over with such a terrifying roar? Was it, as many said, the devil, or was it that thing a few had heard of, a flying machine? And those electric lights at Jacob Gallo’s farm, were they witchcraft or were they science? The theme of this harshly powerful novel is the impact of modern technology and ideas on a few isolated, tradition-bound hamlets in the aftermath of the Mexican Revolution of 1910. The old ways are represented by Epifanio Trujillo, the cacique of the region, now ailing and losing his grip on things; by ancient Madre Matiana, the region’s midwife, healer, counselor, and oracle; by penniless Rómulo and his wife Merced. “Progress” is represented by Don Epifanio’s bastard son Jacob, who acquired money and influence elsewhere during the Revolution and who now, against his father’s will, brings electricity, irrigation, fertilizers, and other modernities to the lean lands—together with armed henchmen. The conflict between the old and the new builds slowly and inexorably to a violent climax that will long remain in the reader’s memory. The author has given psychological and historical depth to his story by alternating the passages of narrative and dialogue with others in which several of the major characters brood on the past, the present, and the future. For instance, Matiana, now in her eighties, touchingly remembers how she was married and widowed before she had reached her seventeenth birthday. This dual technique is superbly handled, so that people and events have both a vivid actuality and an inner richness of meaning. The impact of the narrative is intensified by the twenty-one striking illustrations by Alberto Beltrán.

The Outsider H. P. Lovecraft.2022-04-06 ‘The Outsider’ is a short story by American writer H. P. Lovecraft and one of the most popular stories ever published in the successful pulp magazine, 'Weird Tales'. For as long as he can remember, a mysterious man has lived alone in a castle away from other people and the light. He does not know his name or where he’s from. Eager for human contact, he finally decides to escape his dark, decaying castle and its endless black forest. But what he finds will haunt him forever. Howard Phillips Lovecraft (1890-1937) was an American author of horror, fantasy and science fiction. He is best known for his short stories, including ‘The Call of Cthulhu’, ‘At the Mountains of Madness’, ‘The Shadow over Innsmouth’, and ‘The Shadow Out of Time’. Lovecraft's writing did not grant him fame or fortune during his life and he died without the acclaim his work now generates. Credited with inventing cosmic horror, he is widely regarded as one of the most influential horror writers of the 20th century. Inspired by the likes of Alexander Pope, Jonathan Swift, and Edgar Allan Poe, Lovecraft’s work has influenced writers and filmmakers such as Guillermo del Toro, Neil Gaiman, Thomas Ligotti and Stephen King. H.P Lovecraft was inducted into the Museum of Pop Culture's Science Fiction and Fantasy Hall of Fame in 2016.
