*Hardcore Zine* Walter Schreifels, Kathleen Sleboda, Christopher Sleboda.1919-09-19 Focused on seven issues of Good and Plenty fanzine produced in the late 1980s/early 1990s, Hardcore Fanzine looks at the series through the lens of graphic design and typography, as a project that reflected and embodied technology of the period. Contributions from graphic designers, graphic design educators, and hardcore enthusiasts trace the history of zines and photoduplication; the idea of the body in punk and hardcore; how zine-making created community and alternative social space in a pre-Internet era; key typefaces used in straight edge iconography; and the importance of zines to successive generations of designers. Good and Plenty was published as a labor of love and fandom by Zion, Illinois's Gabe Rodriguez. Originally produced as a collaboration with friend Mike Good, Rodriguez took over editing and production of the zine, assisted by a team of friends and helpers. With their assistance and a network of fans from around the country and the world, Good and Plenty featured original photography documenting shows by Gorilla Biscuits, Judge, Bold, and other hardcore bands of the period; band interviews; reviews of shows and record releases; and essays by Rodriguez and friends (including Alyssa Blowin'

Chunx Murray and Kim Nolan) on a range of topics beyond music--from vegetarianism, women's rights, gender relations, and straight edge, to racism, pop culture, and the Iraq War. A text by Walter Schreifels--American musician, member of Gorilla Biscuits, Youth of Today, Quicksand, and many other bands--places G&P in historical context, outlining the context for individual issues and highlighting specific moments in the cultural and sonic landscape. Hardcore Fanzine includes the full reproduction of all seven issues of Good and Plenty plus reproductions of a selection of the zine's original paste-ups and photography.--Printed Matter description.

**Paris Living Rooms** Dominique Nabokov.2002-06 Photographer Dominique Nabokov has documented the living rooms of well-known Parisians--artists, writers, designers, intellectuals and the occasional celebrity. The rooms vary widely from one another in terms of formality and decor, but they are all equalized under the gaze of Nabokov's camera. Each room is shot simply as it happened to appear on that particular day, without any people. Using discontinued Polaroid Colorgraph type 691 film (which provides a full-color transparency in four minutes), Nabokov does not use special lighting or allow the rooms to be rearranged or touched by a stylist. The result is a series of fascinatingly deadpan photos that puts an ironic slant on the celebrity interior genre. These peeks into the living rooms of celebrated Parisians will provide hours of voyeuristic pleasure. The book includes more than seventy living rooms of such diverse Parisians as Jean-Paul Goude, Andree Putman, Christian Liaigre, Gerard Depardieu,

Jeanne Moreau, Carine Roitfeld, Loulou de la Falaise and Jacques Grange, to name a few.

Praxis. Agustín Hernández Luis Orozco Madero.2020 Praxis, Agustín Hernández' is the fourth book in a series devoted to some of our favourite architects, the houses they build, and the stories behind them.0Born in 1924, Agustín Hernández came of age as an architect in Mexico as modernist ideas coalesced with a renewed pride in the country's past. He was a frontrunner in combining the symbols, myths, and urban planning principles of pre-Columbian civilisations to create imposing architectural monuments that even today retain their avant-garde nature?from the military academy he built as a modern-day Mayan ceremonial ground to the remote meditation centre commissioned by his sister, based on the symbolism of the snake, and the studio-home that he built for himself in 1975: Praxis, a geometric treehouse that still towers over the Bosques de las Lomas neighbourhood of Mexico City. Zaffarano.2012 Bruno Munari (1907-1998) played a pioneering role in the evolution of twentieth-century art and design, his work exerting an influence that stretched far beyond the borders of Italy. Munari described the roots of his work as his 'Futurist past', but his influences were extremely varied, also reflecting the

aesthetics and sensibilities of Constructivism, Dada and Surrealism. This exhibition at the Estorick collection in London explores Munari's artistic research between 1927 and 1950, spanning the artist's Futurist phase and early investigation of the possibilities of kinetic sculpture, the immediate post-war years during which he became a leading figure of abstract painting and his subsequent experiments with projected light and installation-based work. 0Exhibition: Estorick Collection of Modern Italian Art, London, UK (19.9.-23.12.2012).

*Bruno Munari: Square, Circle, Triangle* Bruno Munari.2016-01-05

In the early 1960s Italian design legend Bruno Munari published his visual case studies on shapes: Circle, Square, and, a decade later, Triangle. Using examples from ancient Greece and Egypt, as well as works by Buckminster Fuller, Le Corbusier, and Alvar Aalto, Munari invests the three shapes with specific qualities: the circle relates to the divine, the square signifies safety and enclosure, and the triangle provides a key connective form for designers. One of the great designers of the twentieth century, Munari contributed to the fields of painting, sculpture, design, and photography while teaching throughout his seventy-year career. After World War II he began to focus on book design, creating children's books known for their simplicity and playfulness.
