Nursing Care in Pediatric Respiratory Disease Concettina Tolomeo.2012-01-03 Pediatric respiratory disorders are responsible for a number of acute and chronic health conditions and are a leading cause of pediatric emergency room visits and hospitalizations. More than ever, nurses and nurse practitioners must have an understanding of the anatomy, pathophysiology, diagnosis and state of the art treatments in pediatric respiratory disease as they are often the first to come in contact with and recognize respiratory problems in children. *Nursing Care in Pediatric Respiratory Disease* seeks to provide both nurses and nurse practitioners with this information in order to aid them in the diagnosis and treatment of children suffering from acute and chronic respiratory disorders. *Nursing Care in Pediatric Respiratory Disease* opens with an overview of the anatomy and physiology of the respiratory system, best practices for assessing respiratory symptoms in children, and common respiratory therapies and treatment methods. It then proceeds through an examination of varying acute and chronic upper and lower respiratory diseases spanning from asthma and cystic fibrosis to

vocal cord paralysis and sinusitis in both hospital and ambulatory settings. *Nursing Care in Pediatric Respiratory Disease* provides nurses and other health care providers with a comprehensive and practical resource which allows them to collaborate and advocate more effectively, as well as educate both the family and child in management of respiratory disorders.

The Agora Bone Well Maria A. Liston, Susan I. Rotroff, Lynn M. Snyder. 2018-12-31 Even though Dorothy Thompson excavated the Agora Bone Well in 1938, the well and its remarkable finds have never been fully studied until now. Located outside the northwest corner of the Athenian Agora and dating to the second quarter of the 2nd century B.C., the well contained the remains of roughly 460 newborn infants, as well as a few older individuals. Also found in the well were the bones of over 150 dogs and an assortment of other animals, plus various artifacts, including an intriguing herm (treated here by Andrew Stewart) and an ivory chape. In addition to a thorough examination of the contents of the well, the authors provide a thoughtful analysis of the neighborhood in which the well was located and carefully compare the deposit with similar accumulations found elsewhere in the Mediterranean. The product of close cooperation between archaeological, palaeoanthropological, and faunal scholars, this interdisciplinary work will be of interest to a large audience across a variety of fields.

OB/GYN Board Exam Secrets Maryam Moghaddam. 2018-04-17 OB/GYN Board Exam Secrets is a high-yield reference, now in its Fourth Edition, that targets and summarizes what you need to know for your upcoming ABOG exams in 2021. For many candidates, board preparation is an intimidating behind closed doors process but this book, which has been years in the making, is the first to expose those well-kept secrets and is an absolute must-read. Your Qualifying and Certifying Examinations are not just another round of routine tests. The harsh reality is that most obstetricians and gynecologists have never even been exposed to an oral format, let alone been taught the best preparation methods for such an exam. It may feel like a game in which you are literally left to fend for yourself and ascertain the rules on your own. But in actuality, it is far from being a sport and the stakes could not be higher. This resource is definitely the most up-to-date, in-depth guide for taking these exams and is the perfect resource for residents and fellows alike, as well as for practicing obstetricians and gynecologists. That is because it takes information from a great number of sources, some of which are obscure and difficult to access, and puts it all into one concise, easy-to-read text that will save you countless hours of research on your own. Special thanks goes to Abby Morgan, director of sales and marketing for the Warwick Melrose-Dallas Hotel, for her generous assistance in furnishing the photos for this book.
