Ruth MacDonald argued that Louisa May Alcott stands as one of the great American practitioners of the girls' novel and the family story. In the 1860s, gendered separation of children's fiction was a newer division in literature. This division signaled a beginning of polarization of gender roles as social constructs as class stratification increased. Joy Kasson wrote, Alcott chronicled the coming of age of young girls, their struggles with issues such as selfishness and generosity, the nature of individual integrity, and, above all, the question of their place in the world around them. Girls related to the March sisters in Little Women, along with following the lead of their heroines, by assimilating aspects of the story into their own lives.
