The Rejection of Consequentialism Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

How to Think Like an Anthropologist Matthew Engelke.2019-06-18 What is anthropology? What can it tell us about the world? Why, in short, does it matter? For well over a century, cultural anthropologists have circled the globe, from Papua New Guinea to suburban England and from China to California, uncovering surprising facts and insights about how humans organize their lives and articulate their values. In the process, anthropology has done more than any other discipline to reveal what culture means--and why it matters. By weaving together examples and theories from around the world, Matthew Engelke provides a lively, accessible, and at times irreverent introduction to anthropology, covering a wide range of classic and contemporary approaches, subjects, and practitioners. Presenting a set of memorable cases, he encourages readers to think deeply about some of the key concepts with which anthropology tries to make sense of the world--from culture and nature to authority and blood. Along the way, he shows why anthropology matters: not only because it helps us understand other cultures and points of view but also because, in the process, it reveals something about ourselves and our own cultures, too. --Cover.

Globalization and Language Teaching David Block,Deborah Cameron.2002-06-01 This book considers the issues globalization raises for second language learning and teaching. Block and Cameron's collection shows how, in an economy based on services and information, the linguistic skills of workers becomes increasingly important. New technologies make possible new kinds of language teaching, and language becomes an economic commodity with a value in the global marketplace. This has implications for how and why people learn languages, and for which languages they learn. Drawing together the various strands of the globalization debate, this rich and varied collection of contributions explores issues such as: *The commodification of language(s) and language skills *The use of new media and new technologies in language learning and teaching *The effects of globalization on the language teaching industry *New forms of power and resistance.

The Bruegel Success Story Christina Currie.2021-01-04 The Bruegel Success Story. This small phrase evokes the brand invented by the great Pieter Bruegel the Elder (c. 1526/7-69), which was capitalised on by his two sons and many followers. It was the natural theme for a symposium that brought together art historians, scientists and connoisseurs to celebrate the art of Pieter Bruegel and his indelible influence on the generations that followed. The idea for The Bruegel Success Story Colloquium took root at the Royal Institute for Cultural Heritage in Brussels, where Bruegel's most enigmatic painting, the Dulle Griet, was being restored in preparation for the great Bruegel exhibition at the Kunsthistorisches Museum in Vienna in 2018-19. The papers presented at the symposium that now appear as beautifully illustrated essays in this book are the fruit of research by both renowned experts and relative newcomers, all of whom have been profoundly touched by the art of Pieter Bruegel and his progeny.

The Fighter Michael Farris Smith.2018-03-20 A blistering novel of violence and deliverance set against the mythic backdrop of the Mississippi Delta. The acres and acres of fertile soil, the two-hundred-year-old antebellum house, all gone. And so is the woman who gave it to Jack, the foster mother only days away from dying, her mind eroded by dementia, the family legacy she entrusted to Jack now owned by banks and strangers. And Jack's mind has begun to fail, too. The decades of bare-knuckle fighting are now taking their toll, as concussion after concussion forces him to carry around a stash of illegal painkillers and a notebook of names that separates friend from foe. But in a single twisted night, Jack loses his chance to win it all back. Hijacked by a sleazy gambler out to settle a score, Jack is robbed of the money that will clear his debt with Big Momma Sweet -- the queen of Delta vice, whose deep backwoods playground offers sin to all those willing to pay -- and open a path that could lead him back home. Yet this sudden reversal of fortunes introduces an unlikely savior in the form of a sultry, tattooed carnival worker. Guided by what she calls her church of coincidence, Annette pushes Jack toward redemption, only to discover that the world of Big Momma Sweet is filled with savage danger. Damaged by regret, crippled by twenty-five years of fists and elbows, heartbroken by his own betrayals, Jack is forced to step into the fighting pit one last time, the stakes nothing less than life or death. With the raw power and poetry of a young Larry Brown and the mysticism of Cormac McCarthy, Michael Farris Smith cements his place as one of the finest writers in the American literary landscape.

The Future of the United Nations System Chadwick F. Alger.1998 What does the future hold for the UN? In this book, twenty-two scholars from all continents cover prevention of violence, creating economic and social structures that sustain human fulfilment, sharing and protecting the commons, and peace education. They offer sixty-six recommendations for new institutions and programs on issues that include controlling weapons, humanitarian intervention, human rights, economic policies, advancement of women, refugees, ecological security, communications, and peace education. Most of the recommendations do not require amendments to the UN Charter or to the treaties establishing the UN Specialized Agencies. Instead, their implementation would require creative efforts of Member States, secretariats, NGOs, and dedicated individuals that are pointed toward attainment of multilateral capacity for coping with an array of global problems that increasingly threaten the quality of human life.

Marissa Mayer and the Fight to Save Yahoo! Nicholas Carlson.2015-01-06 A page-turning narrative about Marissa Mayer's efforts to remake Yahoo as well as her own rise from Stanford University undergrad to CEO of a \$30 billion corporation by the age of 38. When Yahoo hired star Google executive Mayer to be its CEO in 2012 employees rejoiced. They put posters on the walls throughout Yahoo's California headquarters. On them there was Mayer's face and one word: HOPE. But one year later, Mayer sat in front of those same employees in a huge cafeteria on Yahoo's campus and took the beating of her life. Her hair wet and her tone defensive, Mayer read and answered a series of employee-posed questions challenging the basic elements of her plan. There was anger in the room and, behind it, a question: Was Mayer actually going to be able to do this thing? *Marissa Mayer and the Fight to Save Yahoo!* is the inside story of how Yahoo got into such awful shape in the first place, Marissa Mayer's controversial rise at Google, and her desperate fight to save an Internet icon. In August 2011 hedge fund billionaire Daniel Loeb took a long look at Yahoo and decided to go to war with its management and board of directors. Loeb then bought a 5% stake and began a shareholder activist campaign that would cost the jobs of three CEOs before he finally settled on Google's golden girl Mayer to unlock the value lurking in the company. As Mayer began to remake Yahoo from a content company to a tech company, an internal civil war erupted. In author Nicholas Carlson's capable hands, this riveting book captures Mayer's rise and Yahoo's missteps as a dramatic illustration of what it takes to grab the brass ring in Silicon Valley. And it reveals whether

it is possible for a big lumbering tech company to stay relevant in today's rapidly changing business landscape.

Culture Writing Tim Watson.2018 Focusing on the 1950s and early 1960s, *Culture Writing* argues that this period in Britain, the United States, France, and the Caribbean was characterized by dynamic exchanges between literary writers and anthropologists on both sides of the Atlantic. As the British and French empires collapsed and the United States rose to global power in the early Cold War, and as intellectuals from the decolonizing world challenged the cultural hegemony of the West, some anthropologists began to assess their discipline's complicity with empire and experimented with literary forms and technique. *Culture Writing* shows that the literary turn in anthropology took place earlier than has conventionally been assumed, in the 1950s rather than the 1970s and 80s. Simultaneously, some literary writers reacted to the end of the period of modernist experimentation by turning to ethnographic methods for representing the people and cultural practices of Britain, France, and the United States, bringing anthropology back home. There is analysis of literary writers who had a significant professional engagement with anthropology and brought some of its techniques and research questions into literary composition: Barbara Pym (Britain), Ursula Le Guin and Saul Bellow (United States), douard Glissant (Martinique), and Michel Leiris (France). On the side of ethnography, the book analyzes works by anthropologists who either explicitly or surreptitiously adopted literary forms for their writing about culture: Laura Bohannan (United States), Michel Leiris and Claude Lévi-Strauss (France), and Mary Douglas (Britain). *Culture Writing* concludes with an epilogue that shows how the literature-anthropology conversation continues into the postcolonial period in the work of Indian author-anthropologist Amitav Ghosh and Jamaican author-sociologist Erna Brodber.

Making his rounds from apartment to apartment, Moonbloom confronts a wildly varied assortment of brilliantly described urban characters, among them a gay jazz musician with a sideline as a gigolo, a Holocaust survivor, and a brilliant young black writer modeled on James Baldwin. Moonbloom hears their cries of outrage and abuse; he learns about their secret sorrows and desires. And as he grows familiar with their stories, he finds that he is drawn, in spite of his best judgment, into a desperate attempt to improve their lives. Edward Lewis Wallant's astonishing comic tour de force is a neglected masterpiece of 1960s America.
