Was the Bayeux Tapestry Made in France? G. Beech.2016-09-23 This book presents the hypothesis that the Bayeux tapestry, long believed to have been made in England, came from the Loire valley in France, from the abbey of St. Florent of Saumur. This is based on a number of different kinds of evidence, the most important of which is signs of a St. Florent/Breton influence in the portrayal of the Breton campaign in the tapestry, about a tenth of the whole.

Paris to New York Véronique Pouillard.2021-05-04 An innovative history of the fashion industry, focusing on the connections between Paris and New York, art and finance, and design and manufacturing. Fashion is one of the most dynamic industries in the world, with an annual retail value of \$3 trillion and globally recognized icons like Coco Chanel, Christian Dior, and Yves Saint Laurent. How did this industry generate such economic and symbolic capital? Focusing on the roles of entrepreneurs, designers, and institutions in fashion's two most important twentieth-century centers, Paris to New York tells the history of the industry as a negotiation between art and commerce. In the late nineteenth century, Paris-based firms set the tone for a global fashion culture nurtured by artistic visionaries. In the burgeoning New York industry, however, the focus was on mass production. American buyers, trend scouts, and designers crossed the Atlantic to attend couture openings, where they were inspired by, and often accused of counterfeiting, designs made in Paris. For their part, Paris couturiers traveled to New York to understand what American consumers wanted and to make deals with local manufacturers for whom they designed exclusive garments and accessories. The cooperation and competition between the two continents transformed the fashion industry in the early and mid-twentieth century, producing a hybrid of art and commodity. Véronique Pouillard shows how the Paris–New York connection gave way in the 1960s to a network of widely distributed design and manufacturing centers. Since then, fashion has diversified. Tastes are no longer set by elites alone, but come from the street and from countercultures, and the business of fashion has transformed into a global enterprise.

La Grande Histoire des tissus retrace l'évolution de ces étoffes dans le monde entier et présente leurs différentes utilisations dans la décoration intérieure. Multilingualism and Mother Tongue in Medieval French, Occitan, and Catalan Narratives Catherine E. Léglu.2016-11-29 The Occitan literary tradition of the later Middle Ages is a marginal and hybrid phenomenon, caught between the preeminence of French courtly romance and the emergence of Catalan literary prose. In this book, Catherine Léglu brings together, for the first time in English, prose and verse texts that are

composed in Occitan, French, and Catalan-sometimes in a mixture of two of these languages. This book challenges the centrality of canonical texts and draws attention to the marginal, the complex, and the hybrid. It explores the varied ways in which literary works in the vernacular composed between the twelfth and fifteenth centuries narrate multilingualism and its apparent opponent, the mother tongue. Léglu argues that the mother tongue remains a fantasy, condemned to alienation from linguistic practices that were, by definition, multilingual. As most of the texts studied in this book are works of courtly literature, these linguistic encounters are often narrated indirectly, through literary motifs of love, rape, incest, disguise, and travel.

Les territoires de la laine Jean-Claude Dumas. 2020-03-12 En un siècle, Roubaix et Tourcoing se sont transformées de petits bourgs ruraux animés par le battement des métiers à bras en un gigantesque complexe industriel. Comment expliquer que le « Manchester français », alors même que rien ne l'y prédisposait, ait réussi à dominer toute la branche, quand les autres centres lainiers, souvent plus anciens et plus prestigieux, étaient impuissants à enrayer leur déclin ? Poser cette question cruciale, c'est renoncer à faire une histoire de l'industrie lainière « par en haut » pour étudier les trajectoires des territoires qui la composent et forment autant de demandes industrielles originales. Les performances de Roubaix ne s'expliquent pas seulement par la qualité de ses tissus, la puissance de ses entreprises et l'abondance de sa main-d'œuvre mais aussi par l'ambition dynastique, la forte solidarité et le projet industrialiste de son patronat qui a vraisemblablement constitué son avantage comparatif le plus important.
