Church History Study Guide, Pt. 3 Randal S. Chase.2012-05-31 Church History Study Guide, Pt. 3: Latter-Day Prophets Since 1844. This volume is the third of three on Church History and the Doctrine and Covenants. It covers Church history during the administration of all of its Prophet-Prophets since Joseph Smith. It begins with the succession of the Apostles after Joseph Smith's martyrdom, the building of the Nauvoo Temple, and the trek to the west of the Latter-day Saint pioneers. We follow them through Iowa, Winter Quarters, and on to Utah. We witness the colonization of the state of Deseret, while the rest of the country suffered from Civil War. Then we follow events through the administrations of all of the 19th-Century, 20th-Century, and 21st-Century prophets from John Taylor to Thomas S. Monson. We become familiar with the early lives, missions, marriages, and callings of each of these prophets, seeing how the Lord prepared them for the

particular time that they led the Church. We finish with a look toward the future as we await the Second Coming of our Lord. The cover features a beautiful photograph of the Salt Lake Temple, taken at dusk during the Christmas season from the roof of the Joseph Smith Memorial Building.

The First Transcontinental Railroad James K. Wheaton.2011 The First Transcontinental Railroad, originally called the Pacific Railroad, was a railroad built in the United States between 1863 and 1869 that connected the western part of America with its eastern part. Built by the Central Pacific Railroad of California and the Union Pacific Railroad, it connected the Eastern terminus of Council

Bluffs, Iowa/Omaha, Nebraska with the railroad lines of the Pacific Ocean at Oakland, California. In time, it would link in with the existing railway network present on the Eastern Coast of America, thus connecting the Atlantic and Pacific coast of the United States for the first time by rail. Because of this, the line received a second nickname, "the Overland Route." The railroad was a government operation, authorized by Congress during the height of the Civil War. Congress passed the Pacific Railroad Acts in 1862 and again in 1864. To pay for it, the US government issued 30 year bonds, as well as granting government land to contractors. The construction of the line was a major achievement by both the Union Pacific (constructing westward from Iowa) and the Central Pacific (constructing eastward from California). The line was officially opened on May 10, 1869, with the Last Spike driven through the railway at Promontory Summit, Utah. James K. Wheaton looks at the history in this eBook.
