Explains the events that led up to the Chicago fire: intensely dry conditions, a 20-m.p.h. southwest wind, and an unfortunate spark at 10 o'clock on the night of Oct. 8 all combined to turn Chicago into a vast ocean of flame. The Great Chicago Fire and the Myth of Mrs. O'Leary's Cow Richard F. Bales.2015-09-01 The Great Chicago Fire of 1871 swallowed up more than three square miles in two days, leaving thousands homeless and 300 dead. Throughout history, the fire has been attributed to Mrs. O'Leary, an immigrant Irish milkmaid, and her cow. On one level, the tale of Mrs. O'Leary's cow is merely the quintessential urban legend. But the story also represents a means by which the upper classes of Chicago could blame the fire's chaos on a member of the working poor. Although that fire destroyed the official county documents, some land tract records were saved. Using this and other primary source information, Richard F. Bales created a scale drawing that reconstructed the O'Leary neighborhood. Next he turned to the transcripts—more than 1,100 handwritten pages—from an investigation conducted by the Board of Police and Fire Commissioners, which interviewed 50 people over the course of 12 days. The board's final report, published in the Chicago newspapers on December 12, 1871, indicates that commissioners were unable to determine the cause of the fire. And yet, by analyzing the 50 witnesses' testimonies, the author concludes that the commissioners could have determined the cause of the fire had they desired to do so. Being more concerned with saving their own reputation from post-fire reports of incompetence, drunkenness and bribery, the commissioners failed to press forward for an answer. The author has uncovered solid evidence as to what really caused the Great Chicago Fire.

Chicago's Great Fire Carl Smith.2020-10-06 A definitive chronicle of the 1871 Chicago Fire as remembered by those who experienced it—from the author of *Chicago and the American Literary Imagination*. Over three days in October, 1871, much of Chicago, Illinois, was destroyed by one of the most legendary urban fires in history. Incorporated as a city in 1837, Chicago had grown at a breathtaking pace in the intervening decades—and much of the hastily-built city was made of wood. Starting in Catherine and Patrick O'Leary's barn, the Fire quickly grew out of control, twice jumping branches of the Chicago River on its relentless path through the city's three divisions. While the death toll was miraculously low, nearly a third of Chicago residents were left homeless and more were instantly unemployed. This popular history of the Great Chicago Fire approaches the subject through the memories of those who experienced it. Chicago historian Carl Smith builds the story around memorable characters, both known to history and unknown, including the likes of General Philip Sheridan and Robert Todd Lincoln. Smith chronicles the city's rapid growth and its place in America's post-Civil War expansion. The dramatic story of the fire—revealing human nature in all its guises—became one of equally remarkable renewal, as Chicago quickly rose back up from the ashes thanks to local determination and the world's generosity. As we approach the fire's 150th anniversary, Carl Smith's compelling narrative at last gives this epic event its full and proper place in our national chronicle. "The best book ever written about the fire, a work of deep scholarship by Carl Smith that reads with the forceful narrative of a fine novel. It puts the fire and its aftermath in historical, political and social context. It's a revelatory pleasure to read." —Chicago Tribune

Find out the truth in this addition to the *What Was?* series. On Sunday, October 8, 1871, a fire started on the south side of Chicago. A long drought made the neighborhood go up in flames. And practically everything that could go wrong did. Firemen first went to the wrong location. Fierce winds helped the blaze jump the Chicago River twice. The Chicago Waterworks burned down, making it impossible to fight the fire. Finally after two days, Mother Nature took over, with rain smothering the flames. This overview of a stupendous disaster not only covers the fire but explores the whole history of fire fighting.

The Great Chicago Fire of 1871 Charles River Charles River Editors. 2018-02-15 *Includes pictures *Includes eyewitness accounts of the disaster *Includes a bibliography for further reading The fire was barely fifteen minutes old. What followed was a series of fatal errors that set the fire free and doomed the city to a fiery death. - Jim Murphy, The Great Fire It had taken about 40 years for Chicago to grow from a small settlement of about 300 people into a thriving metropolis with a population of 300,000, but in just two days in 1871, much of that progress was burned to the ground. In arguably the most famous fire in American history, a blaze in the southwestern section of Chicago began to burn out of control on the night of October 8, 1871. Thanks to The Chicago Tribune, the fire has been apocryphally credited to a cow kicking over a lantern in Mrs. Catherine O'Leary's barn, and though that was not true, the rumor dogged Mrs. O'Leary to the grave. Of course, the cause of the fire didn't matter terribly much to the people who lost their lives or their property in the blaze. Thanks to dry conditions, wind, and wooden buildings, firefighters were never actually able to stop the fire, which burned itself out only after it spent nearly two whole days incinerating several square miles of Chicago. By the time rain mercifully helped to put the fire out, the Great Chicago Fire had already killed an estimated 300 people, destroyed an estimated 17,500 buildings, and left nearly 100,000 people (1/3 of the population) homeless. Several other theories have developed as an explanation for the fire. Most of them center on people around Mrs. O'Leary's barn, but other have gone so far as to blame a meteor shower as the culprit that started fires across the Midwest that same night. As proof, they note that the country's worst forest fire in history took place around the same time in the logging town of Peshtigo in northeastern Wisconsin, a fire that killed thousands. Mrs. O'Leary and her barn remain a part of lore, but it also speaks to Chicago's ability to rebuild that it's almost impossible to envision a farm in downtown Chicago today. Chicago suffered a wide swath of destruction, but it had rebuilt itself within 20 years in order to host the World's Fair, evidence that it was back and bigger and better than ever. Along with that, Chicago has maintained its status as the region's biggest city and one of the most important in America. The Great Chicago Fire chronicles one of the largest natural disasters of the 19th century in America. Along with pictures of important people, places, and events, you will learn about the Great Chicago Fire of 1871 like never before, in no time at all.
