China-Latin America and the Caribbean Thierry Kellner,Sophie Wintgens.2021-05-03 This book assesses the political, economic and geopolitical dynamics that China's presence has initiated throughout Latin America and the Caribbean between 2008 and 2020. Written by experts across three continents, contributions to this edited volume explore the bilateral relations that China has developed with almost all Latin American and Caribbean countries, charting both the benefits they have brought and the problems that these relations have created for local actors. The book analyses the emergence of new forms of dependence, considers issues such as the existence of a deindustrialization phenomenon throughout Latin America and

ultimately questions whether China and the United States are engaged in a zero-sum game in the region. It also investigates challenges that the densification of the web of China's relations and exchanges with Latin America and the Caribbean countries pose; not only to the United States and European countries, as traditional partners of these states, but also to Latin American regionalism. Including an extensive set of case studies and local, regional and global-level analysis, China-Latin America and the Caribbean provides an empirically rich resource for students and scholars of Chinese foreign and economic policy, Latin America, the Caribbean and wider geopolitics.

Economie politique de l'Afrique contemporaine Pierre Jacquemot.2013-01-23 L'Afrique subsaharienne est bien partie ! Force est de constater qu'elle sort de son sous-développement endémique. Son dynamisme, perceptible depuis le début du siècle, est une donnée nouvelle dans l'économie-monde. Engagée dans la voie de la modernisation, elle le fait à sa manière, selon des modalités qui ne ressemblent aucunement à d'autres. Avec son génie de l'hybridation, du mélange des genres et du métissage, elle pourrait bien, pour reprendre une formule de l'auteur, « inventer la démocratie sans la solitude ». Fruit de nombreuses années de recherche, d'enseignement et de pratiques de terrain, cet ouvrage présente une somme des connaissances sur l'économie de l'Afrique subsaharienne, mais aussi sa sociologie, ses caractères culturels, ses pratiques politiques... L'approche est à la fois théorique et pratique. Pour chaque

Health Insurance Handbook Hong Wang, Kimberly

Switlick,Christine Ortiz,Beatriz Zurita,Catherine

Connor.2012-01-18 Many countries that subscribe to the

Millennium Development Goals (MDGs) have committed to

ensuring access to basic health services for their citizens. Health

insurance has been considered and promoted as the major

financing mechanism to improve access to health services, as well

to provide financial risk protection. In Africa, several countries

have already spent scarce time, money, and effort on health

insurance initiatives. Ethiopia, Ghana, Kenya, Nigeria, Rwanda,

and Tanzania are just a few of them. However, many of these

schemes, both public and private, cover only a small proportion of

the population, with the poor less likely to be covered. In fact,

unless carefully designed to be pro-poor, health insurance can

widen inequity as higher income groups are more likely to be

insured and use health care services, taking advantage of their

insurance coverage. Despite the many benefits that health

insurance may offer, table 1.1 shows that the journey to

implement insurance and achieve the benefits is challenging,

long, and risky. Policy makers and technicians that support development and scale-up of health insurance must figure out how to increase their country's financing capacity, extend health insurance coverage to the hard-to-reach populations, expand benefits packages, and improve the performance of existing schemes.

Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary Truth and Reconciliation

Commission of Canada.2015-07-22 This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal

languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

Decolonizing Law Sujith Xavier, Beverley Jacobs, Valarie Waboose, Jeffery G. Hewitt, Amar Bhatia. 2021-05-24 This book brings together Indigenous, Third World and Settler perspectives on the theory and practice of decolonizing law. Colonialism, imperialism, and settler colonialism continue to affect the lives of racialized communities and Indigenous Peoples around the world. Law, in its many iterations, has played an active role in the dispossession and disenfranchisement of colonized peoples. Law and its various institutions are the means by which colonial, imperial, and settler colonial programs and policies continue to be reinforced and sustained. There are, however, recent and historical examples in which law has played a significant role in dismantling colonial and imperial structures set up during the process of colonization. This book combines usually distinct Indigenous, Third World and Settler perspectives in order to take up the effort of decolonizing law: both in practice and in the concern to distance and to liberate the foundational theories of legal knowledge and academic engagement from the manifestations of colonialism, imperialism and settler colonialism. Including work by scholars from the Global South and North, this book will be of interest to academics, students and others interested in the legacy of colonial and settler law, and its overcoming.

Making Digital Cultures Martin Hand.2016-05-13 Many people in the West or global North now live in a culture of 24/7 instant messaging, iPods and MP3s, streamed content, blogs, ubiquitous digital images and Facebook. But they are also surrounded by even more paper, books, telephone calls and material objects of one kind or another. The juxtaposition and proliferation of older and newer technologies is striking. *Making Digital Cultures* brings together recent theorizing of the 'digital age' with empirical studies of how institutions embrace these technologies in relation to older established technological objects, processes and practices. It asks how relations between 'analogue' and 'digital' are conceptualized and configured both in theory and inside the public library, the business organization and the archive. With its direct engagement with new media theory, science and technology studies, and cultural sociology, this volume will be of interest to scholars and students in the areas of media and communication and science and technology studies.

A Fur Trader on the Upper Missouri Jean-Baptiste

Truteau.2017-08 2018 Dwight L. Smith (ABC-CLIO) Award from the Western History Association A Fur Trader on the Upper Missouri offers the first annotated scholarly edition of Jean-Baptiste Truteau's journal of his voyage on the Missouri River in the central and northern Plains from 1794 to 1796 and of his description of the upper Missouri. This fully modern and magisterial edition of this essential journal surpasses all previous editions in assisting scholars and general readers in understanding Truteau's travels and encounters with the numerous Native peoples of the region, including the Arikaras, Cheyennes, Lakotas-Dakotas-Nakotas, Omahas, and Pawnees. Truteau's writings constitute the very foundation to our understanding of the late eighteenth-century fur trade in the region immediately preceding the expedition of Meriwether Lewis and William Clark commissioned by President Thomas Jefferson in 1803. An unparalleled primary source for its descriptions of Native American tribal customs, beliefs, rituals, material culture, and physical appearances, A Fur Trader on the Upper Missouri will be a classic among scholars, students, and general readers alike. Along with this new translation by Mildred Mott Wedel, Raymond J. DeMallie, and Robert Vézina, which includes facing French-English pages, the editors shed new light on Truteau's description of the upper Missouri and acknowledge his journal as the foremost account of Native peoples and the fur trade during the eighteenth century. Vézina's essay on the language used and his glossary of voyageur French also provide unique insight into the language of an educated French Canadian fur trader.
