Vital Performance Andrew Snedden.2021-03-19 Historically Informed Performance, or HIP, has become an influential and exciting development for scholars, musicians, and audiences alike. Yet it has not been unchallenged, with debate over the desirability of its central goals and the accuracy of its results. The author suggests ways out of this impasse in Romantic performance style. In this wide-ranging study, pianist and scholar Andrew John Snedden takes a step back, examining the strengths and limitations of HIP. He proposes that many problems are avoided when performance styles are understood as expressions of their cultural era rather than as simply composer intention, explaining not merely how we play, but why we play the way we do, and why the nineteenth century Romantics played very differently. Snedden examines the principal evidence we have for Romantic performance style, especially in translation of score indications and analysis of early recordings, finally focusing on the performance styles of Liszt and Chopin. He concludes with a call for the reanimation of culturally appropriate performance styles in Romantic repertoire. This study will be of great interest to scholars, performers, and students, to anyone wondering about how our performances reflect our culture, and about how the Romantics played their own culturally-embedded music.

Music in the Words: Musical Form and Counterpoint in the Twentieth-Century Novel Alan Shockley.2017-07-05 There is a strong tradition of literary analyses of the musical artwork. Simply put, all musicology - any writing about music - is an attempt at making analogies between what happens within the world of sound and language itself. This study considers this analogy from the opposite perspective: authors attempting to structure words using musical forms and techniques. It's a viewpoint much more rarely explored, and none of the extant studies of novelists' musical techniques have been done by musicians. Can a novel follow the form of a symphony and still succeed as a novel? Can musical counterpoint be mimicked by words on a page? Alan Shockley begins looking for answers by examining music's appeal for novelists, and then explores two brief works, a prose fugue by Douglas Hofstadter, and a short story by Anthony Burgess modeled after a Mozart symphony. Analyses of three large, emblematic attempts at musical writing follow. The much debated 'Sirens' episode of James Joyce's *Ulysses*, which the author famously likened to a fugue, Burgess' largely ignored *Napoleon Symphony: A Novel in Four Movements*, patterned on Beethoven's *Eroica*, and Joyce's *Finnegans Wake*, which Shockley examines as an attempt at composing a fully musicalized language. After these three larger analyses, Shockley discusses two quite recent brief novels, William Gaddis' novella *Agap?gape* and David Markson's *This is not a novel*, proposing that each of these confounding texts coheres elegantly when viewed as a musically-structured work. From the perspective of a composer, Shockley offers the reader fresh tools for approaching these dense and often daunting texts.

Is God Is / What to Send Up When It Goes Down Aleshea Harris.2022-04-05 "Furious and incandescent... Harris writes so blisteringly that the actors could just let the language's flames carry them along." —Helen Shaw, *Time Out New York* on *Is God Is* An explosive epic that examines the cyclical nature of violence, *Is God Is* follows twin sisters who undertake a dangerous journey to exact revenge upon their father at the behest of their dying mother. "Aleshea Harris turns theater into a monument, ephemeral but real, to ongoing pain. You can't tear down a statue that never shows up outside." —Vinson Cunningham, *New Yorker* on *What to Send Up...* *What to Send Up When It Goes Down* is a play-pageant-ritual response to anti-Blackness in America. It is a challenge to us all: to heal through expression, expulsion, and movement.

The Last Holiday Concert Andrew Clements.2012-06-12 A moving holiday story from New York Times bestselling author Andrew Clements. For Hart Evans, being the most popular kid in sixth grade has its advantages. Kids look up to him, and all the teachers let him get away with anything -- all the teachers except the chorus director, Mr. Meinert. When Hart's errant rubber band hits Mr. Meinert on the neck during chorus practice, it's the last straw for the chorus director, who's just learned he's about to lose his job due to budget cuts. So he tells the class they can produce the big holiday concert on their own. Or not. It's all up to them. And who gets elected to run the show? The popular Mr. Hart Evans. Hart soon discovers there's a big difference between popularity and leadership, and to his surprise, discovers something else as well -- it's really important to him that this be the best holiday concert ever, and even more important, that it not be the last.

Polish Jewish Culture Beyond the Capital Halina Goldberg,Nancy Sinkoff.2023-09-15 *Polish Jewish Culture beyond the Capital: Centering the Periphery* is a path-breaking exploration of the diversity and vitality of urban Jewish identity and culture in Polish lands from the second half of the nineteenth century to the outbreak of the Second World War (1899-1939). In this multidisciplinary essay collection, a cohort of international scholars provides an integrated history of the arts and humanities in Poland by illuminating the complex roles Jews in urban centers other than Warsaw played in the creation of Polish and Polish Jewish culture. Each essay presents readers with the extraordinary production and consumption of culture by Polish Jews in literature, film, cabaret, theater, the visual arts, architecture, and music. They show how this process was defined by a reciprocal cultural exchange that flourished between cities at the periphery—from Lwów and Wilno to Kraków and Łódź—and international centers like Warsaw, thereby illuminating the place of Polish Jews within urban European cultures. Orchestra Management Arne Herman.2022-08-01 Every orchestra in the world oscillates between crisis and survival. This perpetual movement makes innovation, both in organizational form and in artistic product, vital to the sustainability of the symphony orchestra. Based on case study research in Flanders, Amsterdam and London, this book reflects on the sustainability crisis of the orchestra by framing it as a legitimacy crisis that affects both the orchestra's artistic and organizational identity. The aim of this book is to explore the dynamics between various and often conflicting factors in the orchestra's quest for survival, and to show how these organizational dynamics relate to the orchestra's repertoire. By highlighting the importance of every organization's specific environment to which it needs to adapt, this book illustrates that the orchestra field is not a field that relies on best practices. The book reflects on conventional as well as innovative orchestra models, making the comparative point of view relevant for academic or practice-based researchers, orchestra managers, policymakers and subsidizing bodies interested in sustainable and future-oriented orchestra management.

Their teacher, Mr. Samuels, has two surprises in store for them, to make this particular concert a special event. You can learn sign language, too! At the end of the book are two full conversations in sign language and a page showing the hand alphabet.

Why You Like It Nolan Gasser.2019-04-30 From the chief architect of the Pandora Radio's Music Genome Project comes a definitive and groundbreaking examination of how your mind, body, and upbringing influence the music you love. Everyone loves music. But what is it that makes music so universally beloved and have such a powerful effect on us? In this sweeping and authoritative book, Dr. Nolan Gasser—a composer, pianist, and musicologist, and the chief architect of the Music Genome Project, which powers Pandora Radio—breaks down what musical taste is, where it comes from, and what our favorite songs say about us. Dr. Gasser delves into the science, psychology, and sociology that explains why humans love music so much; how our brains process music; and why you may love Queen but your best friend loves Kiss. He sheds light on why babies can clap along to rhythmic patterns and reveals the reason behind why different cultures around the globe identify the same kinds of music as happy, sad, or scary. Using easy-to-follow notated musical scores, Dr. Gasser teaches music fans how to become engaged listeners and provides them with the tools to enhance their musical preferences. He takes readers under the hood of their favorite genres—pop, rock, jazz, hip hop, electronica, world music, and classical—and covers songs from Taylor Swift to Led Zeppelin to Kendrick Lamar to Bill Evans to Beethoven, and through their work, Dr. Gasser introduces the musical concepts behind why you hum along, tap your foot, and feel deeply. *Why You Like It* will teach you how to follow the musical discourse happening within a song and thereby empower your musical taste, so you will never hear music the same way again.

Choreographing Empathy Susan Leigh Foster.2010-11-09 This is an urgently needed book - as the question of choreographing behavior enters into realms outside of the aesthetic domains of theatrical dance, Susan Foster writes a thoroughly compelling argument. - André Lepecki, New York University May well prove to be one of Susan Foster's most important works. - Ramsay Burt, De Montford University, UK What do we feel when we watch dancing? Do we dance along inwardly? Do we sense what the dancer's body is feeling? Do we imagine what it might feel like to perform those same moves? If we do, how do these responses influence how we experience dancing and how we derive significance from it? *Choreographing Empathy* challenges the idea of a direct psychophysical connection between the body of a dancer and that of their observer. In this groundbreaking investigation, Susan Foster argues that the connection is in fact highly mediated and influenced by ever-changing sociocultural mores. Foster examines the relationships between three central components in the experience of watching a dance - the choreography, the kinesthetic sensations it puts forward, and the empathetic connection that it proposes to viewers. Tracing the changing definitions of choreography, kinesthesia, and empathy from the 1700s to the present day, she shows how the observation, study, and discussion of dance have changed over time. Understanding this development is key to understanding corporeality and its involvement in the body politic.

The Oxford Handbook of Dance and Competition Sherril Dodds.2018-12-03 In the twenty-first century, values of competition underpin the free-market economy and aspirations of individual achievement shape the broader social world. Consequently, ideas of winning and losing, success and

failure, judgment and worth, influence the dance that we see and do. Across stage, studio, street, and screen, economies of competition impact bodily aesthetics, choreographic strategies, and danced meanings. In formalized competitions, dancers are judged according to industry standards to accumulate social capital and financial gain. Within the capitalist economy, dancing bodies compete to win positions in prestigious companies, while choreographers hustle to secure funding and attract audiences. On the social dance floor, dancers participate in dance-offs that often include unspoken, but nevertheless complex, rules of bodily engagement. And the media attraction to the drama and spectacle of competition regularly plays out in reality television shows, film documentaries, and Hollywood cinema. Drawing upon a diverse collection of dances across history and geography, *The Oxford Handbook of Dance and Competition* asks how competition affects the presentation and experience of dance and, in response, how dancing bodies negotiate, critique, and resist the aesthetic and social structures of the competition paradigm.

Performance Cultures as Epistemic Cultures, Volume II Torsten Jost,Erika Fischer-Lichte,Milos Kasic,Astrid Schenka.2023-04-07 This volume investigates performance cultures as rich and dynamic environments of knowledge practice through which distinctive epistemologies are continuously (re)generated, cultivated and celebrated. Epistemologies are dynamic formations of rules, tools and procedures not only for understanding but also for doing knowledges. This volume deals in particular with epistemological challenges posed by practices and processes of interweaving performance cultures. These challenges arise in artistic and academic contexts because of hierarchies between epistemologies. European colonialism worked determinedly, violently and often with devastating effects on instituting and sustaining a hegemony of modern Euro-American rules of knowing in many parts of the world. Therefore, *Interweaving Epistemologies* critically interrogates the (im)possibilities of interweaving epistemologies in artistic and academic contexts today. Writing from diverse geographical locations and knowledge cultures, the book's contributors—philosophers and political scientists as well as practitioners and scholars of theater, performance and dance—investigate prevailing forms of epistemic ignorance and violence. They introduce key concepts and theories that enable critique of unequal power relations between epistemologies. Moreover, contributions explore historical cases of interweaving epistemologies and examine innovative present-day methods of working across and through epistemological divides in nonhegemonic, sustainable, creative and critical ways. Ideal for practitioners, students and researchers of theater, performance and dance, *Interweaving Epistemologies* emphasizes the urgent need to acknowledge, study and promote epistemological plurality and diversity in practices of performance-making as well as in scholarship on theater and performance around the globe today.
