The Big Bike Trip Freddie Gillies. 2021-08-03 'When you're hurting and coughing on a steep incline, it's hard to see or even think of the top, but you just gotta push a pedal at a time and keep pushing.' At Auckland Airport, three young Kiwis began an audacious — some would say crazy — journey, huddled together and wiping tears from their eyes. Fourteen months later, they had cycled 23,000 kilometres, from Bali to Buckingham Palace, across more than 20 countries and adventured through some of the most exotic parts of the world. They battled extreme heat, sub-zero temperatures, culture shock and loneliness as they pushed their bodies to their limits. They overcame injury, illness, heartbreak, and, above all, their own fears and self-doubt. It was the time of their lives. Packed with stunning photography by Sean Wakely, *The Big Bike Trip* is an inspirational account of self-discovery, friendship and turning your dreams into reality.

No Accident Neil Arason. 2014-04-29 It is possible to eliminate death and serious injury from Canada's roads. In other jurisdictions, the European Union, centres in the United States, and at least one automotive company aim to achieve comparable results as early as 2020. In Canada, though, citizens must turn their thinking on its head and make road safety a national priority. Since the motor vehicle first went into mass production, the driver has taken most of the blame for its failures. In a world where each person's safety is dependent on a system in which millions of drivers must drive perfectly over billions of hours behind the wheel, failure on a massive scale has been the result. When we neglect the central role of the motor vehicle as a dangerous consumer product, the result is one of the largest human-made means for physically assaulting human beings. It is time for Canadians to embrace internationally recognized ways of thinking and enter an era in which the motor vehicle by-product of human carnage is relegated to history. *No Accident* examines problems related to road safety and makes recommendations for the way forward. Topics include types of drivers; human-related driving errors related to fatigue, speed, alcohol, and distraction and roads; pedestrians, cyclists, and public transit; road engineering; motor vehicle regulation; auto safety design; and collision-avoidance technologies such as radar and camera-based sensors on vehicles that prevent crashes. This multi-disciplinary study demystifies the world of road safety and provides a road map for the next twenty years.

The Drawing Book Tania Kovats. 2007 The works in The Drawing Book, by artists, architects, sculptors, scientists, filmmakers and thinkers of all descriptions, attest to the versatility and immediacy of drawing. From first thoughts to finely wrought, elaborate artworks, from the lightest sketch in pencil to bold, gallery-wall installations, the medium is shown as an essential vehicle for creativity. The recent prominence of artists such as Louise Bourgeois, Eva Hesse, Chris Ofili, Rachel Whiteread, Ellen Gallagher, and a host of others who use drawing as a final means of expression, is addressed in both the works shown and essays by curators Kate Macfarlane and Katharine Stout, and art historian Charles Darwent. The Drawing Book takes us on a journey through five themes -- measurement, nature, the city, dreams, and the body. Each is richly illustrated with a diverse range of images, from the old masters -- Leonardo da Vinci, Botticelli, Dürer -- through great Modernist pieces by Rodin, Picasso, Matisse, and on to the contemporary artists who are reviving drawing today. A new and unique approach to an age old medium.

Maggots, Murder, and Men Zakaria Erzinçlioglu. 2013-08-27 The science of forensic entomology-the application of insect biology to the investigation of crime-is extremely specialized, combining as it does an expert knowledge of entomology with keen powers of observation and deduction. A great admirer of Sherlock Holmes, Dr. Erzinçlioglu compares his own techniques with those of his fictional hero, and takes the reader behind the often gruesome but deeply fascinating scenes of a murder investigation. This absorbing book ranges over cases from history, prehistory and mythology to the present day and is as gripping and readable as a good thriller.

The Sunny Nihilist Wendy Syfret.2022-01-04 A positively rebellious take on a traditionally negative philosophy offers an antidote for our anxious times. Career success, a beautiful life, a beautiful Instagram account—what's the point? In a world where meaning has become twisted into a form of currency that everyone is very keen to cash in on, journalist Wendy Syfret invites you to change the way you think about the way you think. In her seminal work, *The Sunny Nihilist*, Syfret presents the optimism in Nihilism, encouraging us to dismantle our self-care and self-centered way of living and accept a life more or less ordinary. Syfret re-examines the meaning of worth, value, time, happiness, success, and connection, and guides us towards the alternative path of pointless pleasure. When you let go of the idea that everything must have purpose, you will find relief from stress, exhaustion, and anxiety. Most importantly, you can embrace the opportunity to enjoy the moment, the present, the chaos and luck of being alive at all. *The Sunny Nihilist* is an inspiring call to action and survival adaptation for modern life.

Wild Dust Dennis Poore,Flip Kobler,Cindy Marcus.2009 1m, 8f, plus / Int. Based on the original play *Wild Dust*, this engaging Wild West story has been delighting audiences for years. And now, the original playwright, Flip Kobler, has joined forces with veteran composer Dennis Poore to turn *Wild Dust* the play into *Wild Dust: The Musical*. It's 1887 and a dust storm is about to hit the town of Willow Creek. The west was still wild, but the wind was wilder. *Wild Dust the Musical*, takes place at a time when the west was wild, the women were soft and the men were brave. The worst dust storm in a decade was about to hit the town, and all the men had gone to drive the horses and cattle to safer shelter to ride out the storm. That left the women of town to fend for themselves in the only building strong enough to withstand the pounding sand - the town brothel. So four fallen ladies and three ladies of the town are thrown together for the next 72 hours, along with a mysterious cowboy and a dancing corpse! For three days they confront the elements, each other, and hardest of all - themselves. It's a comic romp with lots of slamming doors, mistaken identities, and one very dead body. No one is exactly what they seem, and everyone's got a secret hidden up their sleeve. *Wild Dust: The Musical* is a comic romp that's not to be missed.

Turrise. 2017-05-24 In today's healthcare environment of scarce resources and challenges related to safety and quality, nurses must make decision after decision to ensure timely, accurate, and efficient provision of care. In *The Essentials of Clinical Reasoning for Nurses*, authors RuthAnne Kuiper, Sandra O'Donnell, Daniel Pesut, and Stephanie Turrise provide a model that supports learning and teaching clinical reasoning, development of reflective and complex thinking, clinical supervision, and care planning through scenarios, diagnostic cues, case webs, and more.

It is the first of a series of picture books written and made for grownups and designed to showcase leading New Zealand writers and artists working together in a collaborative and dynamic way. In High Wire the narrators playfully set out across the Tasman, literally on a high wire. Macleods striking drawings explore notions of home, and depict homeward thoughts and dreams. Its a beautifully considered small book which richly rewards the reader and stretches the notion of what the book can do.
