Teaching English to Speakers of Other Languages David Nunan.2015-02-11 David Nunan's dynamic learner-centered teaching style has informed and inspired countless TESOL educators around the world. In this fresh, straightforward introduction to teaching English to speakers of other languages he presents teaching techniques and procedures along with the underlying theory and principles. Complex theories and research studies are explained in a clear and comprehensible, yet non-trivial, manner without trivializing them. Practical examples of how to develop teaching materials and tasks from sound principles provide rich illustrations of theoretical constructs. The content is presented through a lively variety of different textual genres including classroom vignettes showing language teaching in action, question and answer sessions, and opportunities to 'eavesdrop' on small group discussions among teachers and teachers in preparation. Readers get involved through engaging, interactive pedagogical features and opportunities for reflection and personal application. Each chapter follows the same format so that readers know what to expect as they work through the text. Key terms are defined in a Glossary at the end of the book. David Nunan's own reflections and commentaries throughout enrich the direct, up-close style of the text.

Laurie Bauer examines the patterns of pronunciation found in English, comments on common errors made by learners, provides advice on what must be taught and what can be allowed to pass, and offers commentary on which parts of the curriculum are necessary for beginners and which are of value only to advanced students. Part I introduces the phonetic background; Part II covers phonetics in more detail (consonants, vowels, prosody, phonotactics and syllables); Part III covers phonology (sound changes influenced by adjacent sounds, morphophonemics, stress rules and free variation); and Part IV covers spelling (English spelling, spelling consonants and vowels, and spelling particularly difficult words).
