Statistics in Musicology Jan Beran.2003-07-15 Traditionally, statistics and music are not generally associated with each other. However, ...intelligent... music software, computer digitization, and other advanced techniques and technologies have precipitated the need for standard statistical models to answer basic musicological questions. *Statistics In Musicology* presents an unprecedented introduction to statistical and mathematical methods developed for use in music analysis, music theory, and performance theory. It explores concrete methods for data generation and numerical encoding of musical data and serves as a practical reference for a wide audience, including statisticians, mathematicians, musicologists, and musicians.

The Masses and Motets of William Byrd Joseph Kerman,Professor of Music Joseph Kerman.1981-01-01 In this, the first of a three-volume study of Byrd's complete output, under the general title *The Music of William Byrd*, the author essays a first full-scale historical and critical assessment of Byrd's sacred music to Latin words - one of the great glories of the Elizabethan Age. Each of the approximately 175 compositions is considered, at least briefly, with fuller appreciation accorded to such masterpieces as *Emendemus in Melius*, *Tristitia et anxietas*, *Iusorum animae*, *Ave verum corpus*, the lamentations and the three famous masses. There are more than sixty musical examples, some of considerable length. In critical prose that slights neither technicalities nor the intense emotional qualities of his subject matter, the author sheds fresh and often unexpected illumination on Byrd's musical rhetoric and on his powerful, endlessly inventive musical structures. Re-examining the known facts of Byrd's life in relation to the patronage and politics of the time, the author boldly argues that while the impetus behind Byrd's early motets was primarily traditionalist and technical, that behind his *Cantiones sacrae* motets of the 1580s was essentially political: they were covert laments and protests on behalf of the embattled recusant community.

The Cambridge Companion to Conducting José Antonio Bowen.2003-11-20 In this wide-ranging inside view of the history and practice of conducting, analysis and advice comes directly from working conductors, including Sir Charles Mackerras on opera, Bramwell Tovey on being an Artistic Director, Martyn Brabbins on modern music, Leon Botstein on programming and Vance George on choral conducting, and from those who work closely with conductors: a leading violinist describes working as a soloist with Stokowski, Ormandy and Barbirolli, while Solti and Abbado's studio producer explains orchestral recording, and one of the world's most powerful managers tells all. The book includes advice on how to conduct different types of groups (choral, opera, symphony, early music) and provides a substantial history of conducting as a study of national traditions. It is an unusually honest book about a secretive industry and managers, artistic directors, soloists, players and conductors openly discuss their different perspectives for the first time.

Byrd Studies Alan Brown,Richard Turbet.2006-11-23 This symposium celebrates the 450th anniversary of the birth of William Byrd, one of the greatest English composers. Twelve scholars contribute essays which together cover all the genres of Byrd's prolific output. Topics discussed in this collection include authentication of the canon, applications of technology to Byrd research, Byrd's relationship to earlier English traditions and his influence on his successors. There are studies concerned with manuscript sources and aspects of performance and the final contribution is a comprehensive listing of Byrd recordings made between 1923 and 1988. The essays in this volume show a variety of approaches to musical analysis and some of the conclusions are controversial, or offer revisions of earlier opinions.

He provides an over-whelming argument that every parish must have high standrads for liturgical music and he makes the full case for Gregorian chant as the model and the ideal of that liturgical music. - back cover
