Walking on Samos Dieter Graf.2012-04 This is the first edition of the Walking on Samos guidebook, describing 21 walks on the Greek island of Samos, a paradise for walkers. The northern coast with its wooded slopes and vineyards is interlaced with old mule tracks and, together with the old monasteries and the archaeological sites around Pythagorio, these are strong features of the book. And in the south-west you can climb the highest mountain in the Aegean, 1,440 above sea level! 21 of the best old walking trails are described with detailed maps, GPS data and route photos along with lots of interesting facts worth knowing about the island. There is plenty to discover on one of the finest walking islands of Greece.

Tropes of Transport Katrin Pahl.2012-02-29 Intervening in the multidisciplinary debate on emotion, Tropes of Transport offers a fresh analysis of Hegel's work that becomes an important resource for Pahl's cutting-edge theory of emotionality. If it is usually assumed that the sincerity of emotions and the force of affects depend on their immediacy, Pahl explores to what extent mediation—and therefore a certain degree of manipulation but also of sympathy—is constitutive of emotionality. Hegel serves as a particularly helpful interlocutor not only because he offers a sophisticated analysis of mediation, but also because, rather than locating emotion in the heart, he introduces impersonal tropes of transport, such as trembling, release, and shattering.

South West Coast Path - Minehead to Padstow Roland Tarr.2016-03-03 The South West Coast Path is the spectacular 630-mile (1008-km) National Trail around the tip of Britain. This volume features the section of the Path from Minehead to Padstow, a distance of 163 miles (262 km). It skirts the Exmoor National Park, taking in the precipitous harbour towns of Lynton, Lynmouth and Ilfracombe, before heading south-west into Cornwall along the surfers' coast via Westword Ho! and Arthurian Tintagel, to reach the gastronomic mecca of Padstow. Along the way there is the coastal path around Lundy Island, with its puffins, and other arresting wildlife from shearwaters to basking sharks. This guide has been fully revised and updated for 2016, and completely redesigned to feature many more colour photographs and much more information on local history, cultural associations and wildlife. It is not so much a walking guide as a complete companion to the landscape of the Path, whether you are a dedicated long-distance walker or a weekend stroller. National Trail Guides are the official guidebooks to the fifteen National Trails in England and Wales and are published in association with Natural England, the official body charged with developing and maintaining the Trails.

The Human and the Humane Christian Høgel. 2015 In times of conflicts and crises, an argument insisting on the humane is commonly heard. In wars, voices demanding a humane treatment of prisoners - as decreed by the Geneva Convention - will be raised. Opposition to social injustice may be framed in a collected call for a humane society. Even educational systems may insist on having a humane perspective among its leading causes. Words referring to man - humane, but also humanistic, humanitarian, even humanity - thus take on status of ideals for mankind. Man, in common and legal speech, thus becomes the conceptual marker of his own perfection. The subject of this book is the early history of this linguistic feature and in particular its argumentative use, from its starting point till early modern times.

Embedding Knowledge Henning Hasemann. 2015-03-18 Die Vision der konsequenten Vernetzung verschiedener eingebetter Geräte miteinander und dem bestehenden Internet, das „Internet der Dinge“, steht zunehmend im wissenschaftlichen und wirtschaftlichen Interesse. Aktuelle Standardisierungsbemühungen erstreben eine Interoperabilität unterschiedlichster Geräteklassen bis hin zur Applikationsschicht. Die Darstellung von kommunizierten Informationen auf dieser Schicht allerdings ist üblicherweise in Formaten und Vokabeln kodiert, die spezifisch für eine bestimmte Wissensdomäne sind. Parallel beobachten wir die Entstehung des Semantischen Webs, einer Reihe von Standards, die Wissen im World Wide Web auf universelle und verteilte Weise darstellen. Diese Arbeit untersucht die Verbindung des Internets der Dinge mit dem Semantischen Web, mit dem Ziel einer universellen Wissensdarstellung, die „Dinge“ miteinander und dem bestehenden Internet verbindet. Insbesondere diskutieren wir, inwieweit es möglich ist, semantisches Wissen im Sinne des Semantischen Webs auf verschiedenen ressourcenbeschränkten Systemen zu speichern, zu verarbeiten und abzufragen.
