American Geography Matt Black.2021-12-07 Award-winning photographer Matt Black traveled over 100,000 miles to chronicle the reality of today's unseen and forgotten America. When Magnum photographer Matt Black began exploring his hometown in California's rural Central Valley—dubbed “the other California,” where one-third of the population lives in poverty—he knew what his next project had to be. Black was inspired to create a vivid portrait of an unknown America, to photograph some of the poorest communities across the US. Traveling across forty-six states and Puerto Rico, Black visited designated “poverty areas,” places with a poverty rate above 20 percent, and found that poverty areas are so numerous that they're never more than a two-hour's drive apart, woven through the fabric of the country but cut off from “the land of opportunity.” *American Geography* is a visual record of this five-year, 100,000-mile road trip, which chronicles the vulnerable conditions faced by America's poor. This compelling compilation of black-and-white photographs is accompanied by Black's own travelogue—a collection of observations, overheard conversations in cafe's and public transportation, diner menus, bus timetables, historical facts, and snippets from daily news reports. A future classic of photography, this monograph is supported by an international touring exhibition and is a must-have for anyone with an interest in witnessing the reality of an America that's been excluded from the American Dream.

Mystifying the Monarch Jeroen Deploige, Gita Deneckere. 2006 The power of monarchs has traditionally been as much symbolic as actual, rooted in popular imagery of sovereignty, divinity, and authority. In *Mystifying the Monarch*, a distinguished group of contributors explores the changing nature of that imagery—and its political and social effects—in Europe from the Middle Ages to the present day. They demonstrate that, rather than a linear progression where perceptions of rulers moved inexorably from the sacred to the banal, in reality the history of monarchy has been one of constant tension between mystification and demystification.

India After Gandhi: The History of the World's Largest Democracy Ramachandra Guha.2017-07-13 Ramachandra Guha's India after Gandhi is a magisterial account of the pains, struggles, humiliations and glories of the world's largest and least likely democracy. A riveting chronicle of the often brutal conflicts that have rocked a giant nation, and of the extraordinary individuals and institutions who held it together, it established itself as a classic when it was first

published in 2007. In the last decade, India has witnessed, among other things, two general elections; the fall of the Congress and the rise of Narendra Modi; a major anti-corruption movement; more violence against women, Dalits, and religious minorities; a wave of prosperity for some but the persistence of poverty for others; comparative peace in Nagaland but greater discontent in Kashmir than ever before. This tenth anniversary edition, updated and expanded, brings the narrative up to the present. Published to coincide with seventy years of the country's independence, this definitive history of modern India is the work of one of the world's finest scholars at the height of his powers.

1232 km Vinod Kapri.2021-05-28 The nationwide lockdown in 2020 to curb the spread of Covid-19 left millions of migrant labourers without jobs, food and shelter. Ritesh, Ashish, Ram Babu, Sonu, Krishna, Sandeep and Mukesh-migrants from Bihar-undertook a similar journey on their bicycles that lasted for seven days and seven nights. Their harrowing trip from Ghaziabad, Uttar Pradesh, to their hometown of Saharsa as they braved police lathis and insults, and battled hunger, exhaustion and fear, was documented by National Award-winning filmmaker Vinod Kapri. 1232 km is a story of the extraordinary courage of seven men in the face of tremendous odds.

What Works in Girls' Education Gene B Sperling, Rebecca Winthrop. 2015-09-29 Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

Backroads of Paradise Cathy Salustri. 2016-08-25 In the 1930s, the Federal Writers' Project sent mostly anonymous writers, but also Zora Neale Hurston and Stetson Kennedy, into the depths of Florida to reveal its splendor to the world. The FWP and the State of Florida jointly published the results as Florida: A Guide to the Southernmost State, which included twenty-two driving tours of the state's main roads. Eventually, after Eisenhower built the interstates, drivers bypassed the small

towns that thrived along these roads in favor of making better time. Those main roads are now the state's backroads—forgotten by all but local residents, a few commuters, and dedicated road-trippers. Retracing the original routes in the Guide, Cathy Salustri rekindles our notions of paradise by bringing a modern eye to the historic travelogues. Salustri's 5,000-mile road trip reveals a patchwork quilt of Florida cultures: startling pockets of history and environmental bliss stitched against the blight of strip malls and franchise restaurants. The journey begins on US 98, heading west toward the Florida/Alabama state line, where coastal towns dot the roadway. Here, locals depend on the tourism industry, spurred by sugar sand beaches, as well as the abundance of local seafood. On US 41, Salustri takes us past the state's only whitewater rapids, a retired carnie town, and a dazzling array of springs, swamps, and rivers interspersed with farms that produce a bounty of fruit. Along US 17, she stops for milkshakes and hamburgers at Florida's oldest diner and visits a collection of springs interconnected by underwater mazes tumbling through white spongy limestone, before stopping in Arcadia, where men still bring cattle to auction. Desperately searching for skunk apes, the Sunshine State's version of Bigfoot, she encounters more than one gator on her way through the Everglades, Ochopee, and the Skunk Ape Research Headquarters. Following the original Guide, Salustri crisscrosses the state from the panhandle to the Keys. She guides readers through forgotten and unknown corners of the state--nude beaches, a rattlesnake cannery, Devil's Millhopper in Gainesville--as well as more familiar haunts--Kennedy Space Center and The Villages, Florida's Friendliest Retirement Hometown. Woven through these journeys are nuggets of history, environmental debates about Florida's future, and a narrative that combines humor with a strong affection for an oft-maligned state. Today, Salustri urges, tourists need a new nudge to get off the interstates or away from Disney in order to discover the real Florida. Her travel narrative, following

what are now backroads and scenic routes, guides armchair travelers and road warriors alike to historic sites, natural wonders, and notable man-made attractions--comparing the past views with the present landscape and commenting on the changes, some barely noticeable, others extreme, along the way.
