Cultural Anthropology Robert Louis Welsch,Luis A.

Vivanco.2017-10-20 What is cultural anthropology, and how can it explain--or even help resolve--contemporary human problems? Robert L. Welsch and Luis A. Vivanco's *Cultural Anthropology: Asking Questions About Humanity*, Second Edition, uses a questions-based approach to teach students how to think anthropologically, helping them view cultural issues and everyday experiences as an anthropologist might. Inspired by the common observation that ninety-nine percent of a good answer is a good question, *Cultural Anthropology* combines a question-centered pedagogy with the topics typically covered in an introductory course. It emphasizes up front what the discipline of anthropology knows and which issues are in debate, and how a cultural perspective is relevant to understanding social, political, and economic dynamics in the contemporary world. Anthropology also represents an effort to close the gap between the realities of the discipline today and traditional views that are taught at the introductory level by bringing classic anthropological examples, cases, and analyses to bear on contemporary questions.

Biological Anthropology Michael Alan Park.2002 This concise introduction to biological (physical) anthropology discusses the core areas of the discipline within a unique framework modeled on the scientific method. Each chapter poses questions that get at the heart of the field, answers them, and then re-examines them in the same way that scientists generate and test hypotheses.

Reflections Of Our Past John H Relethford.2018-03-09 Where did modern humans come from and how important are the biological differences among us? Are we descended from Neanderthals? How many races of people are there? Were Native Americans the first settlers of the New World? How can we tell if Thomas Jefferson had a child with Sally Hemings? Through an engaging examination of issues such as these, and using non-technical language, Reflections of Our Past shows how anthropologists use genetic information to test theories and define possible answers to fundamental questions in human history. By looking at genetic variation in the world today, we can reconstruct the recent and remote events and processes that created the variation we see, providing a fascinating reflection of our genetic past. Reflections of Our Past is a W. W. Howells Book Prize Winner and Choice Outstanding Academic Title.

American Anthropology, 1971-1995 Regna Darnell.2002-01-01 American anthropology in the late twentieth century interrogated and depicted the worlds of others, past and present, in subtle and incisive ways while increasingly questioning its own authority to do so. subdiscipline in its own right. There emerged a keener appreciation of both the history of the discipline and the histories of those studied. Archaeologists witnessed a resurgence of interest in the concept of culture. The American Anthropologist also made systematic efforts to represent the field as a whole, with biological anthropology and linguistics particularly adept at crossing subdiscipline boundaries. Proliferation of specialized areas within sociocultural anthropology encouraged work across the subdisciplines. The thirty selections in this volume reflect the notable trends and accomplishments in American anthropology during the closing decades of the millennium. An introduction by Regna Darnell offers a historical background and critical context that enable readers to better understand the changes and continuity in American anthropology during this time.

Language, Culture, and Society James Stanlaw,Nobuko Adachi,Zdenek Salzmann.2018-04-24 Why should we study language? How do the ways in which we communicate define our identities? And how is this all changing in the digital world? Since 1993, many have turned to Language, Culture, and Society for answers to questions like those above because of its comprehensive coverage of all critical aspects of linguistic anthropology. This seventh edition carries on the legacy while addressing some of the newer pressing and exciting challenges of the 21st century, such as issues of language and power, language ideology, and linguistic diasporas. Chapters on gender, race, and class also examine how language helps create - and is created by - identity. New to this edition are enhanced and updated pedagogical features, such as learning objectives, updated resources for continued learning, and the inclusion of a glossary. There is also an expanded discussion of communication online and of social media outlets and how that universe is changing how we interact. The discussion on race and ethnicity has also been expanded to include Latin- and Asian-American English vernacular.

Nest in the Wind Martha C. Ward. 2004-10-21 During her first visit to the beautiful island of Pohnpei in the middle of the Pacific Ocean, anthropologist Martha Ward discovered people who grew quarter-ton yams in secret and ritually shared a powerful drink called kava. She managed a medical research project, ate dog, became pregnant, and responded to spells placed on her. Thirty years later she returned to Pohnpei to learn what had happened there since her first visit. Were islanders still relaxed and casual about sex? Were they still obsessed with titles and social rank? Was the island still lush and beautiful? Had the inhabitants remained healthy? This second edition of Ward's best-selling account is a rare, longitudinal study that tracks people, processes, and a place through decades of change. It is also an intimate record of doing fieldwork that immerses readers in the sights, smells, tastes, sounds, and the sensory richness of Pohnpei. Ward addresses the ageless ethnographic questions about family life, politics, religion, traditional medicine, magic, and death together with contemporary concerns about postcolonial survival, the discontinuities of culture, and adaptation to the demands of a global age. Her insightful discoveries illuminate the evolution of a culture possibly distant from yet important to people living in other parts of the world.
