Exegetical Crossroads Georges Tamer,Regina Grundmann,Assaad Elias Kattan,Karl Pinggéra.2017-12-18 The art of interpreting Holy Scriptures flourished throughout the culturally heterogeneous pre-modern Orient among Jews, Christians and Muslims. Different ways of interpretation developed within each religion not without considering the others. How were the interactions and how productive were they for the further development of these traditions? Have there been blurred spaces of scholarly activity that transcended sectarian borders? What was the role played by mutual influences in profiling the own tradition against the others? These and other related questions are critically treated in the present volume.

Una Veritas Claudio Pierantoni.2022-02-17 This work proposes a new proof of the existence of God, based on a development of elements found in Patristic and Scholastic philosophical tradition, in particular of St. Augustine, St. Anselm and St. Thomas Aquinas. Traditionally the existence of God has been seen in relation to the essence of Truth: its unchanging and eternal essence is used as a proof of the eternal existence of a personal God. The strategy of our demonstration is to investigate the concept of Truth from the perspective of a definition, which can be called "inclusive": it proposes to formulate, complementary to formal, purely abstract definitions of Truth, also a definition that includes the real personal elements that are necessarily implied in the abstract definition. It shows the necessity of including in it, in the first place, the primary Real Being, God, which is also the primary Intellect; and, related to it, our finite, human intellect, not necessary in itself, but of course essential to our very nature. Claudio Pierantoni is Professor of Medieval Philosophy at the University of Chile (Universidad de Chile) and Professor of Latin Literature at the Universidad de los Andes, Chile. He was former Professor of Church History and Patrology at the Faculty of Theology of the Catholic Pontifical University of Chile (Pontificia Universidad Católica de Chile).

**Jungbrunnenwasser** Dietmar Ferger.2021-04-13 Der Mensch ist ein Aquarium! Wie Fische im Aquarium schwimmen die Körperzellen in der Lymphe - nur leider kümmert sich kaum jemand so um die Qualität der eigenen Lymphe wie ein Aquarianer um die Wasserqualität in seinem Aquarium. Also: Wasserwechsel statt Medikamente?! Doch welches Wasser ist das Richtige? Welche Umgebung benötigen die Körperzellen um gesund zu bleiben? Welche Bedeutung hat der Säure-Basen-Haushalt wirklich für die Gesundheit? Was ist eine Übersäuerung wirklich und wo findet sie statt? Welche Rolle spielt der Sauerstoff? Welche Bedeutung hat der Wasserstoff? Was sind Antioxidantien wirklich? Sind sie Fluch oder Segen? Wenn wir in Mitteleuropa mehr als 10% des Bruttosozialproduktes für die Behandlung von Krankheiten aufwenden, davon den größten Teil für sog. Zivilisationserkrankungen, wird es Zeit, sich Gedanken über Alternativen zur pharmazeutisch-technisch orientierten Medizin zu machen - und vielleicht, wo wie ein guter Aquarianer, erst einmal das (Körper-)Wasser zu wechseln, bevor Medikamente ins Spiel kommen! Dieses Buch ist ein Lese-, Lern-, Arbeits- und Anwenderbuch für Jeden, der sein eigenes Körperwasser verstehen will und die Zusammenhänge, die es mit der eigenen Gesundheit hat, und der wissen will, welche Bedeutung die Lymphe für die eigene Gesundheit hat. Es bezieht eindeutig Stellung für eine ganzheitliche Betrachtung des Menschen und seiner Gesundheit und begründet, warum das in Asien weit verbreitete ionisierte basische Aktivwasser zu einem persönlichen Jungbrunnen wird.

Existentialism and Excess: The Life and Times of Jean-Paul Sartre Gary Cox.2016-09-08 Jean-Paul Sartre is an undisputed giant of twentieth-century philosophy. His intellectual writings popularizing existentialism combined with his creative and artistic flair have made him a legend of French thought. His tumultuous personal life - so inextricably bound up with his philosophical thinking - is a fascinating tale of love and lust, drug abuse, high profile fallings-out and political and cultural rebellion. This substantial and meticulously researched biography is accessible, fast-paced, often amusing and at times deeply moving. Existentialism and Excess covers all the main events of Sartre's remarkable seventy-five-year life from his early years as a precocious brat devouring his grandfather's library, through his time as a brilliant student in Paris, his wilderness years as a provincial teacher-writer experimenting with mescaline, his World War II adventures as a POW and member of the resistance, his post-war politicization, his immense amphetamine fueled feats of writing productivity, his harem of women, his many travels and his final decline into blindness and old age. Along the way there are countless intriguing anecdotes, some amusing, some tragic, some controversial: his loathing of crustaceans and his belief that he was being pursued by a giant lobster, his escape from a POW camp, the bombing of his apartment, his influence on the May 1968 uprising and his many love affairs. Cox deftly moves from these episodes to discussing his intellectual development, his famous feuds with Aron, Camus, and Merleau-Ponty, his encounters with other giant figures of his day: Roosevelt, Hemingway, Heidegger, John Huston, Mao, Castro, Che Guevara, Khrushchev and Tito, and, above all, his long, complex and creative relationship with Simone de Beauvoir. Existentialism and Excess also gives serious consideration to Sartre's ideas and many philosophical works, novels, stories, plays and biographies, revealing their intimate connection with his personal life. Cox has written an entertaining, thought-provoking and compulsive book, much like the man himself.

**The King Who Refused to Die** Zecharia Sitchin.2013-09-20 Zecharia Sitchin's secret allegorical novel that brings to life the key concepts of his bestselling book *The 12th Planet* • Reimagines the Epic of Gilgamesh in the context of Sitchin's discoveries • Details ancient Sumerian sex rituals, the Anunnaki lineage of the gods who lived in Sumer, Anunnaki spacecraft technology, the workings of the Oracle of Anu, and Gilgamesh's relationship with the goddess Ishtar Written in secret so as not to incite criticism about his controversial discoveries, this novel from the late Zecharia Sitchin brings to life the key themes of his bestseller *The 12th Planet*. The story begins in London as Astra arrives at the British Museum's opening for their new Gilgamesh exhibit. There she meets a handsome stranger who knows secrets about her that no stranger should know, including the source of the unusual scar on her hand. Taking her to his apartment, he reveals that she is descended from the goddess Ishtar and that he is the modern-day avatar of Gilgamesh seeking to claim the eternal life Ishtar denied him so long ago. Reenacting their sacred sex ritual from eons ago, they find themselves transported to ancient Sumer as Gilgamesh and Ishtar, where he is at last able to continue his quest for immortality. But as Gilgamesh fulfills his sacred duties with Ishtar, something goes awry and the Oracle of Anu will not renew its blessing upon his kingship. Following the direction of his mother, the Anunnaki goddess Ninsun--the source of his partial divinity--Gilgamesh flees the city for the Anunnaki forbidden zone in search of a way to the planet Nibiru and eternal life. Travel alongside Gilgamesh and his immortal companion Enkidu as they escape the fate pronounced by the oracle, discover a Tablet of Destiny meant for Ishtar, fight off Marduk's raiders, and foil the plot of the high priest, Gilgamesh's half-brother who is seeking Gilgamesh's crown for himself. Retelling the Epic of Gilgamesh in the context of his discoveries about the Anunnaki, Zecharia Sitchin weaves a tale of ancient ceremony, accidental betrayal, gods among men, interplanetary travel, and a quest for immortality spanning millennia.

*Religion and Dialogue in the City* Julia Ipgrave,Thorsten Knauth,Anna Körs,Dörthe Vieregge,Marie von der Lippe.2018 Urban spaces throughout Europe are increasingly characterised by a mixture of different religions and worldviews. Being home to a wide range of religious and non-religious groups and individuals does not mean that cities are automatically also spaces of interreligious and interfaith encounters. Whether a city is a venue for interreligious encounter and dialogue, or merely a place where various religions and worldviews exist side by side, is a central question for the continuing social cohesion of modern societies. This volume presents selected findings of the international research project 'Religion and Dialogue in Modern Societies' (ReDi) which investigated dialogical practice in the five metropolitan cities Oslo, Stockholm, London, Hamburg and Duisburg. It offers a range of case studies addressing two fields of activity: dialogue and interreligious encounters in the urban space and dialogue in education.

*Francisco Goya* Sarah Carr-Gomm.2011-07-01 Goya is perhaps the most approachable of painters. His art, like his life, is an open book. He concealed nothing from his contemporaries, and offered his art to them with the same frankness. The entrance to his world is not barricaded with technical difficulties. He proved that if a man has the capacity to live and multiply his experiences, to fight and work, he can produce great art without classical decorum and traditional respectability. He was born in 1746, in Fuendetodos, a small mountain village of a hundred inhabitants. As a child he worked in the fields with his two brothers and his sister until his talent for drawing put an end to his misery. At fourteen, supported by a wealthy patron, he went to Saragossa to study with a court painter and later, when he was nineteen, on to Madrid. Up to his thirty-seventh year, if we leave out of account the tapestry cartoons of unheralded decorative quality and five small pictures, Goya painted nothing of any significance, but once in control of his refractory powers, he produced masterpieces with the speed of Rubens. His court appointment was followed by a decade of incessant activity - years of painting and scandal, with intervals of bad health. Goya's etchings demonstrate a draughtsmanship of the first rank. In paint, like Velázquez, he is more or less dependent on the model, but not in the detached fashion of the expert in still-life. If a woman was ugly, he made her a despicable horror; if she was alluring, he dramatised her charm. He preferred to finish his portraits at one sitting and was a tyrant with his models. Like Velázquez, he concentrated on faces, but he drew his heads cunningly, and constructed them out of tones of transparent greys. Monstrous forms inhabit his black-and-white world: these are his most profoundly deliberated productions. His fantastic figures, as he called them, fill us with a sense of ignoble joy, aggravate our devilish instincts and delight us with the uncharitable ecstasies of destruction. His genius attained its highest point in his etchings on the horrors of war. When placed beside the work of Goya, other pictures of war pale into sentimental studies of cruelty. He avoided the scattered action of the battlefield, and confined himself to isolated scenes of butchery. Nowhere else did he display such mastery of form and movement, such dramatic gestures and appalling effects of light and darkness. In all directions Goya renewed and innovated.

**Cosmic Detox** Mantak Chia,William U. Wei.2011-04-25 How to cleanse the nine openings of the body for detoxification and self-healing • Explains how to purify the body's internal environment through mono diets, fasts, and colonic cleanses to prevent degenerative disease and premature aging • Presents a 14-day total-body cleansing guide • Includes chi self-massage and healing sound practices as well as natural recipes for herbal tonics and cleansing flushes Long known by Taoist masters, the body has an innate ability to heal itself, an ability that is hampered by toxins in the food we ingest and energy blockages that arise from illnesses and obstacles in our lives. These blockages transform the body's energy rivers into a polluted and stagnant swamp--the root of degenerative disease as well as premature aging. Revealing the detoxification and rejuvenation practices of the Taoist sages, Master Mantak Chia and William U. Wei show how to reactivate your body's self-healing abilities by gradually and safely expelling accumulated toxins through fasting, mono diets, and cleansing the nine openings of the body. Using the practices of chi self-massage and healing sounds along with natural recipes for herbal tonics and cleansing flushes for each of the openings and their related organs, the authors explain how to balance and purify the body's internal environment through acid and alkaline foods, urine therapy, colonic cleanses, dry skin brushing, ear

candling, and energized water. Concluding with a 14-day total-body cleansing program, Cosmic Detox offers tools to keep the energy rivers clean and flowing, preparing the body for higher level Taoist practices as well as enabling healing of our emotional and spiritual bodies.
