Christ in Islam and Christianity Neal Robinson.1991-07-31 Christ in Islam and Christianity is an analysis of the different Christian approaches to Jesus in the Qur'an and in the classical Muslim commentaries. The author presents controversial suggestions about the relevance of the Qur'anic representation of Jesus and Mary to Muhammad and his menage. Included are extensive translations of extracts from classical Muslim commentaries including Sunni, Mu'tazilite, Shia, and Sufi. Much of the Muslim material which the author translates has not previously been translated into English.

Between Jerusalem and Mecca Uri Rubin (z"l).2023-10-02 This book sheds new light on Jerusalem's status in early Islam. The sanctity of the city is already discerned in the Qur'ān. The vision of redemption that the Qur'ān displays coincides with the messianic expectations that have swept throughout the entire region, especially among the Jews, due to the attempted renewal of Jewish liturgy in Jerusalem following the Persian victory over Byzantium in 614. On the other hand, the Qur'ān also portrays the holiness of Mecca and the Ka'ba. This book shows how it promotes their pre-Islamic holiness around the image of Abraham and Ishmael. The changing balance between the sanctity of Jerusalem and the sanctity of Mecca, in favor of the latter, is noticeable in the Qur'ān as one proceeds from the Meccan sūras to the Medinan ones. The change occurs against the background of the twist in relations between Muḥammad and the Jews. This book also points out the correlation between Muḥammad's situation in Medina and events in Palestine involving the victory of the Byzantines over the Persians in 628, as alluded to in the opening passage of Sūrat al-Rūm (30). This work illuminates the growing sanctity of Jerusalem following the arrival of the first Muslims to Palestine. As in the Qur'ān, Mecca continued to struggle to preserve its status as a holy city vis-à-vis that of Jerusalem. Key aspects of this struggle are reflected in traditions in which patterns of sanctity move from Jerusalem to Mecca, and which this book also scrutinizes.

Divine Word and Prophetic Word in Early Islam William A. Graham.2010-10-06 The series Religion and Society (RS) contributes to the exploration of religions as social systems – both in Western and non-Western societies; in particular, it examines religions in their differentiation from, and intersection with, other cultural systems, such as art, economy, law and politics. Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual, the religious imagination, constructions of tradition, iconography, or media. In addition, the formation of religious communities, their construction of identity, and their relation to society and the wider public are key issues of this series.

Locating Hell in Islamic Traditions Christian Lange.2015-09-17 Islam is often seen as a religious tradition in which hell does not play a particularly prominent role. This volume challenges this hackneyed view. Locating Hell in Islamic Traditions is the first book-length analytic study of the Muslim hell. It maps out a broad spectrum of Islamic attitudes toward hell, from the Quranic vision(s) of hell to the pious cultivation of the fear of the afterlife, theological speculations, metaphorical and psychological understandings, and the modern transformations of hell. Contributors: Frederick Colby, Daniel de Smet, Christiane Gruber, Jon Hoover, Mohammad Hassan Khalil, Christian Lange, Christopher Melchert, Simon O'Meara, Samuela Pagani, Tommaso Tesei, Roberto Tottoli, Wim Raven, and Richard van Leeuwen.

The Law of God Rémi Brague.2020-10-23 The law of God: these words conjure an image of Moses breaking the tablets at Mount Sinai, but the history of the alliance between law and divinity is so much longer, and its scope so much broader, than a single Judeo-Christian scene can possibly suggest. In his stunningly ambitious new history, Rémi Brague goes back three thousand years to trace this idea of divine law in the West from prehistoric religions to modern times—giving new depth to today's discussions about the role of God in worldly affairs. Brague masterfully describes the differing conceptions of divine law in Judaic, Islamic, and Christian traditions and illuminates these ideas with a wide range of philosophical, political, and religious sources. In conclusion, he addresses the recent break in the alliance between law and divinity—when modern societies, far from connecting the two, started to think of law simply as the rule human community gives itself. Exploring what this disconnection means for the contemporary world, Brague—powerfully expanding on the project he began with *The Wisdom of the World*—re-engages readers in a millennia-long intellectual tradition, ultimately arriving at a better comprehension of our own modernity. “Brague’s sense of intellectual adventure is what makes his work genuinely exciting to read. The Law of God offers a challenge that anyone concerned with today’s religious struggles ought to take up.”—Adam Kirsch, *New York Sun* “Scholars and students of contemporary world events, to the extent that these may be viewed as a clash of rival fundamentalisms, will have much to gain from Brague’s study. Ideally, in that case, the book seems to be both an obvious primer and launching pad for further scholarship.”—*Times Higher Education Supplement*

Encyclopaedia of Islam Ian Richard Netton.2013-12-19 The Encyclopedia of Islamic Civilization and Religion provides scholarly coverage of the religion, culture and history of the Islamic world, at a time when that world is undergoing considerable change and is a focus of international study and debate. The non-Muslim world's perceptions of Islam have often tended to be dominated by unrepresentative radical extremist movements and media interpretations of events involving such movements, to the extent that many people are unaware of the depth and variety of Islamic thought. At the same time, many who have had a formal training in Islamic studies have tended to concentrate on the traditional, to the exclusion of the contemporary. The Encyclopedia of Islamic Civilization and Religion covers the full range of Islamic thought, in historical depth, but it also provides substantial coverage of contemporary trends across the Muslim world. With well over a thousand entries on Islamic theology, history, arts, science, law and institutions, and coverage of Islam in individual countries and cities around the world, the Encyclopedia of Islamic Civilization and Religion provides an extremely rich resource for students and researchers in religious studies and Middle Eastern studies. Entries are cross-referenced and bibliographies are provided. There is a full index. Routledge published *The Qura'n: An Encyclopedia* in 2005, an excellent companion to the Encyclopedia of Islamic Civilization and Religion.

Humanism in the Renaissance of Islam Joel L. Kraemer.1992 Under the enlightened rule of the Buyid dynasty (945-1055 A.D.) the Islamic world witnessed an unequalled cultural renaissance. This book is an investigation into the nature of the environment in which the cultural transformation took place and into the cultural elite who were its bearers. After an extensive introductory section setting the stage, the book deals with the main

schools and circles and with the outstanding individual representatives of this renaissance. The main expression of this renaissance was a philosophical humanism that embraced the scientific and philosophical heritage of Classical Antiquity as a cultural and educational ideal. Along with this philosophical humanism, a literary humanism was cultivated by litterateurs, poets, and government secretaries. This renaissance was marked by a powerful assertion of individualism in the domains of literary creativity and political action. It thrived in a remarkably cosmopolitan atmosphere - Baghdad, the center of the 'Abbasid empire and of Buyid rule.

A Challenge to Islam for Reformation Günter Lüling.2003 As a Protestant theologian and disciple of renowned critics of Christianity, Albert Schweitzer and Martin Werner, the Author wanted since long to contribute to the breakthrough of their resolute nontrinitarian position which has throughout the twentieth century by all and every Western Christian university theology been silenced by pretending tacitly and tenaciously the non-existence of their strong argument.

The Mystical Vision of Existence in Classical Islam Gerhard Böwering.2010-10-06 The Studies in the History and Culture of the Islamic Orient (STIO) is the series of "Supplements" to the journal Der Islam. Both are published by the Section for the History and Culture of the Near East in the Asian-African Institute of the University of Hamburg. The Section was established in 1908, before the foundation of the University of Hamburg. Under its first Director, C.H. Becker, it was the first academic centre in Germany in which teaching and research concentrated on the historical and cultural aspects of the Islamic world, and not just on philological issues. Many of Germany's leading authorities in Islamic Studies have studied and/or taught here. The "Supplements" have maintained the same high quality and met the same high demands as the journal Der Islam and have published numerous studies on the history and culture of the Islamic world which have represented milestones in their relevant fields. The "New Series" of Supplements appearing since 2004 carries this tradition forward and provides a platform for publishing studies on the history and culture of the Islamic world from the beginnings of Islam up to the present day.

Missionarischer Islam auf YouTube Selam Bruk.2015-06-17 Missionarische Muslime haben durch YouTube-Videos im Internet bereits viele Jugendliche für den salafistischen Islam gewonnen. Was kennzeichnet das salafistische Glaubenssystem und wie können Christen dem missionarischen Islam im Internet begegnen? Um diese Frage zu beantworten, werden Erfolgsfaktoren verschiedener Prediger auf YouTube untersucht und häufig genannte Argumente muslimischer Prediger hinterfragt. Besondere Aufmerksamkeit gilt dabei den Videos des Konvertiten Pierre Vogel, dessen Behauptungen - z.B. dass Mohammed bereits in der Bibel erwähnt sei oder dass Jesus nur ein Prophet gewesen sei - in diesem Buch exegetisch widerlegt werden. Die Resultate dieses Buches helfen Christen, die Hintergründe der Argumentationsweise missionarischer Muslime zu verstehen, um ihnen angemessen begegnen zu können.

The Qur'an: Text and Commentary, Volume 1 Angelika Neuwirth.2022-10-18 The first volume of a world-renowned scholar's long-awaited Qur'an commentary, now available in English Angelika Neuwirth's six-volume commentary, published originally in Germany, offers a historical and philological analysis of the form, structure, and semantic message of each of the 114 Qur'anic suras. It brings together the fruits of the past hundred years of modern scholarship and provides access to the aesthetic, theological, linguistic, and semantic background required to appreciate the unique novelty, force, and historical position of the Qur'an. Contextualizing the Qur'anic message in the broader world of late antiquity, it bridges the gaps between the inner-Islamic scholarly world and the academy. Skillfully translated by Samuel Wilder, this first volume focuses on the Meccan suras, the earliest and often the most aesthetically striking and compelling part of the corpus of Qur'anic proclamations.

The Emergence of Islam in Late Antiquity Aziz Al-Azmeh.2014-03-06 Based on epigraphic and other material evidence as well as more traditional literary sources and critical review of the extensive relevant scholarship, this book presents a comprehensive and innovative reconstruction of the rise of Islam as a religion and imperial polity. It reassesses the development of the imperial monotheism of the New Rome, and considers the history of the Arabs as an integral part of Late Antiquity, including Arab ethnogenesis and the emergence of what was to become Muslim monotheism, comparable with the emergence of other monotheisms from polytheistic systems. Topics discussed include the emergence and development of the Muhammadan polity and its new cultic deity and associated ritual, the constitution of the Muslim canon, and the development of early Islam as an imperial religion. Intended principally for scholars of Late Antiquity, Islamic studies and the history of religions, the book opens up many novel directions for future research.

Mimetic Theory and Islam Michael Kirwan,Ahmad Achta.2019-05-07 This volume explores the 'Mimetic Theory' of the cultural theorist René Girard and its applicability to Islamic thought and tradition. Authors critically examine Girard's assertion about the connection between group formation, religion, and 'scapegoating' violence. These insights, Girard maintained, have their source in biblical revelation. Are there parallels in other faith traditions, especially Islam? To this end, Muslim scholars and scholars of Mimetic Theory have examined the hypothesis of an 'Abrahamic Revolution.' This is the claim that Judaism, Christianity, and Islam each share in a spiritual and ethical historical 'breakthrough:' a move away from scapegoating violence, and towards a sense of justice for the innocent victim.

The Spirituality of Shi'i Islam Mohammad Ali Amir-Moezzi.2011-01-31 The second largest branch of Islam, with between 130 and 190 million adherents across the globe, Shi'i Islam is becoming an increasingly significant force in contemporary politics, especially in the Middle East. This makes an informed understanding of its fundamental spiritual beliefs and practices both necessary and timely. Mohammad Ali Amir-Moezzi is one of the most distinguished scholars of Shi'i history and theology, and in this volume he offers a wide-ranging and engaging survey of the core texts of Shi'i Islam. Examining in turn the origins and later developments of Shi'i spirituality, the author reveals the profoundly esoteric nature of the beliefs which accrued to the figures of the early Imams, and which became associated with their interaction between the material and spiritual worlds. Many of these beliefs have remained much misunderstood even within the wider Muslim world. Furthermore, Western scholarship has tended to follow the lead of the earlier orientalist and critics, viewing Shi'i teachings as marginal. In this study the author shows, by contrast, how central and creative the very nature of spirituality was to the development of Shi'i Islam, as well as to classical Muslim civilisation as a whole. In this comprehensive treatment, the esoteric nature of Shi'i spirituality emerges as an essential phenomenon for understanding Shi'i Islam.

What the Koran Really Says Ibn Warraq.2010-10-29 This excellent collection of critical commentaries on the Koran brings together outstanding articles by noted scholars from the beginning of the 20th century to recent times. These important studies, as well as the editor's own lengthy introduction, show that little about the text of the Koran can be taken at face value. Among the fascinating topics discussed is evidence that early Muslims did not understand Muhammad's original revelation, that the ninth-century explosion of literary activity was designed to organize and make

sense of an often incoherent text, and that much of the traditions surrounding Muhammad's life were fabricated long after his death in an attempt to give meaning to the Koran. Also of interest are suggestions that Coptic and other Christian sources heavily influenced much of the text and that some passages reflect an essential background reaching back to the community of the Dead Sea Scrolls. This valuable compilation will be a welcome resource to interested lay readers and scholars alike.

Islam and Its Past Michael Cook, Carol Bakhos. 2017 This collection brings together scholars from various disciplines and fields to consider Islamic revelation, with particular focus on the Qur'an. It provides a wide-ranging survey of the development and current state of Qur'anic studies in the Western academy, and shows how interest in the field has recently grown, how the ways in which it is cultivated have changed, how it has ramified, and how difficult it now is for any one scholar to keep abreast of it.

Der Koran Rudi Paret. 1989

The Qur'an with Cross-References Mun'im Sirry, Mun'im A. Sirry. 2022 The Qur'an with Cross-References provides for nearly every verse in the Qur'an a selection of other verses which shed light upon, clarify, or explain the verse you are reading. The Qur'an in its printed edition has not yet been cross-referenced, despite the fact that Qur'an commentators realized quite early on the central importance of tafsīr al-Qur'ān bi'l-Qur'ān (interpreting the Qur'an through the Qur'an itself). Even some modern Muslim exegetes claim to follow this method. However, the cross-references they provided are very limited. Perhaps, the most extensive treatment and pioneered work on tafsīr al-Qur'ān bi'l-Qur'ān is that composed by Rudi Paret entitled *Der Koran: Kommentar und Konkordanz*. Paret's work is certainly very rich, which includes - in addition to possible cross-references - interpretations of and alternate renderings for a given verse or passage. Furthermore, as the term Konkordanz may indicate, his *Der Koran* provides all identical or similar phraseology and usage in different places of the Qur'an, a model that will not be followed in this Qur'an cross-references project. Instead, *The Qur'an with Cross-References* is based on connection between words, phrases, themes, concepts, events, and characters. One word may occur several times in the Qur'an, but the cross references will be made only where there is connection in meaning between two or more verses or passages. In preparing this cross-references project, several models and methods used for the cross-references of the Bible are consulted. As is well-known, Bible cross-references have been a long-established tradition, while the Qur'an, at least in its printed edition, has not been cross-referenced. *The Qur'an with Cross-References* is the first of its kind. The field has needed something like this, because in the existing Qur'an there is nothing to indicate that certain passages can shed light upon, clarify, or explain other passages.

Sure 68 (Al-Qalam). Das Schreibrohr. Koranentstehung und Koranexegese Ottilie Kumpitsch. 2018-10-24 Studienarbeit aus dem Jahr 2018 im Fachbereich Theologie - Vergleichende Religionswissenschaft, Note: 1, Karl-Franzens-Universität Graz (Religionswissenschaft), Veranstaltung: Seminar, Sprache: Deutsch, Abstract: Der Koran kommt einem auf den ersten Blick wie ein Buch mit sieben Siegeln vor. Daher war es nicht einfach sich an die Betrachtung einer Sure zu wagen. Wichtig dabei war, dass sowohl islamische Kommentare als auch westlich Auslegungen, vor allem auf der Internetseite Corpus Coranicum, vorhanden sein sollten. Schließlich fiel die Entscheidung auf Sure 68. Sohin wird zunächst in einem allgemeinen Teil das Wichtigste zu Koran - Koranentstehung - Koranexegese dargelegt. In einem nächsten Schritt wird das Formale an Sure 68 betrachtet und im letzten Teil findet dann die Analyse der einzelnen Verse unter Zuhilfenahme von einigen Kommentatoren und Exegeten statt.

The Wiley Blackwell Companion to the Qur'an Andrew Rippin, Jawid Mojaddedi. 2017-05-30 Fully revised and updated, the second edition of *The Wiley Blackwell Companion to the Qur'an* offers an ideal resource for anyone who wishes to read and understand the Qur'an as a text and as a vital component of Muslim life. While retaining the literary approach to the subject, this new edition extends both the theological and philosophical approaches to the Qur'an. Edited by the noted authority on the Qur'an, Andrew Rippin, and Islamic Studies scholar Jawid Mojaddedi, and with contributions from other internationally renowned scholars, the book is comprehensive in scope and written in clear and accessible language. New to this edition is material on modern exegesis, the study of the Qur'an in the West, the relationship between the Qur'an and religions prior to Islam, and much more. *The Wiley Blackwell Companion to the Qur'an* is a rich and wide-ranging resource, exploring the Qur'an as both a religious text and as a work of literature.

Conversion in Late Antiquity: Christianity, Islam, and Beyond Arietta Papaconstantinou, Daniel L. Schwartz. 2016-03-03 The papers in this volume were presented at a Mellon-Sawyer Seminar held at the University of Oxford in 2009-2010, which sought to investigate side by side the two important movements of conversion that frame late antiquity: to Christianity at its start, and to Islam at the other end. Challenging the opposition between the two stereotypes of Islamic conversion as an intrinsically violent process, and Christian conversion as a fundamentally spiritual one, the papers seek to isolate the behaviours and circumstances that made conversion both such a common and such a contested phenomenon. The spread of Buddhism in Asia in broadly the same period serves as an external comparator that was not caught in the net of the Abrahamic religions. The volume is organised around several themes, reflecting the concerns of the initial project with the articulation between norm and practice, the role of authorities and institutions, and the social and individual fluidity on the ground. Debates, discussions, and the expression of norms and principles about conversion conversion are not rare in societies experiencing religious change, and the first section of the book examines some of the main issues brought up by surviving sources. This is followed by three sections examining different aspects of how those principles were - or were not - put into practice: how conversion was handled by the state, how it was continuously redefined by individual ambivalence and cultural fluidity, and how it was enshrined through different forms of institutionalization. Finally, a topographical coda examines the effects of religious change on the iconic holy city of Jerusalem.

The Idea of Idolatry and the Emergence of Islam G. R. Hawting.1999-12-09 Why and under what circumstances did the religion of Islam emerge in a remote part of Arabia at the beginning of the seventh century? Traditional scholarship maintains that Islam developed in opposition to the idolatrous and polytheistic religion of the Arabs of Mecca and the surrounding regions. In this study of pre-Islamic Arabian religion, G. R. Hawting adopts a comparative religious perspective to suggest an alternative view. By examining the various bodies of evidence which survive from this period, the Koran and the vast resources of the Islamic tradition, the author argues that in fact Islam arose out of conflict with other monotheists whose beliefs and practices were judged to fall short of true monotheism and were, in consequence, attacked polemically as idolatry. The author is adept at unravelling the complexities of the source material, and students and scholars will find his argument both engaging and persuasive.
