Occult Scientific Mentalities Brian Vickers.1986-06-27 The essays in this volume present a collective study of one of the major problems in the recent history of science: To what extent did the occult 'sciences' (alchemy, astrology, numerology, and natural magic) contribute to the scientific revolution of the late Renaissance? These studies of major scientists (Kepler, Bacon, Mersenne, and Newton) and of occultists (Dee, Fludd, and Cardano), complemented by analyses of contemporary official and unofficial studies at Cambridge and Oxford and discussions of the language of science, combine to suggest that hitherto the relationship has been too crudely stated as a movement 'from magic to science'. In fact, two separate mentalities can be traced, the occult and the scientific, each having different assumptions, goals, and methodologies. The contributors call into question many of the received ideas on this topic, showing that the issue has been wrongly defined and based on inadequate historical evidence. They outline new ways of approaching and understanding a situation in which two radically different and, to modern eyes, incompatible ways of describing reality persisted side-by-side until the demise of the occult in the late seventeenth century. Their work, accordingly, sets the whole issue in a new light.

The Mertowney Mountain Interviews Richard Leviton.2014-07-16 You see, Edward, editor and budding Grail Knight, you're part of the Merlin myth, and you have been for a long time, said Merlin enigmatically. The figure of Merlin, magician, enchanter, trickster, strategist of King Arthur's Camelot, wise old man of Celtic myth, has intrigued and enthralled readers for centuries, but who, really, was he? Did he ever actually exist? Boston editor Edward Burbage is given a unique opportunity to find out. He's invited to Merlin's home on Mertowney Mountain to interview him. The invitation includes free transportation, and Merlin's mountain is not in this world, and for that matter, how on Earth could Burbage be talking to Merlin anyway? Merlin is supposed to be only a character from an old myth, isn't he? Over the course of five years, starting in 2034, Burbage

conducts his interviews, and the revelations Merlin makes are astounding. He has been many mythic figures, taken on many guises, such as the Irish Cuchulainn, the Egyptian Anubis, the Navaho Monster Slayer, the Greek Herakles, the Polynesian Maui, and even a few holy men like Saint Columba of Iona and John the Evangelist of Patmos, author of Revelation. He's worked as initiator, war-god, slayer of inimical spirits, prophet, seer, a guide to the soul in the after-life, geomancer, terraformer, a fisher up of islands, and especially a devoted field agent to the Great Mother, Herself operating under many guises such as Morrigan, Isis, Changing Woman, and Hera. But why has Edward Burbage been brought to Mertowney Mountain? It's not just so Merlin can tell his true story. Merlin has a plan for him, and he's preparing things all the time he's recounting his exploits. Edward Burbage has a key role to play in the next installment of the long life of Merlin. He's about to step onto the world stage of myth disclosing a long withheld mystery, the secret of the Mer-Line, the truth and power behind Merlin himself.

Hear the Wind Blow Mary Downing Hahn.2003-05-19 On a cold, snowy night, Haswell Magruder makes a decision that will have a profound effect on his own life as well as the lives of all those he loves. A wounded Confederate soldier appears at the family's Virginia farm, and Haswell convinces his mother and sister to take the man in, despite the certain repercussions if the enemy Yankees were to catch them in such a "traitorous" act. Unfortunately, this is precisely what happens, setting off a horrific chain of events that leaves Haswell's mother dead and the farmhouse burned to the ground. After leading his younger sister to safety with relatives, Haswell sets out on his journey in search of his older brother, a Confederate soldier. His quest is also a passage into manhood, as he experiences the last bloody days of the Civil War. Skillful storytelling, well-developed characters, and a fast-paced plot distinguish this compelling family story by an award-winning author.

Duke Ronald L. Davis.2012-09-06 Almost two decades after his death, John Wayne is still America's favorite movie star. More than an actor, Wayne is a cultural icon whose stature seems to grow with the passage of time. In this illuminating biography, Ronald L. Davis focuses on Wayne's human side, portraying a complex personality defined by frailty and insecurity as well as by courage and strength. Davis traces Wayne's story from its beginnings in Winterset, Iowa, to his death in 1979. This is not a story of instant fame: only after a decade in budget westerns did Wayne receive serious consideration, for his performance in John Ford's 1939 film Stagecoach. From that point on, his skills and popularity grew as he appeared in such classics as Fort Apache, Red River, She Wore a Yellow Ribbon, The Quiet Man, The Searches, The Man who Shot Liberty Valance, and True Grit. A man's ideal more than a woman's, Wayne earned his popularity without becoming either a great actor or a sex symbol. In all his films, whatever the character, John Wayne portrayed John Wayne, a persona he created for himself: the tough, gritty loner whose mission was to uphold the frontier's--and the nation's--traditional values. To depict the different facets of Wayne's life and career, Davis draws on a range of primary and secondary sources, most notably exclusive interviews with the people who knew Wayne well, including the actor's costar Maureen O'Hara and his widow, Pilar Wayne. The result is a well-balanced, highly engaging portrait of a man whose private identity was eventually overshadowed by his screen persona--until he came to represent America itself.

Includes: - The story of the nineteenth-century Cuban Jesuit whose success at predicting the great cyclones was considered almost mystical. - A new look at Isaac Cline, whose infamous failure to predict the Galveston Hurricane left him obsessed with the devastating effects of storm surge. - The story of the Hurricane Hunters, including the first man ever to deliberately fly into a hurricane. - A complete account of how computer modeling has changed hurricane tracking. - A history of Project Stormfury: the only significant, organized effort to reduce the damaging strength of severe hurricanes. - A unique firsthand account of Hurricane Andrew by both authors, who were at the National Hurricane Center when Andrew struck. - A listing of the deadliest storms in history.

Memo from David O. Selznick David O. Selznick.2000-03-07 The most revealing, penetrating book on filmmaking I know of . . .--King Vidor David O. Selznick was a unique figure in the golden Hollywood studio era. He produced some of the greatest and most memorable American films ever made--notably, Rebecca, A Star Is Born, Anna Karenina, A Farewell to Arms, and, above all, Gone With the Wind. Selznick's absolute power and artistic control are evidenced in his impassioned, eloquent, witty, and sometimes rageful memos to directors, writers, stars and studio executives, writings that have become almost as famous as his films. Newsweek wrote,I can't imagine how a book on the American movie business could be more illuminating, more riveting or more fun to read than this collection of David Selznick's memos.
