Stillness in Motion Sarah Patricia Hill,Giuliana Minghelli.2014-01-01 Stillness in Motion brings together the writing of scholars, theorists, and artists on the uneasy relationship between Italian culture and photography. Highlighting the depth and complexity of the Italian contribution to the technology and practice of photography, this collection offers essays, interviews, and theoretical reflections at the intersection of comparative, visual, and cultural studies. Its chapters, illustrated with more than 130 black and white images and an eight-page colour section, explore how Italian literature, cinema, popular culture, and politics have engaged with the medium of photography over the course of time. The collection includes topics such as Futurism's ambivalent relationship to photography, the influence of American photography on Italian neorealist cinema, and the connection between the photograph and Duchamp's concept of the Readymade. With contributions from writer and theorist Umberto Eco, photographer Franco Vaccari, art historian Robert Valtorta, and cultural historian Robert Lumley, Stillness in Motion engages with crucial historical and cultural moments in Italian history, examining each one through particular photographic practices.

Italo Calvino's Architecture of Lightness Letizia Modena.2011-05-09 This study recovers Italo Calvino's central place in a lost history of interdisciplinary thought, politics, and literary philosophy in the 1960s. Drawing on his letters, essays, critical reviews, and fiction, as well as a wide range of works--primarily urban planning and design theory and history--circulating among his primary interlocutors, this book takes as its point of departure a sweeping reinterpretation of *Invisible Cities*. Passages from Calvino's most famous novel routinely appear as aphorisms in calendars, posters, and the popular literature of inspiration and self-help, reducing the novel to vague abstractions and totalizing wisdom about thinking outside the box. The shadow of postmodern studies has had a similarly diminishing effect on this text, rendering up an accomplished but ultimately apolitical novelistic experimentation in endless deconstructive deferrals, the shiny surfaces of play, and the ultimately rigged game of self-referentiality. In contrast, this study draws on an archive of untranslated Italian- and French-language materials on urban planning, architecture, and utopian architecture to argue that Calvino's novel in fact introduces readers to the material history of urban renewal in Italy, France, and the U.S. in the 1960s, as well as the multidisciplinary core of cultural life in that decade: the complex and continuous interplay among novelists and architects, scientists and artists, literary historians and visual studies scholars. His last love poem for the dying city was in fact profoundly engaged, deeply

committed to the ethical dimensions of both architecture and lived experience in the spaces of modernity as well as the resistant practices of reading and utopian imagining that his urban studies in turn inspired.

Transmissibility Jae Emerling.2023-08-17 This book examines transmissibility to remind us why the vitality and epistemic significance of an artwork is anachronistic and futural. *Transmissibility: Writing Aesthetic History* performs a transdisciplinary philosophy of aesthetic history via the work of Gilles Deleuze and Félix Guattari, Cy Twombly, Marina Abramović, Paul Celan, Cecil Taylor, Italo Calvino, Candida Höfer, and others by focusing on the artistic and historiographic labor that differentiates artworks from other modes of creation.

Image, Eye and Art in Calvino Birgitte Grundtvig.2017-07-05 Few recent writers have been as interested in the cross-over between texts and visual art as Italo Calvino (1923-85). Involved for most of his life in the publishing industry, he took as much interest in the visual as in the textual aspects of his own and other writers' books. In this volume twenty international Calvino experts, including Barengi, Battistini, Belpoliti, Hofstadter, Ricci, Scarpa and others, consider the many facets of the interplay between the visual and textual in Calvino's works, from the use of colours in his fiction to the influence of cartoons, from the graphic qualities of the book covers themselves to the significance of photography and landscape in his fiction and non-fiction. The volume is appropriately illustrated with images evoked by Calvino's major texts.

Storia della vita, delle opere e delle dottrine di Calvino Jean-Marie-Vincent Audin.1843

Circulation, Translation and Reception Across Borders Elio Baldi,Cecilia Schwartz.2023-12-15 This volume offers a detailed analysis of selected cases in the reception, translation and artistic reinterpretation of Italo Calvino's *Invisible Cities* (1972) around the world. The book traces the many different ways in which Calvino's modern classic has been read, translated and adapted in Brazil, France, the Netherlands and Flanders, Mexico, Romania, Scandinavia, the USSR, China, Poland, Japan and Australia. It also offers analyses of the relation between Calvino's book and, respectively, the East and Africa, as well as reflections on the book's inspiration for, and resonance in, dance, architecture and art. The volume thus traces the diversity in the reception and circulation of *Invisible Cities* in different countries and continents, offering a much wider framework for the discussion of Calvino's masterpiece than before, and a more detailed picture of its cultural and linguistic ramifications. This book will be of interest to scholars in Comparative Literature, World Literature, Translation Studies, Italian Studies, Romance Languages, European Studies, Dance, Architecture and Media Studies, as well as to scholars specialised in paratext and reception.

Translation as Stylistic Evolution Federico M. Federici.2009-01 Why did Italo Calvino decide to translate *Les Fleurs bleues* by Raymond Queneau? Was his translation just a way to pay a tribute to one of his models? This study looks at Calvino's translation from a literary and linguistic perspective: Calvino's *I fiori blu* is more than a rewriting and a creative translation, as it contributed to a revolution in his own literary language and style.

Translating Queneau, Calvino discovered a new fictional voice and explored the potentialities of his native tongue, Italian. In fact Calvino's writings show a visible evolution of poetics and style that occurred rather abruptly in the mid 1960s; this sudden change has long been debated. The radical transformation of his style was affected by several factors: Calvino's new interests in linguistics, in translation theory, and in the act of translation. *Translation as Stylistic Evolution* analyses several passages in detail and scrutinizes quantitative data obtained by comparing digital versions of the original and Calvino's translation. The results of such assessment of Calvino's text-consistency suggest clear interpretations of the motives behind Calvino's radical and remarkable change of style that are tied to his notion of creative translation.

Gianni Celati Rebecca J. West.2000-01-01 The first book-length study in any language of Celati's entire body of work, this monograph ranges over a broad landscape of critical thought and creative writing.

Palomar Italo Calvino.2013-03-22 Rileggendo il tutto, m'accorgo che la storia di Palomar si può riassumere in due frasi: 'Un uomo si mette in marcia per raggiungere, passo a passo, la saggezza. Non è ancora arrivato'. La vertigine dell'uomo davanti agli inesorabili misteri dell'universo nei pensieri del taciturno signor Palomar, trasparente 'alter ego' di Calvino. Uno dei romanzi più profondi della nostra letteratura.

The Cambridge Companion to Primo Levi Robert S. C. Gordon.2007-07-30 Primo Levi (1919-87) was the author of a rich body of work, including memoirs and reflections on Auschwitz, poetry, science fiction, historical fiction and essays. In particular, his lucid and direct accounts of his time at Auschwitz, begun immediately after liberation in 1945 and sustained until weeks before his suicide in 1987, has made him one of the most admired of all Holocaust writer-survivors and one of the best guides we have for the interrogation of that horrific event. But there is also more to Levi than the voice of the witness. He has increasingly come to be recognised as one of the major literary voices of the twentieth century. This Companion brings together leading specialists on Levi and scholars in the fields of Holocaust studies, Italian literature and language, and literature and science, to offer a stimulating introduction to all aspects of the work of this extraordinary writer.

The A to Z of Postmodernist Literature and Theater Fran Mason.2009 The A to Z of Postmodernist Literature and Theater examines the different areas of postmodernist literature and theater and the variety of forms that have been produced. It contains a list of acronyms, a chronology, an introductory essay, a bibliography, and several hundred cross-referenced dictionary entries on individual writers, important aesthetic practices, significant texts, and important movements and ideas that have created a variety of literary approaches within the form. By placing these concerns within the historical, philosophical, and cultural contexts of postmodernism, this reference explores the frameworks within which postmodernist literature of the late twentieth and early twenty-first centuries operates. --Book Jacket.

Translating Travel Loredana Polezzi.2017-03-02 Translating Travel examines the relationship between travel writing and translation, asking what happens when books travel beyond the narrow confines of one genre, one literary system and one culture. The volume takes as its starting point the marginal position of contemporary Italian travel writing in the Italian literary system, and proposes a comparative reading of originals and translations designed to highlight the varying reception of texts in different cultures. Two main themes in the book are the affinity between the representations produced by travel and the practices of translation, and the complex links between travel writing and genres such as ethnography, journalism, autobiography and fiction. Individual chapters are devoted to Italian travellers' accounts of Tibet and their English translations; the hybridization of journalism and travel writing in the works of Oriana Fallaci; Italo Calvino's sublimation of travel writing in the stylized fiction of *Le città invisibili*; and the complex network of literary references which marked the reception of Claudio Magris's *Danubio* in different cultures.

Guardare Italo Calvino.2023-03-28 «L'unica cosa che vorrei poter insegnare è un modo di guardare, cioè di essere in mezzo al mondo. In fondo la letteratura non può insegnare altro»: così nel 1960, in una lettera all'editore francese François Wahl, Italo Calvino esplicita il compito che come scrittore si è dato e al tempo stesso una delle caratteristiche più significative della propria opera. L'elemento visivo è infatti dominante fin dal *Sentiero dei nidi di ragno*, il libro che segna il suo esordio. Non a caso, una delle prime passioni dello scrittore ancora ragazzo era stato, assieme al disegno, il cinema, vera e propria palestra nella quale si formerà la sua sensibilità artistica. Per tutta la vita di Calvino, poi, l'atto del guardare sarà fonte imprescindibile di conoscenza. Lo testimoniano gli scritti raccolti in questo volume, con cui Marco Belpoliti corona una ricerca avviata fin dal 1996 con il testo teorico *L'occhio di Calvino* (20062). Si tratta di scritti soprattutto saggistici, molti dei quali pochissimo conosciuti, incentrati - appunto - sull'esperienza visiva, e qui suddivisi in sezioni tematiche, ciascuna con un'ampia specifica introduzione. Emerge da queste pagine una preziosa lezione: la lettura del mondo è difficile, complessa, talvolta destinata alla sconfitta, ma sempre possibile.

Literature, Criticism, and Ethics .2001

The Author in Criticism Elio Attilio Baldi.2020-03-11 The Author in Criticism: Italo Calvino's Authorial Image in Italy, the United States, and the United Kingdom explores the cultural and historic patterns and differences in the critical readings of Italian author Italo Calvino's works in the United States of America, the United Kingdom, and Italy. It considers the external factors that contribute to create recognizable patterns in the readings of Calvino's texts in different contexts. This volume therefore covers, most notably, matters of genre (science fiction, postmodernism), cultural perceptions and conventions, the (re)current image of the author in different media, academic schools, -curricula and -canons, biographical information (such as gender and background), and translation and the language in which the author speaks (or fails to speak) to us. It traces the influence of these aspects in the academic discourse on Calvino. The Author in Criticism also analyzes Calvino's various professional roles as writer, editor, essayist, journalist, private correspondent, and public, cosmopolitan intellectual, reappraising their often little acknowledged importance for academic criticism. An important underlying idea is that the preconceived image that every critic has of Calvino before even opening one of his books is often solidified and repeated even in the most refined and complex critical analyses. This volume purposefully foregrounds the textual and non-textual parts that are usually considered peripheral to the works of an author, such as book covers, blurbs, reviews, talks, interviews, etc. In this way, this book provides insight into the reception of Calvino's works in different countries. Moreover, it forms a broader reflection of and on important constants in the workings of literary criticism, and on the way academic discourses have developed in various cultural contexts over the last decades.

Storia della vita, delle opere e delle dottrine di Calvino Audin (M., Jean Marie Vincent).1843

Painting with Words, Writing with Pictures Franco Ricci.2001-01-01 Ricci's book ranges widely over Calvino's oeuvre to illustrate the accuracy of the idea articulated by Calvino himself that a visual image lies at the origin of all his narrative. The book's main theme is the difficult interface between word and image that Calvino struggled with throughout his career, the act of perception that rendered visible that which was invisible and transformed what was seen into what is read. Ricci holds that Calvino's narrative has an 'imago-centric' program and that his literary strategy is 'ekphrastic' i.e. it is characterized by literary description of visual representation, real or imaginary. The book is interdisciplinary in nature and will interest not only scholars of literature but also those who work with the visual arts and with information technology.

Science and Literature in Italian Culture from Dante to Calvino Pierpaolo Antonello, Simon A. Gilson.2004 This collection of essays explores the relationship between literature and science in Italian culture. Encompassing a variety of authors and topics across four broad periods, the volume presents connections between the discourses of literature and science and offers critical readings.

Searching for Japan Michele Monserrati.2020-03-27 This book pursues the specific case of Italian travel narratives in the Far East, through a focus on the experience of Japan in works by writers who visited the Land of the Rising Sun beginning in the Meiji period (1868-1912) and during the concomitant opening of Japan's relations with the West. Drawing from the fields of Postcolonial and Transnational Studies, analysis of these texts explores one central question: what does it mean to imagine Japanese culture as contributing to Italian culture? Each author shares in common an attempt to disrupt ideas about dichotomies and unbalanced power relationships between East and West. Proposing the notion of 'relational Orientalism,' this book suggests that Italian travelogues to Japan, in many cases, pursued the goal of building imaginary transnational communities, predicated on commonalities and integration, by claiming what they perceived as 'Oriental' as their own. In contrast with a long history of Western representations of Japan as inferior and irrational, *Searching for Japan* identifies a positive overarching attitude toward the Far East country in modern Italian culture. Expanding the horizon of Italian transnational networks, normally situated within the Southern European region, this book reinstates the existence of an alternative Euro-Asian axis, operating across Italian history.

Mapping Complexity Kerstin Pilz.2005 This book presents an analysis of the dialogue of literature and science that forms a central part of the work of Italo Calvino, one of Italy's best known contemporary authors. It provides an in-depth study of Calvino's interest in scientific models and methods and the ways these have informed his narratives.

The Transatlantic Sixties Grzegorz Kosciuszko, Clara Juncker, Sharon Monteith, Britta Waldschmidt-Nelson.2014-04-30 This collection brings together new and original critical essays by eleven established European American Studies scholars to explore the 1960s from a transatlantic perspective. Intended for an academic audience interested in globalized American studies, it examines topics ranging from the impact of the American civil rights movement in Germany, France and Wales, through the transatlantic dimensions of feminism and the counterculture movement. It explores, for example, the vicissitudes of Europe's status in US foreign relations, European documentaries about the Vietnam War, transatlantic trends in literature and culture, and the significance of collective and cultural memory of the era.

Italo Calvino and the Compass of Literature Eugenio Bolongaro.2003-01-01 Looking at five of Italo Calvino's often neglected early novels: *The Young People of Po*, *The Cloven Viscount*, *The Baron in the Trees*, *The Non-Existent Knight*, and *The Watcher*, Eugenio Bolongaro argues that these works, written between 1948 and 1963, contain a sustained meditation on the role of the intellectual and on the irreducible ethical and political dimension of literature. This meditation provides an insight into a crucial moment in Calvino's development as a writer, and allows Bolongaro to lay the groundwork for a more 'political' reading of Calvino's later work. *Italo Calvino and the Compass of Literature* firmly situates Calvino within his

historical context - the cultural revival of post-World War II Italy - by relating these early novels to Calvino's political and critical writings which played an important role in the cultural debates of the time. This approach provides a key to understanding Calvino's work in a new light, ably demonstrating that Calvino's full literary significance cannot be understood in isolation from the politics and cultural movements of the period. One of the few book-length English-language works on Calvino's early writings, *Italo Calvino and the Compass of Literature* will prove to be an indispensable tool to Italianists and literary studies scholars.

The Making and Unmaking of Mediterranean Landscape in Italian Literature Tullio Pagano.2015-04-29 Situated between Po Valley and the Mediterranean Sea, Liguria appears as a rainbow-shaped and mountainous island, extending from the Tuscan sandy shores of Versilia to the French Alps. Through several modern and contemporary poets and novelists, Pagano illustrates fragile beauty of this quintessential Mediterranean landscape.

Italo Calvino McLaughlin Martin McLaughlin.2019-08-06 This first study in English of the complete writings of Italo Calvino (1923-85) offers new interpretations of Calvino's main works, taking into account some important unpublished material, and analyses Calvino's intertextual links with major writers of world literature (Conrad, Stevenson, Hemingway and Borges). Postmodern elements in his texts are assessed, and a chapter on Calvino's critical essays shed important light on his creative process.

Calvino and the Landscape of Childhood Claudia Nocentini (Lecturer in Italian, University of Edinburgh).2017-12-02 Although never named as such, the landscape of Sanremo was a visual source for Calvino's fiction. This recurring theme provides both a link between some very different works and an insight into the autobiographical dimension of an author whose attitude to privacy is protective but detached. This work is an analysis of the criteria of representative (and of representational distortion) of a descriptive motif.

Interstitial Writing Paolo Bartoloni.2003 This book pushes literary theory into unexplored grounds to articulate the modern and contemporary condition of interstitiality through an innovative discussion of literary and philosophical underpinnings and interpretation of works by Calvino, Caproni, Sereni and Svevo. It will appeal to Italianists and anyone studying Italian literature.

Urban Landscape Perspectives Giovanni Maciocco.2008-02-01 *Urban Landscape Perspectives* explores how landscape terminology can be usefully brought into the urban debate. The articles are by scholars who have a particular interest in and experience of the city project at various operative scales. They include theoretical reflections on the landscape as an eminently project-like figure. The book describes new methods and approaches dealing with the contemporary environment, whether it is from the point of view of the city or the landscape.
