Philosophy through Film Amy Karofsky, Mary M. Litch. 2014-07-11 Many of the classic questions of philosophy have been raised, illuminated, and addressed in celluloid. In this Third Edition of *Philosophy through Film*, Mary M. Litch teams up with a new co-author, Amy Karofsky, to show readers how to watch films with a sharp eye for their philosophical content. Together, the authors help students become familiar with key topics in all of the major areas in Western philosophy and master the techniques of philosophical argumentation. The perfect size and scope for a first course in philosophy, the book assumes no prior knowledge of philosophy. It is an excellent teaching resource and learning tool, introducing students to key topics and figures in philosophy through thematic chapters, each of which is linked to one or more focus films that illustrate a philosophical problem or topic. Revised and expanded, the Third Edition features: A completely revised chapter on Relativism, now re-titled Truth with coverage of the correspondence theory, the pragmatist theory, and the coherence theory. The addition of four new focus films: *Inception*, *Moon*, *Gone Baby Gone*, *God on Trial*. Revisions to the General Introduction that include a discussion of critical reasoning. Revisions to the primary readings to better meet the needs of instructors and students, including the addition of three new primary readings: excerpts from Bertrand Russell's *The Problems of Philosophy*, from William James' *Pragmatism: A New Way for Some Old Ways of Thinking*, and from J. L. Mackie's *Evil and Omnipotence*. Updates and expansion to the companion website, including a much expanded list of films relevant to the various subfields of philosophy. Films examined in depth include: *Hilary and Jackie*, *The Matrix*, *Inception*, *Memento*, *Moon*, *I, Robot*, *Minority Report*, *Crimes and Misdemeanors*, *Gone Baby Gone*, *Antz*, *Equilibrium*, *The Seventh Seal*, *God on Trial*, *Leaving Las Vegas*

The Handbook of Technology and Second Language Teaching and Learning Carol A. Chapelle, Shannon Sauro. 2019-12-05 *The Handbook of Technology and Second Language Teaching and Learning* presents a comprehensive exploration of the impact of technology on the field of second language learning. The rapidly evolving language-technology interface has propelled dramatic changes in, and increased opportunities for, second language teaching and learning. Its influence has been felt no less keenly in the approaches and methods of assessing learners' language and researching language teaching and learning. Contributions from a team of international scholars make up the Handbook consisting of four parts: language teaching and learning through technology; the technology-pedagogy interface; technology for L2 assessment; and research and development of technology for language learning. It considers how technology assists in all areas of language development, the emergence of pedagogy at the intersection of language and technology, technology in language assessment, and major research issues in research and development of technologies for language learning. It covers all aspects of language including grammar, vocabulary, reading, writing, listening, speaking, pragmatics, and intercultural learning, as well as new pedagogical and assessment approaches, and new ways of conceiving and conducting research and development. *The Handbook of Technology and Second Language Teaching and Learning* demonstrates the extensive, multifaceted implications of technology for language teachers, learners, materials-developers, and researchers.

Crowd Design Florian Alexander Schmidt. 2017-07-24 The digital revolution is interwoven with the promise to empower the user. Yet, the rise of centralized, commercial platforms for crowdsourced work questions the validity of this narrative. In *Crowd-Design*, Florian Alexander Schmidt analyses the workings and the rhetoric of crowdsourced work platforms by comparing the way they address the masses today with historic notions of the crowd. The utopian concepts of early online collaboration are taken as a vantage point from which to view and critique current and, at times, dystopian applications of crowdsourced work. The study is focused on the crowdsourcing of design tasks, but these specific applications are used to examine the design of the more general mechanisms employed by the platform providers to motivate and control the crowds. *Crowd-Design* is as much about the crowdsourcing of design as it is about the design of crowdsourcing.

Managing by the Bhagavad Gītā Satinder Dhiman, A. D. Amar. 2018-11-27 Drawing upon the timeless wisdom of the *Bhagavad Gītā*, a philosophical-spiritual world classic, this professional book highlights the spiritual and moral dimensions of management using an inside-out leadership development approach. It interprets the *Bhagavad Gītā*'s teachings on the personality types and psychological makeup of managers and employees; self-knowledge and self-mastery; and the leadership concepts of vision, motivation, and empowerment. This book covers topics such as training of the mind, ethical leadership, communication, stress management, and corporate social responsibility (CSR). Collectively, the enclosed contributions provide managers with an enhanced outlook on management functions such as leading, planning, organizing, and controlling in today's organizations, particularly those run by knowledge workers. Management research in the 20th century has mainly focused on the industrial paradigm characterized by a hierarchical structure of authority and responsibility with an individualistic focus on the personality of the manager. However, this traditional paradigm cannot solve many of the problems that confront leaders and managers today. Recent studies have shown that values traditionally associated with spirituality—such as integrity, honesty, trust, kindness, caring, fairness, and humility—have a demonstrable effect on managerial effectiveness and success. Although traditionally interpreted as a religious-spiritual text, the *Bhagavad Gītā* teaches these values which can be

extrapolated and applied to practical management lessons in today's corporate boardrooms. Applying the text of the Bhagavad Gītā to the context of management, this book views the manager as an "enlightened sage" who operates from higher stance, guided by self-knowledge and self-mastery. It demonstrates how character is the key ingredient for effective management and leadership. This book is therefore applicable to all managers, from first-line to CEOs, in their management and leadership roles in organizations.

Living Sociologically Ronald N. Jacobs, Eleanor R. Townsley. 2021-09 Our students already live sociologically. They are drawn to topics of urgent sociological concern—race, class, gender, family, popular culture, health, and crime—by a need to understand the forces that shape their world, as well as a desire to change that world for the better. Yet they do not always find it easy to connect sociological concepts with real-world applications. Helping students make that connection is what we have sought to do with *Living Sociologically: Concepts and Connections, Concise Edition*. The task was made more urgent by the extraordinary events of 2020, which unfolded as we created the Concise version. Alongside our students—metaphorically, as we all became remote teachers and learners—we witnessed and sought to make sense of the protests and uprisings after the murder of George Floyd; the economic devastation and medical challenges of COVID-19; and the fear, misinformation, and rage leading up to (and falling out from) the presidential election. Sociology gives us both structure and vocabulary to analyze these events—and search together for not just meaning but resolution. Students naturally want to know how the study of sociology can inform their career and professional choices. Throughout this textbook, we illustrate not only the ways in which sociologists live their profession, but also the rich and surprising ways in which sociological theories inform parenting and romantic relationships, political commitments, economic decisions, cultural expressions, and religious beliefs. *Living sociologically* is not only interesting—it's useful. Sociology provides not only big ideas to understand social life but also concrete tools for acting in the

world with purpose and meaning. Sociology helps connect the individual level with the system level, revealing a layer of reality that is not always immediately obvious. We wrote *Living Sociologically* because we wanted a teaching resource that was grounded in the sociological tradition but also offered a more contemporary and practical approach to the discipline. By the end of the Introduction to Sociology course, our hope is that students will be critical rather than cynical, empirically committed rather than scientifically or politically dogmatic, and attuned to social relationships as well as individual stories--

Evangelical Preaching Charles Simeon,James M. Houston,John R. W. Stott.2003 Locked church doors and tossed rotten eggs greeted the faithful and patient Charles Simeon in his early years as a pastor. But in humility and simple power he was allowed by God to triumph. He became, as John R.W. Stott notes, one of the greatest and most persuasive preachers the Church of England has ever known. Why did he have such an impact? You'll discover the reasons yourself as you read these clearflowing sermons, rich in content and clean in style. Shining through his words are Simeon's simple devotion to pure biblical truth, his concise and orderly presentation, and his pastor's mind and heart. James Houston's editorial preface is an instructive guide to Simeon's sound homiletical principles, while Stott's introduction is an engaging portrait of Simeon as a servant of God. Surveying his long life (1758-1836) and fruitful ministry, Stott is especially impressed by Simeon's refreshing, unaffected humility, and writes, Our proud, self-confident, self-congratulatory generation urgently needs to recover this biblical perspective. Dr. James M. Houston, editor of the CLASSICS OF FAITH AND DEVOTION SERIES, is a highly acclaimed scholar and pioneer in the field of evangelical spirituality. He came to North America from England in 1968 to lead Regent College in Vancouver, Canada, an international graduate school of Christian studies.
