24/7 Andres Martinez.2013-02-13 In the spring of 1998, mild-mannered, Ivy League-educated Andrés Martinez took \$50,000--most of the advance his publisher was paying for this book--and headed to Las Vegas for thirty days, ten casinos, and a wild ride through the belly of a neon beast. The result: this brilliant, often hilarious chronicle of flesh, flash, and gambling in a city where everyone dreams of hitting the jackpot--and once in a while, someone actually does. From seedy strip clubs to sprawling suburbs, from the sumptuous Bellagio to the Liberace Museum, Martinez meets a host of colorful characters...gathering tricks of the trade from blackjack dealers and fellow bleary-eyed gamblers, attending Easter Sunday mass on the Strip, befriending a family man who raised six kids while losing eight million dollars as a sports gambler. An exhilarating joyride of a read, 24/7 is a breathless tour of America's Sin City...as seen through the eyes of a man making \$1.65 million in wagers in a single month. Guess how much he took home?

Capital Intentions Edith Sparks.2011-12-01 Late nineteenth-century San Francisco was an ethnically diverse but male-dominated society bustling from a rowdy gold rush, earthquakes, and explosive economic growth. Within this booming marketplace, some women stepped beyond their roles as wives, caregivers, and homemakers to start businesses that combined family concerns with money-making activities. Edith Sparks traces the experiences of these women entrepreneurs, exploring who they were, why they started businesses, how they attracted customers and managed finances, and how they dealt with failure. Using a unique sample of bankruptcy records, credit reports, advertisements, city directories, census reports, and other sources, Sparks argues that women were competitive, economic actors, strategizing how best to capitalize on their skills in the marketplace. Their boardinghouses, restaurants, saloons, beauty shops, laundries, and clothing stores dotted the city's landscape. By the early twentieth century, however, technological advances, new preferences for name-brand goods, and competition from large-scale retailers constricted opportunities for women entrepreneurs at the same time that new opportunities for women with families drew them into other occupations. Sparks's analysis demonstrates that these businesswomen were intimately tied to the fortunes of the city over its first seventy years.
