The Epic of Mount Everest Sir Francis Edward Younghusband.1926 Separate descriptions of the three mount Everest expeditions have already been written by those who took part in them, and have been published in the three books, mount Everest: the reconnaissance, 1921; The assault on mount Everest, 1922; and The fight for Everest, 1924. The present volume purports to be a condensed description of the three expeditions. It is ... based on the above-named publications.--Pref.

Everest - the First Ascent Harriet Tuckey.2014-04-10 WINNER OF THE OUTSTANDING GENERAL SPORTS WRITING AWARD, BRITISH SPORTS BOOK AWARDS WINNER OF THE BOARDMAN TASKER PRIZE WINNER OF THE MOUNTAIN & WILDERNESS PRIZE, BANFF FESTIVAL WINNER OF THE TONY LOTHIAN AWARD, BIOGRAPHERSâ€(tm) CLUB For the first time, drawing upon previously unseen diaries and letters, rare archive material and interviews, Everest â€ The First Ascent tells the remarkable story of Griffith Pugh, the forgotten team member whose scientific breakthroughs ensured the worldâ€(tm)s highest mountain could be climbed. A

doctor and physiologist, Griffith Pugh revolutionised almost every aspect of British high-altitude mountaineering, transforming the climbers' attitude to oxygen, the clothes they wore, their equipment, fluid intake and acclimatisation. Yet, far from receiving the acclaim he was due, he was met with suspicion and ridicule. His scientific contributions were, quite simply, at odds with old-fashioned notions of derring-do and the gentlemanly amateurism that dogged the sport. Later in his career, his impact in helping athletes enhance their performance lasts to this day in the fields of cycling, swimming and running. This insightful biography shows Pugh to be troubled, abrasive, yet brilliant. Eight years in the writing, closely researched, and told with unflinching honesty by Pugh's daughter, Harriet Tuckey, *Everest – The First Ascent* is the compelling portrait of an unlikely hero.

Design for Sport Anxo Cereijo Roibás, Emmanuel Stamatakis. 2017-03-02 *Design for Sport* shows how socially responsible design can contribute to make sport practice widespread in the general population including disadvantaged and hard-to-reach groups, and those that have been traditionally excluded such as the elderly, disabled people, those living in deprived areas and from lower socioeconomic strata plus certain minority ethnic and religious groups. Contributions from around the world provide compelling case studies and an international perspective. While the main benefit from expanding sports practice in developed societies would be reduction of chronic disease rates and social inclusion, in the developing world where political instability and conflict are more common, the authors look at how sport can have other functions, such as a means of post-disaster relief. They discuss how Participatory Design (PD) techniques and appropriate ethnographies can be implemented in order to better understand users' needs and requirements as in the case of Paralympic sport where the increased sophistication of equipment used has evolved to meet the

demands of the athletes. Reflecting the multi-disciplinary and cross-disciplinary nature of design for sport, the book also features case studies that look at environmental design to improve sport accessibility, social wellbeing, economic development and environmental sustainability.

The GR5 Trail Paddy Dillon.2016-01-19 An essential guidebook for walking the GR5, one of the world's most spectacular long-distance trails. The GR5 makes its way through the Alps from the shores of Lac Léman at Geneva to the Mediterranean at Nice. A route of 674km (420 miles), it can be trekked in a month, or split over a series of summer trips. The GR5 is well within the reach of fit and moderately experienced walkers and backpackers. There is good signposting and waymarking, and accommodation, food and drink are all available at regular intervals. The paths and tracks are generally well graded, while steep climbs are tackled on zigzag paths, so the overall gradient is not so severe. Every summer, thousands of walkers embark on this trek. This guidebook also describes some scenic variant routes, including the stunning GR55 through the Vanoise National Park and the delightful GR52 that crosses the Mercantour National Park. Full descriptions and maps are provided for these alternatives. The book includes daily stages, timings, ascents and descents, full-colour mapping and gradient profiles, alongside information about facilities and services along the route. The result is an ideal companion to planning and completing your trek. Two further Cicerone guidebooks cover the remaining sections of the GR5; 'The GR5 Trail - Vosges and Jura', and 'The GR5 Trail - Benelux and Lorraine' which together cover the route from Lac Léman to the Hoek Van Holland.

Winter Birds Lars Jonsson.2017-10-19 A celebration of winter birds in Sweden by world-famous artist, author and ornithologist, Lars Jonsson. In this stunning book, Lars Jonsson celebrates and explores the beauty of the birds that surround him during the Swedish winter months. Inspired by

the desolate, wintry landscapes, the dazzling light and the stark contrast of colours he observes against the snow, Jonsson has created an unparalleled collection of art. Jonsson illustrates each bird in his classic style, and his text provides information on their behaviour and insights into how to identify them as he shares personal observations as both an artist and ornithologist. This unique combination offers an intimate and compelling opportunity to better understand the method behind one of the world's preeminent bird artists.

Alcohol and Tobacco Otto-Michael Lesch, Henriette Walter, Christian Wetschka, Michie Hesselbrock, Victor Hesselbrock. 2011-01-15 Alcohol and nicotine addiction mostly occur together. Over the last ten years therapeutic aspects and motivational strategies have been considerably improved. Hence, groups and subgroups have been defined and can be treated with specific medication and tailor-made psychotherapies, leading in the long term to considerably better and more effective results than the once broadly applied, rigorous abstinence -based therapies. However, alcohol and nicotine addiction still represent major medical and social problems. In this book, new therapeutic approaches are comprehensively described, outlining the different interactions between personality, environment and the effects of the substance. In addition to prevention-based therapies and diagnosis, essential psychological and sociological strategies, as well as medication-based therapies, are also presented in detail. All of these therapies have realistic aims and are of global validity. In addition, the book provides a broad overview of the American and European epidemiology of alcohol and nicotine addictions. The book is written for all those who care for and offer professional therapy for alcohol and nicotine-addicted patients.

PolyluxMarx Valeria Bruschi, Antonella Muzzupappa, Sabine Nuss, Anne Stecklner, Ingo Stütze. 2014-03-01 The Great Recession, triggered by the collapse of financial markets in 2008, struck with such ferocity that millions of people began to question the rationality of our capitalist economic system. And as scholars, journalists, and activists tried to comprehend what was happening, they were forced to look deeply into the nature of capitalism—inevitably leading them to the work of Karl Marx. Now, Marx is enjoying a worldwide rediscovery and resurrection, and his masterwork, *Capital*, has found its way back into college classrooms, labor unions, the Occupy movement, study groups, and into the hands of disillusioned young people. Reading *Capital* can be a daunting endeavor and most readers need guidance when tackling this complex work. *PolyluxMarx* provides such guidance. Developed by scholars and political activists associated with the Rosa Luxemburg Stiftung (Foundation), one of the leading political education institutions in Germany, this book has been field tested with groups studying Marx's masterpiece over several years. It consists of a large set of PowerPoint presentations, combined with detailed annotations and suggestions for ways to discuss the material. Each page illustrates a central argument from *Capital*, provides helpful introductory texts, and supplies notes on methodology and teaching tips. *PolyluxMarx* is an ingeniously devised illustrated workbook that will help readers grasp the key arguments of *Capital*. It will prove invaluable to the curious reader of all ages, as well as to students, teachers, workers, activists, and study groups.

The New Wild: Life in the Abandoned Lands Christopher Thomson. 2018-04-16 The New Wild:

Vita nelle terre abbandonate, un libro-film in tre lingue - Nuovi e sorprendenti paesaggi emergono in tutta Europa mentre le popolazioni rurali invecchiano e scivolano a valle. Dove i terreni agricoli rimangono incolti si reinsedia una natura autodeterminata: crescono alberi dove un tempo c'erano campi, e i selvatici vagano liberi tra i ruderi. Distanti dall'attrazione dei nostri centri economici, le regioni marginalizzate stanno assistendo all'inizio di un crollo demografico e culturale. Interi stili di vita diventano storie, le storie diventano Storia e, a mano a mano che la città si espande, i ricordi cominciano a svanire. Qualcosa però cresce dalle spaccature della rovina, e tra le fessure di più grandi cambiamenti si incrociano storie minori: da un'abbandonata valle alpina un paese ci offre, nel suo precario tentativo di sopravvivere, una serie di riflessioni sul nostro mutevole rapporto con la campagna e con il mondo naturale tutto.

Cyprus South & North Rolf Goetz.2019-03-28 Cyprus is not only famous for its cultural heritage and 9000 year old past - "Aphrodite's Island" is one of the most popular hiking destinations in the eastern Mediterranean. The centre of the island is dominated by the Troodos mountain measuring some 2000 m in height, which despite its considerable altitude is more reminiscent of European low mountains, due to its softly rounded and forested peak. This Rother hiking guide proposes 50 routes mostly ranging from easy to medium level. Next to mountain tours, it also includes a selection of coastal paths along bizarre cliffs and adventurous ravine tours. Forest paths and nature trails lead through aromatic cedar woods, silent valleys and to remote Byzantine churches and monasteries.

Classic spring tours are those which take visitors across the peninsula of Akamas, when colourful carpets of flowers and orchids blossoming by the wayside unveil their typical Mediterranean charm.

Chogolisa Herman Buhl.2020-02-05 Chogolisa, the world's 36th highest peak, lies near the Baltoro Glacier in the Concordia region of the Karakoram. Its four ridges, of which three have been climbed, culminate in the two summits. The peak is highly exposed to winds with deep snow. Chogolisa has several peaks, the highest rises above the south face (Chogolisa I) to 7,665m (25,148ft). The second highest, 7,654m, on the northeast side (Chogolisa II), was named Bride Peak by Martin Conway in 1892.

Four Meditations on Happiness Michael Hampe.2014-01-02 In this original and thought-

provoking book philosopher Michael Hampe sets out to help us understand happiness. The right and proper path to a happy life is a topic that has been debated for millennia. There are many theories, from those of ancient philosophy to those of modern neuroscience, but can any one of them ultimately tell us how the objective of a perfectly fulfilled life might be achieved? By telling the story of two friends - the unhappy philosopher Stanley Low and the happy gardener Gabriel Kolk - alongside a presentation of four essays that examine prominent and very plausible theories of happiness, Michael Hampe illustrates that there is no easy answer to our search for unadulterated bliss. *Four Meditations on Happiness* is an erudite and illuminating investigation into one of mankind's most elusive quests, one that allows us to reconsider what it means to be happy.

Semiconductor Industry J. Michael Sherer. 2018-10-03 Given the myriad exhaust compounds and the corresponding problems that they can pose in an exhaust management system, the proper choice of such systems is a complex task. Presenting the fundamentals, technical details, and general solutions to real-world problems, *Semiconductor Industry: Wafer Fab Exhaust Management* offers practical guidance on selecting an appropriate system for a given application. Using examples that provide a clear understanding of the concepts discussed, Sherer covers facility layout, support facilities operations, and semiconductor process equipment, followed by exhaust types and challenges. He reviews exhaust point-of-use devices and exhaust line requirements needed between process equipment and the centralized exhaust system. The book includes information on wet scrubbers for a centralized acid exhaust system and a centralized ammonia exhaust system and on centralized equipment to control volatile organic compounds. It concludes with a chapter devoted to emergency releases and a separate chapter of examples illustrating these systems in use. Drawing on the author's 20 years of industry experience, the book shows you how to customize strategies

specific to your needs, solve current problems, and prevent future issues in your exhaust management systems.

The Business of Rural Tourism Donald Getz, Stephen Page.1997 This text explores the business opportunities and challenges associated with the development and management of tourism in a rural environment. It examines the factors associated with the successful development of rural tourism and the significance of good practice. In addition to an overview of the business and financial factors, the book presents a range of international case studies of actual business operations in rural settings. The book covers strategic planning, marketing HRM and financial management.

Mountain Emergency Medicine Hermann Brugger, Ken Zafren, Luigi Festi, Peter Paal, Giacomo Strapazzon.2021-03-15T00:00:00+01:00 Mountain emergency medicine has seen exponential development due to the ever increasing number of people who hike or trek as well as practice extreme sports. Emergency physicians and nurses need to be equipped with the necessary training to be able to manage “on the field” accidents and sicknesses as well as their own physical security. Theoretical knowledge is generally of high level but practical expertise is dangerously lacking in many operators. Furthermore, treatment modalities on the field have not been completely codified and are not supported by internationally-accepted guidelines. This book is the first to offer a complete and thorough approach to this field of Emergency Medicine based on the latest research findings.

Objective First Certificate Self-study Student's Book Annette Capel, Wendy Sharp.2008-02-14 This popular First Certificate course has been updated to prepare students for the new examination syllabus introduced from December 2008. A clear organisation and fresh approach have already

made it a popular route to success at FCE in many countries: thirty short units provide thorough training in exam skills, solid language development, and lively class discussion. The course is written by experienced authors who have an in-depth knowledge of the FCE exam, and understand the needs of both students and teachers alike. The Self-study Student's Book contains a self-study section with answers and advice to students studying independently.

Koloman Moser Christoph Thun-Hohenstein, Elisabeth Schmuttermeier, Christian Witt-Dörring. 2019 Kolo Moser war einer der bedeutendsten Universalkünstler im Wien der Jahrhundertwende: er zählt zu den führenden Vertretern des Jugendstils. Sein Werk umfasst Malerei, Grafik und Kunsthandwerk sowie u. a. Mode- und Möbelentwürfe und Designs für Beleuchtungskörper, Bühnendekorationen, Glasfenster, Buchillustrationen und sogar Banknoten. Als Schrittmacher der Kunst seiner Zeit war er Gründungsmitglied der Wiener Secession und etablierte 1903 die Wiener Werkstätte, gemeinsam mit dem Architekten Josef Hoffmann und dem Industriellen Fritz Waerndorfer. Das Ziel dieser Produktionsgemeinschaft bildender Künstler war die Realisierung des Gesamtkunstwerks auf handwerklich höchstem Niveau. Rund 400 Objekte, systematisch präsentiert und durch Essays erläutert, eröffnen einen neuen Blick auf sein beeindruckendes Lebenswerk.

Catastrophic Injuries in Sports and Recreation Charles H. Tator. 2008-01-01 Catastrophic Injuries in Sport and Recreation is an essential reference guide to safe participation in a wide variety of sports and recreational activities. A masterful achievement of methodology, it is the first complete epidemiological study and analysis of all catastrophic injuries in all sports and recreational activities that occurred within a large defined geographical area with a large population: ten million people within the province of Ontario between 1986 and 1995. Concentrating on injuries that resulted in

death or long term disability, the contributors identify both the personal risk factors for participants and the societal risk factors that are important causes for these kinds of injuries. Providing detailed analysis of 2154 case studies, the contributors demonstrate what went wrong in each event, and show how each injury could have been prevented. Recommending specific prevention strategies for a wide range of injuries, *Catastrophic Injuries in Sport and Recreation* is a practical medical reference for athletes and doctors alike.

Ethiopia Philip Briggs.2018-12-10 This new, fully updated 8th edition of Bradt's Ethiopia remains the most comprehensive, detailed and thorough guide available, particularly known for its strength of background information, coverage of off-the-beaten track areas, and in-depth details of hotels and other tourist facilities. It also contains far more maps than other guides. Bradt's Ethiopia is also the longest-serving English-language guidebook dedicated to the country, with a history of 25 years of research and expertise. This new edition has been updated by the original author, Philip Briggs, the world's foremost writer of Africa travel guides. Recent years have seen a notable rise in domestic and foreign private investment in the development of new hotels and national parks; this new edition includes all the most up-to-date details reflecting the recent changes, from development of tourist facilities to improved road infrastructure. Bradt's Ethiopia is ideal for visitors of all ages no matter the interest, whether travelling independently or as part of an organised group, from adventurous and active travellers interested in cultural, historical, and wildlife sightseeing to international conference visitors, spa tourists and community-based visitors looking for activities such as trekking and horseriding in the Rift Valley and Simien Mountains. Wildlife and birding visitors who come for Ethiopia's wealth of endemics are also catered for and this new edition includes a dedicated colour section on wildlife and birds. Of all the African nations, Ethiopia is most prone to misconceptions. The 1985 famine and the cracked barren earth of the Danakil Depression are not images quickly forgotten. But this fully updated guide refocuses the lens to reveal an ancient country that continues to surpass all expectations: from the ancient Judaic cultures of the fertile highlands to the Animist people of the South Omo Valley, from the Afroalpine moorland of the Bale Mountains National Park to the thundering Blue Nile Falls. This book also leads you further off the beaten track, so travellers

can see more of this expansive and beautiful land, believed to be the cradle of humankind.
