War and Peace Jacques Berchtold, Nicolas Ducimetiere. 2019-10-14 - Published on the occasion of the 100th anniversary of the creation of the League of Nations in 1919 - With a preface by Antonio Guterres, Secretary General of the United Nations - Accompanies an exhibition at the Fondation Martin Bodmer, Geneva, in partnership with the United Nations Organization in Geneva and the Red Cross, from 5 October, 2019, to 16 February, 2020 Mankind has never ceased to think about, justify, prepare for, conduct and glorify war. Alongside this, there has always been a parallel endeavor to limit war's worst abuses, condemn it for its ravages, and imagine and work towards building a more just and peaceful world. The Martin Bodmer Foundation, a Swiss institution in UNESCO's 'Memory of the World' register, in partnership with the Red Cross and the United Nations Organization, is staging a show devoted to the contemporary realities of war and peace. The exhibition invites the public to reflect on how we think about war, and how peace can be built. Under the direction of Pierre Hazan - a former war reporter and diplomatic correspondent, now an advisor in the mediation of armed conflicts - the exhibition and its catalogue are structured in three parts: the rise of conflict, war and the law, and the construction of peace. War & Peace brings together insights from literature, fine arts, anthropology, philosophy, psychoanalysis, law, and politics. Literary works, propaganda posters, photography, paintings, engravings, and archival documents illuminate the dialogue between humankind's warlike nature and the desire for peace.

The Flowers of Evil / Les Fleurs Du Mal (Translated by William Aggeler with an Introduction by Frank Pearce Sturm) Charles Baudelaire. 2015-06-16 Upon its original publication in 1857 Charles Baudelaire's *Les Fleurs du Mal* or *The Flowers of Evil* was embroiled in controversy. Within a month of its publication the French authorities brought an action against the author and the book's publisher claiming that the work was an insult to public decency. Eventually the French courts would acknowledge the literary merit of Baudelaire's work but ordered that six poems in particular should be banned from subsequent publication. The notoriety caused by this scandal would ultimately work in the author's favor causing the initial publication to sell out, thus prompting the publication of another edition. The second edition was published in 1861, it included an additional thirty-five poems, with the exclusion of the six poems censored by the French government. In this volume we reproduce that 1861 edition along with the six censored poems in an English translation by William Aggeler. Rich with symbolism, *The Flowers of Evil* is rightly considered a classic of the modernist literary movement. Its themes of decadence and eroticism seek to exhibit Baudelaire's criticism of the Parisian society of his time. This edition is printed on premium acid-free paper and includes an introduction by Frank Pearce Sturm.

**Human Computation** Edith Law, Luis von Ahn. 2011-08-08 Human computation is a new and evolving research area that centers around harnessing human intelligence to solve computational problems that are beyond the scope of existing Artificial Intelligence (AI) algorithms. With the growth of the Web, human computation systems can now leverage the abilities of an unprecedented number of people via the Web to perform complex computation. There are various genres of human computation applications that exist today. Games with a purpose (e.g., the ESP Game) specifically target online gamers who generate useful data (e.g., image tags) while playing an enjoyable game. Crowdsourcing marketplaces (e.g., Amazon Mechanical Turk) are human computation systems that coordinate workers to perform tasks in exchange for monetary rewards. In identity verification tasks, users perform computation in order to gain access to some online content; an example is reCAPTCHA, which leverages millions of users who solve CAPTCHAs every day to correct words in books that optical character recognition (OCR) programs fail to recognize with certainty. This book is aimed at achieving four goals: (1) defining human computation as a research area; (2) providing a comprehensive review of existing work; (3) drawing connections to a wide variety of disciplines, including AI, Machine Learning, HCI, Mechanism/Market Design and Psychology, and capturing their unique perspectives on the core research questions in human computation; and (4) suggesting promising research directions for the future. Table of Contents: Introduction / Human Computation Algorithms / Aggregating Outputs / Task Routing / Understanding Workers and Requesters / The Art of Asking Questions / The Future of Human Computation

**Teapots and Quails** Edward Lear. 2008-10 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger. The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

**My Blue Notebooks** Liane de Pougy. 2002 Liane de Pougy, known as Paris's most beautiful and notorious courtesan, was a Folies-Berg&egravere dancer who became a princess and died a nun. Between 1919 and 1941 she wrote her intimate memoir, My Blue Notebooks. Making modern tell-alls seem downright tepid by comparison, this long-out-of-print classic is a fascinating look into the mind of an audacious woman of great intelligence and humor. In My Blue Notebooks, de Pougy describes hosting the likes of Jean Cocteau and the poet Max Jacob, her best friend (Never again. Never more than one writer at a time). She shares her literary critiques of her friend Colette (I look down on her with a grimace of disgust), recalls the funeral of Nicholas I (she happened to be in St. Petersburg at the time), and reports the sad early death of her acquaintance Marcel Proust. She writes graphically of her many sexual liaisons with both men and women, including her complex marriage to the too handsome Prince Georges Ghika of Romania and her difficult relationship with Nathalie Clifford Barney, perhaps the real love of her life. Here is a voyeuristic feast of high society living during the first decades of the twentieth century.

**The European Union in Search of a Democratic and Constitutional** Amaryllis Verhoeven.2002-09-11 European integration confronts us with the limits of current constitutional and democratic language. The way out of this impasse will only appear through a refinement of what we consider the European Union to be as a political entity and of our concepts of democracy. In this challenging and thoughtful new book Professor Verhoeven recognizes the continuity of this project with social contract theory and the federal ideal --and uncovers the specific aspects of democracy and constitutionalism the EU has already embraced -- while showing how the terms and presuppositions of those persistent conceptual frameworks must be fundamentally revised. At the root of these necessary revisions lies the irreversible onset of multiculturalism and globalisation, twin challenges that force us to reconsider issues of sovereignty and self-governance. Professor Verhoeven does not neglect the much-debated issues at the centre of her topic. Her analysis extends to such critiques as the view of the European constitution as a Court-led process of vertical integration, the meaning of EU citizenship, variability in EU decision-making procedures, the concept of institutional balance, territorial differences in the application of EU law, the whole area of delegated rule-making and the relationship between the European and national legal orders. As a thorough investigation of how democracy and constitutionalism can be reconceptualised in order to meet the challenge of European integration, *The European Union in Search of a Democratic and Constitutional Theory* will greatly reward the attention of lawyers, policymakers, and scholars in the field.

**Chienne de Guerre** Anne Nivat.2009-02-23 Two years ago, when she was thirty years old, Anne Nivat decided to see first-hand what war was all about. Russia had just launched its second brutal campaign against Chechnya. And though the Russians strictly forbade Westerners from covering the war, the aspiring French journalist decided she would go. There are two very real dangers in Chechnya: being arrested by the Russians and being kidnapped by the Chechens. Nivat strapped her satellite phone to her belly, disguised herself in the garb of a Chechen peasant, and sneaked across the border. She found a young guide, Islam, to lead her illegally through the war zone. For six months they followed the war, travelling with underground rebels and sleeping with Chechen families or in abandoned buildings. Anne trembled through air raids; walked through abandoned killing fields; and helped in the halls of bloody hospitals. She interviewed rebel leaders, government officials, young widows, and angry fighters, and she reported everything back to France. Her reports in *Lib'ration* led to antiwar demonstrations outside the Russian embassy in Paris. Anne's words move. They are not florid, but terse, cool, dramatic. More than just a war correspondent's report, *Chienne de Guerre* is a moving story of struggle and self-discovery -- the adventures of one young woman who repeatedly tests her own physical and psychological limits in the extremely dangerous and stressful environment of war.
