Under a Wild Sky William Souder. 2014-07-21 In this Pulitzer Prize-finalist biography, the author of *Mad at the World* examines the little-known life of the man behind the well-known bird survey. John James Audubon is renowned for his masterpiece of natural history and art, *The Birds of America*, the first nearly comprehensive survey of the continent's birdlife. And yet few people understand, and many assume incorrectly, what sort of man he was. How did the illegitimate son of a French sea captain living in Haiti, who lied both about his parentage and his training, rise to become one of the greatest natural historians ever and the greatest name in ornithology? In *Under a Wild Sky* this Pulitzer Prize finalist, William Souder reveals that Audubon did not only compose the most famous depictions of birds the world has ever seen, but he also composed a brilliant mythology of self. In this dazzling work of biography, Souder charts the life of a driven man who, despite all odds, became the historical figure we know today. "A meticulous biography and a fascinating portrait of a young nation."—*San Francisco Chronicle* "As richly endowed and densely packed as the forests of Audubon's day."—*Minneapolis Star-Tribune* "Deftly weaves together the story of the self-taught artist and naturalist...with the development of scientific inquiry in the early years of the republic and the lives of ordinary Americans as the new nation spilled westward over the mountains from the Eastern seaboard."—*Los Angeles Times*

American Earth Bill McKibben.2008 Author and activist McKibben gathers the essential American writings that changed the way the public looks at the natural world. American Earth features essays by Walt Whitman, Rachel Carson, Barbara Kingsolver, Michael Pollan, and dozens more.

A Sand County Almanac Aldo Leopold.2020-03-25 Few books have had a greater impact than A Sand County Almanac, which many credit with launching a revolution in land management. Written as a series of sketches based principally upon the flora and fauna in a rural part of Wisconsin, the book, originally published by Oxford in 1949, gathers informal pieces written by Leopold over a forty-year period as he traveled through the woodlands of Wisconsin, Iowa, Arizona, Sonora, Oregon, Manitoba, and elsewhere; a final section addresses the philosophical issues involved in wildlife conservation. Beloved for its description and evocation of the natural world, Leopold's book, which has sold well over 2 million copies, remains a foundational text in environmental science and a national treasure.

The River of the Mother of God Aldo Leopold.1992-12-01 His name is inextricably linked with a single work, A Sand County Almanac, a classic of natural history literature and the conservationist's bible. This book brings together the best of Leopold's essays.

The Starship and the Canoe Kenneth Brower.2020-02-18 "The Starship and the Canoe is neither a wilderness survival manual nor a book of blueprints. It is another of those rare books impossible to define: the kind that seeks you in time. And you will know it, live it, and consult it thereafter simply by name." --Chicago Sun-Times "Brower's superbly written book clutches at one's imagination." --Publishers Weekly "In the tradition of Carl Sagan and John McPhee, a bracing cerebral voyage past intergalactic hoopla and backwoods retreats." --Kirkus Reviews Originally published in 1978, The

Starship and the Canoe is the remarkable story of a father and son: Freeman Dyson is a world-renowned astrophysicist who dreams of exploring the heavens and has designed a spaceship to take him there. His son George, a brilliant high school dropout, lives in a treehouse and is designing a giant kayak to explore the icy coastal wilderness of the Pacific Northwest and Alaska. Author Kenneth Brower describes with stunning impact their lives and their visions of the world. It is a timeless tale framed by modern science, adventure, family, and the natural world.

Game Management Aldo Leopold.1987-03-13 With this book, published more than a half-century ago, Aldo Leopold created the discipline of wildlife management. Although *A Sand County Almanac* is doubtless Leopold's most popular book, *Game Management* may well be his most important. In this book he revolutionized the field of conservation.

Living a Land Ethic Stephen A. Laubach.2014-07-24 A significant and important story about how a small group of landowners, inspired by Aldo Leopold, pioneered private conservation and ecological restoration. It offers an insightful reflection on what it means to live the 'land ethic' that is quite relevant to today's growing conservation challenges.--Tia Nelson

Aldo Leopold: A Sand County Almanac & Other Writings on Conservation and Ecology (LOA #238) Aldo Leopold.2013-03-21 A special edition of one of the greatest masterpieces of the environmental movement—plus original photographs and other writings on environmental ethics Since his death in 1948, Aldo Leopold has been increasingly recognized as one of the indispensable figures of American environmentalism. A pioneering forester, sportsman, wildlife manager, and ecologist, he was also a gifted writer whose farsighted land ethic is proving increasingly relevant in

our own time. Now, Leopold's essential contributions to our literature—some hard-to-find or previously unpublished—are gathered in a single volume for the first time. Here is his classic *A Sand County Almanac*, hailed—along with Thoreau's *Walden* and Carson's *Silent Spring*—as one of the main literary influences on the modern environmental movement. Published in 1949, it remains a vivid, firsthand, philosophical tour de force. Along with *Sand County* are more than fifty articles, essays, and lectures exploring the new complexities of ecological science and what we would now call environmental ethics. Leopold's sharp-eyed, often humorous journals are illustrated here for the first time with his original photographs, drawings, and maps. Also unique to this collection is a selection of over 100 letters, most of them never before published, tracing his personal and professional evolution and his efforts to foster in others the love and sense of responsibility he felt for the land. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

A Sand County Almanac Aldo Leopold. 1968-12-31 First published in 1949 and praised in *The New York Times Book Review* as a trenchant book, full of vigor and bite, *A Sand County Almanac* combines some of the finest nature writing since Thoreau with an outspoken and highly ethical regard for America's relationship to the land. Written with an unparalleled understanding of the ways of nature, the book includes a section on the monthly changes of the Wisconsin countryside; another part that gathers informal pieces written by Leopold over a forty-year period as he traveled

through the woodlands of Wisconsin, Iowa, Arizona, Sonora, Oregon, Manitoba, and elsewhere; and a final section in which Leopold addresses the philosophical issues involved in wildlife conservation. As the forerunner of such important books as Annie Dillard's *Pilgrim at Tinker Creek*, Edward Abbey's *Desert Solitaire*, and Robert Finch's *The Primal Place*, this classic work remains as relevant today as it was forty years ago.

A Sand County Almanac Aldo Leopold.1986-12-12 The environmental classic that redefined the way we think about the natural world—an urgent call for preservation that's more timely than ever. "We can place this book on the shelf that holds the writings of Thoreau and John Muir."—San Francisco Chronicle These astonishing portraits of the natural world explore the breathtaking diversity of the unspoiled American landscape—the mountains and the prairies, the deserts and the coastlines. Conjuring up one extraordinary vision after another, Aldo Leopold takes readers with him on the road and through the seasons on a fantastic tour of our priceless natural resources, explaining the destructive effects humankind has had on the land and issuing a bold challenge to protect the world we love.

Aldo Leopold Curt D. Meine.2010-10-19 This biography of Aldo Leopold follows him from his childhood as a precocious naturalist to his profoundly influential role in the development of conservation and modern environmentalism in the United States. This edition includes a new preface by author Curt Meine and an appreciation by acclaimed Kentucky writer and farmer Wendell Berry. *A Sand Country Almanac* Aldo Leopold.1966

[Analysis of Synchronous Machines](#) T.A. Lipo.2017-12-19 *Analysis of Synchronous Machines, Second Edition* is a thoroughly modern treatment of an old subject. Courses generally teach about synchronous machines by introducing the steady-state per phase equivalent circuit without a clear,

thorough presentation of the source of this circuit representation, which is a crucial aspect. Taking a different approach, this book provides a deeper understanding of complex electromechanical drives. Focusing on the terminal rather than on the internal characteristics of machines, the book begins with the general concept of winding functions, describing the placement of any practical winding in the slots of the machine. This representation enables readers to clearly understand the calculation of all relevant self- and mutual inductances of the machine. It also helps them to more easily conceptualize the machine in a rotating system of coordinates, at which point they can clearly understand the origin of this important representation of the machine. Provides numerical examples Addresses Park's equations starting from winding functions Describes operation of a synchronous machine as an LCI motor drive Presents synchronous machine transient simulation, as well as voltage regulation Applying his experience from more than 30 years of teaching the subject at the University of Wisconsin, author T.A. Lipo presents the solution of the circuit both in classical form using phasor representation and also by introducing an approach that applies MathCAD®, which greatly simplifies and expands the average student's problem-solving capability. The remainder of the text describes how to deal with various types of transients—such as constant speed transients—as well as unbalanced operation and faults and small signal modeling for transient stability and dynamic stability. Finally, the author addresses large signal modeling using MATLAB®/Simulink®, for complete solution of the non-linear equations of the salient pole synchronous machine. A valuable tool for learning, this updated edition offers thoroughly revised content, adding new detail and better-quality figures.

Reel Nature Gregg Mitman. 2012-09-01 Winner of the History of Science Society's Watson Davis and Helen Miles Davis Prize in the History of Science. From the early exploits of Teddy Roosevelt in

Africa to blockbuster films such as *March of the Penguins*, Gregg Mitman's *Reel Nature* reveals how changing values, scientific developments, and new technologies have come to shape American encounters with wildlife on and off the big screen. Whether crafted to elicit thrills or to educate audiences about the real-life drama of threatened wildlife, nature films then and now have had an enormous impact on how Americans see, think about, consume, and struggle to protect animals across the globe. Stories from the Leopold Shack Estella B. Leopold.2016-05-13 In 1934, conservationist Aldo Leopold and his wife Estella bought a barn - the remnant of a farm - and surrounding lands in south-central Wisconsin. The entire Leopold clan - five children in all - worked together to put into practice Aldo's land ethic, which involved ecological restoration and sustainability. In the process, they built more than a pleasant weekend getaway; they established a new way of relating to nature. In 1948, *A Sand County Almanac* was published, and it has become a beloved and foundational text of the conservation movement. Decades later, Estella B. Leopold, the youngest of the Leopold children - she was eight when they bought the land - now reflects on the Shack, as they called the repurposed barn, and its inhabitants, and recalls with clear-eyed fondness the part it played in her and her siblings' burgeoning awareness of nature's miracles, season by season. In *Stories from the Leopold Shack: Sand County Revisited*, she unforgettably recalls the intensity of those days: the taste of fresh honey on sourdough pancakes; the trumpeting arrival of migrating Canada geese; the awesome power of river ice driven by currents - and each description is accompanied by stunning photographs by her brother, A. Carl Leopold. As the Leopolds worked to restore degraded farmland back to its original prairie and woods, they noted and celebrated all of the flora and fauna that came to share the Shack lands. As first evoked in *A Sand County Almanac*, and now revisited in *Stories from the*

Leopold Shack, the Leopold family's efforts of ecological restoration were among the earliest in the United States, and their work, collectively and individually, continues to have a profound impact on land management and conservationism. All of Aldo and Estella Leopold's children went on to become distinguished scientists and to devote themselves to a life of conservation; their work continues through the Aldo Leopold Foundation. Estella B. Leopold book offers a voyage back to the place where it all began.

Marshland Elegy Aldo Leopold.1999 Introductions by George Archibald and Nina Leopold Bradley.

Hinduism - Ritual, Reason and Beyond Ashok Mishra.2019-08-03 The book is journey through 5000 years of evolution of Hinduism, and is outcome of seven years of study to understand the roots of Hinduism. Tracing the genesis of Hinduism to pre-Indus Valley period, the book explains Hindu, Hinduism and Sanatana Dharma, before it takes one through Hinduism's oldest scriptures - the four Vedas, the four components of each Veda, and what they contain. How all original translations of Vedic texts were done by Western Sanskrit scholars, and why their works have left scope for doubt about the fidelity of translations. The yajnas (yagya) like Ashvamedha, Rajsooya, Vajpeya, etc., about which we only hear on TV serials and talk shows, have been demystified. The reader will be taken aback reading the sheer size and scale of Soma yajna, described step by step, in great detail. Hinduism's journey to the Age of Reason, the Upanishads, its encounter with Buddhism, and its transformation into idol worshipping society with many gods and a multitude of stories about its millions of gods is lucidly explained. Puranas, what they contain and what was the reason they were created, has been described and explained next. Hinduism's journey to its modern form - idol worship, the modern puja, detailed description of puja and Sanskaras like Vivaha, their detailed description, the meaning of each action and how they are conducted, the gift to the priest, types of

idols, their consecration, all are explained to help a reader understand the why and the how of what we do as a Hindu. The book concludes with a discussion of - Do mantras have power? & Do rituals have meaning?

Wolves Julie Argyle.2022-04-12 An up-close look at the beautiful, yet fierce wolves of the greater Yellowstone area and their fight for survival. In *Wolves: Western Warriors*, the life of the powerful and majestic North American wolf, often considered to be vermin and dangerous, is presented, showing the struggle they have to simply survive in the wild and in a world where many people don't appreciate wolves and often set out to exterminate them. Argyle explores their behavior, their family dynamics, and what it means to be a wolf in the wilderness of the greater Yellowstone area through her stunning photography. She includes information about the reintroduction of wolves to Yellowstone and the ongoing struggle with keeping wolves listed as endangered species, while also offering her personal observations about the Wapiti Lake pack, among others, and several notable individual wolves. The strikingly beautiful images and the information and stories woven throughout the pages of the book showcase this frequently misunderstood, yet completely incredible species. "If you talk to the animals they will talk with you and you will know each other. If you do not talk to them you will not know then and what you do not know, you will not fear. What one fears, one destroys." — Chief Dan George, Tsleil-Waututh Nation, British Columbia, Canada.

Not on My Watch Alexandra Morton.2021-03-23 NATIONAL BESTSELLER Alexandra Morton has been called the Jane Goodall of Canada because of her passionate thirty-year fight to save British Columbia's wild salmon. Her account of that fight is both inspiring in its own right and a roadmap of resistance. Alexandra Morton came north from California in the early 1980s, following her first love--the northern resident orca. In remote Echo Bay, in the Broughton Archipelago, she found the perfect

place to settle into all she had ever dreamed of: a lifetime of observing and learning what these big-brained mammals are saying to each other. She was lucky enough to get there just in time to witness a place of true natural abundance, and learned how to thrive in the wilderness as a scientist and a single mother. Then, in 1989, industrial aquaculture moved into the region, chasing the whales away. Her fisherman neighbours asked her if she would write letters on their behalf to government explaining the damage the farms were doing to the fisheries, and one thing led to another. Soon Alex had shifted her scientific focus to documenting the infectious diseases and parasites that pour from the ocean farm pens of Atlantic salmon into the migration routes of wild Pacific salmon, and then to proving their disastrous impact on wild salmon and the entire ecosystem of the coast. Alex stood against the farms, first representing her community, then alone, and at last as part of an uprising that built around her as ancient Indigenous governance resisted a province and a country that wouldn't obey their own court rulings. She has used her science, many acts of protest and the legal system in her unrelenting efforts to save wild salmon and ultimately the whales--a story that reveals her own doggedness and bravery but also shines a bright light on the ways other humans doggedly resist the truth. Here, she brilliantly calls those humans to account for the sake of us all.

A Sand County Almanac Aldo Leopold.2001-11-15 A collection of nature writings by American conservationist Aldo Leopold based on his experiences and feelings while at his weekend farm along the Wisconsin River, illustrated with photographs taken at the farm over the course of a year.

For the Health of the Land Aldo Leopold.2012-07-16 Aldo Leopold's classic work A Sand County Almanac is widely regarded as one of the most influential conservation books of all time. In it, Leopold sets forth an eloquent plea for the development of a land ethic -- a belief that humans have a

duty to interact with the soils, waters, plants, and animals that collectively comprise the land in ways that ensure their well-being and survival. For the Health of the Land, a new collection of rare and previously unpublished essays by Leopold, builds on that vision of ethical land use and develops the concept of land health and the practical measures landowners can take to sustain it. The writings are vintage Leopold -- clear, sensible, and provocative, sometimes humorous, often lyrical, and always inspiring. Joining them together are a wisdom and a passion that transcend the time and place of the author's life. The book offers a series of forty short pieces, arranged in seasonal almanac form, along with longer essays, arranged chronologically, which show the development of Leopold's approach to managing private lands for conservation ends. The final essay is a never before published work, left in pencil draft at his death, which proposes the concept of land health as an organizing principle for conservation. Also featured is an introduction by noted Leopold scholars J. Baird Callicott and Eric T. Freyfogle that provides a brief biography of Leopold and places the essays in the context of his life and work, and an afterword by conservation biologist Stanley A. Temple that comments on Leopold's ideas from the perspective of modern wildlife management. The book's conservation message and practical ideas are as relevant today as they were when first written over fifty years ago. For the Health of the Land represents a stunning new addition to the literary legacy of Aldo Leopold.

A Sand County Almanac Aldo Leopold. 2020-05 First published in 1949 and praised in The New York Times Book Review as full of beauty and vigor and bite, A Sand County Almanac combines some of the finest nature writing since Thoreau with a call for changing our understanding of land management.

Running with Rhinos Ed Warner.2016-03-01 "Running with rhinos" is not a euphemism--not when you're ground support for the International Rhino Foundation's Rhino Conservancy Project. Edward M. Warner, a self-proclaimed radical conservationist, presents his outrageous adventures from more than a decade of collaboration with the veterinarians and biologists who care for endangered rhinos in Africa. Few if any laymen like Warner have been invited to do what amounts to some of the most dangerous volunteer fieldwork around. Fewer than five thousand black rhinos remain in the wilds of sub-Saharan Africa. About five hundred live on private conservancies in Zimbabwe. For Warner, working on the frontlines of rhino conservation not only allowed him to help rhinos, it gave him the

opportunity to pursue and refine his emerging philosophy of radical conservationism, to cultivate partnerships between local communities and private landowners in Africa, and to export the lessons about land and wildlife management back home to the United States. In *Running with Rhinos: Stories from a Radical Conservationist*, Warner takes readers along as he weasels his way into becoming volunteer ground support for the International Rhino Foundation's Rhino Conservancy Project, or "Rhino Ops," in Zimbabwe. It is gritty, sweaty, sometimes scary, and exhilarating work. Warner succeeds in telling a remarkable story of the extraordinary bonds between humans—and their dedication to protecting endangered animals—all while weaving eye-opening stories about the flora, fauna, geology, geography, and politics of sub-Saharan Africa.

Moral Ground Kathleen Dean Moore,Michael P. Nelson.2011-04-15 *Moral Ground* brings together the testimony of over eighty visionaries—theologians and religious leaders, scientists, elected officials, business leaders, naturalists, activists, and writers—to present a diverse and compelling call to honor our individual and collective moral responsibility to our planet. In the face of environmental degradation and global climate change, scientific knowledge alone does not tell us what we ought to do. The missing premise of the argument and much-needed center piece in the debate to date has been the need for ethical values, moral guidance, and principled reasons for doing the right thing for our planet, its animals, its plants, and its people. Contributors from throughout the world (including North America, Africa, Australia, Asia, and Europe) bring forth a rich variety of heritages and perspectives. Their contributions take many forms, illustrating the rich variety of ways we express our moral beliefs in letters, poems, economic analyses, proclamations, essays, and stories. In the end, their voices affirm why we must move beyond a scientific study and

response to embrace an ongoing model of repair and sustainability. These writings demonstrate that scientific analysis and moral conviction can work successfully side-by-side. This is a book that can speak to anyone, regardless of his or her worldview, and that also includes a section devoted to “what next” thinking that helps the reader put the words and ideas into action in their personal lives. Thanks to generous support from numerous landmark organizations, such as the Kendeda Fund and Germeshausen Foundation, the book is just the starting point for a national, and international, discussion that will be carried out in a variety of ways, from online debate to “town hall” meetings, from essay competitions for youth to sermons from pulpits in all denominations. The “Moral Ground movement” will result in a newly discovered, or rediscovered, commitment on a personal and community level to consensus about our ethical obligation to the future.

The Way Home Mark Boyle.2019-04-04 It was 11pm when I checked my email for the last time and turned off my phone for what I hoped would be forever. No running water, no car, no electricity or any of the things it powers: the internet, phone, washing machine, radio or light bulb. Just a wooden cabin, on a smallholding, by the edge of a stand of spruce. In this honest and lyrical account of a remarkable life without modern technology, Mark Boyle explores the hard won joys of building a home with his bare hands, learning to make fire, collecting water from the spring, foraging and fishing. What he finds is an elemental life, one governed by the rhythms of the sun and seasons, where life and death dance in a primal landscape of blood, wood, muck, water, and fire - much the same life we have lived for most of our time on earth. Revisiting it brings a deep insight into what it means to be human at a time when the boundaries between man and machine are blurring.

Think Like a Mountain Aldo Leopold.2021-08-26 In twenty short books, Penguin brings you the classics of the environmental movement. In this lyrical meditation on America's wildlands, Aldo

Leopold considers the different ways humans shape the natural landscape, and describes for the first time the far-reaching phenomenon now known as 'trophic cascades'. Over the past 75 years, a new canon has emerged. As life on Earth has become irrevocably altered by humans, visionary thinkers around the world have raised their voices to defend the planet, and affirm our place at the heart of its restoration. Their words have endured through the decades, becoming the classics of a movement. Together, these books show the richness of environmental thought, and point the way to a fairer, saner, greener world.

Round River Aldo Leopold.1972-03-30 To those who know the charm of Aldo Leopold's writing in A Sand County Almanac, this collection from his journals and essays will be a new delight. The journal entries included here were written in camp during his many field trips--hunting, fishing, and exploring--and they indicate the source of ideas on land ethics found in his longer essays. They reflect as well two long canoe trips in Canada and a sojourn in Mexico, where Leopold hunted deer with bow and arrow. The essays presented here are culled from the more contemplative notes which were still in manuscript form at the time of Leopold's death in 1948, fighting a brush fire on a neighbor's farm. Round River has been edited by Leopold's son, Luna, a geologist well-known in the field of conservation. It is also charmingly illustrated with line drawings by Charles W. Schwartz. All admirers of Leopold's work--indeed, all lovers of nature--will find this book richly rewarding.

Aldo Leopold: A Sand County Almanac & Other Writings on Ecology and Conservation Aldo Leopold. 2013 A Sand County almanac is often hailed as a foundational work of the modern environmental movement. Here, it is paired with over fifty other pieces by Leopold: uncollected articles, essays, speeches, and other writings that chart the evolution of his ideas over the course of three decades.

The Primal Place Robert Finch. 2007-05-09 From acclaimed author and naturalist Robert Finch, a richly detailed observance of Cape Cod's seemingly vanished natural and human past, as it clings to its present landscape. This is a voyage of discovery, a personal odyssey into the nature of a single Cape Cod neighborhood. It is a rich portrait, beautifully drawn, of a landscape and a community whose essential character lies in their penetrating interface with the sea. But it is also an individual quest, a journey of the heart and mind in which the author seeks entrance, or rather re-entrance into that vast living maze stretching out beyond my lines of sight.

Aldo Leopold and the Ecological Conscience Richard L. Knight, Susanne Riedel. 2002-04-11 In Aldo Leopold and an Ecological Conscience ecologists, wildlife biologists, and other professional conservationists explore the ecological legacy of Aldo Leopold and his A Sand County Almanac and his contributions to the environmental movement, the philosophy of science, and natural resource management. Twelve personal essays describe the enormous impact he has had on each author, from influencing the daily operations of the U.S. Fish and Wildlife Service and the creation of a land-use ethics guide for Forest Service personnel, to much needed inspiration for continuing on in today's large, complex and often problematic world of science. Here is Aldo Leopold as a mentor, friend, and companion and an affirmation of his hope that science will continue to be practiced in the cause of conservation.

Aldo Leopold's Odyssey Julianne Lutz Newton.2006-11 A household icon of the environmental movement, Aldo Leopold (1887-1948) may be the most quoted conservationist in history. A Sand County Almanac has sold millions of copies and his lyrical writings are venerated for their perceptions about land and how people might live in concert with the whole community of life. Using a fresh study of Leopold's unpublished archival materials, Julianne Lutz Newton retraces the intellectual journey that generated such passion and intelligence.

Good Bones Maggie Smith.2020-07-15 Featuring “Good Bones”—called “Official Poem of 2016” by the BBC/Public Radio International. Maggie Smith writes out of the experience of motherhood, inspired by watching her own children read the world like a book they've just opened, knowing nothing of the characters or plot. These are poems that stare down darkness while cultivating and sustaining possibility, poems that have a sense of moral gravitas, personal urgency, and the ability to address a larger world. Maggie Smith's previous books are *The Well Speaks of Its Own Poison* (Tupelo, 2015), *Lamp of the Body* (Red Hen, 2005), and three prize-winning chapbooks: *Disasterology* (Dream Horse, 2016), *The List of Dangers* (Kent State, 2010), and *Nesting Dolls* (Pudding House, 2005). Her poem “Good Bones” has gone viral—tweeted and translated across the world, featured on the TV drama *Madam Secretary*, and called the “Official Poem of 2016” by the BBC/Public Radio International, earning news coverage in the *New York Times*, *Washington Post*, *Slate*, the *Guardian*, and beyond. Maggie Smith was named the 2016 Ohio Poet of the Year. “Smith's voice is clear and unmistakable as she unravels the universe, pulls at a loose thread and lets the whole thing tumble around us, sometimes beautiful, sometimes aching hard. Truthful, tender, and unafraid of the dark....”—Ada Limón “As if lost in the soft, bewitching world of fairy tale, Maggie Smith conceives and brings forth this metaphysical Baedeker, a guidebook for mother and child to

lead each other into a hopeful present. Smith's poems affirm the virtues of humanity: compassion, empathy, and the ability to comfort one another when darkness falls. 'There is a light,' she tells us, 'and the light is good.'"—D. A. Powell "Good Bones is an extraordinary book. Maggie Smith demonstrates what happens when an abundance of heart and intelligence meets the hands of a master craftsperson, reminding us again that the world, for a true poet, is blessedly inexhaustible."—Erin Belieu
