Staging Fairyland Jennifer Schacker.2018-12-17 In nineteenth-century Britain, the spectacular and highly profitable theatrical form known as pantomime was part of a shared cultural repertoire and a significant medium for the transmission of stories. Rowdy, comedic, and slightly risqué, pantomime productions were situated in dynamic relationship with various forms of print and material culture. Popular fairy-tale theater also informed the production and reception of folklore research in ways that are often overlooked. In Staging Fairyland: Folklore, Children's Entertainment, and Nineteenth-Century Pantomime, Jennifer Schacker reclaims the place of theatrical performance in this history, developing a model for the intermedial and cross-disciplinary study of narrative cultures. The case studies that punctuate each chapter move between the realms

of print and performance, scholarship and popular culture. Schacker examines pantomime productions of such well-known tales as Cinderella, Little Red Riding Hood, and Jack and the Beanstalk, as well as others whose popularity has waned—such as, Daniel O'Rourke and The Yellow Dwarf. These productions resonate with traditions of impersonation, cross-dressing, literary imposture, masquerade, and the social practice of fancy dress. Schacker also traces the complex histories of Mother Goose and Mother Bunch, who were often cast as the embodiments of both tale-telling and stage magic and who move through various genres of narrative and forms of print culture. These examinations push at the limits of prevailing approaches to the fairy tale across media. They also demonstrate the degree to which perspectives on the fairy tale as children's entertainment often obscure the complex histories and ideological underpinnings of specific tales. Mapping the histories of tales requires a fundamental reconfiguration of our thinking about early folklore study and about fairy tales: their bearing on questions of genre and ideology but also their signifying possibilities—past, present, and future. Readers interested in folklore, fairy-tale studies, children's literature, and performance studies will embrace this informative monograph.

Diary of an American Cinderella Terry Woods.2019-11-16 As a writer and motivational speaker, Woods' uplifting success story is both inspirational and endearing. Her sense of personal expansion continues throughout the collection. Readers will root for Terry with the turn of every page as she reveals her rags-to-riches life. In 1954, when she was 11 years old, she began keeping a diary. One of her first entries reads, I'm the person who is

writing in this diary and telling about the thrilling, funny, and sad stories of my life. Unbeknownst to Terry, this innocent line would encapsulate her 65 years of diary writing. The author has lived a remarkably full life, although distinctly divided in two. Born in Brooklyn, she spent her first 12 years on a dairy farm. After her parents divorced, her mother moved back to Brooklyn where Woods writes, I feel like a naïve farm girl, as she slips into a series of unhappy and dangerous relationships. After her mid-30s, she gained valuable mentors, wrote a self-help book, published a magazine, and traveled extensively for 15 years. The most delightful aspect of reading her diary excerpts is how they observe the blossoming of Woods' self-confidence while living with her aunt who supported her dreams. She writes, My enthusiasm is making me a winner. My self-love grows and my horizons expand. -- KIRKUS REVIEWS

The Commanders Lloyd Clark. 2022-11-15 From an acclaimed military historian, the interlocking lives of three of the most important and consequential generals in World War II Born in the two decades prior to World War I, George Patton, Bernard Montgomery, and Erwin Rommel became among the most recognized and successful military leaders of the 20th century. However, as acclaimed military historian Lloyd Clark reveals in his penetrating and insightful braided chronicle of their lives, they charted very different, often interrupted, paths to their ultimate leadership positions commanding hundreds of thousands of troops during World War II and celebrated as heroes in the United States, Britain, and Germany. Patton was born into a military family and from an early age felt he was destined for glory; following a disjointed childhood, Montgomery found purpose and direction in a military academy; Rommel's father was a former officer, so his pursuit of a military career was logical. Having ascended to the middle ranks, each faced battle for the first time in World War I, a searing experience that greatly influenced their future approach to war and leadership. When war broke out again in 1939, Montgomery and Rommel were immediately engaged, while Patton chafed until the U.S. joined the Allies in 1942 and the three men, by then generals, collided in North Africa in 1943, and then again, climactically, in France after D-Day in 1944. Weaving letters, diary extracts, official reports, and other documents into his original narrative, recounting dramatic battles as they developed on the ground and at headquarters, Clark also explores the controversies that swirled around Patton, Montgomery, and Rommel throughout their careers, sometimes threatening to derail them. Ultimately, however, their unique abilities to bridge the space between leader and led cemented their legendary reputations.

Children's Stories and 'Child-Time' in the Works of Joseph Cornell and the Transatlantic Avant-Garde Analisa Leppanen-Guerra. 2017-07-05 Focusing on his evocative and profound references to children and their stories, *Children's Stories and 'Child-Time' in the Works of Joseph Cornell and the Transatlantic Avant-Garde* studies the relationship between the artist's work on childhood and his search for a transfigured concept of time. This study also situates Cornell and his art in the broader context of the transatlantic avant-garde of the 1930s and 40s. Analisa Leppanen-Guerra explores the children's stories that Cornell perceived as fundamental in order to unpack the dense network of associations in his under-studied multimedia works. Moving away from the usual focus on his box constructions, the author directs her attention to Cornell's film and theater scenarios, 'explorations', 'dossiers', and book-objects. One highlight of this study is a work that may well be the first artist's book of its kind, and has only been

exhibited twice: *Untitled (Journal d'Agriculture Pratique)*, presented as Cornell's enigmatic tribute to Lewis Carroll's Alice books.
