Contemporary Perspectives in E-Learning Research Gráinne Conole,Martin Oliver.2006-11-22 E-learning is at an exciting point in its development; its potential in terms of research is great and its impact on institutional practices is fully recognised. This book defines e-learning as a field of research, highlighting the complex issues, activities and tensions that characterise the area. Written by a team of experienced researchers and commented upon by internationally recognised experts, this book engages researchers and practitioners in critical discussion and debate about the findings emerging from the field and the associated impact on practice. Key topics examined include: access and inclusion the social-cultural contexts of e-learning organisational structures, processes and identities technical aspects of learning research – using tools and resources approaches to learning and teaching practices and associated learning theories designing for e-learning and the management of educational resources professional roles and identities the evolution of e-assessment collaboration, motivation and educational evaluation. *Contemporary Perspectives in E-Learning Research* provides a synthesis of research, giving readers a grounding in contemporary e-learning scholarship whilst identifying the debates that make it such a lively and fast-moving area. A landmark text in an evolving field, this book will prove invaluable for all researchers, practitioners, policy makers and students who engage with e-learning.

Fiela's Child Dalene Matthee.1992-09 Set in nineteenth-century rural Africa, *Fiela's Child* tells the gripping story of Fiela Komoetie and a white, three-year old child, Benjamin, whom she finds crying on her doorstep. For nine years Fiela raises Benjamin as one of her own children. But when census takers discover Benjamin, they send him to an illiterate white family of woodcutters who claim him as their son. What follows is Benjamin's search for his identity and the fundamental changes affecting the white and black families who claim him. Everything a novel can be: convincing, thought-provoking, upsetting, unforgettable, and timeless.—Grace Ingoldby, *New Statesman* *Fiela's Child* is a parade that broadens and humanizes our understanding of the conflicts still affecting South Africa today.—Francis Levy, *New York Times Book Review* A powerful creation of time and place with dark threads of destiny and oppression and its roots in the almost Biblical soil of a storyteller's art.—Christopher Wordsworth, *The Guardian* The characters in the novel live and breathe; and the landscape is so brightly painted that the trees, birds, elephants, and rivers of old South Africa are characters themselves. A book not to miss.—Kirkus Reviews

Polysemy in Cognitive Linguistics H. Cuyckens,Britta Zawada.2001-01-01 In Cognitive Linguistics, polysemy is regarded as a categorizing phenomenon; i.e., related meanings of words form categories centering around a prototype and bearing family resemblance relations to one another. Under this polysemy = categorization view, the scope of investigation has been gradually broadened from categories in the lexical and lexico-

grammatical domain to morphological, syntactic, and phonological categories. The papers in this volume illustrate the importance of polysemy in describing these various categories. A first set of papers analyzes the polysemy of such lexical categories as prepositions and scalar particles, and looks at the import of polysemy in frame-based dictionary definitions. A second set shows that noun classes, case, and locative prefixes constitute meaningful and polysemous categories. Three papers, then, pay attention to polysemy from a psychological perspective, looking for psychological evidence of polysemy in lexical categories.

Ladybird Tales: Classic Stories to Share. 2015-10-01 Ladybird has published fairy tales for over forty-five years, bringing the magic of traditional stories to each new generation of children. These classic stories are based on the original Ladybird retellings by Vera Southgate, with beautiful new illustrations of the kind children like best - full of richness and detail. An essential part of any child's bookshelf, Ladybird Tales are perfect for sharing together and creating memories to treasure forever. This beautiful treasury brings together five of everyone's favourite fairy tales: Hansel and Gretel, Cinderella, Aladdin, Snow White and the Seven Dwarfs, and Puss in Boots.

Handling Student Frustrations Renate Nummela Caine, Carol McClintic. 2014-05-06 The authors draw on years of teaching experience to propose the APA (Acknowledge, Process, Act) method, which encourages students to recognize emotions and also motivates them to implement proactive solutions rather than let negative emotions sabotage their academic goals. Included are several grade-appropriate classroom scenarios and relevant strategies that will help teachers create more peaceful, respectful, and productive learning environments.

Evaluating the Quality of Learning John B. Biggs, Kevin F. Collis. 2014-05-10 Educational Psychology Series: Evaluating the Quality of Learning: The SOLO Taxonomy (Structure of the Observed Learning Outcome) focuses on the approaches, methodologies, and techniques employed in the valuation of the quality of learning. The publication first offers information on the quality and quantity of learning and origin and description of the Structure of the Observed Learning Outcome (SOLO) taxonomy. Discussions focus on general intellectual development and the growth of quality; some assumptions and applications of stage theory; from developmental stage to levels of learning quality; and general intellectual development and the growth of quality. The text then examines the teaching of history, elementary mathematics, English, and geography. Topics include interpreting a map and drawing conclusions, explaining a natural phenomenon, appreciation of poetry, implications for the teaching of history, English, and mathematics, numbers and operations, and general application of SOLO to history. The manuscript takes a look at modern languages, place of the taxonomy in instructional design, and some methodological considerations. Concerns include alternative formats for obtaining SOLO responses, instructional processes, curriculum analysis, remediation, and teacher intentions. The publication is a vital source of data for educators interested in the SOLO taxonomy.

Approaching Difficulties in Literacy Development Felicity Fletcher-Campbell, Janet Soler, Gavin Reid. 2009-09-10 Approaching Difficulties in Literacy Development: Assessments, Pedagogy and Programmes considers the complexity of literacy difficulties, showing how research into literacy difficulties has to be multi-faceted and multi-disciplinary and involve a range of research approaches and methods. The chapters show that this is necessary to accommodate the wide range of issues that can, potentially, explain literacy difficulties and suggest strategies and interventions to ease those difficulties. This Reader is relevant to all postgraduate students of Literacy, as well as educators, professionals and policy makers.
