Answering Only to God Geneive Abdo, Jonathan Lyons. 2003 “Riveting . . . a side of Iran that is often misrepresented by the world’s media—[an] insightful, captivating book.” —San Francisco Chronicle Taking the reader inside Iran’s key institutions, Geneive Abdo and Jonathan Lyons argue that the 1979 Iranian revolution, long viewed in the West as the pursuit of an imagined medieval Utopia, was in fact a political movement designed to modernize Islam. Twenty years later, a power struggle between conservative and reform elements provoked a clash that has destabilized the country and limited Iran’s ability to integrate with the world community. *Answering Only to God* challenges the prevailing Western belief that the Islamic world is an undifferentiated mass of disaffected and dangerous fanatics or that a Western-style democracy will soon transform this ancient land of Shi’ite and Sufi tradition. Instead, the authors explore the controversial view that beyond their quarrel with the West, stemming from decades of exploitive foreign policies, the real struggle in Iran is between reformers and conservative mullahs.

Alternative Islamic Discourses and Religious Authority Susanne Olsson, Carool Kersten. 2016-03-23 Like anywhere else, the present-day Islamic world too is grappling with modernity and postmodernity, secularisation and globalisation. Muslims are raising questions about religious representations and authority. This has given rise to the emergence of alternative Islamic discourses which challenge binary oppositions and dichotomies of orthodoxy and heterodoxy, continuity and change, state and civil society. It also leads to a dispersal of authority, a collapse of existing hierarchical structures and gender roles. This book further argues that the centre of gravity of many of these alternative Islamic discourses is shifting from the Arabic-speaking 'heartland' towards the geographical peripheries of the Muslim world and expatriate Muslims in North America and Europe. At the same time, in view of recent seismic shifts in the political constellation of the Middle East, the trends discussed in this book hold important clues for the possible direction of future developments in that volatile part of the Muslim world.

Living Shi'ism David Thurfjell. 2019-08-26 This book provides a vivid portrait of Iranian Islamism. Based on interviews with grass-roots activists it gives a unique picture of pro-regime movement in Iran. It is of interest to anyone who seeks to understand Shi’ite Islamism today.

Singing with the Mountains William Sherman. 2023-12-05 An illuminating story of a Sufi community that sought the revelation of God. In the Afghan highlands of the sixteenth century, the messianic community known as the Roshaniyya not only desired to find God’s word and to abide by it but also attempted to practice God’s word and to develop techniques of language intended to render their own tongues as the organs of continuous revelation. As their critics would contend, however, the Roshaniyya attempted to make language do something that language should not do—infuse the semiotic with the divine. Their story thus ends in a tower of skulls, the proliferation of heresiographies that detailed the sins of the Roshaniyya, and new formations of “Afghan” identity. In *Singing with the Mountains*, William E. B. Sherman finds something extraordinary about the Roshaniyya, not least because the first known literary use of vernacular Pashto occurs in an eclectic, Roshani imitation of the Qur’an. The story of the Roshaniyya exemplifies a religious culture of linguistic experimentation. In the example of the Roshaniyya, we discover a set of questions and anxieties about the capacities of language that pervaded Sufi orders, imperial courts, groups of wandering ascetics, and scholastic networks throughout Central and South Asia. In telling this tale, Sherman asks the following questions: How can we make language shimmer with divine truth? How can letters grant

sovereign power and form new “ethnic” identities and ways of belonging? How can rhyme bend our conceptions of time so that the prophetic past comes to inhabit the now of our collective moment? By analyzing the ways in which the Roshaniyya answered these types of questions—and the ways in which their answers were eventually rejected as heresies—this book offers new insight into the imaginations of religious actors in the late medieval and early modern Persianate worlds.

Islam and Dissent in Postrevolutionary Iran Behrooz Ghamari-Tabrizi.2008-04-08 The Islamic Republic of Iran came into being in 1979, the result of a radical revolution that overhauled not only the foundations of Iranian society, religion and politics, but also our understanding of the role of religion in modern government. Here Behrooz Ghamari-Tabrizi takes us on an enlightening journey, showing that contrary to widespread assumptions the Iranian revolution opened up the public sphere to competing interpretations of Islam, with profound consequences for the nature of democratic reform. Ghamari-Tabrizi sheds new light on the contingencies within which the new regime evolved, and traces the steps by which the clerical establishment sought to consolidate power during the immediate postrevolutionary period. Contrary to the received view, he argues that the ruling class failed to institute a theocratic regime, and, more significantly, unintentionally established the grounds for civic challenges to government policies underwritten by official interpretations of Islam. Far from being the exclusive preserve of high-ranking seminarians, interpretations of doctrinal Islam in contemporary Iran now form a contested, varied and negotiated discourse in which lay theologians, intellectuals, lawyers and social activists are active and influential interlocutors. Against the background of this unexpected development, Ghamari-Tabrizi addresses the early and late works of Abdolkarim Soroush, an Iranian philosopher who has become one of the most influential Muslim intellectuals in recent years, a leading force behind Iran's pro-democracy movement and vocal critic of the state. Through a close reading of Soroush's evolving ideas, and of the works of Ali Shari`ati, and by tracing the links between Muslim intellectual critique and the realpolitik of postrevolutionary power struggles, Ghamari-Tabrizi offers nothing less than a pathbreaking reassessment of the Iranian revolution. In so doing, he demonstrates how democratic transformation in Muslim societies has taken place by means of a public engagement with the teachings of Islam and highlights a most significant, if unintended, consequence of the Iranian revolution - namely the secularization of Islam. Drawing on a wealth of sources and with powerful insights, 'Islam and Dissent' is essential for an understanding of the Muslim world today and of the new relationships between religion, culture and political power visible across the globe.

The Emergence of Modern Shi'ism Zackery M. Heern.2015-06-04 This book takes a fresh look at the foundations of modern Islam. Scholars often locate the origins of the modern Islamic world in European colonialism or Islamic reactions to European modernity. However, this study focuses on the rise of Islamic movements indigenous to the Middle East, which developed in direct response to the collapse and decentralization of the Islamic gunpowder empires. In other words, the book argues that the Usuli movement as well as Wahhabism and neo-Sufism emerged in reaction to the disintegration and political decentralization of the Safavid, Ottoman, and Mughal empires. The book specifically highlights the emergence of Usuli Shi'ism in the eighteenth and nineteenth centuries. The long-term impact of the Usuli revival was that Shi'i clerics gained unprecedented social, political, and economic power in Iran and southern Iraq. Usuli clerics claimed authority to issue binding legal judgments, which, they argue, must be observed by all Shi'is. By the early nineteenth century, Usulism emerged as a popular, fiercely independent, transnational Islamic movement. The Usuli clerics have often operated at the heart of social and political developments in modern Iraq and Iran and today dominate the politics of the region.

Apocalyptic Islam and Iranian Shi'ism Abbas Amanat.2009-02-19 Interest in Shi'i Islam is running at unprecedented levels. International tensions over Iran, where the largest number of Shi'i Muslims live, as well as the political resurgence of the Shi'i in Iraq and Lebanon, have created an urgent

need to understand the background, beliefs and motivations of this dynamic vision of Islam. Abbas Amanat is one of the leading scholars of Shi'ism. And in this powerful book, a showcase for some of his most influential writing in the field, he addresses the colourful and diverse history of Shi' Islam in both premodern and contemporary times. Focusing specifically on the importance of apocalypticism in the development of modern Shi'i theology, he shows how an immersion in messianic ideas has shaped the conservative character of much Shi'i thinking, and has prevented it from taking a more progressive course. Tracing the continuity of apocalyptic trends from the Middle Ages to the present, Amanat addresses such topics as the early influence on Shi'ism of Zoroastrianism; manifestations of apocalyptic ideology during the Iranian Revolution of 1979; and the rise of the Shi'i clerical establishment during the 19th and 20th centuries. His book will be an essential resource for students and scholars of both religious studies and Middle Eastern history.

The Other Islam Muhammed Al Da'mi. 2013-10 The reputation of Shi'ism in the Islamic world, as elsewhere, has undergone many vicissitudes, but it is now higher than ever. In this new study, The author moves us toward an understanding of the social, intellectual, and theological crises that Prophet Muhammed and his cousin, Ali, together with some of the impoverished early Muslims (the precursors of Shi'ism) were struggling to solve. The issues were many: the idols, their social and economic embodiments in class, tribe, gender and ethnicity; the necessity of the revolutionary spirit, and its resumption in the Shi'i rebellious ethos; the question of the non-Arab converts to Islam; the exaggeration of the status of the imams (Shi'i extremism); the extension of the Islamic idol-Breaking spirit to encompass and examine modern issues or novel contemporary phenomena. Al Da'mi brings to the discussion of these historically complicated questions the lively investigation that many readers of English are not expected to know and comprehend outside the context of the self-consuming sectarian conflicts which penetrate and segment the Islamic world.

Islamic Revolution of Iran 'Abd al-Raḥīm Gavāhī. 1988

Iran's First Revolution Mangol Bayat. 1991-11-14 In order to understand Iran's religious revolution of 1978-1979, it is important to look closely at an earlier revolution in the country, the constitutional revolution of 1905-1909. This revolution, which resulted in the establishment of Iran's first parliamentary democracy, was a seminal event in the country's history. The most thorough and comprehensive history of the revolution to date, Bayat's book examines the uneasy alliance of clerical, bureaucratic, landowning, and mercantile elements that won the support of the masses for a more democratic government, especially the clerical dissidents that gave the revolution an aura of religious legitimacy. Bayat argues that the recent religious revival in Iran is much less surprising when one sees how constitutionalists at the beginning of the century had to couch their calls for reform in the language of the Koran, claiming that political reforms constituted a return to Islam.

Theocratic Secularism Naser Ghobadzadeh. 2022 This book articulates a religious rationale for political secularism in the Iranian/shi'i context. The

genealogy of Twelver shi'i political theology shows that the bitter experience and lack of success of the shi'ia in the field of governance in the early centuries of Islamic history led them to link the realisation of their ideal political system to transcendental factors. Belief in theocracy has always been the basis of shi'i political theology, but with the messianic conception of the 12th Imām in the fourth/tenth century, its realisation came to depend on the will and intervention of the divine. As a result, shi'i leaders, while awaiting the return of the 12th Imām, not only do not have the authority or responsibility to take over the institution of government, but have been forbidden from doing so. For more than 1300 years, the political thought and action of shi'i religious leaders was shaped by the political theology formulated in this book as Theocratic secularism. In opposition to orthodox shi'i theology, a new politico-religious discourse emerged at the initiative of Ayatollah Khomeini in the last decades of the twentieth century, which in this book is referred to as governmental-shi'ism. In sharp contrast to shi'i orthodoxy, governmental-shi'ism considers the occupation of the government apparatus as the duty of shi'i religious leaders. In this book, it is argued that governmental-shi'ism was neither the product of a theological transformation of shi'i orthodoxy nor used as a blueprint to establish the Islamic Republic. Rather, the formation of the Islamic Republic and the clergy's rise to power led to the birth of governmental-shi'ism and bestowed importance on Khomeini's doctrine of wilāyat-i faqīh--

The Birth of a Celestial Light Tina Eftekhari.2015-01-12 It is interesting that women who campaign for women's rights and interests in Iran have not considered engaging with women who are neither conventional Muslims nor strongly secular, but instead explore other aspects of religion and spirituality. The women examined in this study identify themselves as believers in God, but have different views of religion; some wish to be called religious but do not follow the official Islamic Shia and have their own interpretation of what it means to be a good Muslim, while some think of spirituality as their religion and refer to themselves as "spiritual". Scholarship on women in Iran has not yet taken such an approach, and has not considered women's interests in spirituality with regard to religion. As such, this book differs greatly from existing work on Iranian women's lives after the Islamic revolution. It examines the potential feminist implications of women's involvement in one of the most popular spiritual movements, "Inter-universal Mysticism" and its emancipatory potential for women. The central argument here is that feminist spirituality is an expression of women's power to identify, explore, and assess their own spiritual experiences in order to construct their own sense of self and transform their lives. As such, this book broadens discourses about women in Iran by examining the link between spirituality, coping, and meaning-making in the lives of women involved with Inter-universal Mysticism. The study's unique contribution is not simply that it extends the range of contexts in which gender can be analysed, but rather that it, through the lens of feminism, demonstrates the significance of women's choice of spirituality as an investigative issue which can elucidate women's wider social, cultural and political processes in contemporary Iran.

Shi'ism and the Democratisation Process in Iran Ibrahim Moussawi.2012-01-16 Since its emergence in 1979, the Islamic Republic of Iran has remained a conundrum for observers, particularly in the West. *Shi'ism and the Democratisation Process in Iran* examines the fundamentals of Iran's Islamic governance and asks the pivotal question: can democracy and Islam cohere?Addressing Wilayat al-Faqih, or rule by the jurisprudent - the theory upon which the Islamic Republic was constructed - he asserts that the system upholds both individual and communal rights, and provides scope for citizens to express their interests. Moussawi draws on the history and theological underpinnings of Shi'i Islam to argue that in today's Iran, politics and religion are neither rigid nor in diametric opposition. Exhaustively researched, *Shi'ism and the Democratisation Process in Iran* marks an invaluable addition to the growing oeuvre of books on Iran.

The nativist prophets of early Islamic Iran Patricia Crone.2012 Patricia Crone's latest book is about the Iranian response to the Muslim penetration of the Iranian countryside, the revolts subsequently triggered there, and the religious communities that these revolts revealed. The book

also describes a complex of religious ideas that, however varied in space and unstable over time, has demonstrated a remarkable persistence in Iran across a period of two millennia. The central thesis is that this complex of ideas has been endemic to the mountain population of Iran and occasionally become epidemic with major consequences for the country, most strikingly in the revolts examined here, and in the rise of the Safavids who imposed Shi'ism on Iran. This learned and engaging book by one of the most influential scholars of early Islamic history casts entirely new light on the nature of religion in pre-Islamic Iran, and on the persistence of Iranian religious beliefs both outside and inside Islam after the Arab conquest--

The Iranian Revolution And The Muslim World David Menashri.2019-07-09 This book delineates the Islamic revolution's impact mainly on the Muslim Middle East and examines the first decade of the revolution. It deals with the repercussions of the revolution in several Shi'i communities and examines Sunni polemical writings on the Shi'a and the Iranian revolution.

Cultures of Eschatology Veronika Wieser,Vincent Eltschinger,Johann Heiss.2020-07-20 In all religions, in the medieval West as in the East, ideas about the past, the present and the future were shaped by expectations related to the End. The volumes *Cultures of Eschatology* explore the many ways apocalyptic thought and visions of the end intersected with the development of pre-modern religio-political communities, with social changes and with the emergence of new intellectual and literary traditions. The two volumes present a wide variety of case studies from the early Christian communities of Antiquity, through the times of the Islamic invasion and the Crusades and up to modern receptions, from the Latin West to the Byzantine Empire, from South Yemen to the Hidden Lands of Tibetan Buddhism. Examining apocalypticism, messianism and eschatology in medieval Christian, Islamic, Hindu and Buddhist communities, the contributions paint a multi-faceted picture of End-Time scenarios and provide their readers with a broad array of source material from different historical contexts. The first volume, *Empires and Scriptural Authorities*, examines the formation of literary and visual apocalyptic traditions, and the role they played as vehicles for defining a community's religious and political enemies. The second volume, *Time, Death and Afterlife*, focuses on key topics of eschatology: death, judgment, afterlife and the perception of time and its end. It also analyses modern readings and interpretations of eschatological concepts.

Shi'ism Hamid Dabashi.2012-05-07 For a Western world anxious to understand Islam and, in particular, Shi'ism, this book arrives with urgently needed information and critical analysis. Hamid Dabashi exposes the soul of Shi'ism as a religion of protest—successful only when in a warring position, and losing its legitimacy when in power. Dabashi makes his case through a detailed discussion of the Shi'i doctrinal foundations, a panoramic view of its historical unfolding, a varied investigation into its visual and performing arts, and finally a focus on the three major sites of its contemporary contestations: Iran, Iraq, and Lebanon. In these states, Shi'ism seems to have ceased to be a sect within the larger context of Islam and has instead emerged to claim global political attention. Here we see Shi'ism in its combative mode—reminiscent of its traumatic birth in early Islamic history. Hezbollah in Lebanon claims Shi'ism, as do the militant insurgents in Iraq, the ruling Ayatollahs in Iran, and the masses of youthful demonstrators rebelling against their reign. All declare their active loyalties to a religion of protest that has defined them and their ancestry for almost fourteen hundred years. *Shi'ism: A Religion of Protest* attends to the explosive conflicts in the Middle East with an abiding attention to historical facts, cultural forces, religious convictions, literary and artistic nuances, and metaphysical details. This timely book offers readers a bravely

intelligent history of a world religion.

Shia Islam and Politics Jon Armajani.2020-05-20 This book argues that ever since Iran's Islamic Revolution in 1979, which established a Shia Islamic government in Iran, that country's religious and political leaders, have used Shia Islam as a crucial way of expanding Iran's objectives in the Middle East and beyond. Since 1979, Iran's religious and political leaders have been concerned about Iran's security in the face of the hostility and expansionism of the United States and other western countries, and the threats from powerful neighboring Sunni leaders and countries. While Iran's government has attempted to align itself with Shia Muslims in various countries, such as Iraq and Lebanon, against American and Sunni expansionism, the Iranian government has attempted to religiously nourish and politically mobilize those Shias as a matter of principle, not only because of the Iranian government's desires to protect Iran from external threats. The book analyzes Shia Islam and politics in Iraq, Iraq, and Lebanon which have among the largest proportional Shia populations in the Middle East and are vibrant centers of Shia intellectual life. The book's clear and jargon-free approach make it especially accessible for students and general readers who would like an introduction to the book's topics.

The Hojatiyeh Society in Iran R. Cohen.2013-02-12 This book analyzes the evolution of the Hojatiyeh movement in Iran, a semi-clandestine movement which emerged in the 1950s as an anti-Baha'i movement, went underground in the 1960s, and re-emerged openly after Iran's 1979 revolution with its members coming to occupy some of the highest echelon posts in Iranian politics

Political Conservatism and Religious Reformation in Iran (1905-1979) Amir Yahya Ayatollahi.2022-03-19 This book is a theoretical inquiry on the relation of the body politic with the religious movements in the time between the Constitutional Revolution and the Islamic Revolution in Iran; it illustrates speculative and historical analyses on the relationship of state, religion, and socio-political status in the late Qajar dynasty (1905-1925) and the whole Pahlavi monarchy. Particularly, it examines the applicability of "liberal conservatism" to the era of the last Shah of Iran. The thesis defines the term political conservatism in accord with Edmund Burke's philosophy. It deals next with the definition of religious reformation, the peculiar characteristics of Islam, the Shi'ite political theology, and the contradictory usages of "Islamic reformation" in the literature. The text gives an overview of the two antagonist sides of nationalism. It provides also an analysis of the Islamic Republic as a new political phenomenon in Iranian history and the transformation of all concepts after 1979. Ayatollahi aims to assess the Iranian conservatism, the possibility of conciliation between politics and religion before the collapse of the Pahlavi, and "the conditions of possibility" for any restoration of the monarchy.

Shi'ism, Resistance, And Revolution Martin Kramer.1987-03-11

Theology of Discontent Hamid Dabashi.2017-07-28 Scores of books and articles have been published, addressing one or another aspect of the Islamic Revolution in Iran. Missing from this body of scholarship, however, has been a comprehensive analysis of the intellectual and ideological

cornerstones of one of the most dramatic revolutions in our time. In this remarkable volume, Hamid Dabashi brings together, in a sustained and engagingly written narrative, the leading revolutionaries who have shaped the ideological disposition of this cataclysmic event. Dabashi has spent over ten years studying the writings, in their original Persian and Arabic, of the most influential Iranian clerics and thinkers. Examining the revolutionary sentiments and ideas of such figures as Jalal Al-e Ahmad, Ali Shariati, Morteza Motahhari, Sayyid Abolhasan Bani-Sadr, and finally the Ayatollah Khomeini, the work also analyzes the larger historical and theoretical implications of any construction of the Islamic Ideology. Carefully located in the social and intellectual context of the four decades preceding the 1979 revolution, *Theology of Discontent* is the definitive treatment of the ideological foundations of the Islamic Revolution, with particular attention to the larger, more enduring ramifications of this revolution for radical Islamic revivalism in the entire Muslim world. This volume will be of interest to Islamicists, Middle East historians and specialists, as well as scholars and students of liberation theologies, comparative religious revolutions, and mass collective behavior. Bruce Lawrence of Duke University calls this volume a superb and unprecedented study.... In brilliant figural strokes, he arrays EuroAmerican sociological theory as the crucial backdrop of a deeper understanding of contemporary Iranian history.

Iran, Harsh Arm of Islam George H. Hassan. 2005 Iran: Harsh Arm of Islam sets out to bulldoze what it considers the most far-reaching and distractive of all travesty created by men. It is not my intention to trash Islam (but to) demonstrate that Shiite belief is irrational to nauseating heights. If world Shiite wishes to continue believing in deceptive teachings of Iran's Shiite ayatollahs after reading this book, that is their privilege, however, they will find it difficult to convince their children that the Shiite Islam is a religion to follow. Iran: Harsh Arm of Islam offers an unvarnished portrait of the Shiite religion, the past Shiite imams, including Imam Khomeini, and the struggle of Iranians fighting a conspiracy in the name of religion. Iran: Harsh Arm of Islam is not just another hysterical anti-Islam polemic but a forensic peep into the guts of Islam written by an intelligent, angry and compelling Muslim critics intimately involve with current events. This lively and compelling book is a product of nearly a decade of research and reflection on the relation and the polarization between secular minded Iranians and the Arab Iranian clergy. It shows the lack of patriotism toward Iran and the Islamic institution's loyalty to the sands of Arabia.. The book's balance critique and recommendations are credible and deserve serious considerations. Among much suggestion for change is for Iranians to shun the Arab ethos, The Arab Islam, and the Arab Allah. The seven-century Arab Allah that Arabs brought into Persia was created in their own image, helplessly incompetent and supremely ignorant. The ayatollah's of antiquity attributed superlative, culture-specific, human words to their Allah. Their Allah is accorded the epithets of allinfinite, all compassion, all merciful, all powerful, all knowing, and all seeing. As some Iranians would say, they put watermelons under Allah's armpit to puff up his chest. It was also a smart way to promote the class and status of mullahs in the Iranian society. In assigning all power to Allah and to themselves the prerogative to carry out that power, they have obtained a free hand. Iranians should do away with the morbid Arab months in the Arabic calendar, especially the months of Moharram and Safar. At the same time, they should throw out the Arab Allah and embrace their own God. The Persian God of pre-Arab Islam who championed love, Compassion, wisdom, and tolerance for all people and all religions. By doing away with Arab Allah, Shiite clergies can no longer bequeath each other honorific titles by adding the word Allah to nouns to give definite and specific connotation to Arab Allah such as Ayat-Allah (Allah's miraculous sign), Ruh-Allah (Allah's spirit), Hojat-Allah (Allah's proof), to exert their influence over Iranians. Iranians will be able to study and choose any religion without fearing the firing squads. Also, Iranians should convert thousands of useless mosques that are centers for prevention of knowledge with much needed libraries, computer, Art, social activities, and learning centers. Perhaps in the past, the world has not been conscious of one of the most dangerous place, the triangle of Terror (Qom, 'Iran, Karbala, Najaf, 'Iraq', its complicity, its perverse brand of theology, its zealous opposition to western democracy, or at best, saw it as a rather more distance peril, but from this day on, the

world must be on alert and worry.

Contemporary Women's Post-Apocalyptic Fiction Susan Watkins.2020-02-29 This book examines how contemporary women novelists have successfully transformed and rewritten the conventions of post-apocalyptic fiction. Since the dawn of the new millennium, there has been an outpouring of writing that depicts the end of the world as we know it, and women writers are no exception to this trend. However, the book argues that their fiction is distinctive. Contemporary women's work in this genre avoids conservatism, a nostalgic mourning for the past, and the focus on restoring what has been lost, aspects key to much male authored apocalyptic fiction. Instead, contemporary women writers show readers the ways in which patriarchy and neo-colonialism are intrinsically implicated in the disasters they envision, and offer qualified hope for a new beginning for society, culture and literature after an imagined apocalyptic event. Exploring science, nature and matter, the posthuman body, the maternal imaginary, time, narrative and history, literature and the word, and the post-secular, the book covers a wide variety of writers and addresses issues of nationality, race and ethnicity, as well as gender and sexuality.

The History of Shi'ism and Iranian Shi'ism Sophie Duhnkrack.2010-01-22 Essay from the year 2009 in the subject Politics - International Politics - Region: Near East, Near Orient, grade: 85, Ben Gurion University, course: Iran , language: English, abstract: Ervand Abrahamian introduces his work Khomeinism: Essays on the Islamic Republic with a discussion of two terms interesting for an analysis of the Islamic Revolution, particularly considering Western images of Khomeini and his movement: fundamentalism and populism. These ideologically loaded concepts depict the book's central thesis, namely that fundamentalism is not an appropriate term for describing Khomeini, his ideas and movement. According to Abrahamian, it alludes "religious inflexibility, ... political traditionalism, ... social conservatism, the centrality of scriptural-doctrinal principles, [and] ... the rejection of the modern world." He instead presents populism as a more apposite term, which "connotes attempts made by nation-states to enter that world." The scholars Daniele Albertazzi and Duncam McDonnell define 'populism' in a widely accepted definition as an ideology which pits a virtuous and homogeneous people against a set of elites and dangerous 'others' who are together depicted as depriving (or attempting to deprive) the sovereign

people of their rights, values, prosperity, identity and voice. Essentially approving of Abrahamian's cited thesis, this essay attempts to illustrate that the Islamic Revolution, led by Ayatollah Khomeini, does not represent a movement driven by "religious fundamentalism" or "fanaticism," but the Iranian way of emancipation from domestic and foreign oppression and domination, materialized by the Shah and the West. This thesis will be developed through exploring the Shi'ite history and especially its appearance in Iran. Furthermore it will continually explore the religion's revolutionary and supposedly fanatical characteristics and its contribution to the 1979 revolution, which, as its leader Khomeini, Western mainstream media often denounce as fundamentalist and radical.

Islam Without Allah? Colin Turner.2013-07-04 This ground-breaking and controversial work locates the antecedents of today's Islamic 'fundamentalism' in 16th and 17th century Iran and the forced conversion of the Sunnite population of Iran to the largely alien doctrines of Twelver Shi'ism; the concomitant extirpation of Sufism and philosophy; and the gradual rise of the 'faqih' or jurist.

An Analysis of Hamid Dabashi's Theology of Discontent Magdalena C. Delgado,Bryan Gibson.2017-07-05 Hamid Dabashi's 1997 work *Theology of Discontent* reveals a creative thinker capable not only of understanding how an argument is built, but also of redefining old issues in new ways. The Iranian Revolution of 1978-9 was front-page news in the West, and in some ways remains so today. Though it was an uprising against authoritarian royal rule, with a coalition of modernisers and Islamists, the revolution saw the birth of a new Islamic Republic that seemed to reject pro-Western democracy. Dabashi wanted to analyze the real reasons for this change, while examining how Islamic ideologies contributed to the revolution and the republic that followed. *Theology of Discontent* examines different Islamic thinkers, analyzing how views with seemingly little in common contributed to the modern Iranian belief system. Beyond its insightful analytical dissection of these eight thinkers, *Theology of Discontent* also shows Dabashi's creative thinking skills. Reframing the debates about Iran's relationship with the West, he traced the ways in which Iranian identity formed in reactive opposition to Western ideas. In many ways, Dabashi suggested, Iran was trapped in a cycle of deliberately asserting its difference from the West, a process that was fundamental to the development of its own unique brand of revolutionary Islamism.
