

Brain On Fire My Month Of Madness English Edition

Brain on Fire Susannah Cahalan.2012 'My first serious blackout marked the line between sanity and insanity. Though I would have moments of lucidity over the coming days and weeks, I would never again be the same person . . . ' Susannah Cahalan was a happy, clever, healthy twenty-four-year old. Then one day she woke up in hospital, with no memory of how she had got there. Within weeks, she would be transformed into someone unrecognizable, descending into a state of acute psychosis. This is Susannah's story of her terrifying descent into madness and the desperate hunt for a diagnosis, as, after dozens of tests and scans, baffled doctors concluded she should be confined in a psychiatric ward. It is also the story of how one brilliant man, Syria-born Dr Najjar, finally proved - using a simple pen and paper - that Susannah's psychotic behaviour was caused by a rare autoimmune disease attacking her brain. Cahalan takes readers inside this newly-discovered disease through the progress of her own harrowing journey, asking what happens when your identity is suddenly destroyed, and how you get it back. 'With eagle-eye precision and brutal honesty, Susannah Cahalan turns her journalistic gaze on herself as she bravely looks back on one of the most harrowing and unimaginable experience one could ever face: the loss of minds, body and self . . . a mesmerizing story.' Mira Bartók, New York Times bestselling author of *The Memory Palace*

The Great Pretender Susannah Cahalan.2020-01-02 'Destined to become a popular and important book' Jon Ronson 'Fascinating' Sunday Times In the early 1970s, Stanford professor Dr Rosenhan conducted an experiment, sending sane patients into psychiatric

wards; the result of which was a damning paper about psychiatric practises. The ripple effects of this paper helped bring the field of psychiatry to its knees, closing down institutions and changing mental health diagnosis forever. But what if that ground-breaking and now-famous experiment was itself deeply flawed? And what does that mean for our understanding of mental illness today? These are the questions Susannah Cahalan asks in her completely engrossing investigation into this staggering case, where nothing is quite as it seems.

Brain on Fire Susannah Cahalan.2012-11-13 NOW A MAJOR MOTION PICTURE STARRING CHLOË GRACE MORETZ A “captivating” (The New York Times Book Review), award-winning memoir and instant New York Times bestseller that goes far beyond its riveting medical mystery, *Brain on Fire* is a powerful account of one woman’s struggle to recapture her identity. When twenty-four-year-old Susannah Cahalan woke up alone in a hospital room, strapped to her bed and unable to move or speak, she had no memory of how she’d gotten there. Days earlier, she had been on the threshold of a new, adult life: at the beginning of her first serious relationship and a promising career at a major New York newspaper. Now she was labeled as violent, psychotic, a flight risk. What happened? In an “unforgettable” (Elle), “stunningly brave” (NPR), and breathtaking narrative, Susannah tells the astonishing true story of her descent into madness, her family’s inspiring faith in her, and the lifesaving diagnosis that almost didn’t happen. “A fascinating look at the disease that...could have cost this vibrant, vital young woman her life” (People), *Brain on Fire* is an unforgettable exploration of memory and identity, faith and love, and a profoundly compelling tale of survival and perseverance.

Beyond Foundations Thomas J. Grites,Marsha A. Miller,Julie Givans Voler.2016-09-19 Sharpen advising expertise by exploring critical issues affecting the field *Beyond Foundations*, a core resource for experienced academic advisors, gives practitioners

insight into important issues affecting academic advising. In addition to gaining understanding of foundational concepts and pressing concerns, master advisors engage with case studies to clarify their roles as educators of students, as thought leaders in institutions, and as advocates for the profession. Pillar documents—the NACADA Core Values, NACADA Concept of Academic Advising, and CAS Standards—serve as sources of both information and inspiration for those seeking to improve advising. New strategies inform advisors helping a diverse student population delineate meaningful educational goals. Each chapter prompts productive discussions with fellow advisors interested in cultivating advising excellence. To promote advisor influence in higher education, experienced contributors explain new trends—including the impact of external forces and legal issues on postsecondary institutions—and the evolution of advising as a profession and a field of inquiry. Expert insight and practical focus contribute to the development of experienced advisors. Use existing resources in new ways to master advising roles and encourage student success Apply theory to advance advising practice Create and optimize professional development opportunities Establish recognition for the contributions of academic advisors to the institution and higher education Face challenges created by the changing higher education landscape Advisors must meet the expectations of students, parents, faculty members, administrators, and outside agencies, all while navigating an increasingly complex range of issues presented by a student population unlike any that has come before. Beyond Foundations provides the insight and clarity advisors need to help students achieve their educational goals and to advance the field. *Apprentices of Wonder* William F. Allman.1990-08-01 If you want to understand the latest scientific thinking about the relations between mind and brain, meet Allman's Apprentices of Wonder.—Howard Gardner, author of *The Mind's New Science: A History of Cognitive Revolution* In the vein of *The Soul of a New*

Machine comes this accessible book on the scientists who are creating startling theories of how the mind works as they forge a kind of artificial intelligence called neural networks—or, the first thinking machines. This snappy introduction to the possibilities of the new sciences of connectionism will inform readers why many brain scientists are excited—and why the skeptics remain to be persuaded.—Pamela McCorduck, coauthor, with Mitchell Feigenbaum, of *The Fifth Generation* and author of *Machines Who Think* and *The Universal Machine*

Blood Orange Night Melissa Bond. 2022-06-14 *Brain on Fire* meets *High Achiever* in this “page-turner memoir chronicling a woman’s accidental descent into prescription benzodiazepine dependence—and the life-threatening impacts of long-term use—that chills to the bone” (Nylon). As Melissa Bond raises her infant daughter and a special-needs one-year-old son, she suffers from unbearable insomnia, sleeping an hour or less each night. She loses her job as a journalist (a casualty of the 2008 recession), and her relationship with her husband grows distant. Her doctor casually prescribes benzodiazepines—a family of drugs that includes Xanax, Valium, Klonopin, Ativan—and increases her dosage regularly. Following her doctor’s orders, Melissa takes the pills night after night until her body begins to shut down. Only when she collapses while holding her daughter does Melissa learn that her doctor—like so many others—has over-prescribed the medication and quitting cold turkey could lead to psychosis or fatal seizures. Benzodiazepine addiction is not well studied, and few experts know how to help Melissa as she begins the months-long process of tapering off the pills without suffering debilitating, potentially deadly consequences. Each page thrums with the heartbeat of Melissa’s struggle—how many hours has she slept? How many weeks old are her babies? How many milligrams has she taken? Her propulsive writing crescendos to a fever pitch as she fights for her health and her ability to care for her children. “Propulsive, poetic” (Shelf

Awareness), and immersive, this “vivid chronicle of suffering” (Kirkus Reviews) and redemption shines a light on the prescription benzodiazepine epidemic as it reaches a crisis point in this country.

The Memory Palace Mira Bartok.2011-08-09 A gorgeous memoir about the 17 year estrangement of the author and her homeless schizophrenic mother, and their reunion.

Wave Sonali Deraniyagala.2013-03-05 A brave, intimate, beautifully crafted memoir by a survivor of the tsunami that struck the Sri Lankan coast in 2004 and took her entire family. On December 26, Boxing Day, Sonali Deraniyagala, her English husband, her parents, her two young sons, and a close friend were ending Christmas vacation at the seaside resort of Yala on the south coast of Sri Lanka when a wave suddenly overtook them. She was only to learn later that this was a tsunami that devastated coastlines through Southeast Asia. When the water began to encroach closer to their hotel, they began to run, but in an instant, water engulfed them, Sonali was separated from her family, and all was lost. Sonali Deraniyagala has written an extraordinarily honest, utterly engrossing account of the surreal tragedy of a devastating event that all at once ended her life as she knew it and her journey since in search of understanding and redemption. It is also a remarkable portrait of a young family's life and what came before, with all the small moments and larger dreams that suddenly and irrevocably ended.

On Doctoring John Stone,Richard Reynolds.2010-08-05 Few subjects hold more universal appeal than that of medicine, and surely few books have evoked medicine's drama and magic more powerfully than On Doctoring. In its many forms, from age-old ritual to the cutting edge of modern science, medicine concerns us all. It is a human profession, practiced by people who have dedicated their lives not only to science but also to humanity. In the words of the great physician-writer Sir William Osler, The physician needs a clear head and a kind heart; his work is

arduous and complex, requiring the exercise of the very highest faculties of the mind, while constantly appealing to the emotions and higher feelings. It is the humanity in medicine that has inspired the pens of countless writers, and that has now been captured in this remarkable anthology of medical literature. This newly expanded edition of *On Doctoring* is an extraordinary collection of stories, poems, and essays written by physicians and non-physicians alike -- works that eloquently record what it is like to be sick, to be cured, to lose, or to triumph. Drawing on the full spectrum of human emotions, the editors have included selections from such important and diverse writers as Anton Chekhov, W. H. Auden, William Carlos Williams, John Keats, John Donne, Robert Coles, Pablo Neruda, Ernest Hemingway, Raymond Carver, Alice Walker, Kurt Vonnegut, and Abraham Verghese. Among the new authors included in this edition are Rainer Maria Rilke, Lisel Mueller, and May Sarton. In this era of managed healthcare, when medicine is becoming more institutionalized and impersonal, this book recaptures the breadth and the wonder of the medical profession. Presenting the issues, concerns, and challenges facing doctors and patients alike, *On Doctoring* is at once illuminating and provocative, a compelling record of the human spirit.

The Trouble With Testosterone Robert M.

Sapolsky.2012-10-16 Finalist for the Los Angeles Times Book Prize From the man who Oliver Sacks hailed as “one of the best scientist/writers of our time,” a collection of sharply observed, uproariously funny essays on the biology of human culture and behavior. In the tradition of Stephen Jay Gould and Oliver Sacks, Robert Sapolsky offers a sparkling and erudite collection of essays about science, the world, and our relation to both. “The Trouble with Testosterone” explores the influence of that notorious hormone on male aggression. “Curious George’s Pharmacy” reexamines recent exciting claims that wild primates know how to medicate themselves with forest plants. “Junk Food

Monkeys” relates the adventures of a troop of baboons who stumble upon a tourist garbage dump. And “Circling the Blanket for God” examines the neurobiological roots underlying religious belief. Drawing on his career as an evolutionary biologist and neurobiologist, Robert Sapolsky writes about the natural world vividly and insightfully. With candor, humor, and rich observations, these essays marry cutting-edge science with humanity, illuminating the interconnectedness of the world’s inhabitants with skill and flair.

Z: A Novel of Zelda Fitzgerald Therese Anne

Fowler.2013-03-26 THE INSPIRATION FOR THE TELEVISION

DRAMA Z: THE BEGINNING OF EVERYTHING With brilliant

insight and imagination, Therese Anne Fowler's New York Times

bestseller Z brings us Zelda's irresistible story as she herself

might have told it. I wish I could tell everyone who thinks we're

ruined, Look closer...and you'll see something extraordinary,

mystifying, something real and true. We have never been what we

seemed. When beautiful, reckless Southern belle Zelda Sayre

meets F. Scott Fitzgerald at a country club dance in 1918, she is

seventeen years old and he is a young army lieutenant stationed

in Alabama. Before long, the ungettable Zelda has fallen for him

despite his unsuitability: Scott isn't wealthy or prominent or even

a Southerner, and keeps insisting, absurdly, that his writing will

bring him both fortune and fame. Her father is deeply

unimpressed. But after Scott sells his first novel, This Side of

Paradise, to Scribner's, Zelda optimistically boards a train north,

to marry him in the vestry of St. Patrick's Cathedral and take the

rest as it comes. What comes, here at the dawn of the Jazz Age, is

unimagined attention and success and celebrity that will make

Scott and Zelda legends in their own time. Everyone wants to

meet the dashing young author of the scandalous novel—and his

witty, perhaps even more scandalous wife. Zelda bobs her hair,

adopts daring new fashions, and revels in this wild new world.

Each place they go becomes a playground: New York City, Long

Island, Hollywood, Paris, and the French Riviera—where they join the endless party of the glamorous, sometimes doomed Lost Generation that includes Ernest Hemingway, Sara and Gerald Murphy, and Gertrude Stein. Everything seems new and possible. Troubles, at first, seem to fade like morning mist. But not even Jay Gatsby's parties go on forever. Who is Zelda, other than the wife of a famous—sometimes infamous—husband? How can she forge her own identity while fighting her demons and Scott's, too?

A Series of Catastrophes and Miracles Mary Elizabeth Williams. 2016 A wry, witty account of what it is like to face death—and be restored to life. After being diagnosed in her early 40s with metastatic melanoma—a rapidly fatal form of cancer—journalist and mother of two Mary Elizabeth Williams finds herself in a race against the clock. She takes a once-in-a-lifetime chance and joins a clinical trial for immunotherapy, a revolutionary drug regimen that trains the body to vanquish malignant cells. Astonishingly, her cancer disappears entirely in just a few weeks. But at the same time, her best friend embarks on a cancer journey of her own—with very different results. Williams's experiences as a patient and a medical test subject reveal with stark honesty what it takes to weather disease, the extraordinary new developments that are rewriting the rules of science—and the healing power of human connection.

The Unfit Heiress Audrey Clare Farley. 2021-04-20 NAMED A BEST BOOK OF 2021 BY THE NEW YORK POST AND BOOK RIOT NAMED A BEST TRUE CRIME BOOK OF 2021 BY CRIMEREADS For readers of *The Immortal Life of Henrietta Lacks* and *The Phantom of Fifth Avenue*, a sensational story told with nuance and humanity (Susannah Cahalan, #1 New York Times bestselling author) about the sordid court battle between Ann Cooper Hewitt and her socialite mother. At the turn of the twentieth century, emboldened American women began to seek passion and livelihood outside the home. This alarmed authorities, who feared over-sexed women could destroy civilization, either by crossing

the color line or passing their evident defects on to their children. Set against this backdrop, *The Unfit Heiress* chronicles the fight for inheritance between Ann Cooper Hewitt and her socialite mother Maryon, who had her daughter sterilized without her knowledge. A sensational court case ensued, and powerful eugenicists saw an opportunity to restrict reproductive rights in America for decades to come. This riveting story unfolds through the brilliant research of Audrey Clare Farley, who captures the interior lives of these women on the pages and poses questions that remain relevant today: What does it mean to be unfit for motherhood? How do racial anxieties continue to influence who does and does not reproduce? In the battle for reproductive rights, can we forgive those who side against us? And can we forgive our mothers if they are the ones who inflict the deepest wounds?

Reaching Down the Rabbit Hole Dr. Allan H. Ropper, Brian David Burrell. 2014-09-30 A top neurologist explains the difficulty of diagnosing brain diseases through such cases as a college quarterback who keeps calling the same play and a salesman who continuously drives around a traffic circle.

The End of Illness David B. Agus, Kristin Loberg. 2012-01-17 Challenges popular conceptions to outline new methods for promoting wellness and longevity, arguing that traditional medicine has not been successful in treating serious illness while urging readers to embrace a systemic understanding of the body that incorporates the use of revolutionary technologies.

Tell Me Everything You Don't Remember Christine Hyung-Oak Lee. 2017-02-14 "A brave, encouraging, genuine work of healing discovery that shows us the ordinary, daily effort it takes to make a shattered self cohere." — Floyd Skloot, author of *In the Shadow of Memory* "The stuff of poetry and of nightmares... [Lee] investigates her broken brain with the help of a journal, beautifully capturing the helplessness, frustration, and comic absurdity (yes, a book about a stroke can be funny!) of navigating

life after your world has been torn apart.” — Susannah Cahalan, author of *Brain on Fire* “Lee excavates her life with the care of an archeologist in this stunning memoir...Her account is lyrical, honest, darkly comic, surprising, and transcendent in the way it redefines the importance of family history, memory, and what of it we choose to hold with us. A beautiful book.” — Christa Parravani, author of *Her: A Memoir* “A searing memoir buoyed by hope.” — People “This honest and meditative memoir is the story about how Hyung-Oak Lee rebuilt her life, quite literally one step at a time, and how she discovered the person she had always wanted to become.” — Refinery29.com “Honest and insightful” — New York Times Book Review “Emotionally explicit and intensely circumspect... . With careful thought and new understanding, the author explores the enduring mind-body connection with herself at the nexus of it all. A fascinating exploration of personal identity from a writer whose body is, thankfully, ‘no longer at war.’” — Kirkus Reviews “Fearless... [Lee’s] engaging memoir...makes a difficult topic accessible and relatable. Lee expertly explains how the brain works and how even a damaged brain can adapt. Her narrative is both scientific and emotional, revealing the wonders of biology and the power of the human spirit.” — Booklist

In Shock Rana Awdish. 2017-10-24 A riveting first-hand account of a physician who's suddenly a dying patient, *In Shock* searches for a glimmer of hope in life's darkest moments, and finds it.” —The Washington Post Dr. Rana Awdish never imagined that an emergency trip to the hospital would result in hemorrhaging nearly all of her blood volume and losing her unborn first child. But after her first visit, Dr. Awdish spent months fighting for her life, enduring consecutive major surgeries and experiencing multiple overlapping organ failures. At each step of the recovery process, Awdish was faced with something even more unexpected: repeated cavalier behavior from her fellow physicians—indifference following human loss, disregard for anguish and suffering, and an exacting emotional distance.

Hauntingly perceptive and beautifully written, *In Shock* allows the reader to transform alongside Awdish and watch what she discovers in our carefully-cultivated, yet often misguided, standard of care. Awdish comes to understand the fatal flaws in her profession and in her own past actions as a physician while achieving, through unflinching presence, a crystalline vision of a new and better possibility for us all. As Dr. Awdish finds herself up against the same self-protective partitions she was trained to construct as a medical student and physician, she artfully illuminates the dysfunction of disconnection. Shatteringly personal, and yet wholly universal, she offers a brave road map for anyone navigating illness while presenting physicians with a new paradigm and rationale for embracing the emotional bond between doctor and patient.

The Great Pretender Susannah Cahalan. 2019-11-05 One of America's most courageous young journalists and the author of the #1 New York Times bestselling memoir *Brain on Fire* investigates the shocking mystery behind the dramatic experiment that revolutionized modern medicine (NPR). Doctors have struggled for centuries to define insanity--how do you diagnose it, how do you treat it, how do you even know what it is? In search of an answer, in the 1970s a Stanford psychologist named David Rosenhan and seven other people--sane, healthy, well-adjusted members of society--went undercover into asylums around America to test the legitimacy of psychiatry's labels. Forced to remain inside until they'd proven themselves sane, all eight emerged with alarming diagnoses and even more troubling stories of their treatment. Rosenhan's watershed study broke open the field of psychiatry, closing down institutions and changing mental health diagnosis forever. But, as Cahalan's explosive new research shows in this real-life detective story, very little in this saga is exactly as it seems. What really happened behind those closed asylum doors?

The Neuroscientist Who Lost Her Mind Barbara K.

Lipska, Elaine McArdle. 2018-04-03 In the tradition of *My Stroke of Insight* and *Brain on Fire*, this powerful memoir recounts Barbara Lipska's deadly brain cancer and explains its unforgettable lessons about the brain and mind. Neuroscientist Lipska was diagnosed early in 2015 with metastatic melanoma in her brain's frontal lobe. As the cancer progressed and was treated, she experienced behavioral and cognitive symptoms connected to a range of mental disorders, including dementia and her professional specialty, schizophrenia. Lipska's family and associates were alarmed by the changes in her behavior, which she failed to acknowledge herself. Gradually, after a course of immunotherapy, Lipska returned to normal functioning, amazingly recalled her experience, and through her knowledge of neuroscience identified the ways in which her brain changed during treatment. Lipska admits her condition was unusual; after recovery she was able to return to her research and resume her athletic training and compete in a triathlon. Most patients with similar brain cancers rarely survive to describe their ordeal. Lipska's memoir, coauthored with journalist Elaine McArdle, shows that strength and courage but also an encouraging support network are vital to recovery.

Fear and Loathing in Las Vegas (Harper Perennial Modern Classics) Hunter S. Thompson. 2014-10-16 'We were somewhere around Barstow on the edge of the desert when the drugs began to take hold. I remember saying something like, "I feel a bit lightheaded; maybe you should drive ..."'

English Passengers Matthew Kneale. 2011-02-11 Narrated by over twenty distinct voices and full of dangerous humour, *English Passengers* combines wit, adventure and historical detail in a mesmerizing display of storytelling. When Captain Iliam Quillian Kewley and his band of smugglers have their contraband confiscated they are forced to put their ship, *Sincerity*, up for charter. The only takers are two Englishmen, the Reverend Geoffrey Wilson, who believes that the Garden of Eden was on the

island of Tasmania, and Dr. Thomas Potter who is developing his sinister thesis concerning the races of man. Meanwhile an aboriginal in Tasmania, Peevay, recounts his people's struggles against the invading British. As the English passengers haplessly approach his land, their bizarre notions ever more painfully at odds with reality, we know a mighty collision is looming.

Brain on Fire: My Month of Madness by Susannah Cahalan:

Conversation Starters New York Post journalist Susannah Cahalan started to obsess about bedbugs and felt paranoid about being bitten by them. Finding herself alone in her boyfriend's apartment, she starts looking into her boyfriend's emails, love letters, and photos of his ex-girlfriends. She is aware that it is strange of her to do this and that she does not like the idea but does it just the same. The weird behavior progressed into something physical as she started having body aches and seizures that eventually landed her in the hospital. She tells her story of how she was diagnosed with a rare disease that mentally and physically ravaged her. What is this mystifying illness? Why can't her doctors properly diagnose her? Brain on Fire: My Month of Madness is a New York Times bestseller. The book has been made into film, produced by Charlize Theron and starred in by Chloe Grace Moretz. The Center Cannot Hold Elyn R. Saks.2007-08-14 A much-praised memoir of living and surviving mental illness as well as a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy (Time). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia for most of her life, and still has ongoing major episodes of the illness. The Center Cannot Hold is the eloquent, moving story of Elyn's life, from the first time that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.

Life After Encephalitis Ava Easton.2016-02-26 Encephalitis is a devastating condition whose impact upon people should not be underestimated. It robs people of abilities most of us take for granted, it leaves people without their loved ones, and even in those families where the person affected survives the person they once knew can be dramatically changed. Life After Encephalitis provides a unique insight into the experiences of those affected by encephalitis, sharing the rich, insightful, and often powerful, narratives of survivors and family members. It shows how listening to patient and family narratives can help us to understand how they make sense of what has happened to them, and also help professionals better understand and engage with them in practice. The book will also be useful for considering narratives associated with brain injuries from other causes, for example traumatic brain injury. Life After Encephalitis will appeal to a wide range of professionals working in rehabilitation settings, and also to and survivors of encephalitis, their families, and carers.

Girl, Interrupted Susanna Kaysen.2013-06-19 30th ANNIVERSARY EDITION • NATIONAL BESTSELLER • In 1967, after a session with a psychiatrist she'd never seen before, eighteen-year-old Susanna Kaysen was put in a taxi and sent to McLean Hospital. Her memoir of the next two years is a poignant, honest ... triumphantly funny ... and heartbreaking story (The New York Times Book Review). WITH A NEW INTRODUCTION BY THE AUTHOR The ward for teenage girls in the McLean psychiatric hospital was as renowned for its famous clientele—Sylvia Plath, Robert Lowell, James Taylor, and Ray Charles—as for its progressive methods of treating those who could afford its sanctuary. Kaysen's memoir encompasses horror and razor-edged perception while providing vivid portraits of her fellow patients and their keepers. It is a brilliant evocation of a parallel universe set within the kaleidoscopically shifting landscape of the late sixties. Girl, Interrupted is a clear-sighted,

unflinching document that gives lasting and specific dimension to our definitions of sane and insane, mental illness and recovery. Basketball Junkie Chris Herren, Bill Reynolds. 2011-05-10 I was dead for thirty seconds. That's what the cop in Fall River told me. When the EMTs found me, there was a needle in my arm and a packet of heroin in the front seat. At basketball-crazy Durfee High School in Fall River, Massachusetts, junior guard Chris Herren carried his family's and the city's dreams on his skinny frame. His grandfather, father, and older brother had created their own sports legends in a declining city; he was the last, best hope for a career beyond the shuttered mills and factories. Herren was heavily recruited by major universities, chosen as a McDonald's All-American, featured in a *Sports Illustrated* cover story, and at just seventeen years old became the central figure in *Fall River Dreams*, an acclaimed book about the 1994 Durfee team's quest for the state championship. Leaving Fall River for college, Herren starred on Jerry Tarkanian's Fresno State Bulldogs team of talented misfits, which included future NBA players as well as future convicted felons. His gritty, tattooed, hip-hop persona drew the ire of rival fans and more national attention: *Rolling Stone* profiled him, *60 Minutes* interviewed him, and the Denver Nuggets drafted him. When the Boston Celtics acquired his contract, he lived the dream of every Massachusetts kid—but off the court Herren was secretly crumbling, as his alcohol and drug use escalated and his life spiraled out of control. Twenty years

later, Chris Herren was married to his high-school sweetheart, the father of three young children, and a heroin junkie. His basketball career was over, consumed by addictions; he had no job, no skills, and was a sadly familiar figure to those in Fall River who remembered him as a boy, now prowling the streets he once ruled, looking for a fix. One day, for a time he cannot remember, he would die. In his own words, Chris Herren tells how he nearly lost everything and everyone he loved, and how he found a way back to life. Powerful, honest, and dramatic, *Basketball Junkie* is a remarkable memoir, harrowing in its descent, and heartening in its return.

Desperate Remedies Andrew Scull. 2022-05-17 A Telegraph Book of the Year A Washington Post Notable Work A Times Book of the Year A Hughes Award Finalist “An indisputable masterpiece...comprehensive, fascinating, and persuasive.” —Wall Street Journal “Compulsively readable...Scull has joined his wide-ranging reporting and research with a humane perspective on matters that many of us continue to look away from.” —Daphne Merkin, *The Atlantic* “I would recommend this fascinating, alarming, and alerting book to anybody. For anyone referred to a psychiatrist it is surely essential.” —*The Spectator* “Meticulously researched and beautifully written, and even funny at times.” —*The Guardian* “Brimming with wisdom and brio, this masterful work spans the history of psychiatry. Exceedingly well-researched, wide-ranging, provocative in its conclusions, and magically compact, it is riveting from start to finish. Mark my words, *Desperate Remedies* will soon be a classic.” —Susannah Cahalan, author of *Brain on Fire* From the birth of the asylum to the latest drug trials, *Desperate Remedies* brings together a galaxy of mind doctors working in and out of institutional settings: psychologists and psychoanalysts, neuroscientists and cognitive behavioral therapists, as well as patients and their families desperate for relief. One of the most provocative thinkers writing about psychiatry today, Andrew Scull carefully

reconstructs the rise and fall of state-run mental hospitals to explain why so many of the mentally ill are now on the street, and why victims of experimental therapies were so often women. He reveals how drug companies expanded their reach to treat a growing catalog of ills, while deliberately concealing the side effects of drugs now routinely prescribed from childhood through senescence. Carefully researched and compulsively readable, this passionate and compassionate account of America's long battle with mental illness challenges us to rethink our deepest assumptions about how we think and feel.

Brain on Fire Susannah Cahalan.2012-11-13 The story of twenty-four-year-old Susannah Cahalan and the life-saving discovery of the autoimmune disorder that nearly killed her -- and that could perhaps be the root of demonic possessions throughout history.

Touched With Fire Kay Redfield Jamison.1996-10-18 The definitive work on the profound and surprising links between manic-depression and creativity, from the bestselling psychologist of bipolar disorders who wrote *An Unquiet Mind*. One of the foremost psychologists in America, "Kay Jamison is plainly among the few who have a profound understanding of the relationship that exists between art and madness" (William Styron). The anguished and volatile intensity associated with the artistic temperament was once thought to be a symptom of genius or eccentricity peculiar to artists, writers, and musicians. Her work, based on her study as a clinical psychologist and researcher in mood disorders, reveals that many artists subject to exalted highs and despairing lows were in fact engaged in a struggle with clinically identifiable manic-depressive illness. Jamison presents proof of the biological foundations of this disease and applies what is known about the illness to the lives and works of some of the world's greatest artists including Lord Byron, Vincent Van Gogh, and Virginia Woolf.

The Quiet Room Lori Schiller,Amanda Bennett.2008-11-16 Moving, harrowing, and ultimately uplifting, Lori Schiller's

memoir is a classic testimony to the ravages of mental illness and the power of perseverance and courage. At seventeen Lori Schiller was the perfect child—the only daughter of an affluent, close-knit family. Six years later she made her first suicide attempt, then wandered the streets of New York City dressed in ragged clothes, tormenting voices crying out in her mind. Lori Schiller had entered the horrifying world of full-blown schizophrenia. She began an ordeal of hospitalizations, halfway houses, relapses, more suicide attempts, and constant, withering despair. But against all odds, she survived. In this personal account, she tells how she did it, taking us not only into her own shattered world, but drawing on the words of the doctors who treated her and family members who suffered with her.

You Can't Catch Me Catherine McKenzie. 2020-08-18 A riveting new novel of suspense about a disgraced young journalist caught up in a grifter's game, and the trail of identically named victims she uncovers, from the instant bestselling author of *I'll Never Tell* and *The Good Liar*. Assumed identities. A con game. Unwitting victims. After being fired from her investigative journalism job for plagiarism, Jessica Williams is looking for a break from the constant press coverage. She decides to escape for a week to a resort in Mexico boasting no connections to the outside world. While waiting at the airport for her flight, she encounters a woman with the exact same name, who she dubs Jessica Two. Drawn together by the coincidence, they play a game of twenty questions to see what other similarities they share, and exchange contact information. A week later, Jessica returns home and discover that large cash withdrawals have been made from her bank account. Security footage from the bank confirms her suspicions—Jessica Two has stolen her money. She goes to the police, only to be told that the crime is a low priority. Frustrated, she meets up with a trusted old friend, Liam, who is an investigator. When the two Google “Jessica Williams,” they get thousands of hits—Jessica was the most popular girl's name in

1990 and Williams is almost as ubiquitous as Smith. Convinced that this isn't the first time this scam has been run, Jessica is determined to catch the imposter, and writes a Facebook post hoping to chase down some of Jessica Two's other victims. When she gets a number of responses, she sets a plan in motion to catch the thief, encountering a string of identically named victims along the way. Then, the threatening messages start arriving. Filled with incredible twists and turns, *You Can't Catch Me* is a tantalizing, character-driven exploration of how far people will go to get revenge.

Brain On Fire: My Month of Madness Susannah

Cahalan.2012-11-13 'My first serious blackout marked the line between sanity and insanity. Though I would have moments of lucidity over the coming days and weeks, I would never again be the same person ...' Susannah Cahalan was a happy, clever, healthy twenty-four-year old. Then one day she woke up in hospital, with no memory of what had happened or how she had got there. Within weeks, she would be transformed into someone unrecognizable, descending into a state of acute psychosis, undergoing rages and convulsions, hallucinating that her father had murdered his wife; that she could control time with her mind. Everything she had taken for granted about her life, and who she was, was wiped out. *Brain on Fire* is Susannah's story of her terrifying descent into madness and the desperate hunt for a diagnosis, as, after dozens of tests and scans, baffled doctors concluded she should be confined in a psychiatric ward. It is also the story of how one brilliant man, Syria-born Dr Najjar, finally proved - using a simple pen and paper - that Susannah's psychotic behaviour was caused by a rare autoimmune disease attacking her brain. His diagnosis of this little-known condition, thought to have been the real cause of devil-possession through history, saved her life, and possibly the lives of many others. Cahalan takes readers inside this newly-discovered disease through the progress of her own harrowing journey, piecing it together using

memories, journals, hospital videos and records. Written with passionate honesty and intelligence, *Brain on Fire* is a searingly personal yet universal book, which asks what happens when your identity is suddenly destroyed, and how you get it back. 'With eagle-eye precision and brutal honesty, Susannah Cahalan turns her journalistic gaze on herself as she bravely looks back on one of the most harrowing and unimaginable experiences one could ever face: the loss of mind, body and self. *Brain on Fire* is a mesmerizing story' -Mira Bartók, New York Times bestselling author of *The Memory Palace* Susannah Cahalan is a reporter on the New York Post, and the recipient of the 2010 Silurian Award of Excellence in Journalism for Feature Writing. Her writing has also appeared in the New York Times, and is frequently picked up by the Daily Mail, Gawker, Gothamist, AOL and Yahoo among other news aggregator sites.

Jan's Story Barry Rex Petersen.2010 CBS News correspondent Barry Petersen tells the tender story of his wife's battle with Early Onset Alzheimer's.

When the Air Hits Your Brain: Tales from Neurosurgery

Frank Vertosick.2008-03-17 The story of one man's evolution from naive and ambitious young intern to world-class neurosurgeon. With poignant insight and humor, Frank Vertosick Jr., MD, describes some of the greatest challenges of his career, including a six-week-old infant with a tumor in her brain, a young man struck down in his prime by paraplegia, and a minister with a .22-caliber bullet lodged in his skull. Told through intimate portraits of Vertosick's patients and unsparing yet fascinatingly detailed descriptions of surgical procedures, *When the Air Hits Your Brain*—the culmination of decades spent struggling to learn an unforgiving craft—illuminates both the mysteries of the mind and the realities of the operating room.

Somebody Somewhere Donna Williams.2015-06-17 In the acclaimed sequel to *Nobody Nowhere*--in which Donna Williams gives readers a guided tour of life with autism--Williams explores

the four years since her diagnosis and her attempts to leave her world under glass and live normally. NPR sponsorship.

Now a Major Motion Picture Cory McCarthy.2018-04-03

Fandom and first love collide in in this joyful, feminist contemporary romance from acclaimed author Cory McCarthy—perfect for fans of Rainbow Rowell and Ashley Poston Iris Thorne wants to blaze her own path. That's easier said than done when you're the granddaughter of M. E. Thorne, famous author of the Elementia series, hailed as the feminist response to J. R. R. Tolkien's Lord of the Rings. And with a major motion picture adaptation of her grandmother's books in the works, Iris can say goodbye to her dream of making her own way in the music industry. When Iris and her brother get invited to the film set in Ireland, she's pretty sure the trip will be a nightmare. Except Iris can't deny the rugged beauty of the Irish countryside. And brushing shoulders with the hot, young cast isn't awful, especially the infuriatingly charming lead actor, Eamon O'Brien. Iris even finds the impassioned female director inspiring. But when the filming falls into jeopardy, everything Iris thought she knew about Elementia—and herself—is in question. Will making a film for the big screen help Iris to see the big picture?

Brain on Fire Susannah Cahalan.2013-08-06 An account of the author's struggle with a rare brain-attacking autoimmune disease traces how she woke up in a hospital room with no memory of baffling psychotic symptoms, describing the last-minute intervention by a doctor who identified the source of her illness.
