Managing Sport Facilities Gil Fried. 2015-05-11 *Managing Sport Facilities, Third Edition*, continues the tradition set by its predecessors of providing future and current sport facility managers with the knowledge they need in order to make the proper decisions in all areas of facility management. Like the previous two versions, the third edition provides a comprehensive understanding of crafting a career in running a sport facility. The third edition of *Managing Sport Facilities* engages students with a clear writing style, extensive real-world examples, and information on managing a range of facilities, from smaller health clubs, colleges, and recreational environments to professional sport stadiums. Because managers require current information to meet the needs of new facilities and audiences, this edition has been updated to include the following:

- A new chapter on green facility management
- Updated Sport Facility Management Profiles featuring industry experts introducing applied connections for each chapter
- Expanded Facility Focus sidebars presenting facts and strategies used by real facilities
- An updated instructor ancillary package, now including instructor videos that feature professionals in the field offering advice and insight

In response to its increasing importance over the last decade, the newest chapter in this text focuses on implementing and maintaining green facilities. This chapter details items that should be considered during the construction of new environmentally conscious facilities as well as information on retrofitting and updating older facilities with green technology, such as recycling

initiatives and solar panels. A facility built according to Leadership in Energy and Environmental Design (LEED) standards may lose its certification if not properly maintained over time, so tips for preserving green facilities are also included. In *Managing Sport Facilities, Third Edition*, students will learn the history of the sport facility industry and the primary goals and objectives of facility managers; how to build and finance a facility; facility operation; administration of marketing, finance, and other critical areas; and event administration and management. A comprehensive approach to understanding the wide-ranging job of sport facility managers has been applied, with a structure that builds from general to specific, and finally to practical knowledge in the final chapter. In addition, the text offers updated content in the Sport Facility Management Profiles, Facilities Trivia, Behind the Scenes, and Facility Focus sidebars in each chapter, which bring the theories and concepts to life by citing specific examples of strategies used in making a facility—and the facility manager—more successful. New instructor videos that can be shared during class provide students with a glimpse into the lives of real-world professionals as they provide insight and advice. *Managing Sport Facilities, Third Edition*, contains extensive textbook learning aids, including real-world checklists and forms that allow students a glimpse of some of the tools and guidelines that professionals use in their work. Each chapter begins with objectives and an overview and concludes with a summary and discussion questions and activities. The instructor ancillaries will help instructors prepare for and teach classes, and the text itself has an engaging style that makes the reading cogent and easy to remember. Starting from its already-solid foundation, the new material, updates, ancillaries, and practical learning aids make this third edition the most complete and up-to-date text on the subject. Students using this text will learn what it takes to blend leadership, operations management, and creativity in promotions as they begin their journey to being top-notch

sport facility managers.

Each case study provides thought-provoking perspectives, authored by industry experts and scholars across sport business and academia. Students will gain real-world understanding of how governance varies across national and international levels by scrutinizing contemporary issues such as the NCAA college basketball corruption scandal, the NFL kneeling

policy, Olympic host city selection, and poaching in esports. Critical thinking skills are encouraged with multiple-choice and discussion questions provided at the end of each case study. Sports-Related Concussions in Youth National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on Sports-Related Concussions in Youth. 2014-02-04 In the past decade, few subjects at the intersection of medicine and sports have generated as much public interest as sports-related concussions - especially among youth. Despite growing awareness of sports-related concussions and campaigns to educate athletes, coaches, physicians, and parents of young athletes about concussion recognition and management, confusion and controversy persist in many areas. Currently, diagnosis is based primarily on the symptoms reported by the individual rather than on objective diagnostic markers, and there is little empirical evidence for the optimal degree and duration of physical rest needed to promote recovery or the best timing and approach for returning to full physical activity. Sports-Related Concussions in Youth: Improving the Science, Changing the Culture reviews the science of sports-related concussions in youth from elementary school through young adulthood, as well as in military personnel and their dependents. This report recommends actions that can be taken by a range of audiences - including research funding agencies, legislatures, state and school superintendents and athletic directors, military organizations, and equipment manufacturers, as well as youth who participate in sports and their

parents - to improve what is known about concussions and to reduce their occurrence. Sports-Related Concussions in Youth finds that while some studies provide useful information, much remains unknown about the extent of concussions in youth; how to diagnose, manage, and prevent concussions; and the short- and long-term consequences of concussions as well as repetitive head impacts that do not result in concussion symptoms. The culture of sports negatively influences athletes' self-reporting of concussion symptoms and their adherence to return-to-play guidance. Athletes, their teammates, and, in some cases, coaches and parents may not fully appreciate the health threats posed by concussions. Similarly, military recruits are immersed in a culture that includes devotion to duty and service before self, and the critical nature of concussions may often go unheeded. According to Sports-Related Concussions in Youth, if the youth sports community can adopt the belief that concussions are serious injuries and emphasize care for players with concussions until they are fully recovered, then the culture in which these athletes perform and compete will become much safer. Improving understanding of the extent, causes, effects, and prevention of sports-related concussions is vitally important for the health and well-being of youth athletes. The findings and recommendations in this report set a direction for research to reach this goal.

Gil's Sportsplex Gil Fried.2012 Gil Giles has a passion for softball and wanted to turn his passion into his second career. After retiring from the police force he decided to invest at least \$2.8 million (including borrowing \$1.7 million) in building a six field sportsplex. While he enjoys the thought of owning a sports facility, the reality of day to day management and paying the bills is another story. This case study examines the financial and strategic underpinning for building the facility. From analyzing potential revenue streams and expenses to the profit margin for concession goods, Gil will need to pinch every penny to make his facility financially viable.

Luckily he hired a manager to help run the facility, but if he had several rain-outs, or fails to attract the leagues he hopes for, his financial plans could be ruined. Is it ever safe to have a business model with such thin margins?

As sport and facility managers seek to broaden their building management capabilities, this text offers detailed guidance in improving the quality, coordination, and responsiveness of security protocols within their facilities. Security Management for Sports and Special Events offers an organized explanation of event security to support the planning, implementation, and communication of security and emergency plans to staff and game-day hires as well as the assessment of emergency preparation. Drawing on numerous examples from both in and out of sport, readers will consider the challenges, solutions, best practices, and prescriptions for coordinating the efforts of staff, law enforcement, and security personnel. Readers will find an array of tools that assist in understanding and implementing the material presented:

- Case studies at the end of each chapter and “Lessons Learned” sections that summarize and apply the information to a real-world scenario
- Chapter goals and application questions that provide a clear map for the chapter and promote critical thinking of the issues
- Sidebars throughout the text that provide examples of important current issues in sport and event security management
- Reproducible checklists, forms, and additional resources that help in designing and implementing plans
- More than 20 appendix items, including key guidelines, checklists, and needs assessments

Emphasizing interagency development and a team approach to sport event security management, Security Management for Sports and Special Events allows sport

and facility managers to lessen risk, control insurance costs, and uphold the integrity of their facilities through security management procedures. The text is developed according to the requirements of the Department of Homeland Security's National Incident Management System (NIMS) and serves as the manual for managers seeking to achieve the SESA Seal of Approval offered by the University of Southern Mississippi's National Center for Spectator Sports Safety and Security (NCS4). Developed by the authors and the only dedicated research facility for sport security management, NCS4 is on the cutting edge of researching and assessing game-day operations for security and crisis management. Security Management for Sports and Special Events is a practical resource for identifying and managing potential threats to fans' and players' safety.
