The Internet Literacy Handbook Betsy Burdick,Chris Coakley,Janice Patricia Richardson.2006-01-01 Over the past decade, Internet technology, now merging into that of mobile technology, has transformed the multiple facets of life in society across the world, changing work and leisure patterns, and placing greater demands on us as active, democratic citizens. The Internet literacy handbook, intended for parents, teachers and young people throughout Europe, is a guide to exploiting to the fullest this complex network of information and communication. The handbook is comprised of 21 fact sheets, each covering a particular topic on Internet use, from searching for information to setting up blogs through to e-shopping and e-citizenship. These fact sheets offer teachers and parents sufficient technical know-how to allow them to share young people's and children's voyages through communication technology. They highlight ethical and safety considerations, give insight into added value in education, provide ideas for constructive activities in class or at home, share best practice in Internet use, and provide a wealth of definitions and links to sites that give practical examples and further in-depth information.

Good Work Howard E Gardner,Mihaly Csikszentmihalhi,William Damon.2008-08-01 What does it mean to carry out good work? What strategies allow people to maintain moral and ethical standards at a time when market forces have unprecedented power and work life is being radically altered by technological innovation? These questions lie at the heart of this eagerly awaited new book. Focusing on genetics and journalism-two fields that generate and manipulate information and thus affect our lives in myriad ways-the authors show how in their quest to build meaningful careers successful professionals exhibit humane creativity, high-level performance coupled with social responsibility. Over the last five years the authors have interviewed over 100 people in each field who are engaged in cutting-edge work, probing their goals and visions, their obstacles and fears, and how they pass on their most cherished practices and values. They found sharp contrasts between the two fields. Until now, geneticists' values have not been seriously challenged by the demands of their work world, while journalists are deeply disillusioned by the conflict between commerce and ethics. The dilemmas these professionals face and the strategies they choose in their search for a moral compass offer valuable guidance on how all persons can transform their professions and their lives. Enlivened with stories of real people facing hard decisions, Good Work offers powerful insight into one of the most important issues of our time and, indeed, into the future course of science, technology, and communication.

Foundations for Young Adult Success Jenny Nagaoka,Camille A. Farrington,Stacy B. Ehrlich,Ryan D. Heath.2015-06-23 Amid growing recognition that strong academic skills alone are not enough for young people to become successful adults, this comprehensive report offers wide-ranging evidence to show what young people need to develop from preschool to young adulthood to succeed in college and career, have healthy relationships, be engaged citizens, and make wise choices. It concludes that rich experiences combining action and reflection help children develop a set of critical skills, attitudes, and behaviors. And it suggests that policies should aim to ensure that all children have consistent, supportive relationships and an abundance of these developmental experiences through activities inside and outside of school.

The Book of Mirrors E. O. Chirovici.2017-02-21 An elegant, page-turning thriller in the vein of *Night Film* and *Crooked Letter*, *Crooked Letter*, this tautly crafted novel is about stories: the ones we tell, the ones we keep hidden, and the ones that we'll do anything to ensure they stay buried. When literary agent Peter Katz receives a partial book submission entitled *The Book of Mirrors*, he is intrigued by its promise and original voice. The author, Richard Flynn, has written a memoir about his time as an English student at Princeton in the late 1980s, documenting his relationship with the protégée of the famous Professor Joseph Wieder. One night just before Christmas 1987, Wieder was brutally murdered in his home. The case was never solved. Now, twenty-five years later, Katz suspects that Richard Flynn is either using his book to confess to the murder, or to finally reveal who committed the violent crime. But the manuscript ends abruptly—and its author is dying in the hospital with the missing pages nowhere to be found. Hell-bent on getting to the bottom of the story, Katz hires investigative journalist John Keller to research the murder and reconstruct the events for a true crime version of the memoir. Keller tracks down several of the mysterious key players, including retired police detective Roy Freeman, one of the original investigators assigned to the murder case, but he has just been diagnosed with early-onset Alzheimer's. Inspired by John Keller's investigation, he decides to try and solve the case once and for all, before he starts losing control of his mind. A trip to the Potosi Correctional Centre in Missouri, several interviews, and some ingenious police work finally lead him to a truth that has been buried for over two decades...or has it? Stylishly plotted, elegantly written, and packed with thrilling suspense until the final page, *The Book of Mirrors* is a book within a book like you've never read before.

Rethinking Nationalism and Ethnicity Hans-Rudolf Wicker. 2020-12-17 While there has been a spate of books concerned with race and ethnicity in Europe more specifically, this timely volume offers a broader perspective and positions issues of identity, ethnicity, multiculturalism, xenophobia, regionalism and ethnonationalism within the wider contexts of trans- and supranationalism. With the weakening of welfare states and the homogenizing influences of globalization, nations within both Eastern and Western Europe are discovering that the battlefield of political action is

being redefined, and as a result emotional alliances threaten to bypass the democratic systems of the past. Offering fresh insights that are both empirically and theoretically informed, this book illuminates the processes and consequences of these new developments. In particular, it reviews Marx's, Durkheim's and Simmel's theories on nationalism and national identity, and presents case studies of Belgium, Italy's Northern League, right-wing intellectual production in Russia, and much more.

It aims to inform the policies needed to reach these children and finally deliver the promise of Education for All.
