*South-south Migration and Remittances* Dilip Ratha, William Shaw.2007 South-South Migration and Remittances reports on preliminary results from an ongoing effort to improve data on bilateral migration stocks. It sets out some working hypotheses on the determinants and socioeconomic implications of South-South migration. Contrary to popular perception that migration is mostly a South-North phenomenon, South-South migration is large. Available data from national censuses suggest that nearly half of the migrants from developing countries reside in other developing countries. Almost 80 percent of South-South migration takes place between countries with contiguous borders. Estimates of South-South remittances range from 9 to 30 percent of developing countries' remittance receipts in 2005. Although the impact of South-South migration on the income of migrants and natives is smaller than for South-North migration, small increases in income can have substantial welfare implications for the poor. The costs of South-South remittances are even higher than those of North-South remittances. These findings suggest that policymakers should pay attention to the complex challenges that developing countries face not only as countries of origin, but also as countries of destination.

**Nieder mit dem Krieg!** Hartwig von Schubert.2021-10-08 Jahrzehnte des Krieges in Afrika, auf dem Balkan, am Golf und im Nahen Osten, Krieg in der Ukraine, Krieg in Mexiko, Krieg in Afghanistan. Die USA haben sich weltweit zurückgezogen, das Vakuum füllen andere. Europa sollte sich dieser Realität stellen, um nicht immer wieder von ihr überrascht zu werden; dies aber nicht auf dem Weg zurück in die Machtspiele des 19. Jahrhunderts, sondern auf den Wegen des Völkerrechts und durch die Errichtung von und die Mitwirkung an Systemen gemeinsamer Sicherheit. Liegt aber nicht gerade das Völkerrecht am Boden? Wer glaubt noch an die UN-Charta? Christen glauben nicht an die Charta, sondern an Gott und die Macht der Nächstenliebe. Zu diesem Glauben aber gehört das Bekenntnis zu Menschenwürde und Menschenrecht und zur zivilisierenden Kraft des Völkerrechts. Die Gründe für dieses Bekenntnis werden in Hartwig von Schuberts zukunftsorientierter Ethik politischer Gewalt ausführlich erläutert. [Down with War. An Ethics of Political Force] Decades of war in Africa, the Balkans, the Gulf and the Middle East, war in Ukraine, war in Mexico, war in Afghanistan. The U.S. has withdrawn worldwide, and others are filling the vacuum. Europe should face up to this reality in order not to be surprised by it again and again; but this not on the way back to the power games of the 19th century, but on the way of international law and through the establishment of and participation in systems of common security. But isn't it precisely international law that is lying on the ground? Who still believes in the UN Charter? Christians do not believe in the Charter, but in God and the power of charity. But this faith includes a commitment to human dignity and human rights and to the civilizing power of international law. The reasons for this commitment are explained in detail in this Ethics of Political Force.

Society of Singularities Andreas Reckwitz.2020-04-21 Our contemporary societies place more and more emphasis on the singular and the unique. The industrial societies of the early 20th century produced standardized products, cities, subjects and organizations which tended to look the same, but in our late-modern societies, we value the exceptional - unique objects, experiences, places, individuals, events and communities which are beyond the ordinary and which claim a certain authenticity. Industrial society's logic of the general has been replaced by late modernity's logic of the particular. In this major new book, Andreas Reckwitz examines the causes, structures and consequences of the society of singularities in which we now live. The transformation from industrial to cultural capitalism, the rise of digital technologies and their 'culture machine' and the emergence of an educated, urban new middle class form a powerful engine for the singularization of the social. In late modernity, what is singular is valorized and stirs the emotions, while what is general has to remain in the background, and this has profound social consequences. The society of singularities systematically produces devaluation and inequality: winner-takes-all markets, job polarization, the neglect of rural regions and the alienation of the traditional middle class. The emergence of populism and the rise of aggressive forms of nationalism which emphasize the cultural authenticity of one's own people thus turn out to be the other side of singularization. This prize-winning book offers a new perspective on how modern societies have changed in recent decades and it will be of great value to anyone interested in the forces that are shaping our world today.

**Suffrage and Beyond** Caroline Daley, Melanie Nolan.1994-12 The 1980s and 1990s have seen an unprecedented emphasis on global feminism, on the connectedness of women regardless of race, class, or geography. And yet, the status and position of women throughout the world remains enormously disparate. Even so fundamental an issue as a woman's right to vote has been--and in many countries continues to be--hotly contested. How then have suffrage movements evolved? What are the similarities and differences in the manner in which women, in a range of different economic, religious, and political contexts, have sought the vote? Bringing together such eminent scholars as Nancy Cott, Ellen Dubois, and Carole Pateman, *Suffrage and Beyond* offers a comprehensive look at the political history of suffrage on a global scale.

**Die UN-Friedensmissionen** Martin Schweiger.2003-04-25 Inhaltsangabe:Zusammenfassung: Frühjahr 2003, eine internationale Koalition souveräner Staaten führt Krieg im Irak. Nach dem Ende der unmittelbaren Kampfhandlungen werden erhebliche Anforderungen an die globale Staatengemeinschaft zur Friedensschaffung (Peacemaking) Friedenssicherung (Peacekeeping) und Friedenskonsolidierung (Peacebuilding) im Land gestellt. Die Medien werden darüber ausgiebig berichten. Doch was geschah und geschieht in den afrikanischen Konfliktregionen? Nur wenig dringt über die internationalen Medien an die Weltöffentlichkeit. Die vorliegende Arbeit beschäftigt sich mit dem friedenspolitischen Engagement internationaler Akteure, insbesondere der Vereinten Nationen, in diesem Kontinent. Ziel der Arbeit ist es, unter Berücksichtigung des Völkerrechts, der Politikwissenschaft, der afrikanischen Landeskunde und Zeitgeschichte eine umfassende systematische Untersuchung der UN-Friedenssicherung in dieser Region. Die zentrale Frage ist dabei, unter welchen Voraussetzungen eine erfolgreiche Friedenssicherung zu einem nachhaltigen Frieden führen kann. Die Arbeit beschäftigt sich mit verschiedenen Problemkreisen der UN-Friedenssicherung aus afrikanischer Sicht. So werden die kollektiven Maßnahmen nach den Kapiteln VI und VII UN-Charta unter Berücksichtigung afrikanischer Besonderheiten untersucht. Die implizite rechtliche Grundlage von Peacekeeping in der UN-Charta wird mit der Darstellung der Kompetenzverteilung der UN-Haupt- und Nebenorgane verdeutlicht. Nach der wissenschaftlichen Typisierung der Formen der Friedenssicherung erfolgt eine komplexe und kritische Darstellung aller bisherigen und andauernden UN-Friedensmissionen in Afrika. Dabei werden, unter Berücksichtigung der politischen Hintergründe, einzelne Missionen (etwa Ruanda, Kongo, Mosambik, Angola,

Somalia, Sierra Leone) aufgrund aktueller Problematiken (Sanktionsmöglichkeiten der Vereinten Nationen, Humanitäre Intervention, Blockadehaltung im Sicherheitsrat, Uniting for Peace Resolution, Westliches Engagement in afrikanischen Konflikten, u.a.) besonders hervorgehoben. Die Arbeit kann und will keinen Anspruch auf Vollständigkeit erheben. Unvollständigkeiten können jedoch über die weiterführende Literatur (über 70 Literaturhinweise zu Monographien, Aufsatzsammlungen, Zeitschriften u.a.) sowie explizite Internethinweise kompensiert werden. Molly knows every way to kill herself, but she also knows that as long as she survives she'll be hunted. No matter how well she follows the rules, eventually the mollies will find her. **Effektive Sicherheit** Dominik A. Faust. 2013-03-08 Friedensbrecher wie das Taliban-Regime in Afghanistan und andere werden vom System kollektiver Sicherheit der Vereinten Nationen (VN) offenbar nicht abgeschreckt. Dominik A. Faust hat deshalb die Effektivität dieses Sicherheitssystems untersucht. Ausgehend vom Ergebnis, dass das System nicht wirksam ist, und dass die VN zu selten in bewaffnete Konflikte zum Zwecke der Friedenssicherung gewaltsam intervenieren, entwirft er ein effektiveres globales Sicherheitsmodell. Es sieht unter anderem Regionalausschüsse des Sicherheitsrates vor, die eng mit militärischen Organisationen kooperieren. Der Autor denkt in Alternativen, die in der Politikwissenschaft heute wenig gefragt sind. Das Buch besticht durch die Klarheit der Argumentation sowie durch gute Lesbarkeit und breite Materialbasis.

**Blueprint for Action** Thomas P.M. Barnett. 2006-10-03 The Pentagon's New Map was one of the most talked-about books of the year - a fundamental reexamination of war and peace in the post-9/11 world that provided a compelling vision of the future. Now, senior advisor and military analyst Thomas P.M. Barnett explores our possible long- and short-term relations with such nations and regions as Iran, Iraq, and the Middle East, China and North Korea, Latin America and Africa, while outlining the strategies to pursue, the entities to create, and the pitfalls to overcome. If his first book was a compelling framework for confronting twenty-first century problems (*Business Week*), Barnett's new book is something more - a powerful road map through a chaotic and uncertain world to a future worth creating.

**The Death of American Virtue** Ken Gormley. 2011-02-01 Ten years after one of the most polarizing political scandals in American history, author Ken Gormley offers an insightful, balanced, and revealing analysis of the events leading up to the impeachment trial of President William Jefferson Clinton. From Ken Starr's initial Whitewater investigation through the Paula Jones sexual harassment suit, to the Monica Lewinsky affair and Brett Kavanaugh's role in the subsequent inquiry, *The Death of American Virtue* is a gripping chronicle of an ever-escalating political feeding frenzy. In exclusive interviews, Bill Clinton, Ken Starr, Monica Lewinsky, Paula Jones, Susan McDougal, and many more key players offer candid reflections on that period. Drawing on never-before-released records and documents—including the Justice Department's internal investigation into Starr, new details concerning the death of Vince Foster, and evidence from lawyers on both sides—Gormley sheds new light on a dark and divisive chapter, the aftereffects of which are still being felt in today's political climate.

**World Population Prospects 2019 - Volume II: Demographic Profiles** Department of Economic and Social Affairs. 2020-03-11 The United Nations population estimates and projections form a comprehensive set of demographic data to assess population trends at the global, regional and national levels. The 2019 revision of the World Population Prospects is the twenty-sixth edition of the official United Nations population estimates and projections, which have been prepared since 1951 by the Population Division of the Department of Economic and Social Affairs. The 2019 revision presents population estimates from 1950 until the present for 235 countries or areas, which have been developed through country-specific analyses of historical demographic trends. It builds on previous revisions by incorporating additional results from the 2010 and 2020 rounds of national population censuses as well as information from vital registration and recent nationally representative household sample surveys. The 2019 revision also presents population projections to the year 2100 that reflect a range of plausible outcomes at the global, regional and country levels. This volume of the 2019 Revision presents the demographic profiles of the official United Nations population estimates and projections. The demographic profiles display key demographic indicators for selected periods or dates between 1950-2100, for the world, development groups, regions, subregions (50 aggregates) and 201 countries or areas with more than 90,000 inhabitants in 2019. In all tables and figures, values for 1950-2020 are estimates and those thereafter are projections (medium variant, and lower and upper 95 per cent prediction intervals for figures). For each country or area, the volume also provides a brief description of the data sources and demographic methods that were used to derive the base-year estimates of population and components of demographic change (fertility, child, adult and overall mortality, international migration).

**The Future** Al Gore. 2013-01-29 NEW YORK TIMES BESTSELLER From the former vice president and #1 New York Times bestselling author comes *An Inconvenient Truth* for everything—a frank and clear-eyed assessment of six critical drivers of global change in the decades to come. Ours is a time of revolutionary change that has no precedent in history. With the same passion he brought to the challenge of climate change, and with his decades of experience on the front lines of global policy, Al Gore surveys our planet's beclouded horizon and offers a sober, learned, and ultimately hopeful forecast in the visionary tradition of Alvin Toffler's *Future Shock* and John Naisbitt's *Megatrends*. In *The Future*, Gore identifies the emerging forces that are reshaping our world: • Ever-increasing economic globalization has led to the emergence of what he labels "Earth Inc."—an integrated holistic entity with a new and different relationship to capital, labor, consumer markets, and national governments than in the past. • The worldwide digital communications, Internet, and computer revolutions have led to the emergence of "the Global Mind," which links the thoughts and feelings of billions of people and connects intelligent machines, robots, ubiquitous sensors, and databases. • The

balance of global political, economic, and military power is shifting more profoundly than at any time in the last five hundred years—from a U.S.-centered system to one with multiple emerging centers of power, from nation-states to private actors, and from political systems to markets. • A deeply flawed economic compass is leading us to unsustainable growth in consumption, pollution flows, and depletion of the planet's strategic resources of topsoil, freshwater, and living species. • Genomic, biotechnology, neuroscience, and life sciences revolutions are radically transforming the fields of medicine, agriculture, and molecular science—and are putting control of evolution in human hands. • There has been a radical disruption of the relationship between human beings and the earth's ecosystems, along with the beginning of a revolutionary transformation of energy systems, agriculture, transportation, and construction worldwide. From his earliest days in public life, Al Gore has been warning us of the promise and peril of emergent truths—no matter how “inconvenient” they may seem to be. As absorbing as it is visionary, *The Future* is a map of the world to come, from a man who has looked ahead before and been proven all too right. Praise for *The Future* “Magisterial . . . The passion is unmistakable. So is the knowledge. Practically every page offers an illumination.”—Bloomberg “In *The Future* . . . Gore takes on a subject whose scale matches that of his achievements and ambition.”—The New York Times Book Review “Historically grounded . . . Gore's strengths lie in his passion for the subject and in his ability to take the long view by putting current events and trends in historical context.”—Publishers Weekly “Provocative, smart, densely argued . . . a tour de force of Big Picture thinking.”—Kirkus Reviews (starred review) “A luminously intelligent analysis that is packed with arresting ideas and facts.”—The Guardian

**Elections in Africa** Dieter Nohlen, Bernard Thibaut, Michael Krennerich. 1999-07-22 Elections have always been an integral part of post-independence African politics and have assumed utmost importance in the course of recent democratisation processes. However, comparative research on the political development in Africa lacks reliable electoral data. *Elections in Africa* fills this gap. The handbook is the only reliable source for African elections from independence to present. In the first volume of this series, *Elections in Africa* presents a country-by-country study of African nations that provides a comparative introduction on elections and electoral systems. Each country chapter examines the history of the institutional and electoral arrangements, the evolution of suffrage and current electoral provisions. Precise and exhaustive data on national elections and referendums are presented comparatively. The book provides a definitive and comprehensive set of data on elections and electoral systems in order to facilitate comparative research. Data is presented in a systematic manner allowing for both historical and cross-national comparisons.

Development Ethics Asuncion Lera St. Clair. 2017-05-15 The traditional definition of development ethics considers the 'ethical and value questions posed by development theory, planning and practice' (Goulet 1977: 5). The field parallels the traditional question of ethics 'How ought one to live as an individual?' by asking in addition 'How ought a society exist and move into the future?' This interdisciplinary field is well represented by a substantial collection of previously-published articles and papers. The volume illustrates a wide range of academic and practitioner writings on the theories and concepts of development ethics as well as ethical development policy and practice.

**Konflikte vermitteln?** Mathias Bös, Lars Schmitt, Kerstin Zimmer. 2015-05-28 Die Lehre der Friedens- und Konfliktforschung boomt! Wie Schnellrestaurants entstehen an vielen Universitätsstandorten Masterstudiengänge mit diesem Schwerpunkt. Ganz im Trend der Zeit suggeriert sie dabei zweierlei, einen spezifischen Problemfokus und auch eine gewisse Anwendungsorientierung. Das zehnjährige Jubiläum des Masterstudiengangs Friedens- und Konfliktforschung in Marburg scheint uns ein guter Anlass zu sein, Chancen und Probleme des Lehrens und Lernens in der Friedens- und Konfliktforschung in den Blick zu nehmen. In den Beiträgen des Bandes werden u.a. folgende Fragestellungen bearbeitet: Welche exemplarischen Erfahrungen liegen vor im Bereich der Curriculumentwicklung und -umsetzung? Wie werden Aspekte der Konfliktanalyse und -bearbeitung vermittelt? Welche Rolle spielen Facetten allgemeiner Hochschulentwicklung für die Ausgestaltung und Durchführung der Programme? Wie verhält es sich mit der Friedens- und Konfliktforschung in Regionen, die von dominanten Diskursen zur Peripherie marginalisiert worden sind? Welche Rolle spielt die Friedenserziehung?.

**Herzl** Steven Beller. 1991 Examines the role of antisemitism in the formation of Herzl's views. Debunking the myth that Herzl turned to Zionism because of the Dreyfus trial, shows that the Austrian rather than the French reality made him seek a solution for the Jewish problem. Being elitist and, to some extent, antisemitic in his heart, Herzl distinguished between acculturated, noble Jews and non-acculturated or money Jews and believed that Jews themselves were partially to blame for antisemitism. Thus he thought that before the Jews can be a nation, they must be reeducated and socially improved.

Health and Development David Phillips, Yola Verhasselt. 2002-09-11 *Health and Development* presents a broad and detailed description of the multifaceted aspects of health and development across the globe. People are living longer, their lifestyles are changing and so too are the diseases from which they suffer. Recession in the North and debt servicing in the South have reduced public expenditure on health and welfare. The links between regional, economic and environmental factors and the health of a population are becoming clearer. Does development mean a longer life of lower quality? Always alive to both the global and the local implications, the authors focus in particular on the critical issues surrounding environmental impact, the interaction of poverty and health, socio-cultural factors in HIV/AIDS transmission, the use of traditional and community health care resources and women's health.

**How Sentiment Matters in International Relations: China and the South China Sea Dispute** David Groten. 2019-07-29 Der Aufstieg der Volksrepublik China stellt die internationale Politik und Diplomatie vor immense Herausforderungen. Gleichzeitig nehmen die Spannungen zwischen den USA und der Volksrepublik unaufhörlich zu. Beide Staaten steuern unmittelbar auf einen Konflikt zu, den keine Seite intendiert und dessen allumfassende Konsequenzen noch kaum absehbar sind. Ein besonderer Schauplatz dieser wachsenden Auseinandersetzung ist die Region Südostasien, in der sowohl die USA, im Verbund mit einigen Anrainerstaaten, als auch die Volksrepublik China miteinander in einem harten Wettbewerb um die regionale Vorherrschaft stehen. Dieses Buch zeigt anhand der territorialen und maritimen Konflikte in der Südchinesischen See auf, dass Chinas zunehmend proaktive und rücksichtslosere Position gegenüber diesen Konflikten und den Konfliktparteien auch eine Folge der zunehmenden Wahrnehmung von Respektlosigkeit und dem damit einhergehenden Wunsch Chinas, dies entsprechend zu korrigieren, ist und nicht allein eine strategische Entscheidung oder gar unvermeidliche Entwicklung darstellt. Auf diesen Ergebnissen aufbauend wird die Möglichkeit eines nachhaltigen Konfliktmanagements diskutiert und entsprechend eine Reihe konkreter Handlungsempfehlungen formuliert.

Enlargement of the European Union Allan F. Tatham. 2009-01-26 The development of EU enlargement has raised many thorny issues unanticipated by the framers of the EC Treaty. A significant upshot of these issues is that the concept of European identity - defined in terms of such factors as culture, history and economics - has supplanted the long-dominant theme of 'widening and deepening,' particularly since the Union's expansion has become primarily eastward. The major contribution of this important book lies in its analysis of the conceptualization and perception of enlargement from various points of view, focusing on the concerns of stakeholders and the 'identity' conflicts and uncertainties incurred by enlargement initiatives. In the course of its presentation, it details the actual pre-accession Europeanization process and its complex history. Among

the key elements discussed are the following: the conflict between 'widening' and 'deepening' and the effect on EU institutional reform; institutional requirements on candidate countries; pre-accession criteria and negotiations; administrative capacity, judicial capacity, and legal approximation in accession states; capacity of the EU to absorb new Member States; and EC law as part of European identity. Also covered are specific historical details of particular pre-accession negotiations (e.g., Greece, Spain, Portugal, Malta, and Cyprus), the still inconclusive negotiations with Turkey and the Western Balkan states, and political factors involved in the non-accession of Norway, Iceland and Switzerland. Assembling powerful evidence and applying incisive analysis, the author's conclusion shows that, absent further (and major) EU institutional reform, it will be difficult for an enlarging Union to continue to 'deliver the goods.' A watershed in the continuing great debate on the fulfilment of the EC Treaty's determination to foster and promote 'an ever closer union of the peoples of Europe,' this book will prove invaluable to anybody interested in the European integration project, particularly lawyers, academics, officials and policymakers in the EU Member States.

**Earth Politics** Ernst Ulrich Weizsäcker.1994 This major work puts forward a comprehensive and visionary strategy for transforming industrial economies towards sustainability. It argues that a non-wasteful, non-destructive model of wealth creation requires environmental policies that are at once feasible and not seen as detrimental to standards of living. Practical remedial measures must be combined, the author argues, with price and taxation policies which reflect ecological realities. He envisages a coming 'century of the environment' founded on more responsible science and technology and new ways of valuing labour and economic achievement. The book has already had a significant impact on German environmental debates and policies and has been extensively revised to include an assessment of the 1992 Earth Summit and the follow-up actions needed.
