The Knight Who Said No Lucy Rowland.2020-07-02 Ned the knight ALWAYS does exactly what he's told. When his parents ask him to pick up his toys, dig up the cabbages or go to bed on time, he does it all with a smile. And when the dragon swoops into town every night, he always runs inside just as he's asked. But one morning, instead of saying,yes, he says, NO! He will NOT help his dad find his shield, his arrow or his bow, and he will certainly NOT let the butcher go past. That night, he refuses to go inside, and in doing so he confronts the dragon, making a very unlikely friend . . . A perfect picture book for toddlers just learning their first words, especially when they turns out to be - 'No!'.

Lexicography and Terminology Olga Karpova, Olga M. Karpova, Faina Kartashkova.2009-03-26 The present book contains a collection of works devoted to current trends in theoretical and practical lexicography, terminology and terminography. All papers are divided into two main sections. Part I: Lexicography deals with analysis of historical and typological problems in lexicography with special reference to English, Italian, Russian and Southern African dictionaries for general- and special- purposes. The main focus is given to the description of principles in lexicographic presentation of non-

equivalent lexics, rhyming slang, idioms, clichés and gender nominations of people in bilingual and monolingual dictionaries. Part II: Terminology and Terminography is devoted to description of the current tendencies observed in terminology and terminography studies with special reference to modern European languages such as English, Russian, Norwegian, etc. Terms of different special domains are viewed from the angle of the latest achievements of modern science, cognitive linguistics in particular. It reveals specific features of terminological word-combinations, terms in colloquial use, peculiarities of terms belonging to newly formed Languages for Special purposes, typical features of recently appeared LSPs and presentations of new dictionaries' projects of different subject areas. This part reveals international nature of current tendencies in terminology studies and shows the national ways of their functioning and presentation in special dictionaries.

Funny Frames Oliver C. Speck. 2010-06-03 Taking its cues from the cinematic innovations of the controversial Austrian-born director Michael Haneke, *Funny Frames* explores how a political thinking manifests itself in his work. The book is divided into two parts. In the first, Oliver C. Speck explores some of Haneke's Deleuzian traits - showing how the theoretical concepts of the virtual, of filmic space and of realism can be useful tools for unlocking the problems that Haneke formulates and solves through filmic means. In the second, Speck discusses a range of topics that appear in all of Haneke's films but that haven't, until now, been fully noticed or analyzed. These chapters demonstrate how Haneke plays the role of diagnostician of culture, how he reads - for example - madness, suicide and childhood. Like several other contemporary European directors, Haneke addresses topics considered difficult when measured by the standards of commercial cinema: the traumatic effects of violence, racism, and alienation. *Funny Frames* is an incisive and original contribution to the growing scholarship on one of the most intriguing auteurs

Poetics of Children's Literature Zohar Shavit.2009-11-01 Since its emergence in the seventeenth century as a distinctive cultural system, children's literature has had a culturally inferior status resulting from its existence in a netherworld between the literary system and the educational system. In addition to its official readership—children—it has to be approved of by adults. Writers for children, explains Zohar Shavit, are constrained to respond to these multiple systems of often mutually contradictory demands. Most writers do not try to bypass these constraints, but accept them as a framework for their work. In the most extreme cases an author may ignore one segment of the readership. If the adult reader is ignored, the writer risks rejection, as is the case of popular literature. If the writer utilizes the child as a pseudo addressee in order to appeal to an adult audience, the result can be what Shavit terms an ambivalent work. Shavit analyzes the conventions and the moral aims that have structured children's literature, from the fairy tales collected and reworked by Charles Perrault and the Brothers Grimm—in particular, “Little Red Riding Hood”—through the complex manipulations of Lewis Carroll in *Alice's Adventures in Wonderland*, to the subversion of

the genre's canonical requirements in the chapbooks of the eighteenth century, and in the formulaic Nancy Drew books of the twentieth century. Throughout her study Shavit, explores not only how society has shaped children's literature, but also how society has been reflected in the literary works it produces for its children.

Subjective Criticism David Bleich.2019-12-01 Originally published in 1981. The meaning and objectives of literature, argues David Bleich, are created by the reader, who depends on community consensus to validate his or her judgements. Bleich proposes that the study of English be consciously reoriented from a knowledge-finding to a knowledge-making enterprise. This involves a new explanation of language acquisition in childhood, a psychologically disciplined concept of linguistic and literary response, and a recognition of the intellectual authority of pedagogical communities to originate and establish knowledge. Amplifying his theoretical model with subjective responses drawn from his own classroom experience, Bleich suggests ways in which the study of language and literature can become more fully integrated with each person's responsibility for what he or she knows.

The Dynamics of Cultural Nationalism John

Hutchinson.2023-11-06 First published in 1987, The Dynamics of Cultural Nationalism demonstrates the nature and role of cultural nationalism as a separate movement in the creation of modern nations. This is done through an intensive study of the modern Irish movements, and in particular the Gaelic revival at the end of the nineteenth century, which makes clear the importance of cultural nationalism as a vision and politics in its own right. The author, by approaching his material as both historian and sociologist, is able to illuminate the Irish case of nationalism by

placing it in a broad, comparative perspective, showing how cultural nationalism has often provided those answers to the problems of nation building and the rediscovery of national identity that political nationalism failed to provide. This book will be of interest to all those in the social sciences and history who are concerned with problems of national identity, the uses of history and culture in the creation of modern nations, and the particular case of the development of nationalist movements in Ireland.
