Modern Culture Roger Scruton.2013-01-03 What do we mean by 'culture'? This word, purloined by journalists to denote every kind of collective habit, lies at the centre of contemporary debates about the past and future of society. In this thought-provoking book, Roger Scruton argues for the religious origin of culture in all its forms, and mounts a defence of the 'high culture' of our civilization against its radical and 'deconstructionist' critics. He offers a theory of pop culture, a panegyric to Baudelaire, a few reasons why Wagner is just as great as his critics fear him to be, and a raspberry to Cool Britannia. A must for all people who are fed up to their tightly clenched front teeth with Derrida, Foucault, Oasis and Richard Rogers.

On Human Nature Roger Scruton.2018-10-16 A brief, radical defense of human uniqueness from acclaimed philosopher Roger Scruton In this short book, acclaimed writer and philosopher Roger Scruton presents an original and radical defense of human uniqueness. Confronting the views of evolutionary psychologists, utilitarian moralists, and philosophical materialists such as Richard Dawkins and Daniel Dennett, Scruton argues that human beings cannot be understood simply as biological objects. We are not only human animals; we are also persons, in essential relation with other persons, and bound to them by obligations and rights. Scruton develops and defends his account of human nature by ranging widely across intellectual history, from Plato and Averroës to Darwin and Wittgenstein. The book begins with Kant's suggestion that we are distinguished by our ability to say "I"—by our sense of ourselves as the centers of self-conscious reflection. This fact is manifested in our emotions, interests, and relations. It is the foundation of the moral sense, as well as of the aesthetic and religious conceptions through which we shape the human world and endow it with meaning. And it lies outside the scope of modern materialist philosophy, even though it is a natural and not a supernatural fact. Ultimately, Scruton offers a new way of understanding how self-consciousness affects the question of how we should live. The result is a rich view of human nature that challenges some of today's most fashionable ideas about our species.

Narcoland Anabel Hernandez.2013-09-10 The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

The Count Of Monte Cristo (Complete) Alexandre Dumas.2013-01-25 This carefully crafted ebook: *The Count Of Monte Cristo (Complete)* is formatted for your eReader with a functional and detailed table of contents. *The Count of Monte Cristo* (French: *Le Comte de Monte-Cristo*) is an adventure novel by French author Alexandre Dumas (père). It is one of the author's most popular

works, along with *The Three Musketeers*. Dumas completed the work in 1844. The story takes place in France, Italy, islands in the Mediterranean, and in the Levant during the historical events of 1815-1838. It is an adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. The book is considered a literary classic today. According to Luc Sante, *The Count of Monte Cristo* has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood. This English translation was originally published in 1846 by Chapman and Hall, London.

Aprender a gobernar de los mejores Josep Capell Guiu. 2021-04-20 En un mundo digital y fragmentado, donde se ha impuesto la urgencia como una (falsa) virtud, se antoja insoslayable apagar nuestros smartphones y reflexionar. Aprender a gobernar de los mejores proporciona pistas para afrontar las cuestiones que surgen en el día a día a la hora de tomar decisiones. Todo, a través de la obra de treinta y uno de los pensadores más notables de la historia de la humanidad, en una lista que incluye a Aristóteles, Santo Tomás de Aquino, Nicolás Maquiavelo, Baltasar Gracián o Michael de Montaigne y a otros contemporáneos, pero ya clásicos (no por antiguos, sino por mundialmente reconocidos), como Javier Fernández Aguado, Byung Chul-Han, Peter Drucker, Luis Huete, Rodrigo Jordán, Nuria Chinchilla, José Aguilar o Michael E. Porter. Además de ofrecer una síntesis de su pensamiento, se recogen aportaciones sobre la naturaleza humana, la ética o la política, en un viaje intelectual de carácter holístico y práctico. Un manual para desenvolvernos en el mundo actual y que atiende a lo esencial, aquello que nunca cambia y que, como si de una clave secreta se tratara, es lo que caracteriza a los profesionales y a las organizaciones que alcanzan el éxito.

Sobre la naturaleza humana Roger Scruton. 2018-04-01 Scruton lleva a cabo una defensa radical de la singularidad humana. Frente a pensadores utilitaristas y materialistas como Richard Dawkins y Daniel Dennett, defiende que el ser humano no puede entenderse solo como un objeto biológico. No somos solo animales humanos, somos personas que se relacionan con otras personas, sujetos de derechos y deberes. Nuestro mundo es un mundo compartido, libre, y para comprenderlo necesitamos dirigirnos a otros seres libres, cara a cara, y también a nosotros mismos. Para desarrollar esa defensa del ser humano, Scruton acude a la historia del pensamiento, a Platón y Averroes, Darwin y Wittgenstein, al fundamento del sentido moral, a la estética y al sentido religioso.

Esta obra muestra que aún es posible amotinar a grupos sociales por medio de expresiones como la poesía y el cine para movilizar conciencias y motivar una acción serena pero firme. Ambas fuerzas convergen en esta publicación para hacer frente a un amargo paisaje trazado por una modernidad desbocada y caótica, con la finalidad de desatar nudos en nuestra coyuntura actual y de que sean reconocidas como expresiones ciudadanas ante la incertidumbre en nuestro entorno.

Anarchism in Latin America Ángel J. Cappelletti. 2018-02-13 The available material in English discussing Latin American anarchism tends to be fragmentary, country-specific, or focused on single

individuals. This new translation of Ángel Cappelletti's wide-ranging, country-by-country historical overview of anarchism's social and political achievements in fourteen Latin American nations is the first book-length regional history ever published in English. With a foreword by the translator. Ángel J. Cappelletti (1927–1995) was an Argentinian philosopher who taught at Simon Bolivar University in Venezuela. He is the author of over forty works primarily investigating philosophy and anarchism. Gabriel Palmer-Fernandez is Distinguished Professor of Philosophy and Religious Studies at Youngstown State University.

A Short History of Modern Philosophy Roger Scruton.2002-09-11 A Short History of Modern Philosophy is a lucid, challenging and up-to-date survey of the philosophers and philosophies from the founding father of modern philosophy, René Descartes, to the most important and famous philosopher of the twentieth century, Ludwig Wittgenstein. Roger Scruton has been widely praised for his success in making the history of modern philosophy cogent and intelligible to anyone wishing to understand this fascinating subject. In this new edition, he has responded to the explosion of interest in the history of philosophy by substantially rewriting the book, taking account of recent debates and scholarship.

Technics and Civilization Lewis Mumford.2010-10-30 *Technics and Civilization* first presented its compelling history of the machine and critical study of its effects on civilization in 1934—before television, the personal computer, and the Internet even appeared on our periphery. Drawing upon art, science, philosophy, and the history of culture, Lewis Mumford explained the origin of the machine age and traced its social results, asserting that the development of modern technology had its roots in the Middle Ages rather than the Industrial Revolution. Mumford sagely argued that it was the moral, economic, and political choices we made, not the machines that we used, that determined our then industrially driven economy. Equal parts powerful history and polemic criticism, *Technics and Civilization* was the first comprehensive attempt in English to portray the development of the machine age over the last thousand years—and to predict the pull the technological still holds over us today. “The questions posed in the first paragraph of *Technics and Civilization* still deserve our attention, nearly three quarters of a century after they were written.”—*Journal of Technology and Culture*

The Uses of Pessimism Roger Scruton.2010-10-04 Ranging widely over human history and culture, from ancient Greece to the current global economic downturn, Scruton makes a counterintuitive yet persuasive case that optimists and idealists -- with their ignorance about the truths of human nature and human society, and their naive hopes about what can be changed -- have wrought havoc for centuries. Scruton's argument is nuanced, however, and his preference for pessimism is not a dark view of human nature; rather his is a 'hopeful pessimism' which urges that instead of utopian efforts to reform human society or human nature, we focus on the only reform that we can truly master -- the improvement of ourselves through the cultivation of our better instincts. Written in Scruton's trademark style-- erudite, sweeping in scope across centuries and cultures, and unafraid to offend-- this book is sure to intrigue and provoke readers concerned with the state of Western culture, the nature of human beings, and the question of whether social progress is truly possible.

Good Omens Neil Gaiman,Terry Pratchett.2011-06-28 The classic collaboration from the internationally bestselling authors Neil Gaiman and Terry Pratchett, soon to be an original series starring Michael Sheen and David Tennant. ?Season 2 of *Good Omens* coming soon! “*Good Omens* . . . is something like what would have happened if Thomas Pynchon, Tom Robbins and Don DeLillo had collaborated. Lots of literary inventiveness in the plotting and chunks of very good writing and characterization. It’s a wow. It would make one hell of a movie. Or a heavenly one. Take your pick.” —*Washington Post* According to *The Nice and Accurate Prophecies of Agnes Nutter, Witch* (the world's only completely accurate book of prophecies, written in 1655, before she exploded), the world will end on a Saturday. Next Saturday, in fact. Just before dinner. So the armies of Good and Evil are amassing, Atlantis is rising, frogs are falling, tempers are flaring. Everything appears to be going according to Divine Plan. Except a somewhat fussy angel and a fast-living demon—both of

whom have lived amongst Earth's mortals since The Beginning and have grown rather fond of the lifestyle—are not actually looking forward to the coming Rapture. And someone seems to have misplaced the Antichrist . . .

Todos sabemos, pero a menudo se nos olvida que la actitud filosófica y el espíritu crítico son requisitos perennes para el futuro, por muy imprevisible que sea. Las reflexiones recogidas en este libro reflejan la experiencia de un profesor de filosofía de instituto, pero parten de las lecciones de una gran maestra: la naturaleza. Perfiles filosóficos. Hombre, Sociedad y Derecho en el pensamiento contemporáneo José Ma Carabante Muntada.2022-02-21 En la actualidad se producen cambios vertiginosos y el derecho no se encuentra inmune a ellos. Desde este punto de vista, es importante conocer lo que pensadores de referencia en la actualidad han dicho sobre las últimas transformaciones. Este ensayo repasa las contribuciones de filósofos tan relevantes como E. Voegelin, R. Girard, J.Habermas, R. Brague o B-Ch. Han, mostrando su reflexión sobre el hombre y cómo ello repercute en la comprensión del derecho y otras instituciones humanas. La obra aporta una visión original, ya que busca reconstruir la filosofía del derecho partiendo de una nueva formulación de sus fundamentos últimos y revelando la conexión entre la filosofía jurídica, la antropología y la metafísica.

A History of Warfare John Keegan.2012-09-19 The acclaimed author and preeminent military historian John Keegan examines centuries of human conflict. From primitive man in the bronze age to the end of the cold war in the twentieth century, Keegan shows how armed conflict has been a primary preoccupation throughout the history of civilization and how deeply rooted its practice has become in our cultures. Keegan is at once the most readable and the most original of living military historians . . . A History of Warfare is perhaps the most remarkable study of warfare that has yet been written.--The New York Times Book Review.

Journey to the Center of the Earth Jules Verne.2021-01-26 As one of the many installments in Jules Verne's Voyage Extraordinaire series, Journey to the Center of the Earth promises high stakes and thrilling adventure. When Professor Otto Lidenbrock bought an ancient runic manuscript, which chronicles the lives of Norwegian Kings, he did not expect to learn of anything but the history of Icelandic leaders. However, upon further inspection, Lidenbrock and his nephew, Axel, find that the manuscript includes a coded message written by a 16th century alchemist. After rigorous translating and decoding, Axel and Lidenbrock discover the content of the note, in which the author reveals that it is possible to travel to the center of the Earth through volcanic passages. When Lidenbrock heard the news, he immediately started preparations to start the journey, though Axel was skeptical. When Lidenbrock's will proves to be more powerful than his nephew's doubt, the two decide to make the journey, recruiting an Icelandic tour guide named Hans on the way. As the three men make their way to inactive volcanic tubes, they embark on a high-stake adventure, facing dangers of cave-ins, subpolar tornados, an underground ocean and prehistoric creatures. The three men stay strong in

their adventure, knowing the risky journey promises superior knowledge and acclaim, granted that they make it out alive. With the combination of science fiction and the adventure genre, Jules Verne created a novel that captures the attention of his audience. Originally published in 1864, *Journey to the Center of the Earth* still provides modern readers with entertainment and insight with its detailed and imaginative prose. *Journey to the Center of the Earth* can be read independently or as a companion to the other titles of Jules Verne's critically acclaimed series, *Voyage Extraordinaire*. This edition of *Journey to the Center of the Earth* by Jules Verne now features an eye-catching cover design and is printed in a stylish and readable font, crafting an assessible and pleasant reading experience for modern audiences.

The Soul of the World Roger Scruton.2016-03-22 In *The Soul of the World*, renowned philosopher Roger Scruton defends the experience of the sacred against today's fashionable forms of atheism. He argues that our personal relationships, moral intuitions, and aesthetic judgments hint at a transcendent dimension that cannot be understood through the lens of science alone.--Jacket.

Vivir como si Dios existiera Joseph Ratzinger (Benedicto XVI).2023-02-22 «Este libro reúne textos de Joseph Ratzinger/Benedicto XVI en torno a un hilo conductor: su gran apuesta —a los creyentes y a los no creyentes— de vivir y organizar nuestra convivencia 'como si Dios existiera'. Nuestro autor está convencido de que nuestro mundo —y Europa en particular— sería mucho más razonable, justo y humano si partiéramos de esa hipótesis, en vez de partir de la presunción contraria: la de que sería mejor vivir 'como si Dios no existiera', por respeto a la autonomía de cada uno y al pluralismo. El propósito de este libro no es otro que hacer pensar, tomando en serio lo que aporta el anuncio cristiano y su riquísima tradición intelectual. En concreto, se trata de hacer pensar sobre el fundamento y el futuro de la cultura europea. Los destinatarios del libro no son por tanto solo los creyentes, sino cualquier persona que se haga preguntas sobre el sentido de la existencia y los fundamentos de la vida común en paz, libertad y justicia; o que tenga interés por la visión cristiana que inspira la cultura europea o sienta curiosidad por conocerla mejor; o simplemente que valore la finura y erudición de uno de los intelectuales más importantes del último siglo. Quienes sí se consideran cristianos, aprenderán en estas páginas de Joseph Ratzinger a afrontar los grandes interrogantes de nuestra época con rigor, honestidad y lucidez». —Ricardo Calleja

Green Philosophy Roger Scruton.2014-05-01 The environment has long been the undisputed territory of the political Left, which has seen the principal threats to the earth as issuing from international capitalism, consumerism and the over-exploitation of natural resources. In *Green Philosophy*, Scruton argues that conservatism is far better suited to tackle environmental problems than either liberalism or socialism. He shows that rather than entrusting the environment to unwieldy NGOs and international committees, we must assume personal responsibility and foster local sovereignty. People must be empowered to take charge of their environment, to care for it as a home, and to affirm themselves through the kind of local associations that have been the traditional goal of conservative politics. Our common future is by no means assured, but as Roger Scruton clearly demonstrates in this important book, there is a path that we can take which could ensure the future safety of our planet and our species.

Ulysses James Joyce.2023-12-29 *Ulysses* is a novel by the Irish writer James Joyce. It is considered to be one of the most important works of Modernist literature, it has been called a demonstration and summation of the entire movement. Before Joyce, no writer of fiction had so foregrounded the process of thinking. However, even proponents of *Ulysses* such as Anthony Burgess have described the book as inimitable, and also possibly mad. There have been at least 18 different *Ulysses* editions (Joyce's handwritten manuscripts were typed by a number of amateur typists). This eBook is a faithful reproduction of the the notable first book edition published in Paris on 2 February 1922 by Sylvia Beach at Shakespeare and Company (only 1000 copies were printed). James Augustine Aloysius Joyce (2 February 1882 - 13 January 1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for *Ulysses* (1922), a landmark work in which the episodes of Homer's *Odyssey* are paralleled in an array of contrasting literary styles, perhaps most prominent among these the stream of consciousness technique he perfected. Other major works are the short-story collection *Dubliners* (1914), and the novels *A Portrait of the Artist as a Young Man* (1916) and *Finnegans Wake* (1939). His complete oeuvre also includes three books of poetry, a play, occasional journalism, and his published letters.
