Maximus I. von Turin Andreas Merkt.2015-12-22 This volume deals with the sermons of St. Maximus I, Bishop of Turin about AD 305-420. It presents an exemplary study which, besides clarifying problems of dating and authorship, points out the importance of context for an appropriate interpretation of sermon literature. The sermons are thus placed in the contexts of contemporary history, of society and of liturgy. The liturgical contextualisation forms the core of the book. The author

reconstructs the liturgical year of late-Antique Turin and takes it as the basis of a detailed diachronic analysis of the bishop's preaching from advent to pentecost. Additionally, the Feasts of the Saints are seen in their kerygmatic function. In a concluding chapter the author tackles such problems as the exegetical nature of preaching and the importance of the Bible.

Neoplatonism and Christian Thought Dominic J.

O'Meara.1981-06-30 In this volume, the relationships between two of the most vital currents in Western thought are examined by a group of nineteen internationally known specialists in a variety of disciplines—classics, patristics, philosophy, theology, history of ideas, and literature. The contributing scholars discuss Neoplatonic theories about God, creation, man, and salvation, in relation to the ways in which they were adopted, adapted, or rejected by major Christian thinkers of five periods: Patristic, Later Greek and Byzantine, Medieval, Renaissance, and Modern. Contributors include G.-H. Allard, A. Hilary Armstrong, Elizabeth Bieman, Linos Benakis, Henry Blumenthal, Mary T. Clark, Norris Clarke, John Dillon, Cornelio Fabro, John N. Findlay, Maurice de

Gli uomini illustri ; Vita di Giulio Cesare Francesco Petrarca.2007

New Apelleses and New Apollos Diletta Gamberini.2022-01-19

This book breaks new ground by illuminating the key role of verse-writing as a cultural strategy on the part of Italian Renaissance artists. It does so by undertaking a wide-ranging study of poems by painters, sculptors, architects, and goldsmiths who were active in Florence under Cosimo I and Francesco I de' Medici - a milieu in which many practitioners of the visual arts appropriated the literary medium to address issues related to their primary professions. *New Apelleses*, and *New Apollos* intervenes in the burgeoning scholarly discourse on the intellectual life of artists in early modern Italy, revealing how poetry often provides fresh insights into art-theoretical debates,

all'epidemia di colera che uccise il suo grande nemico Hegel, riceve finalmente il successo che merita. Questo piccolo grande libro è uno dei tanti tesori contenuti nell'opera che lo rese famoso. Un libro di saggezza, che smaschera i nostri vizi più comuni: il lusso, l'ostentazione, la mondanità, il conformismo, la moda, e ci invita a coltivare la nostra personalità, la nostra formazione interiore come il bene principale dell'esistenza. Grande osservatore delle umane manie e avvincente narratore delle comuni vanità, Schopenhauer ci regala anche una brillante collezione di consigli e massime per cercare in noi stessi la fonte più autentica della felicità (Aonia edizioni).

Catalogo Dei Libri Italiani ... New York Public Library.1912

Gli uomini illustri Girolamo.2016-01-11T00:00:00+01:00 «Tu mi esorti affinché io esponga in ordine cronologico gli autori cristiani, tutti gli autori che dalla morte di Cristo fino al quattordicesimo anno dell'imperatore Teodosio hanno lasciato qualche opera notevole sulla Santa Scrittura.» Così Girolamo, nel prologo della sua opera più celebre, descrive le biografie da lui dedicate a Uomini Illustri, scritte verso la fine del 392 su proposta del prefetto del pretorio Destro. Nasce così una raccolta composta da 135 capitoli, dedicati ad altrettanti auctores, a partire dall'apostolo Pietro fino allo stesso Girolamo, modellata sul *De viris illustribus* di Svetonio e sul *Brutus* di Cicerone. Il libro riscosse nei secoli medievali grande successo, tanto che lo stesso Agostino non mancò di sottolinearne la grande utilità. Un'opera che, prima nel suo genere, costituisce una fonte fondamentale di documentazione per la storia della letteratura cristiana antica.
