**La forma dell'assenza** Martha Kleinhan, Julia Görtz, Maria Chiara Levorato.2021-06-16 Im Liebesbrief gibt die Frau - mit Roland Barthes gesprochen - der Abwesenheit des geliebten Gegenübers Gestalt. Um Begriffe wie Liebe, Absenz und weibliches Begehren kreisen die meisten der in diesem Sammelband analysierten italienischen Briefe von Frauen aus dem 14. Jahrhundert bis in die Gegenwart. Ziel ist es, anhand transdisziplinärer Methoden die Relevanz dieser zwischen Pragmatik und Literarizität oszillierenden Texte aufzuzeigen und die gestalterische, formgebende Spezifität weiblicher Briefkunst auszuloten. Im Zentrum stehen originelle Facetten der Amor-Inszenierung und Affektmodellierung, denen sich ein Ausblick auf aktuelle Tendenzen und didaktische Perspektiven auf das Medium Brief anschließt. La scelta di lettere di donne, dal quattordicesimo secolo ad oggi, presentata in questo volume, ruota intorno ai concetti di amore, assenza e desiderio. Le analisi sviluppate mirano - attraverso approcci transdisciplinari - a mostrare l'importanza di questi testi che oscillano fra pragmatica e letterarietà e ad indagare i tratti specifici con cui l'epistolografia femminile in volgare raffigura e conferisce una forma. Nella lettera d'amore, infatti, per dirla con Barthes, la donna conferisce una forma all'assenza dell'amato. Le sfaccettature originali della messa in scena dell'amore e delle rappresentazioni dell'affetto costituiscono il fulcro argomentativo di questo volume che si conclude con uno sguardo sulle prospettive attuali e sulle opportunità di utilizzare la lettera come strumento didattico in una lezione di lingua italiana.

*Psychoanalytic Perspectives on Puberty and Adolescence* Gertraud Diem-Wille.2020-12-31 Puberty is a time of tumultuous transition from childhood to adulthood activated by rapid physical changes, hormonal development and explosive activity of neurons. This book explores puberty through the parent-teenager relationship, as a normal state of crisis, lasting several years and with the teenager oscillating between childlike tendencies and their desire to become an adult. The more parents succeed in recognizing and experiencing these new challenges as an integral, ineluctable emotional transformative process, the more they can allow their children to become independent. In addition, parents who can also see this crisis as a chance for their own further development will be ultimately enriched by this painful process. They can face up to their own aging as they take leave of youth with its myriad possibilities, accepting and working through a newfound rivalry with their sexually mature children, thus experiencing a process of maturity, which in turn can set an example for their children. This book is based on rich clinical observations from international settings, unique within the field, and there is an emphasis placed by the author on the role of the body in self-awareness, identity crises and gender construction. It will be of great interest to psychoanalysts, psychotherapists, parents and carers, as well as all those interacting with adolescents in self, family and society.

**Complex Surveys** Thomas Lumley.2011-09-20 A complete guide to carrying out complex survey analysis using R As survey analysis continues to serve as a core component of sociological research, researchers are increasingly relying upon data gathered from complex surveys to carry out traditional analyses. Complex Surveys is a practical guide to the analysis of this kind of data using R, the freely available and downloadable statistical programming language. As creator of the specific survey package for R, the author provides the ultimate presentation of how to successfully use the software for analyzing data from complex surveys while also utilizing the most current data from health and social sciences studies to demonstrate the application of survey research methods in these fields. The book begins with coverage of basic tools and topics within survey analysis such as simple and stratified sampling, cluster sampling, linear regression, and categorical data regression. Subsequent chapters delve into more technical aspects of complex survey analysis, including post-stratification, two-phase sampling, missing data, and causal inference. Throughout the book, an emphasis is placed on graphics, regression modeling, and two-phase designs. In addition, the author supplies a unique discussion of epidemiological two-phase designs as well as probability-weighting for causal inference. All of the book's examples and figures are generated using R, and a related Web site provides the R code that allows readers to reproduce the presented content. Each chapter concludes with exercises that vary in level of complexity, and detailed appendices outline additional mathematical and computational descriptions to assist readers with comparing results from various software systems. Complex Surveys is an excellent book for courses on sampling and complex surveys at the upper-undergraduate and graduate levels. It is also a practical reference guide for applied statisticians and practitioners in the social and health sciences who use statistics in their everyday work.

**Finding Our Tongues** Dean Falk.2010-10 Scientists have long theorized that abstract, symbolic thinking evolved to help humans negotiate such classically male activities as hunting, tool making, and warfare, and eventually developed into spoken language. In Finding Our Tongues, Dean Falk overturns this established idea, offering a daring new theory that springs from a simple observation: parents all over the world, in all cultures, talk to infants by using baby talk or "Motherese." Falk shows how Motherese developed as a way of reassuring babies when mothers had to put them down in order to do work. The melodic vocalizations of early Motherese not only provided the basis of

language but also contributed to the growth of music and art. Combining cutting-edge neuroscience with classic anthropology, Falk offers a potent challenge to conventional wisdom about the emergence of human language.

**Almost Autumn** Marianne Kaurin.2017-01-03 An international award-winning novel of World War II, the Holocaust, and first love, set in the snowy streets of Oslo. It's October 1942, in Oslo, Norway. Fifteen-year-old Ilse Stern is waiting to meet boy-next-door Hermann Rod for their first date. She was beginning to think he'd never ask her; she's had a crush on him for as long as she can remember. But Hermann won't be able to make it tonight. What Ilse doesn't know is that Hermann is secretly working in the Resistance, helping Norwegian Jews flee the country to escape the Nazis. The work is exhausting and unpredictable, full of late nights and code words and lies to Hermann's parents, to his boss... to Ilse. And as life under German occupation becomes even more difficult, particularly for Jewish families like the Sterns, the choices made become more important by the hour: To speak up or to look away? To stay or to flee? To act now or wait one more day? In this internationally acclaimed debut, Marianne Kaurin recreates the atmosphere of secrecy and uncertainty in World War II Norway in a moving story of sorrow, chance, and first love.

**Homo Faber** Max Frisch. Max Frisch este un observator neutru al unor fapte care abundă în emoție, dar pe care alege să le trateze rațional, așa cum ar întocmi un raport. Ridică astfel o întrebare la care nu își propune să dea un răspuns, ci mai degrabă îi oferă cititorului toate informațiile cu care să își poată formula singur răspunsul - este viața doar rațiune, logică și ordine sau pot emoțiile, coincidențele și chiar destinul să ne ghideze drumul zi de zi? Homo faber nu pune în lumină antiteze precum rațiune versus credință sau emoție versus logică, ci mai degrabă observă viața, de la o distanță suficient de mare, încât să nu spună mai mult decât trebuie spus și să nu descopere mai mult decât trebuie descoperit.

Language Hacking German Benny Lewis.2017-11-14 It's true that some people spend years studying German before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of German, #LanguageHacking shows you how to learn and speak German through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only other people can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in German from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

The contributors are Kirsty Anantharajah, Jennifer deBie, Nina Foushee, Robbie Gamble, Akuol Garang, Sharif Gemie, Steven Jakobi, Enesa Mahmic, Loretta Oleck, Virginia Ryan, Judith Skillman, and Mitchell Toews. Yoga Emmanuel Carrère.2022-08-02 Named a Best Book of 2022 by The Guardian This is a book about yoga. Or at least, it was. Emmanuel Carrère is a renowned writer. After decades of emotional upheaval, he has begun to live successfully—he is healthy; he works; he loves. He practices meditation, striving to observe the world without evaluating it. In this state of heightened awareness, he sets out for a ten-day silent retreat in the French heartland, leaving his phone, his books, and his daily life behind. But he's also gathering material for his next book, which he thinks will be a pleasant, useful introduction to yoga. Four days later, there's a tap on the window: something has happened. Forced to leave the retreat early, he returns to a Paris in crisis. Life is derailed. His city is in turmoil. His work-in-progress falters. His marriage begins to unravel, as does his entanglement with another woman. He wavers between opposites—between self-destruction and self-control; sanity and madness; elation and despair. The story he has told about himself falls away. And still, he continues to live. This is a book about one man's desire to get better, and to be better. It is laced with doubt, animated by the dangerous interplay between what is fiction and what is real. Loving, humorous, harrowing and profound, *Yoga* hurls us towards the outer edges of consciousness, where, finally, we can see things as they really are.

An interdisciplinary study, it focuses on socio-political and historical aspects of Islamophobia in Muslim majority societies. This volume will appeal to students, scholars and general readers who are interested in Racism Studies, Islamophobia Studies, the Middle East and North Africa (MENA) region, Islam and Politics.
