The Government's motorcycling strategy Great Britain: Parliament: House of Commons: Transport Committee.2007-03-29 The Government's Motorcycling Strategy was published in February 2005, with the aim of facilitating motorcycling as a choice of travel within a safe and sustainable transport framework. It had a strong focus on safety including provision on the highway, including road design and maintenance; encouraging safer bike design; promoting correct helmet fitting; and improving rider training. This inquiry looks at the progress in implementing the strategy. In addition it also considers changes to motorcycle licensing arrangements and action that might be taken to reduce the risk posed by mini-motos and go-peds.

The new European motorcycle test Great Britain: Parliament: House of Commons: Transport Committee.2010-03-23 In April 2009 a new testing regime, based on the Second EU Driving Licence Directive, was introduced. Deadlines for implementation had not been met and when the new test was finally introduced, it was met with intense criticism and safety concerns. The number of tests taken dropped dramatically in the first few months and the industry suggested that the new test regime would threaten many small businesses and jobs. The Committee was concerned to not only establish whether the test had gone wrong and how problems could be rectified but also to ensure lessons are learned before the implementation of the Third EU Driving Licence Directive. They concluded that they could not see why the Government failed to obtain derogation from certain speed requirements and that though many elements of the new regime were appropriate it was important to take into account the concerns expressed and consider what adjustments might be required. They also believe that training and instruction for the motorcycle test needs to develop and change to reflect the new test requirements. The off-road module of the test also needs to be amended to allow candidates to adapt their riding to reflect prevailing weather, road and other circumstances. The development of better awareness of motorcyclists among other road users is also crucial and should not be neglected. Though the Government exceeded what was necessary to comply with the EU directive the Committee believes they were right to do so. It is the development of Multi Purpose Test Sites for which justification was weak and implementation inept which represents the least effective element.

Riding in the Zone Ken Condon.2019-10-15 Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is the Zone. Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

Motorcycle Permit Test How to Pass on Your First Try! Paul M. Redman.2016-12-01 The Motorcycle Permit Test How to Pass on Your First Try! Updated for the 2017 test! Over 170 practice test questions! A must-have for anyone who would like to pass on their first try. We show you what

to study and how to beat the test. The thought of getting your Motorcycle license can be a little bit intimidating, but with a few simple guidelines and test taking strategies, you'll be well on the road to success. Did you know that 70 percent of first-time test takers fail the permit test? Our practice tests have over 170 test questions and are an excellent way to prepare you for the actual written test. Each of the 4 tests contain questions that are very similar to the actual test questions. By preparing, using these supplemental practice questions, as opposed to reading and rereading the DMV handbook which is very time consuming and can be a waste of time, you will learn basic driving skills, road sign and traffic signal meanings, when to pull over for emergency vehicles, speed limits in various zones, how to handle accidents, and much more. You will also learn how to answer the trick questions which appear time and time again on the test! Also included in the book are valuable test taking strategies, safe driving tips, and safe driver checklists. Passing the first time will save you money, time, and the stress of having to study again. It will also give you confidence and prepare you for the road driving test. With a little preparation and concentration, you can master the rules of the road and navigate your license test with confidence.

Highways Agency Great Britain: Parliament: House of Commons: Transport Committee.2006-07-27
The Driver and Vehicle Operator (DVO) Group is part of the Department for Transport and is made up of four agencies: the Driving Standards Agency, the Driver and Vehicle Licensing Agency (DVLA), the Vehicle Certification Agency (VCA) and the Vehicle and Operator Services Agency (VOSA). It was established in 2003 to promote closer collaboration between the agencies and to develop modernised co-ordinated services in order to deliver improved customer services and value for money. The Highways Agency is an executive agency of the Department for Transport and is responsible for operating, maintaining and improving the strategic road network in England. Issues considered in the Committee's report include how the agencies contribute to departmental objectives and policy, issues of accountability and transparency, agency funding and accounts, shared systems and co-ordination.
